## SHEXADDOAH [NIITRRSTIT

## UNDERGRADUATE CATALOG 2009-I0

YES, YOU CAN.

## Mission

Shenandoah University educates and inspires individuals to be critical, reflective thinkers; lifelong learners; and ethical, compassionate citizens who are committed to making responsible contributions within a community, a nation and the world.

## Core Values

Development of an enduring passion for learning
Commitment to self-reflection and personal development
Respect for diverse cultures, experiences and perspectives
Celebration of creative performance, expression, teaching and discovery
Cultivation of leadership to advance positive change and growth
Dedication to citizenship, professional service and global outreach

## Foundation

Shenandoah University distinguishes itself by providing opportunities to gain knowledge and develop skills in a collaborative, personalized environment that intertwines professional and liberal learning. A Shenandoah education incorporates scholarship, experiential learning and sophisticated technologies, as well as practical wisdom.

As an institution affiliated with the United Methodist Church, Shenandoah University practices the highest ethical standards in its interactions with the community and with students of all faiths. Within a community of scholars, Shenandoah promotes the welfare of the whole person by fostering a nurturing environment in which students learn, grow and flourish.

## GENERAL INFORMATION

Shenandoah is a private, coeducational school offering both a broad liberal arts program and an emphasis on career preparation. Six schools - The Bernard J. Dunn School of Pharmacy, College of Arts \& Sciences, Harry F. Byrd, Jr. School of Business, School of Education \& Human Development, School of Health Professions (Divisions of Athletic Training, Nursing, Occupational Therapy, Physical Therapy, Physician Assistant Studies and Respiratory Care) and Shenandoah Conservatory - to award baccalaureate, master and doctoral degrees.

## Northern Virginia Campus

44I60 Scholar Plaza, Leesburg, VA
(57I) 223-0238, www.su.edu/nvcampus
For almost two decades, Shenandoah University has operated a campus in Northern Virginia. The current site in Leesburg specializes in graduate study in four key areas: business, teacher and school administration education, technology and nursing. The Northern Virginia Campus also offers opportunities for those without bachelor's degrees to complete their degrees, along with continuing adult and professional education.

## Accreditation

Shenandoah University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679-4500 for questions about the accreditation of Shenandoah University.

## Federal Law Compliance Annual Disclosure

In compliance with federal law, Shenandoah University makes annual disclosure of the following:
I. Campus Security Report. This report is available on the Shenandoah University Web site and the Department of Public Safety Web site, in the annual Student Handbook, and in the Human Resources and Admissions offices.
2. Financial Assistance. This information includes, but not limited to, a description of all federal, state, local, private and institutional student financial assistance programs. The information is available in both of the university's catalogs and in the Financial Aid Office.
3. Institutional Information. The reports and information include, but are not limited to, cost of attendance (tuition and fees, estimates of costs for books and supplies, estimates of charges for room and board, estimates of transportation costs and any additional program costs); refund policy; requirements or procedures for officially withdrawing from the university; summary of regulations for the return of Title IV grant or loan assistance; the institution's academic programs, names of associations, agencies, or governmental bodies that accredit, approve, or license the institution and its programs; description of any special facilities and services available to disabled students, names, titles and contact information for designated persons; a statement regarding student enrollment in study abroad programs; and location of documents describing the institutions accreditation, approval or licensing. Reports and information are available in the Business Office, Financial Aid Office, Human Resources Office, Academic Affairs Office, Registrar's Office and the Academic Enrichment Center.
5. Completion and Graduation Rates. This information is available in the Academic Enrichment Center.
6. Athletic Program Participation and Financial Support Data. This report/information is available in the Office of Athletics and the Academic Enrichment Center.

## ADMISSIONS

Students are selected by the Office of Admissions on the basis of their ability, interests and academic preparation as indicated by their applications, school records and test results. Since applicants are considered on their own merit, Shenandoah University invites them to supply all evidence to indicate their competence and eagerness to deal with a demanding and exciting Shenandoah program of study.

Admission to Shenandoah University is competitive. The number of new students admitted each year is limited by the available residence hall and classroom space, instructional personnel and budgetary resources. The dean of admissions is authorized to accept applicants who meet the published admission requirements after examining their admissions file in accordance with policies approved by the institution. Shenandoah University admits those applicants who seem to be best qualified to benefit from the educational opportunities offered by the institution.

Shenandoah University's application process offers two options. The Undergraduate Application for Admission is for degree-seeking students and requires a $\$ 30$ application fee. The Special Student Application for Admission is for non-degree-seeking students interested in special programs, the Global \& Community Education unit or a specific class(es) and requires a $\$ 20$ application fee. The Special Student Application is available from the Office of the Registrar. The application fees are not credited to tuition and fees and are non-refundable. Application documents submitted to Shenandoah University will not be returned to the student. All of Shenandoah's applications are available at www.su.edu.

## Entrance Requirements

## Admission of High School Graduates

A candidate for regular admission as a full-time freshman must have a high school diploma and satisfactory scores on either the Scholastic Aptitude Test (SAT) or the American College Testing Program examination (ACT). Applicants should take one of these tests in the spring of their junior year and again at the earliest possible date during the fall of their senior year of high school.

The strongest candidates for admission will demonstrate preparation for a university liberal arts education. The high school transcript should indicate courses pursued, grades earned, grade point average and credits earned. It is required that the course work include: four units of English, three units of Mathematics (Algebra I, Algebra II and Geometry), and two units of science (including one laboratory science). Two units of a foreign language, minimum, are strongly recommended. Applicants are strongly recommended to indicate community and extra-curricular involvement as well. Other distributions may be appropriate for some curricula and will be evaluated on an individual basis by the Office of Admissions. Conservatory applicants are also required to successfully complete an audition, meeting the specific requirements as outlined in the university's "Audition Guidelines." Copies of the "Audition Guidelines" are available from the Office of Admissions.

The most heavily weighted factor in the applicant's total profile is actual academic performance, as indicated by the high school transcript, particularly for the junior and senior years. Because class rank is a relative factor, it is not considered in the admission decision.

Applicants for admission to Shenandoah University are evaluated in three major areas (four for Conservatory applicants):
I. Previous high school or college records or both
2. Results of the SAT or ACT examination
3. Letter of recommendation
4. For Conservatory applicants only, the result of the audition

Most applicants seek admission during the first semester of their senior year in high school to enter Shenandoah University the following fall. A student who intends to enter directly after high school graduation must request the necessary forms from the Office of Admissions. Procedures for admission are:
I. Application for admission must be made on the Undergraduate Application for Admission. The application must be signed by the applicant (and a parent or guardian if the applicant is under 18 years of age) and returned to the Office of Admissions as soon as possible. A non-refundable application fee of $\$ 30$ must be submitted by a check or money order payable to Shenandoah University. The application fee is not credited to tuition and fees.
2. Applicants must ask their high school guidance counselor or principal to send an official transcript of their high school records and SAT or ACT test scores to the Office of Admissions. Credentials submitted by the applicant are not considered official.
3. If the SAT or ACT scores are not included on the high school transcript, the applicant must request the College Entrance Examination Board to send them directly to Shenandoah University.
4. Applicants must submit one letter of recommendation. Recommendations from a teacher or guidance counselor are preferred. However, recommendations from a work supervisor, volunteer supervisor or coach are acceptable.
5. Conservatory applicants, except those applicants entering the technical theatre and costume design curricula, must satisfactorily complete an audition prior to the admission decision. In the audition, each applicant must demonstrate an appropriate level of technical facility in one performance medium. Applicants desiring to study composition, technical theatre and costume design are required to schedule a portfolio interview with the appropriate division chairperson. Specific audition requirements are found in the description of each curriculum and in the "Audition Guidelines," which are available from the Office of Admissions. Applicants do not audition for study with a particular Conservatory teacher, as the faculty member conducting the audition is a representative of the department. Applicants will have an opportunity to express a preference, but it is not guaranteed that they will study in the studio of the auditioning faculty. When an application file is complete, the applicant will usually be notified of the admission decision within three weeks by the admissions counselor.

## Pre-Admit Program for Graduate Health Professions Programs

Freshmen students with exceptional academic credentials who have been admitted to a pre-health professions program will be considered for Pre-Admit status to a graduate
health professions program. When a student is Pre-Admitted, he/she is guaranteed a non-competitive seat at the graduate level in the program he/she has been accepted for. If a student fails to maintain the outlined criteria while attending Shenandoah, the guaranteed seat will become competitive.

## Admission of Home-Schooled Applicants

Application for admission must be made on the Undergraduate Application for Admission. The application must be signed by the applicant (and a parent or guardian if the applicant is under 18 years of age) and returned to the Office of Admissions as soon as possible. A non-refundable application fee of $\$ 30$ must be submitted by a check or money order payable to Shenandoah University. The application fee is not credited to tuition and fees.

Applicants must submit transcripts of home-school records and official SAT or ACT test scores to the Office of Admissions. Applicants must also submit written documentation of local school district approval of the home-school arrangement, if available. If any course work is completed or accepted as degree credit at a local high school, official high school transcripts must be submitted by a high school guidance counselor. Based upon academic credentials and SAT or ACT scores, applicants may be required to submit General Educational Development (GED) scores.

For additional information, see the heading "Notification of the Admission Decision" in this section.

## Admission of Transfer Students

Applicants who have attended other regionally accredited institutions of post-secondary education may be admitted as transfer students to advanced standing upon presentation. An applicant who enters as a transfer student must submit the necessary forms to the Office of Admissions.
I. Application for admission must be made on the Undergraduate Application for Admission. The application must be signed by the applicant (and a parent or guardian if the applicant is under 18 years of age) and returned to the Office of Admissions as soon as possible. A non-refundable application fee of $\$ 30$ must be submitted by a check or money order payable to Shenandoah University. The application fee is not credited to tuition and fees.
2. Transfer applicants must submit evidence of good standing at the college last attended and an official transcript(s) of credits earned at all institution(s) previously attended, showing entrance credits accepted and results of standardized tests administered. Transfer applicants who have completed fewer than 24 credits must also submit official high school transcripts. SAT or ACT scores are also required if the applicant has been out of high school less than two years. It is the responsibility of the transfer applicant to have official transcripts of all academic work and evidence of honorable dismissal forwarded directly to the Office of Admissions. Credentials submitted by the applicant are not considered official. For admission as a transfer student without qualification, the applicant must be in good standing and eligible to return to his/her former institution. Any other special admissions shall be considered probationary and shall be governed by all restrictions associated with that classification.
3. Conservatory applicants, except those applicants entering the technical theatre and costume design curricula, must satisfactorily complete an audition prior to the admission decision. In the audition, each applicant must demonstrate an appropriate level of technical facility in one performance medium. Applicants desiring to study composition, technical theatre and costume design are required to schedule a portfolio review with the appropriate division chairperson. Specific audition requirements are found in the description of each curriculum and in the "Audition Guidelines," which are available from the Office of Admissions. Applicants do not audition for study with a particular Conservatory teacher, as the faculty member conducting the audition is a representative of the department. Applicants will have an opportunity to express a preference, but it is not guaranteed that they will study in the studio of the auditioning faculty.
4. Nursing applicants to the Transfer 5-semester track must successfully pass the Test of Essential Academic Skills (TEAS) exam. Applicants may only take the TEAS exam twice in one academic year.
5. Nursing applicants to the LPN to BSN track must successfully pass: I) the Test of Essential Academic Skills (TEAS) exam and 2) the NLN- ACE-I Challenge Exam. Applicants may only take the TEAS exam and Challenge twice in one academic year.
Transfer applicants will have a credit evaluation done as soon as they are admitted. The student's official transcripts will be used to evaluate credits for transfer to Shenandoah University. Credits will be evaluated with regard to the general education requirements, major course requirements and elective courses.

Shenandoah University grants transfer credit based on the policy headed "Transfer Credit" in the Academic Policies section of this catalog. Subject to the general conditions governing the transfer of credit, Shenandoah shall recognize official military transcripts and course work provided such credit is recommended by the American Council of Education publication "A Guide to the Evaluation of Educational Experiences in the Armed Forces."

For transfer students in a music curriculum, proficiency in applied music is evaluated following the first semester of study at Shenandoah University.

When an application file is complete, the applicant will usually be notified of the admission decision within three weeks by the Admissions counselor.

## Readmission of Former Students

Former students seeking readmission must submit an Undergraduate Application for Admission to the Office of Admissions. A non-refundable application fee of $\$ 30$ must be submitted by a check or money order payable to Shenandoah University. The application fee is not credited to tuition and fees.

Former students who were in good academic and good social standing may be readmitted upon completion of the appropriate forms. Former students, however, may be denied readmission on the basis of an outstanding and/or unresolved debt to Shenandoah University.

Former students who were not in good academic or good social standing may be readmitted only upon completion of the appropriate forms in the Office of Admissions,
and approval by the appropriate academic office, the Student Affairs Office and the Admissions Evaluation Committee.

## Admission of International Students

International applicants must meet the following requirements:
I. Send completed "Undergraduate Application for Admission" and "Supplemental Application for International Students" forms and a $\$ 30$ non-refundable application fee to the Shenandoah University Office of Admissions. The application form must be signed by the applicant (and a parent or guardian if the applicant is under 18 years of age). The application fee must be paid in U.S. currency by check, money order or wire transfer made payable to Shenandoah University.
2. Applicants must ask their former high school and/or university to send an official transcript directly to Shenandoah University's Office of Admissions. If an institution is unable to send original documents the applicant must have an appropriate school official certify that the copy is an official copy with a stamp and signature. All transcripts must be received in unopened envelopes that have been stamped or signed by an authority at the sending institution across the envelope seal. If records are not in English, the applicant must include a certified translation.
3. All transcripts from countries outside the United States must also be evaluated by an academic credential evaluation company to obtain equivalency information on courses, grades and degrees earned. An English translation will not be accepted in place of an academic credential evaluation. Applicants may make arrangements to have an evaluation completed with any of the providers listed at www.naces.org. All associated fees are the responsibility of the applicant.
4. Conservatory applicants, in selected programs of study, may complete specific audition requirements by submitting an audio or video tape if travel to the Winchester campus or a regional audition site is not feasible.
5. English Language Proficiency Requirements for Admission
A. Regular (Unconditional) Admission of non-native English Speakers (NNES) Undergraduate Students

Shenandoah University's English Language Proficiency requirements for unconditional admission of NNES undergraduate students may be satisfied in any one of the following ways. (The date of taking standardized tests should not be more than 12 months prior to the date of enrollment.)
a. Test of English as a Foreign Language (TOEFL) paper-based test: score of 527 or higher; Internet-based test score of 71 or higher; computer-based test score of 197 or higher.
b. The Sakae Institute of Study Abroad (SISA) test score of 527 or higher.
c. International English Language Testing System (IELTS) minimum overall band score of 6.0.
d. Successful completion of at least two years of full-time study in a post-secondary institution in an English-speaking country in which English is the language of instruction.

Entering students who meet the Shenandoah University's ESL requirement as outlined above are not required to enroll in ESL courses. However, such students may elect ESL study to improve their English language skills.

## B. Provisional Admission of NNES Undergraduate Students

Undergraduate students with scores in the following ranges may be granted provisional admission and begin their undergraduate programs, however, they must enroll for at least 6 hours of ESL each semester until they achieve the level of English proficiency required by the program or until they have obtained a grade of "B" or higher in ESL course work at the 106 level or above.
a. SISA or TOEFL paper-based test score of 500 to 526; computer-based test score of 173 to 195 ; Internet-based test score of 61 to 70 .
b. IELTS overall band scores between 5.5 and 6.0

The following ranges indicate how many ESL credits, along with undergraduate credits within their program, admitted students may expect to take:

TOEFL Paper/TOEFL IBT/IELTS
ESL credits Course work credits
397 to $499 / 30$ to $60 / 3$ to 5
12
none
500 to $526 / 61$ to $69 / 5.5$ 6 6 to 9

Entering undergraduate students who do not meet the minimum requirements specified above may be admitted only to the English as a Second Language Certificate until reaching the levels specified for provisional admission to a program.

Undergraduate students must meet all ESL requirements within one calendar year of initial enrollment at Shenandoah University, or prior to graduation, whichever comes first. Failure to meet this requirement may result in suspension from the university.

Specific guidelines for completing ESL requirements may be obtained from the ESL Department.
6. To be eligible to receive a SEVIS I-20 form from Shenandoah, applicants must send financial documentation explaining how they plan to cover their educational and living expenses while a student at Shenandoah. To document financial resources, applicants may complete the Supplemental Application for International Students and include support materials as indicated.

Once an application is accepted and finances documented, applicants will be issued a SEVIS I-20 form which is needed to apply for an F-I student visa. It is important that international students receive their F-I visa from the U.S. Consulate Office in their native country prior to their arrival in the United States. This procedure is subject to change due to revisions and proposals of changes to the Federal Regulations governing issuance of I-20s for International Students.

Inquiries regarding financial aid should be directed to the university's Office of Financial Aid. Financial aid for international students is extremely limited since federal and state sources are unavailable. International students should seek to obtain
educational funds from their native country and should not rely on aid being available from Shenandoah University.

When an application file is complete, the applicant will usually be notified of the admission decision within three weeks by the dean of admissions. For additional information, see the heading "Notification of Admission Decision" in this section.

## Admission of Certificate Students

Applicants for admission as a certificate student are those applicants interested in obtaining training in a specific area that is recognized by the awarding of a certificate rather than a degree and/or applicants interested in completing the Elementary or Secondary Education Virginia Licensure requirements. (The actual licensure is granted by the Virginia Department of Education after review of credentials.) Certificate programs are academic programs. Generally, a certificate student is enrolled on a part-time basis.

Certificate applicants must complete and submit the Undergraduate Application for Admission directly to the Office of Admissions. The application must be accompanied by a non-refundable application fee of $\$ 30$. The application fee must be submitted by a check or money order payable to Shenandoah University. The application fee is not credited to tuition and fees.

Certificate applicants are required to submit the same materials as degree-seeking students. See previous sections on requirements for freshman and transfer students. An undergraduate certificate applicant must have a high school diploma. Certificate students are held to the same academic standards and judged in the same way as students enrolled in degree programs.

Once the application has been received and processed, the applicant will usually be notified of the admission decision within three weeks by their admissions counselor. Certificate students are eligible for limited types of financial aid.

## Admission of High School Seniors

Qualified seniors in area high schools who will not be taking a full academic load in their high school senior year can apply to Shenandoah for admission as part-time students. Under this program, students are permitted, with the approval of high school officials, to undertake course work at Shenandoah University concurrently with course work undertaken at their high school.

Under certain conditions, credit earned at Shenandoah University may be applicable to graduation requirements from Virginia high schools. Credit and grades earned become part of the student's permanent academic record at Shenandoah University. Students applying for this program must submit the regular application for admission, the nonrefundable application fee of \$30, a high school transcript, and the results of the Scholastic Aptitude Test (SAT) or the American College Test (ACT) and one recommendation from a high school guidance counselor or teacher.

## Admission After the Junior Year

This program, in which the student enters as a full-time freshman after the junior year in high school, is designed for a small number of exceptionally qualified students. To be considered, a student must have all required credits in mathematics and science. Most
commonly, the student will have at the end of the junior year only one unit in English to complete.

Students applying for this program need all the materials required of a candidate for regular admission, and, in addition, the high school counselor and principal will be asked to speak directly to the question of the student's maturity, academic ability, personality, sense of purpose, and ability to handle responsibility independently. Credit and grades earned become part of the student's permanent academic record at Shenandoah University.

The admission procedure is the same as for those students seeking regular admission, except that generally students seeking admission after the junior year submit their application during the spring of their junior year in high school. Students applying for this type of admission must submit the regular application for admission, the non-refundable application fee of \$30, an official high school transcript, and the results of the Scholastic Aptitude Test (SAT) or the American College Test (ACT) and the recommendations from the high school guidance counselor and principal.

## Admission of Special Students

Applicants for admission as special students (non-degree seeking) are most often applicants who are not interested in a degree but in a specific course, applicants who did not follow an academic program in high school, or students at other institutions who will earn credits to transfer back to their own institutions. Generally, a special student is enrolled on a part-time basis.

Special students, though not enrolled in a certificate or degree program at Shenandoah University, are held to the same academic standards and judged in the same way as students who are enrolled in a certificate or degree program.

Occasionally, a special student will later apply for admission as a degree-seeking student. In that case, the regular admission procedure is followed. Once enrolled as a special student, a student cannot change their status in that semester. Not more than 30 undergraduate credit hours earned as a special student may be applied toward an undergraduate certificate or undergraduate degree program.

Special students are not eligible for financial aid.
Applicants seeking admission as special students fill out the "Special Student Application" which is available from and must be submitted directly to the Office of the Registrar. A non-refundable application fee of $\$ 20$ must be submitted by a check or money order payable to Shenandoah University. The application fee is not credited to tuition and fees.

## Admission of Global \& Community Education Students

Global \& Community Education applicants apply for admission directly through the Global \& Community Education Office.

## Special Admissions <br> Admission of Applicants Without a High School Diploma

Applicants may be considered for admission on the basis of the General Educational Development (GED) examination. Shenandoah University does not administer this
examination. Interested applicants should consult the guidance department of a nearby high school for information about when and where the examinations can be taken. An average battery of 450 (total score of 2250) or higher with no individual score below 410 is required for admission to Shenandoah University. An interview with a member of the admissions staff is required.

## Advanced Standing

Applicants for admission who have completed advanced work in high school may apply for advanced standing in certain courses at Shenandoah University. Each case will be considered individually on its merits. The level of advanced standing shall be determined by the department in which advanced standing is requested. Students granted advanced standing are required to enroll in other courses in lieu of courses from which they have been exempted.

## Advanced Placement

Admitted students who present acceptable scores on the College Board Advanced Placement Test(s) may receive advanced placement with credit. Students must submit official test scores to the Office of Admissions to have the scores evaluated for credit. Credit granted on the basis of the Advanced Placement Test is treated as transfer work and is subject to the University's transfer policy. See "Transfer Credit" in the Academic Policies Section of this catalog.

## International Baccalaureate

Admitted students who present acceptable scores for higher level International Baccalaureate courses may receive credit for that course work. Students must submit official course and test scores to the Office of Admissions to have the scores evaluated for credit. Credit granted on the basis of the IB test course scores is treated as transfer work and is subject to the University's transfer policy. See "Transfer Credit" in the Academic Policies Section of this catalog.

## Deferred Enrollment

Upon written request, and payment of the advance tuition deposit, an accepted applicant may defer enrollment for up to one year. Deferred enrollment is subject to the admission requirements in force at the time the initial decision was made and is predicated upon the fact that the student will not enroll at another institution before enrolling at Shenandoah University. A student who enrolls at another institution before enrolling at Shenandoah University must reapply as a transfer student. The student will be subject to the rules, regulations and financial charges in effect at the time of enrollment.

## Types of Acceptance Decisions

At the discretion of the dean of admissions, applicants who meet all admissions criteria may be accepted to Shenandoah University. Accepted applicants will receive a standard acceptance or a provisional acceptance as students to Shenandoah, whether entering as freshmen or transfer students, and will be classified as I) degree or non-degree seeking students, and 2) as full-time or part-time students.

## Standard Acceptance

A standard acceptance is issued to an applicant who has met all admissions criteria and has submitted all required documentation for admission. Accepted students are admitted in one of the following categories:
I. Admission in good standing
2. Admission in conditional standing

## Admission in Good Standing

An applicant who presents an acceptable academic record, acceptable test scores, acceptable recommendation, and a satisfactory audition or interview (when applicable) is admitted in good standing. Such students may enroll in a full program of study as outlined in the catalog.

## Admission in Conditional Standing

If the previous scholastic record of an applicant is slightly below the standards for regular admission, but personal recommendations, test scores, audition or interview (when applicable) seem to indicate a probability of success at the college level, a student may be admitted in conditional standing. Students admitted in conditional standing will be automatically placed in Project Success, an assistance program developed to assist the student to succeed at the university. The student will be required to enroll in a one semester credit hour study skills class the first semester of enrollment. Conditionally admitted students are also required to take a reduced course load the first year of enrollment. The student's academic achievement will be governed by the university's policy on academic standing. See "Academic Standing" in the Academic Policies section of the catalog.

## Provisional Acceptance

A transfer applicant who is admissible, but continues to have course work in progress at another institution may be admitted on a provisional basis. As soon as the course work is completed the student must submit the final, official transcript. Any provisionally accepted student who fails to submit the official documentation or to complete the stipulated provisions will not be permitted to register for courses.

## Notification of Admission Decision

Applicants are usually notified by letter approximately three weeks after their admission file is complete. Admissions decisions may be deferred if an applicant is slightly below the standards for regular admission. The director of undergraduate admissions may require additional information and/or an admissions interview before a decision is rendered. Applicants who wish to appeal an admission decision must submit a letter of appeal to the dean of admissions.

Accepted applicants must submit an advance tuition deposit of $\$ 300$. Dates by which the deposit must be paid are stipulated in the letter of acceptance, and vary depending on the time of year the offer of acceptance is granted. Advance tuition deposits are refundable until May I. Refund requests must be made in writing to the director of undergraduate admissions.

The applicant's notification of acceptance is tentative and conditioned (when applicable) by the applicant's subsequent graduation from high school and/or satisfactory completion of the current college semester. Applicants must request the proper person send the official high school and/or college transcripts to the Office of Admissions. Credentials submitted by the applicant are not considered official. These records should include confirmation of graduation from high school and/or evidence of good standing at the termination of the college semester.

## ACADEMIC POLICIES

## Matriculation

The Office of the Registrar directs and coordinates matriculation of all students, but the courses selected by the student are conditioned by academic programs and regulations.

## Criminal Background Check Policy

Students who will have experiential learning components required as part of their degree programs must authorize, submit to and pay for a criminal background check prior to entering the program, and in some circumstances, on an annual schedule after admission. Details are available from each school/division director/dean.

## Registration

General dates and times for registration are published in advance by the Registrar.

## Inaccurate Registration

Shenandoah University reserves the right to make void the registration of any student who fails to comply with registration instructions or fails to pay the prescribed tuition and fees.

## Course Prerequisites

Before beginning a course, a student is expected to have fulfilled the appropriate prerequisites. A student who has not met the prerequisites may be denied registration or be un-enrolled.

## Change in Registration

Students wishing to drop or add a course may do so either online or by completing a Schedule Adjustment Form available from the Office of the Registrar. The effective date for any change in registration is the date completed online or noted on the Schedule Adjustment Form received in the Office of the Registrar.

## Adding a Course

Courses scheduled for an entire term of 14 or more weeks: Students may add individual courses for the first six calendar days after the beginning of the term.

Courses scheduled for less than 14 weeks: Students may add individual courses up to the point at which 10 percent of the total class meeting time occurred.

## Dropping a Course

For courses scheduled for an entire term of 14 or more weeks: Students may drop individual courses without record for the first six calendar days after the beginning of the term.

For courses scheduled for less than 14 weeks: Students may drop individual courses without record up to the point at which 10 percent of the total class meeting time has occurred.

## Repeating Courses

A student may repeat a course a maximum of three times. A student who does not satisfactorily complete a required course after three attempts may be subject to academic dismissal. Students are advised to check the policies applicable to each specific program. Individual programs can further limit the number of attempts a student may make.

An attempt is defined as any continued enrollment of a student in a course beyond the add-drop period. Attempts include achieving any final grade in a course or withdrawal from a course.

All course grades will be recorded on the student's permanent record. The credits and quality points resulting from the student's most recent attempt will be used to compute the student's cumulative grade point average.

A student repeating a course must so indicate at the time of registration by placing an " $R$ " in the grading option column on the registration form. Failure to do so will result in all grades being used to compute the cumulative grade point average.

Students may not repeat a course after the applicable degree has been awarded.

## Withdrawal from a Course

A student may drop a course during the drop/add period without any reference on the transcript.

Students may withdraw from individual classes with the permission of the advisor and receive a grade of " $W$ "' that will appear on the student's transcript but will not be computed in the quality point average. The withdrawal period will end 14 calendar days prior the beginning of the final examination period.

After the withdrawal period, the student may not withdraw from a course for any reason related to academic performance. This Withdrawal from a Course policy appears in the university's catalogs and the faculty and student handbooks.

Dates of the withdrawal period will appear in the university's Academic Calendar and Registration Schedule and Calendar.

This policy should be implemented in conjunction with the progression policies of individual schools and divisions within the university.

## Independent Study

Independent study involves student pursuit of a specialized topic under the guidance of a faculty member. The content of the study is determined by the student and approved by the faculty member. Registration for independent study occurs on a special form available at the Registrar's office, and credits are included in the normal student load.

Independent study may be used as elective credit, but does not substitute for specific course requirements. Independent study is variously titled as individual directed research, seminar, workshop, research, directed study, special topics, topics, comprehensive seminar and/or independent readings.

## Private Instruction in Classes

When required by special conditions, a student may register for a specific class required in the curriculum through private instruction. The content of the instruction is the same as the content when offered as a class. Registration for private instruction in a class occurs on a form available in the Registrar's office. An additional fee is required.

## Auditing a Course

Students may enroll in courses on an audit basis. The audited course will not be used in determining the student's full-time or part-time enrollment status for the semester. A change in status cannot be made after the sixth calendar day of a semester.

## Withdrawal from the University

Students who withdraw from Shenandoah University must complete a Withdrawal/ Leave of Absence Form in the Academic Enrichment Center. Students must settle unpaid accounts in the Business Office, return materials and pay fines to the library, and, if a boarder, leave the dormitory room in acceptable condition and return the residence hall room key to the Student Affairs Office.

Students in good social and academic standing who withdraw from the university for no more than three consecutive terms (I2 calendar months) are not required to reapply, but may register for courses following normal procedures.

Students who withdraw from the university for more than three consecutive terms (I2 calendar months) and wish to return must apply for readmission.

## Alternative Means of Earning Credit

## Transfer Credit

Shenandoah University awards transfer credit for a variety of successfully completed (a grade of "C-" or better) course work. This includes:
I. All credits from an institution of higher education that has been fully accredited by one of the six regional accrediting agencies, such as the Southern Association of Colleges and Schools, or at an institution that is a "Recognized Candidate for Accreditation."
2. Credits for courses taken at foreign tertiary-level institutions, which are chartered and authorized by their respective national governments and that are recognized by the American Association of Collegiate Registrars and Admissions Officers. The amount of credit granted will correspond to that given for comparable Shenandoah University courses.
3. Credit for non-collegiate sponsored instruction, such as the armed services, business and industry, health care, or government agencies, recognized by the American Council on Education or the National Program on Non-Collegiate Sponsored Instruction. Official documentation for such credit must be submitted to the admissions office, which will make a determination, in consultation with the appropriate dean or director, on the credit to be awarded.
4. Upon appeal to the senior vice president \& vice president for academic affairs, credits earned at non-accredited institutions will be considered on the basis of the content of
the course and the credentials of the instructor for the course. The appeal must include a copy of the course description and a syllabus and documentation related to the instructor's academic credentials for each course to be evaluated. In considering such courses for transfer, the senior vice president \& vice president for academic affairs will consult with the appropriate dean or director.

Credits from institutions on the quarter-hour system will be converted to semester hours using the formula of one quarter hour equals two-thirds of a semester hour.

A student who enrolls for the first time at Shenandoah University receives credit for the courses transferred but grades do not transfer nor have any effect on the student's cumulative grade point average (GPA) at this institution. Both credits and grades under criteria I-4 above transfer once a student has matriculated at Shenandoah University and those grades are calculated into the student's GPA.

## Advanced Standing

Shenandoah University accepts several alternative options that provide for credit toward a degree. Such credits are also treated as transfer work. No grades are awarded for advanced standing credit.

## Advanced Placement (AP)

Shenandoah University participates in the Advanced Placement Program of the College Entrance Examination Board (CEEB). Students must submit official copies of the test results to the Office of Admissions in order to earn the credits and course equivalencies listed below.

## Advanced Placement

| Test | Score | Course | Hours |

| Theatre Arts | no credit |  |

## Credit by Examination

Students may also earn credit through a variety of examinations. A student may not attempt credit by examination for a course in which he/she previously received collegelevel credit, received a failing grade, or for a basic course in an area in which collegelevel credit has been earned for a more advanced course.

## College Level Examination Project (CLEP)

Shenandoah University accepts the full range of CLEP tests, which measure the mastery of college-level introductory course content in a wide range of disciplines. CLEP tests are administered on campus, but students must submit official copies of the test results to the Office of Admissions in order to earn the credits and course equivalencies listed below. Shenandoah University does not award grades for CLEP.

Students meeting the credit-granting score standard will earn the credits and course exemptions listed below.

| CLEP Exam | Credit-granting Score | Credit Earned | Equivalent Course |
| :---: | :---: | :---: | :---: |
| Composition and Literature |  |  |  |

*This does not apply to Accounting majors. This exam replaced by Financial Accounting.
+Replaced by precalculus in 2006.

## Challenge Examinations

Challenge Examinations, which allow a student to earn credit for a course by passing a comprehensive examination on the content of the course, are available for some courses, subject to the approval of the faculty member responsible for the course, the dean/director of the academic unit in which the course is taught, and the senior vice president \& vice president for academic affairs. Challenge exams are not given if a comparable CLEP or other approved standardized test is available for the course.

Challenge Examinations must be completed before the end of the drop/add period for fall or spring semester. The student must be registered for the course in which the Challenge Examination is being taken, and the course is counted in the student's workload for purposes of assessing tuition and fees. Grades are awarded in courses completed by Challenge Examination.

Students interested in Challenge Examinations should obtain a "Request for Challenge Examination" form in the Registrar's Office.

## Additional Examinations

Each academic unit may determine, subject to the approval of the senior vice president \& vice president for academic affairs, which, if any, other examinations are accepted. Each unit also determines the minimum passing score for such examinations and the credit, if any, to be awarded.

## Non-Collegiate-Sponsored Instruction

Students may be awarded credit for satisfactory completion of course work in the armed services, business and industry, or government agencies as recognized by the American Council on Education or the National Program on Non-Collegiate Sponsored Instruction.

## Academic Advising

Academic advising is required for all degree-seeking students before registration each term. Academic advisors are provided to assist students in planning their academic programs. Academic advisors are not authorized to change established policy for the university. The student is solely responsible for assuring that his academic program complies with the policies and requirements of Shenandoah University. Any advice that is at variance with established policy must be confirmed in writing by the school/division and the senior vice president \& vice president for academic affairs.

## Requirements for Degrees

Candidates for degrees at Shenandoah University must complete all of the following in order to graduate:
I. The minimum number of credit hours required for a baccalaureate degree is 120 .
a. Candidates for baccalaureate degrees must earn a minimum of 30 credit hours of the 120 credit hour requirement at Shenandoah University.
b. Twenty-four of the last 30 credit hours required in a baccalaureate degree program must be earned at Shenandoah University. Credits earned at institutions with specific program articulation agreements with Shenandoah University will be considered as Shenandoah University credits for this requirement.
2. Within the minimum 120 credit hour requirement for the baccalaureate:
a. The university-wide general education curriculum
b. Any academic unit core curriculum requirements
c. All courses required for a major/degree program and any additional elective program of study such as minor or concentration
d. At least 30 credit hours at or above the 300 -level
3. Candidates for certificates and baccalaureate degrees must fulfill the specific requirements of their curricula with a cumulative grade point average of 2.000 . Some programs require a higher grade point average in the major. Consult the descriptions of individual majors/degree programs to determine other requirements.
4. The Measure of Academic Prociency and Progress (MAPP) examination and the National Survey of Student Engagement given to baccalaureate degree candidates at the end of the spring semester.

A student may complete the requirements for the initial degree under the provisions of any catalog between the year in which they matriculate into the university and the year in which they graduate from the university.

Consult degree requirements in each school for further restrictions.

## Dual Enrollment

Students who have not completed a baccalaureate degree but are within 30 credits of completion, and who have earned a cumulative grade point average of at least 3.0, may enroll in graduate classes for which all prerequisites have been met.

Approval may be granted by the dean/director of the school/division in which the instruction is offered when the student files a written plan that projects completion of the baccalaureate degree within 12 months and when the student has applied for admission to a specific graduate program at Shenandoah University. All graduate credits undertaken must apply to the anticipated curriculum. Credits may be applied to either the undergraduate or graduate curriculum, but not to both.

The above policy does not apply to Shenandoah University-approved articulated seamless undergraduate to graduate degree programs.

## Time Limit

A full-time student should complete the degree requirements within six years of initial registration at Shenandoah. Time extensions may be granted when approved by the senior vice president \& vice president for academic affairs.

## Second Degree Policy

A student who already holds a bachelor's degree from Shenandoah University may complete an additional degree. The student seeking the additional degree must request re-admission to the university. There is no minimum credit hour requirement for an additional degree, but all curriculum requirements in effect at the time of re-admission must be completed. Upon completion of the additional degree, the student will receive an additional diploma and will be entitled to participate in commencement ceremonies.

A transfer student (whose bachelor's degree was not from Shenandoah University) must complete Shenandoah University "Requirements for Degrees" as well as all major requirements. University-mandated general education requirements will be considered to have been fulfilled, but core requirements of individual academic units will be considered on a case-by-case basis. Requirements mandated by external accrediting agencies must be met.

The university-mandated general education domain requirements will be considered to have been fulfilled for a transfer student who holds an Associate of Arts, Associate of Sciences, Associate of Arts and Sciences, and/or an Associate of Arts and Teaching degree. The general education intensity requirements and the core requirements of the individual academic unit will be considered on a case-by-case basis, as will all other associate degree-holding students.

## Program Continuity

Shenandoah University is committed to continuity and stability in its degree and program offerings. However, it may be necessary, from time to time, to modify or terminate program requirements, content or sequence of course offerings for various reasons. These include, but are not limited to, educational (including accreditation and certification) or financial reasons that the institution deems necessary or other reasons or circumstances beyond the control of Shenandoah University.

## Change in Curriculum

Students may change curriculum with the approval of the former and present academic advisors and the former and present school deans. Students must complete a
"Curriculum Change Form," which is available from the Office of the Registrar.
Approved curriculum changes will become effective at the beginning of the first academic term after the form is received by the Office of the Registrar.

Students who change curriculum will have all previously-earned college-level credit reevaluated for applicability to the new curriculum.

No more than 30 semester hours accumulated as a special student may be counted toward a degree program.

## Classification of Students

Students are classified academically at the end of each semester. Courses from other institutions that meet the requirements for transfer are included in determining a student's classification. All students enrolled in certificate programs are classified as freshmen.

Students enrolled in baccalaureate degree programs are classified as follows:
Classification Credit Hours Earned
Freshman 0.00-23.99
Sophomore 24.00-53.99
Junior 54.00-83.99
Senior 84.00 or more
Special students (those students not formally admitted into a certificate or degree program) are not classified.

## Semester Credit Hours

A credit hour is the credit earned by work for the equivalent of one hour (fifty minutes) in a lecture class per week for a semester. A class for a three-hour lecture course at Shenandoah typically meets for three clock hours per week.

Students who transfer from an institution that is on the quarter system should note that one quarter hour is equal to two-thirds of a semester hour. For example, a student transferring 36 quarter hours of work to Shenandoah would receive $2 / 3 \times 36$ or 24 semester hours of credit.

## Academic Terms

Shenandoah University offers courses and programs of various lengths throughout the year. These include fall and spring semesters, summer terms, trimester and short-term programs. In order that courses are identified clearly on official records, the academic calendar is divided into three terms of equal length:

2009/FA (fall): August 16 to December 15
2009/SP (spring): December 16 to April 15
$2010 / \mathrm{SU}$ (summer): April 16 to August 15
A course or program is identified with one of these terms depending on the start date of the course. Any course or program that begins on or after the first date of each term and up through and including the last date of that term is said to belong to that term. The end date is not considered in designating the term.

All credits are expressed as semester hours, regardless of length of term or dates of beginning and ending of a course or program.

## Examples:

A program beginning August 21, 2009 and ending October 15, 2009 would be considered a 2009/FA (fall) program, but a program beginning Augustl 0, 2009 and ending October 15, 2009 would be considered a 2009/SU (summer) program.

A program beginning April 21, 2010 and ending July 15,2010 would be considered a $2010 / S \cup$ (summer) program, but a program beginning April 15, 2010 and ending August 6, 2010 would be considered a $2010 /$ SP (spring) program.

## Non-discrimination

Shenandoah University does not discriminate on the basis of sex, race, color, religion, national or ethnic origin, age, physical or mental disability or sexual orientation.

## Student Rights

Shenandoah affirms the right of academic freedom for the university community. Freedom of assembly, freedom of the press and freedom of speech are constitutional rights. Shenandoah reserves the right to specify the time, place and manner of the exercise of these rights on university facilities. Shenandoah insists that every member of the university community abide by the laws of the United States, the Commonwealth of Virginia, and established institutional rules and regulations.

Members of the university community should be aware of the inherent responsibility of free speech and the possible consequences when free speech is used as a license to disrupt the normal academic activities of the institution. Demonstrations that disrupt normal activities of the institution will not be tolerated at Shenandoah. Any student who participates in any form of disruptive action is subject to immediate interim suspension and lawful prosecution in the courts. Shenandoah does not at any time tolerate and will not permit uninvited persons to remain on campus for the purpose of inciting students to disruptive activity. Any such person on campus will be prosecuted to the fullest extent of the law.

Students must make themselves aware of the philosophy, standards and rules of Shenandoah as contained in both the academic catalog and Student Handbook. Criticism and suggestions are always welcomed; however, threats, disturbances, force of any kind by a single student, a minority or majority will not be tolerated. The trustees, administration, faculty and student body all have the obligation to protect the rights of students to the peaceful and orderly use of its resources, personnel and facilities.

Shenandoah affirms the basic constitutional rights for all students and faculty. No student will be summarily dismissed without proof and a hearing. Each person subject to a hearing must be informed of the charges prior to that hearing. Witnesses may be called in the student's defense. Witnesses should be identified and reference should be made to the university's rule violated and the possible severity of such charges. The final authority in all hearings rests with the president as delegated to her by the board of trustees.

Shenandoah affirms the right of every person to privacy in his/her room. A student's room will only be entered for inspections or if there is reason to believe that a school regulation has been violated. Emergency inspections may be made anytime by the vice president for student affairs or other administrative personnel.

Shenandoah affirms the right of each student to study or practice without undue restriction or disruption. It is the responsibility of Shenandoah to provide an atmosphere within its residence halls, library and practice areas that is conducive to study.

Shenandoah believes all disruptive action should be controlled from within the Shenandoah community without involvement from outside authorities; however, if such instances should occur where outside enforcement of basic laws is necessary, local law enforcement agencies will be contacted.

## Accommodations of Persons with Disabilities Policy

As part of Shenandoah University's commitment to upholding the letter and spirit of the laws that ensure equal treatment of people with disabilities, the university recognizes and adheres to the mandates of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. It is the policy of Shenandoah University that no otherwise qualified individual is denied reasonable and appropriate access to or participation in any program or activity of the university because of a disability. Pursuant to this policy, the university's Disabilities Services office is a resource for students, faculty and staff. Any individual who believes he or she has a disability covered under disability laws can provide the requisite documentation and request accommodations and resources from Disability Services.

## Disability Grievance Procedure

Any university student who believes that he or she has been subjected to discrimination on the basis of disability by being denied academic access or accommodations required by law shall have the right to invoke the grievance procedure. This procedure is designed to address disagreements or denials regarding requested services, accommodations, or modifications to university academic practices or requirements.

## Step One

In the event that specific complaints arise regarding the university's compliance with the Americans with Disabilities Act of I990, the director of disability services will, at the request of students, faculty or staff, review the procedures implemented and seek to resolve the matter informally. To the extent that the complaint(s) cannot be resolved informally, the following procedures shall be employed in order to address the grievance formally.

## Step Two

I. A student wishing to file a complaint shall submit a written grievance to the Director of Disabilities Services within 30 calendar days of the event(s) triggering the grievance. The written grievance must include:
a. a clear statement of the university rule, regulation, policy, and/or action of which the student complains;
b. the date of any action which the student is appealing;
c. a summary of the action(s) which the student has taken to resolve the matter informally;
d. documentation which supports the grievance.

The director will forward this to the appropriate administrator as designated by the president.
2. The appropriate administrator shall meet with the student within five class days of the receipt of the grievance to gather data and attempt resolution.
3. If this meeting does not resolve the grievance, the appropriate administrator shall conduct an informal investigation of the grievance. In cases where the grievance is about the conduct or requirements of a course or an academic program, the appropriate administrator shall consult with the faculty member responsible for the affected course or academic program, and meet with and seek advice from the Advisory Committee on Disability Issues, consisting of at least one faculty representative from each school and one student. One of the faculty participants must be from the school responsible for the course or academic program from which the grievance originated.
4.The appropriate administrator shall furnish a written response to the grievance no later than 15 class days of the meeting with the student. The written response shall be mailed to the student by certified mail, return receipt requested.

## Step Three

I. If the student is not satisfied with the written response from the appropriate administrator, he/she may present the grievance in written form to the senior vice president \& vice president for academic affairs within 10 class days after the receipt of the response from the appropriate administrator.
2. The senior vice president \& vice president for academic affairs or designate shall, within 15 class days after the receipt of the grievance, schedule and conduct a meeting with the student and other persons involved in the grievance.
3. After the investigation is complete, the Senior Vice President \& Vice President for Academic Affairs or designate shall issue a written answer to the complainant within 15 class days from completion of the meeting(s) with the student and other persons.
4. If the grievance involved conduct or requirements of a course or academic program, a copy of the written decision of the Senior Vice President \& Vice President for Academic Affairs or designate shall be provided to the Advisory Committee on Disability Issues, the dean and the department head in the school involved and to the professor of the course.
5. The director of disabilities services shall maintain the files and records relating to the complaints filed.
6. The right of a person to prompt and equitable resolution of a grievance shall not be impaired by the person's pursuit of other remedies such as filing a complaint with a responsible federal department or agency. Although individuals have the right to pursue appeals through external channels, they are encouraged to use internal mechanisms to resolve disagreements.

## Step Four

If the Senior Vice President \& Vice President for Academic Affairs or designate is unable to offer a satisfactory resolution, the student may appeal to the president of the university, whose decision is final.

## Student Complaint Policy

Shenandoah University affirms the right of students to bring forth complaints and is committed to resolving these matters in a fair, equitable and timely manner, so as to protect the rights of both the individual and the community.

This Complaint Policy applies to student complaints that are not addressed by the Academic Appeals Procedure, Americans with Disabilities Act, Honor Code, Student Conduct Code, Sexual Harassment Policy, student records policies, or any other existing formal procedure under which a complaint may fall.

Students are encouraged to attempt to resolve the issue directly with the member of the faculty, staff or administration involved in an informal manner.

If a satisfactory resolution cannot be reached informally, a student complaint will be heard and resolved by, to all extent possible, the senior faculty or staff member responsible for the area under which the complaint falls.

If satisfactory resolution is not reached at that level, a student may submit his/her complaint in writing to the vice president responsible for the area under which the complaint falls.

If satisfactory resolution is still not reached, a student may submit his/her complaint in writing to the president of the university, whose decision will be final.

## Student Behavior

## Class Attendance

Instructors will provide students with a written statement of the class attendance requirements governing that course and the consequences for violating these requirements. After the written statement has been made available, consequences of class absences
may include, but are not limited to, a reduced or failing grade. Students who are absent from classes are held responsible for all materials covered and assignments regardless of the reason for absences. If a school, college or division has its own attendance policy, instructors must follow that policy. When the student is not in compliance with the course attendance policy, it is the instructor's responsibility to notify the registrar.

Instructors are encouraged to excuse students officially representing Shenandoah University for events including, but not limited to, participation in a sporting event, concerts and performances. However, it is the student's responsibility to inform the instructor of the absence in a timely manner and to make arrangements for the information missed in the course. The coach or instructor of the event should also notify the course instructor of the absence, but the responsibility lies with the student to inform the instructor. Every effort should be made by the student to avoid excessive absences that may compromise mastery of the course material and successful completion of the course. The instructor retains the right to deny an absence if it is felt the absence would be counterproductive to mastery of the material and successful completion of the course.

## Student Conduct in Class

Classes are conducted in a manner that provides academic freedom of expression for the student, but instructors need not tolerate physical or other disturbances that disrupt teaching sessions. For justifiable cause, the instructor may dismiss a student from class for a definite or indefinite period of time. Such action is reported to the senior vice president \& vice president for academic affairs. The student dismissed from class on disciplinary grounds may appeal to the senior vice president \& vice president for academic affairs for review of the incident for the purpose of possible readmission to class.

## Academic Honor Code

Shenandoah University adheres to principles and practices of the Academic Honor Code. The Honor Code is the system of conduct of the university that reflects the core of principles and values the university has established regarding individual responsibility and matters involving honorable conduct. The concept of honor may be defined in a variety of ways; however, at this university the code prohibits lying, stealing and cheating.

Students attending the university are responsible for upholding the Honor Code and being aware of the university's Honor Code procedures. Ignorance is not acceptable defense for failure to follow the Honor Code. Shenandoah University faculty members are also responsible for upholding the Honor Code, which includes putting an Honor Code statement on all course syllabi and being aware of the university's Honor Code procedures. The Shenandoah University Academic Honor Code is published in the Student Handbook and the Faculty Handbook.

The chart below shows the standard SU grading system. Individual schools, divisions or professors may elect not to give "+" or "-" grades, but must clearly state their policy in their student materials.

## Grading and Quality Point System

|  |  | Quality | Credits Included in GPA |  |
| :---: | :---: | :---: | :---: | :---: |
| Grade | Description | Points | (Hours Graded) | Earned |
| A+, A | Excellent | 4.0 | Yes | Yes |
| A- | Excellent | 3.7 | Yes | Yes |
| B+ | Good | 3.3 | Yes | Yes |
| B | Good | 3.0 | Yes | Yes |
| B- | Good | 2.7 | Yes | Yes |
| C+ | Average | 2.3 | Yes | Yes |
| C | Average | 2.0 | Yes | Yes |
| C- | Average | 1.7 | Yes | Yes |
| D+ | Below Average | 1.3 | Yes | Yes |
| D | Below Average | 1.0 | Yes | Yes |
| F | Failure | 0.0 | Yes | No |
| W | Withdrew | 0.0 | No | No |
| WP | Withdrew Passing (not used after 8/05) | 0.0 | No | No |
| WF | Withdrew Failing (not used after 8/05) | 0.0 | Yes | No |
| WW | Withdrew-No Charges | 0.0 | No | No |
| WE | Withdrew Extenuating | 0.0 | No | No |
| RF | Withdrew-No Charges | 0.0 | No | No |
|  | (for a single course) |  |  |  |
|  | Circumstances | 0.0 | No | No |
| S | Satisfactory Work | 0.0 | No | No |
| U | Unsatisfactory Work | 0.0 | No | No |
| 1 | Incomplete | 0.0 | No | No |
| IF | Administrative Failure |  |  |  |
|  | (Failure to Complete) | 0.0 | Yes | No |
| AU | Audit | 0.0 | No | No |
| NC | No Credit Course | 0.0 | No | No |
| P | Passed | 0.0 | No | Yes |
| TR | Transferred | 0.0 | No | Yes |
| $\times$ | Grade Not Submitted |  |  |  |
|  | By Faculty | 0.0 | No | No |
| XF* | Honor Code Violation | 0.0 | Yes | No |

[^0]next academic semester the grade will be changed from "II" to "IF" by the Registrar. A grade of "IF" may not be changed later by the instructor.

Grade Changes:The instructor of a course is the only person authorized to change a grade and may do so only with approval of the school dean. Grade change forms are available from school deans. Requests for recalculation of grades must be submitted to the school dean no later than the last day of classes in the semester following completion of the course.

## Calculation of Grade Point Average

The grade point average (GPA) is determined by dividing the total number of quality points earned by the total number of credit hours graded (see above). GPAs are reported to the third decimal point and are not rounded up or down.

## Grievance of a Grade

Students may grieve the misapplication of an instructor's grading policy for a course. Students cannot grieve the evaluation of student work by the instructor.

## Step One

The student should make an appointment with the faculty of record to discuss the way the grade was administered and to seek resolution.

## Step Two

If dissatisfied, the student should schedule an appointment with the appropriate department chair to seek a resolution.

## Step Three

If dissatisfied, the student should schedule an appointment with the appropriate dean or director of the school to seek a resolution.

## Step Four

If dissatisfied, the student should make a written grievance to senior vice president \& vice president for academic affairs. The written grievance must state the reason for the request, demonstration of the misapplication of the grade, and any other supporting documentation. If the senior vice president \& vice president for academic affairs sees merit in the grievance, he or she will assemble the Academic Review Board for a hearing. If there is no merit, the student will be notified that this ruling is final.

## Step Five

The Academic Review Board is a judicial hearing and has the ability to summon faculty, students, and staff for its hearing. The Academic Review Board's decision is final.

## Step Six

An appeal to the president can be made on procedural violations only.

## Academic Standing

The minimum graduation requirements for students enrolled in a baccalaureate degree program at Shenandoah University are the completion of I 20 credit hours with a minimum grade point average of 2.0 on a 4.0 scale. Assuming that a student wishes to complete a degree in the standard four years, they would need to complete 15 credit hours per semester with a 2.0 cumulative grade point average. As some programs require a student to complete more than 120 credit hours, and some students choose
to pursue their education on a less than a full-time basis, students should plan accordingly for this extended period of time.

Students who have difficulties in the initial hours of enrollment at Shenandoah frequently make sufficient improvement in subsequent course work to overcome their deficit in grades or credit hours or both. For this reason, Shenandoah has set a rising scale of minimum requirements for the successive attempted credit hours, shown in the chart below, for determining the conditions under which a student may continue their education.

## Credit Hours Graded

| $1.00-23.99$ | 1.0 |
| :--- | :---: |
| $24.00-35.99$ | 1.25 |
| $36.00-47.99$ | 1.5 |
| $48.00-59.99$ | 1.75 |
| 60.00 and above | 2.0 |

Turning Point Program: any student failing to reach at least 2.0 GPA for a term or as a cumulative GPA must enroll in the Turning Point Program. The program is offered through the Academic Enrichment Center. Students remaining on probation for two consecutive terms will be subject to academic suspension.

## Condition of Probation

Students on probation may be required to carry a reduced course load as determined by the student's advisor and school/division dean/director.

## Conditions of Suspension

I. Students on suspension shall remain out of school for a period of one regular semester and shall not be permitted to enroll part-time during that period.
2. A petition for reinstatement must be made through the dean or director of the school or division and approved by the senior vice president \& vice president for academic affairs.
3. When reinstated, the student must achieve grades to place them in good academic standing within one semester. Failure to meet this condition shall result in academic dismissal.

## Condition of Dismissal

Only under justifiable conditions shall a petition for reinstatement be considered, and then only after a period of one calendar year from the date of dismissal.

## Social Suspension or Dismissal

Students suspended or dismissed for social reasons will receive a grade of "W."

## Distribution of Grades, Grade Point Averages and Academic Standing

The Registrar shall distribute grades, grade point averages, and statements of academic standing at the end of each semester to the student, their faculty advisor and school dean. Mid-semester grades will not be recorded on the student's permanent academic record and will have no bearing on academic status.

## Examinations

## Protected Study Periods

A period of time is designated at the end of each semester to provide appropriate time for students to prepare for final examinations, music juries, term papers and other such normal end-of-term instructional requirements. This protected period of time begins one full week prior to the start of final examinations and extends through the end of final examinations. The requirements for this protected study period are described below.

## Study Week

One full week immediately preceding the start of final examinations is designated as Study Week. Final examinations are prohibited during Study Week. The purpose of Study Week is to provide students with an instructional week free from extra activities. During Study Week, classes and clinical sessions are considered to be normal instructional activities where new educational material may be introduced.

Any activity scheduled outside of regularly scheduled class hours is curtailed except as individually approved by the senior vice president \& vice president for academic affairs in consultation with the appropriate dean or director.

## Final Examinations

Final examinations shall be scheduled by the Registrar and may not be altered in time or place without permission of the senior vice president \& vice president for academic affairs. Any requests for exceptions must go first to the dean or director who will make a recommendation to the senior vice president \& vice president for academic affairs.

The final examination period is part of the instructional time of the semester. If no final examination is administered, the time will be used for other educational activities for the members of the class.

## Student Participation in Commencement Ceremony

Recognizing that there are times when certain students are unable to complete all degree requirements in time for a scheduled commencement ceremony, students may participate in a commencement ceremony at any time after degree requirements have been met or when they are expected to be fulfilled prior to the next scheduled commencement ceremony. In fulfillment of this policy, the following guidelines apply:

## I. Commencement ceremonies will be scheduled two times a year, in August and in May.

2. Students who have not finished all requirements in time for the May ceremony, but who are expected to complete their requirements prior to August Commencement, may participate in the May ceremony when the dean/director of the school/division (or a faculty committee designated by the dean/director) in which the student is enrolled validates that such completion during the summer is appropriate and is extremely likely, given the character and previous performance of the student. A student may "walk only" when he/she has six or fewer credits to be completed. Exceptions may be approved only by the senior vice president \& vice president for academic affairs.
3. To increase accuracy and prevent damage to diplomas, Shenandoah University no longer distributes official degrees at the commencement ceremony. Diplomas will be mailed to the address provided by the student shortly after graduation, as long as the student has met all necessary obligations and requirements.
4. Only students who have fulfilled all degree requirements will be eligible for class honors. Those who complete requirements after the ceremony will be considered for class honors the following May. The year in which school honors are awarded will be the decision of the individual school.
5. For each degree earned, students may participate in one commencement ceremony. Accordingly, their name may be printed one time, for each degree earned, in the commencement program.

## Academic Honors

## Dean's List

Students enrolled in baccalaureate degree programs who have earned a minimum of 12 semester hours and who have attained a term grade point average of 3.25 with no grade below "C" will be placed on the Dean's List of honor students.

## Graduation Honors

All candidates for baccalaureate degrees are eligible for honors based on the cumulative grade point average for any credits earned after initial registration at Shenandoah University and at all other colleges and universities. The grade point averages required for undergraduate academic honors are:
3.900 - Summa Cum Laude, with highest praise
3.700 - Magna Cum Laude, with great praise
3.500 - Cum Laude, with praise

Gold cords are worn by students graduating with honors. Honors for the graduation ceremony are calculated at the end of the fall semester prior to graduation and are listed in the program. Final honors are calculated with the spring semester grades and appear on the transcript and diploma.

## Transcripts and Student Records

Shenandoah University accords to students all rights under the law. No one outside the institution shall have access to, nor will the institution disclose any information from, students' education records without the written consent of students, except to personnel within the institution, persons or organizations providing student financial aid, accrediting agencies carrying out their accreditation function, persons in compliance with a judicial order and persons in an emergency in order to protect the health or safety of other persons. All these exceptions are permitted under the Family Educational Rights and Privacy Act of 1974. School policy explains in detail the procedures to be used by the institution for compliance with the provisions of the Act. Copies of the policy can be found in the Office of the Registrar and in the Student Handbook.

Official transcripts of a student's record may be released to a third party only upon receipt of written authorization from the student. Requests for transcripts, certifications, and other similar information will not be honored unless all financial obligations due the university are satisfied. Financial obligations include, but are not limited to, items of tuition and fees, overdue library materials and unpaid library fines, checks returned to the bookstore and musical instruments that have been loaned and not properly returned to the Conservatory.

## STUDENT EXPENSES

Students who register at Shenandoah University obligate themselves to the terms and conditions, financial and otherwise, stated in this publication. In the event an account becomes delinquent, the student is responsible for all collection costs associated with collection, including attorney fees.

Term I charges are due in full on or before August I5, 2009, and Term II charges are due in full on or before December 15, 2009, unless the student chooses to apply for the Shenandoah University Payment Plan. Students and/or parents must complete a Payment Plan application by July I to be eligible to participate. In addition,
parents/students must meet acceptable credit standards. Term III tuition charges are due at the time of registration.

Tuition and housing charges for the 2010-11 academic year will be announced when approved by the board of trustees. The board of trustees reserves the right to alter the charge structure at any time.

## Undergraduate Tuition and Fees 2009-IO

## Tuition

Full-time Student ( 12 - 18 credit hours) $\$ 11,925 /$ term
Part-time Student (4 to 11.5 credit hours) \$695/credit hr.
Part-time Student ( 1 to 3 credit hours) $\$ 350 /$ credit hr.
Overload (Credits in excess of 18 credit hours) \$695/credit hr.
Audited Courses \$245/credit hr.

## Curriculum Fees

Private Instruction in Classes (Other than Applied Music) \$770/credit hr.
Clinical Fee \$175/course
Technology Fee (Mandatory for all full-time undergraduate students) \$500/term
Applied Music Lessons
Major (one-hour) Lesson \$275/course
Minor (one-half-hour) Lesson \$150/course
Studio Recording Fees
MUPP 162 Recording Systems Studio Time (.5 credit) \$350
MUPP 36I Digital and Advanced Studio Time (.5 credit) \$350
MUPP 47I Music Production I Studio Time (I credit) \$695
MUPP 472 Music Production 2 Studio Time (I credit) \$695

## Residence Halls

| Room and Board/I9-Meal Plan | $\$ 4,300 /$ term |
| :--- | ---: |
| Room and Board/I5-Meal Plan | $\$ 4,065 /$ term |
| Room and Board/I0-Meal Plan | $\$ 3,830 /$ term |
| Private Room Surcharge | $\$ 550 /$ term |

## Explanation of Charges

Full-time Students: Students registered for 12 or more credits, including applied music lessons, are considered full-time.

Part-time Students: Students registered for less than 12 credits, including applied music lessons, are considered part-time.

Residence Halls:The residence hall rates include housing and meals. Meals are served in the campus dining hall seven days a week except during published vacation periods. Students are responsible for their own linens. Refer to Shenandoah University's Web site (www.su.edu) or the Student Handbook for more information.

## Shenandoah University Payment Plan

Students/parents must complete an application and be approved to participate in the SU Payment Plan. Applications must be completed annually and returned to the Office of Student Accounts by July I.Applications are available online at www.su.edu/student_accounts. The SU Payment Plan, offered per term, consists of four equal payments due the 15 th of each month. Fall term payments are due August 15 through November 15 and spring term payments are due December I 5 through March I5. A two percent set up fee is assessed per term payment plan. All payments received five days after the payment due date or later will be assessed a $\$ 10$ late payment fee. The SU Payment Plan covers tuition, applicable curriculum/mandatory fees and room and board only. Shenandoah University reserves the right to refuse any application. Participants whose accounts become delinquent will forfeit their eligibility to participate in the SU Payment Plan. In addition students/parents are responsible for all collection costs associated with collection of delinquent accounts including attorney fees.

## Deposits

Undergraduate Advance Tuition Deposit: \$300
New students are required to remit an Advance Tuition Deposit by the date stipulated in the letter of acceptance from the Office of Admissions. This deposit is then credited to the student's account. Advance Tuition Deposits are non-refundable; however, requests will be considered for refunds due to extenuating circumstances. Refund requests must be made in writing to the Director of Admissions.

Room Lottery Deposit: \$100
Returning residential students are required to remit a Room Lottery Deposit by April 15. Upon receipt of the Room Lottery Deposit, a room reservation will be made on a space-available basis in order of receipt of deposit. Room Lottery Deposits are nonrefundable.

## Residence Hall Damage Deposit: \$100

New residential students are required to pay a Residence Hall Damage Deposit. This deposit is a one-time charge and is fully refundable once the student graduates or moves off campus, provided no damages have been assessed and all financial obligations to the university have been met.

## Special Purpose Fees - Charged When Applicable

Application Fee for Degree/Certificate Seeking (\$30): A non-refundable application fee is required for admission. This fee must be filed with the Admissions Office before official action can be taken on the application. In the event that the applicant does not enroll at Shenandoah University within 12 months after the date of application, and seeks admission thereafter, a new application must be filed accompanied by an additional application fee.

Late Registration Fee (\$50): A late registration fee is assessed to any student registering on or after the first day of the term.

Parking Permit (\$||5): A parking permit is required of all students who plan to park a vehicle on university owned or leased property. Payment is due at the time the vehicle is registered with the Business Office. This fee applies to both residential and commuter students.

Refund Policy Administrative Fee (\$100): Charged to all students who withdraw from the university after the add/drop period and within the first 60 percent of the term.

Returned Check Fee (\$25): This fee is charged for any check returned to the university.
Student Account Finance Charge: A finance charge of one percent per month will be assessed to all accounts 30 days old or older.

Student Services Fee (\$|50): Mandatory for all full-time undergraduate students. This fee covers upgrading and purchasing fitness equipment, intramural and recreational activities, funding the 45 student clubs and organizations, year-end ceremonies and underwriting the cost of events and activities that build community and support learning.

A complete list of Special Purpose Fees is available online at www.su.edu.

## Personal Expenses

Incidental expenses connected with membership in some of the campus organizations, freshman orientation activities, travel, and personal matters cannot be estimated since individual situations vary. The estimated cost of textbooks and supplies is approximately $\$ 500$ per term.

The university does not operate a campus bank for students. Students are urged to open a checking account with a local bank. Bank ATMs are located in the university's student center and outside the university book store.

## Withdrawal from the University

To withdraw from Shenandoah University at any time during the academic year, a student is required to obtain a Withdrawal/Leave of Absence Form from the Academic Enrichment Center. This form must be completed and returned to that office for the withdrawal to be processed in an accurate and timely manner.

## Tuition Refund Policy

Students withdrawing from the university during the published add/drop period will be fully refunded tuition, fees and housing charges.

For students withdrawing after the add/drop period, tuition will be prorated accordingly. The amount of tuition will be calculated on a prorated basis through the first 60 percent of the term. After 60 percent of the term has been completed, the student will be responsible for all tuition charges assessed and will not be eligible for a refund. The Office of Student Accounts will prorate tuition based on the withdrawal date provided by the student on the Withdrawal/Leave of Absence Form or the last date of attendance as recorded in the Registrar's Office. The determination of the payment period attended by the student will be calculated as follows:

$$
\frac{\text { Number of days completed }}{\text { Number of days in semester }}=\text { the percent of semester completed }
$$

This percentage will determine the amount of tuition charges that the student is responsible for paying. If the percentage is 60 percent or higher, the student is responsible for 100 percent of tuition charges assessed.

## Curriculum/Mandatory Fee Refund Policy

Curriculum/mandatory fees are refunded only to students who withdraw during the add/ drop period. After the add/drop period, curriculum/mandatory fees are non-refundable.

## Medical Withdrawals

Students withdrawing from the university for medical reasons will be dealt with on an individual basis. The student must first contact the Wilkins Wellness Center. A physician must provide confidential written documentation in support of a medical withdrawal. The Wilkins Wellness Center will approve or disapprove a medical withdrawal based on the information provided, with final approval from the senior vice president \& vice president for academic affairs.

## Distribution Order for Refunds

Credits applied to a student's account will first be returned to financial aid programs in accordance with mandatory federal and state guidelines, private organizations and Shenandoah University requirements. Any remaining amount of credit will first be applied to unpaid charges on the student's account with any remainder being refunded to the student.

## Housing Refund Policy

Room and board charges are refunded on a pro-rated basis of 15 weeks per term. Residence hall damage deposits will be fully refunded provided no damages have been assessed.

Shenandoah University reserves the right to hold transcripts, diplomas and other pertinent information until all financial obligations to the university have been satisfied.

## FINANCIAL AID

Shenandoah maintains a strong financial aid program to help as many deserving students as possible. Financial aid is awarded according to an individual's financial need and academic success in relation to college costs. Aid usually consists of a combination of scholarships, grants, loans and employment through the work-study or work-grant programs.

## Application Procedure

Shenandoah will send, upon request, a financial aid packet to prospective students. The packet contains the information needed to apply for federal, state and institutional programs.

Free Application for Student Aid (FAFSA): Students wishing to apply for financial aid are required to complete a FAFSA. The FAFSA should be completed as soon after January I as possible and must be filed each year. Include the federal code "003737" for Shenandoah University to ensure the university receives official FAFSA data. The FAFSA is submitted online at www.fafsa.ed.gov.

Virginia Tuition Assistance Grant Application:Virginia residents must return to the Office of Financial Aid a completed Virginia Tuition Assistance Grant Application by July 31. The application needs to be filed only once as long as the student maintains full-time enrollment status in the same program of study.

When a student has been accepted for admission and the director of financial aid has received the FAFSA and the Virginia Tuition Assistance Grant Application (see above), the director of financial aid will make an award and notify the student in writing. Awards should be accepted in writing within 14 days.

Students applying for summer financial aid should complete all the financial aid paperwork for the current and the next academic years.

## Satisfactory Progress

In order to receive federal, state, and most other forms of financial aid, students must maintain satisfactory progress in their course of study. Students are not making satisfactory progress if they:

- have been placed on academic suspension, or
- have been on academic probation for two consecutive semesters, or
- receive only grades of "F," "W,'" "I" or "IF"' or any combination of these grades for a semester, or
- fail to successfully complete the following minimum credit hour requirements.

Full-time students must successfully complete:
16 credit hours after 2 semesters of study 36 credit hours after 4 semesters of study
60 credit hours after 6 semesters of study
90 credit hours after 8 semesters of study
The baccalaureate degree in 10 semesters

The minimum credit hour requirements are prorated for students who attend less than full-time (i.e., 75 percent for $3 / 4$ time; 50 percent for $1 / 2$ time) or fail to maintain the following minimum cumulative grade point averages:

| Credit Hours | Minimum |
| :--- | :--- |
| Graded | Cumulative GPA |
| $1.00-23.99$ | 1.0 |
| $24.00-35.99$ | 1.25 |
| $36.00-47.99$ | 1.5 |
| $48.00-59.99$ | 1.75 |
| 60.00 | 2.0 or greater |

To continue to receive financial aid students must complete their degree within I 50 percent of the published program length. For example, if a program requires 100 hours to complete, students must complete their degree at the point I 50 hours are attempted. For any hours attempted over 150 a student is not eligible for financial aid.

## Reinstatement of Eligibility

Students may re-establish eligibility for financial aid by enrolling for classes at their expense until completing the minimum number of credit hours and achieving the minimum cumulative grade point average.

## Appeal Process

A student who has been denied financial aid because of unsatisfactory progress may appeal the decision by written notification to the director of financial aid.

## Semester Limits for Financial Aid

Students who intend to take longer than four years to complete a degree should realize that many federal, state and university financial aid programs limit assistance to eight semesters of full-time study. Students who do not take these limitations into consideration may find themselves unable to obtain aid for a fifth year of study. Please contact the Office of Financial Aid for more details if you will be attending more than four years.

## Study Abroad

Students in a study-abroad program are eligible for aid if the program is approved for credit by the university. To receive aid, the student must be enrolled as a regular student at Shenandoah University and there must be a contractual agreement between the university and the foreign college. The student will be charged at the university and upon being invoiced by the foreign college, like services (tuition and room and board) will be paid if equal to or less than SU services.

## Federal Aid Programs

Federal Pell Grants: Generally, a Federal Pell Grant is awarded only to undergraduate students who have not earned a bachelor's or professional degree. Eligibility for the Pell Grant is determined by the Office of Financial Aid based upon the results of the FAFSA in accordance with federal regulations.

Federal Supplemental Educational Opportunity Grant (SEOG): These grants are awarded by the university from federal funds to students demonstrating exceptional financial need. Priority is given to Pell Grant recipients.

Academic Competitiveness Grant (ACG): These grants are potentially available to Pelleligible students who have completed a rigorous high school program as defined by their state or the U.S. Secretary of Education. These grants are available to eligible students during their first and second academic years of college.

National Science and Mathematics Access to Retain Talent (SMART) Grant: National SMART Grants are potentially available to Pell-eligible students who are U.S. citizens and enrolled in a college major such as science, mathematics, technology, engineering, and certain foreign languages. At Shenandoah University, the current qualifying majors for 2009-10 are biology, chemistry and mathematics. These grants are available to eligible students for their third and fourth academic years of college.

Federal Perkins Loan: Perkins is a low-interest loan funded by the federal government and administered by Shenandoah University. Preference is given to students with exceptional need. Students may borrow up to $\$ 4,500$ per year if the student is enrolled in a program leading to a bachelor's degree, or a total of $\$ 27,500$ as an undergraduate. If a student is attending school at least half-time, they have nine months after they graduate, leave school or drop below half-time status before they must begin repayment. Students may have longer than nine months if they are on active duty in the military. At the end of the grace period, students must begin repaying their loans. Students may be allowed up to 10 years to repay.

Federal Work Study Program: This program is designed to provide assistance to students with financial need. Work-study students are employed in various departments on campus and are paid twice monthly, based on the number of hours worked.

Federal Community Service Work Study Program: This program allows students to work on campus or off campus at non-profit organizations such as the child care center and campus library that provide a service to the community.

Nursing Student Loan: These loans provide long-term, low-interest loans to help meet the cost of a nursing education for needy students. A bachelor degree-seeking nursing student may borrow \$2,500 to \$4,000 per academic year. If a student is attending school at least half-time, they have nine months after they graduate, leave school or drop below half-time status before they must begin repayment. Students may have longer than nine months if they are on active duty in the military. At the end of the grace period, students must begin repaying their loans. Students may be allowed up to 10 years to repay.

William D. Ford Federal Direct Stafford Loan: Federal Direct Stafford Loans are federal loans available to degree-seeking undergraduate students enrolled at least half-time. Stafford Loans may be subsidized and/or unsubsidized. A Subsidized Stafford Loan is awarded on the basis of financial need as determined by the FAFSA and SU. No interest will accumulate for the student prior to repayment of the loan or during authorized periods of deferment. The federal government will pay the interest during these periods. An Unsubsidized Stafford Loan is not awarded on the basis of financial need. Unlike a subsidized loan, interest will begin to accrue immediately from the time
the loan is disbursed until it is paid in full. Students are permitted the option of paying the interest each quarter or deferring interest payments until they enter repayment. Stafford Loans are not credit-based and carry a current origination fee of one-half percent. The origination fee is deducted from the loan amount prior to its disbursal to the university.

After students graduate, leave school, or drop below half-time enrollment, they will have six months before they must begin repayment of their loans. This period of time is called a grace period. Students are granted one grace period. Students may have longer than six months if they are on active duty in the military. Borrowers may take up to thirty years to repay their Stafford Loan.

The award letter will notify students of the maximum Stafford Loan they are eligible to receive. If the student wishes to decline the loan or request a different amount, the student must notify the Office of Financial Aid within two weeks. The returned award letter is the confirmation of the loan.

William D. Ford Direct Federal Parent PLUS Program: Federal Parent PLUS Loans are federal loans parents can borrow to pay for their dependent student's educational expenses. Students must be considered a dependent by the FAFSA, be a degree-seeking undergraduate and be enrolled at least half-time. Eligible parents who can borrow a PLUS Loan include a student's biological parents - whether they were listed on the FAFSA or not - and stepparents whose income was reported on the FAFSA. Parents must also pass a credit check in order to be approved for this loan.

Parent PLUS Loans currently carry a fixed interest rate of 7.9 percent and an origination fee of 2.5 percent. The PLUS Loan is borrowed directly from the U.S. Department of Education as part of the William D. Ford Direct Loan Program. Parents may borrow for each year of their student's undergraduate career, though subsequent credit checks will be required. Parents may take up to twenty-five years to repay their loan.

## Commonwealth of Virginia Aid Programs

Virginia Tuition Assistance Grant: This program is a state-funded, non-need-based grant available to first-time undergraduate and graduate students who are Virginia residents and are enrolled full-time. Once awarded, it is not necessary to reapply for subsequent years. The application is due July 31 and is available at the Office of Financial Aid's Web site and included in the financial aid award package.

## Shenandoah University Aid Programs

Aid amounts vary by program; please contact the Office of Financial Aid for more details. All awards are renewable for a total of four years as long as the recipient maintains a 2.5 grade point average and is enrolled full-time each semester in a degree program.

Presidential Scholarship: The Presidential Scholarship is a highly selective, limited scholarship available to incoming freshmen. In order to be considered, a student must have a minimum high school GPA of 3.8 and a score of 1200 on the SAT or its ACT equivalent. Scholastic and community activities are also considered in the evaluation process. Students must maintain a cumulative GPA of 3.0 and enroll in at least 12 credit hours a semester. Students cannot receive both a Presidential Scholarship and an

Academic Scholarship. No additional application is required to apply; eligibility is determined based upon a student's application for admission to the university.

Academic Scholarship: The Academic Scholarship is available to incoming freshmen and transfer students. For incoming freshmen, eligibility is based their high school GPA and SAT/ACT scores. For incoming transfer students, eligbililty determined by the student's cumulative GPA. The scholarship may be renewed annually for a total of four years. To remain eligible, recipients are required to maintain full-time enrollment as an undergraduate student and maintain a GPA of at least 2.5 (on a 4.0 scale). In addition, recipients must meet the Satisfactory Academic Progress requirements as defined by the Office of Financial Aid and listed in the undergraduate catalog. No additional application is required to apply; eligibility is determined based upon a student's application for admission to the university.

Shenandoah University General Grant: These grants are awarded to students with demonstrated exceptional need. The amounts vary from year to year, depending on the student's situation and funding availability.

Conservatory Talent Award: The Conservatory Talent Award is available to students pursuing a degree within the Shenandoah Conservatory.The scholarship is awarded based upon a student's application for admission to SU , their audition and the needs of the conservatory. The Conservatory Talent Award may be renewed annually for a total of four years. Recipients are required to maintain full-time enrollment as an undergraduate student, maintain a GPA of at least 2.5 (on a 4.0 scale), and meet requirements within the Conservatory to keep the award. This scholarship is awarded in addition to the Academic Scholarship.

## United Methodist Aid Programs

Virginia Conference United Methodist Scholarship: Shenandoah University offers a scholarship to full-time undergraduate students who are residents of Virginia and have been members in good standing of the Virginia Conference United Methodist Church for at least one year. Membership standing must be certified by their minister. This award is automatically renewed for up to four years for eligible students.

Ministerial Grants: Ministerial Grants are available to dependent children and spouses of Virginia Conference United Methodist ministers. Students must be a resident of Virginia and enrolled full-time to qualify. Recipients may receive the award for a maximum of four years. Ministerial Grant recipients are not eligible for other forms of SU aid.

## Endowed Scholarships

Endowed scholarships are funds that are donated to help meet the financial needs of worthy and needy students. Individuals and corporations donate funds from which the interest is awarded as grants and scholarships while the principal is maintained as part of our endowment program. An SU grant or academic scholarship is awarded early in the year and is later replaced by the proper endowment funds when the donor and student are verified.

## Credits and Refunds

Shenandoah University will determine refunds for those students withdrawing from the university using the following procedure.

Return of Title IV Funds: If a student withdraws from the university, his or her federal financial aid may be adjusted based on the percentage of the semester completed before withdrawing. In some cases, Federal Return of Title IV Funds regulations may require that aid be returned to the federal government for students who completely withdraw from the university before 60 percent of a term (calendar days) has been completed. Financial aid is awarded for the entire term, which is generally a I5-week period. If students do not complete the entire 15 weeks, then the Return ofTitle IV Fund rules will determine how much financial aid has been earned, which is the amount they can keep. The unearned portion must be immediately returned to the federal government. In some situations, this may leave a student with a balance owed to the university. Funds are returned to the federal government in the following order: Unsubsidized Stafford Loan, Subsidized Stafford Loan, Perkins Loan, Graduate PLUS Loan, Parent PLUS Loan, Pell Grant, Academic Competitiveness Grant, National SMART Grant, and SEOG (grant).

The following are the basic steps to the formula used to calculate the amount of funds that must be returned to the Title IV programs:
I. Determination of date of withdrawal and percentage of payment period attended by the student.
2. Calculation of amount of Title IV aid earned by the student.
3. Comparison of amount earned and amount disbursed to determine amount unearned.
4. If amount earned is greater than the amount disbursed, determine late disbursement.
5. If amount earned is less than amount disbursed, determine amount of Title IV aid that must be returned.

Refund of State and Institutional Funds: State and institutional refunds will also be calculated using the percent of payment period attended by the student. The unearned amount will be returned to the source of the funds.

Refer to Student Expenses section for information on refunds, tuition, fees and room and board.

## RETENTION OF STUDENT RECORDS

Official student academic records at Shenandoah University are defined as those records maintained and secured by the Registrar.

## Official Student Academic Transcript

Student transcripts are kept permanently. The official student academic transcript is maintained in hard copy for a period of 10 years after graduation or date of last attendance, after which time it is stored electronically. The hard copy may be retained for a period of up to 10 additional years, depending upon space availability, after which time it is destroyed by shredding or incineration.

Since 1986, permanent student records have been maintained in electronic or machine readable format. Backups are done automatically on a daily basis. Permanent backup tapes are made at the end of each fall and spring semester. Copies retained on magnetic media are destroyed by magnetic erasure or incineration.

All hard copies of permanent student records are stored in a locked, fireproof vault in the Office of the Registrar or in fireproof filing cabinets in that office. Computer tapes and a duplicate copy of the micrographic forms are also stored in the vault.

Other documents germane to the official student academic record that are retained for a period of 10 years after graduation or the date of last attendance include:

Academic Actions Authorizations (Suspension, Dismissal, Course Substitution/Waiver Approvals, etc.)

Acceptance letters
Address change authorizations
Advanced placement records
Application for Graduation
Application for Admission or Readmission
Correspondence
Credit by Examination forms
Curriculum Change forms
Degree Audit/Completion forms
Entrance Examination Reports (ACT, CEEB, etc.)
International student forms (l-20, etc.)
Name change authorizations
Registration forms
Schedule Adjustment forms (Drop/Add, Withdrawal, etc.)
Student Enrollment Certifications/Verifications

Transcripts from high schools, other colleges and universities
Transfer credit evaluations
Withdrawal forms
The following documents are maintained for a period of one year after receipt:
Student transcript requests
The following documents are maintained until a student is admitted:

## Audition reports

Letters of recommendation
In addition to the student records defined as permanent and maintained in the Office of the Registrar, the university offices listed below maintain and keep records specific to those offices from one year to infinity. The retention and disposal records of each of the offices are available and can be viewed in the Academic Enrichment Center.

Academic Enrichment Center
Bernard J. Dunn School of Pharmacy

## Career Services

College of Arts \& Sciences
Financial Aid
Global \& Community Education
Harry F. Byrd, Jr. School of Business
School of Education \& Human Development
School of Health Professions
Shenandoah Conservatory
Student Accounts
Student Affairs
Wilkins Wellness Center

## REQUIREMENTS

Candidates for baccalaureate degrees at Shenandoah University must complete all of the following in order to graduate:
I. A minimum of 120 credit hours
2. The university-wide general education curriculum
3. Any school or division core curriculum requirements
4. Requirements for the major, program of study, minor and/or concentration

Students are expected to graduate under the requirements of the catalog of the year in which they matriculate into the university. However, with the dean/director's permission, students may graduate under the requirements of the catalog of the year they graduate from the university.

## General Education Curriculum

The general education program is required of every student entering Shenandoah University as a first-year freshman. This requirement is in addition to the college/school requirements and the major/program of study requirements. Transfer students should consult with their advisor and/or the director of general education concerning their general education requirements.

Students should direct all questions regarding general education to their college/school/ program dean or director and/or the director of general education at gened@su.edu.

## Statement of Purpose

The purpose of general education at Shenandoah University is to provide students with the knowledge, skills and opportunities to be active, ethical and productive citizens in a changing and diverse world.

## Quick Reference Guide for General Education

Students must complete at least one course in each of the seven domains.
A maximum of six credits per domain may count toward a student's general education requirements with the exception of the scientific world domain, in which students may take a maximum of eight credits.

Students must complete ENG IOI or its equivalent (this will fulfill the Domain I requirement).

First-time, first-year students must complete the QEP $10 \mid$ course (this will fulfill the Domain 7 requirement).

Students must complete a minimum of thirty general education credits.
In addition, all students must complete the four intensity requirements.

## Program Objectives

Shenandoah University's general education program targets three primary areas that the faculty and students have identified as essential to productive citizenry: I) critical
thinking 2) effective communication and 3) creative performance. The general education requirements are designed to enhance the skills of Shenandoah students within all of these areas.

## Critical Thinking

Critical thinking includes understanding and analyzing the information presented, synthesizing and evaluating knowledge while applying newly learned material to the problem-solving process. Included within this area are problem identification, assessment, solution generation and re-evaluation. The development of critical thinking skills occurs as the student gains practical knowledge and is able to synthesize information from multiple contexts and disciplines to increase understanding and apply knowledge.

## Effective Communication

Effective communication includes expression and articulation of original ideas, active listening and an understanding of verbal, nonverbal and scientific language. In order to communicate effectively, individuals must understand the rules and the structure of language. In addition, the communicator must recognize social and cultural norms and understand their role in multiple environments. The purposes of both written and oral communication are to understand, inform and motivate. The written word is an especially essential method of communication; therefore, an emphasis is placed on writing throughout the general education program of study. The objective of writing in the SU general education program is to produce effective writers who demonstrate command of rhetorical and ethical principles, grammar rules, mechanical conventions, conventions of usage and critical thinking.

## Creative Performance

The act of performance includes thinking and communicating while engaging in activity; whereas creativity includes generating original ideas, demonstrating initiative and using one's imagination. Along with these foundational characteristics, creative performance is also predicated on the synthesis of and creation from previously acquired knowledge. In addition, creative performers contribute to the profession and the body of knowledge of the areas in which the individual performs. As a result, Shenandoah's general education program is designed to give its students the tools they need not only to perform effectively but also to challenge the current and/or traditional boundaries of their field and to excel in their future creative endeavors.

## Domains of Knowledge and Intensities

Seven domains of learning form the foundation of the general education program at Shenandoah University. Each domain fosters at least one element of the program's primary goals. The general education program exposes students to multiple methods of thinking, questioning and knowing. Through an exploration of the domains of communication in multiple contexts, the arts and society, quantitative literacy, the scientific world, moral reasoning, foundations of human behavior and historical and cultural perspectives, students develop an awareness of the world around them and the ability to perform effectively in the communities in which they engage.

The following is an overview of the seven domains. A maximum of six credits per domain may count towards a student's general education requirements with the exception of the scientific world domain, in which students may take a maximum of eight credits.

## Requirements

## Domain

Communication in Multiple Contexts (CMC)
(Every student must complete ENG IOI or its equivalent)
The Arts and Society (AS) 3-6
Quantitative Literacy (QL) 3-6
The Scientific World (SW) 3-8
Moral Reasoning (MR) 3-6
Foundations of Human Behavior (HB) 3-6
Historical and Cultural Perspectives (HCP) 3-6
Total General Education Credits 30 credit minimum

In addition to the domain requirements, students must also complete the intensity requirements. These courses are skill-directed proficiency courses that will assist students in becoming productive citizens. These courses may overlap with the domain courses and/or other intensity courses but do not require a specific number of credits. It is anticipated, but not mandated, that students will fulfill the majority of these credits within their major. The following are the intensity requirements:

One course designated Information Literacy Intensive (ILI)
One course designated Writing Intensive (WI)
One course designated Oral Communication Intensive ( OCl )
One course designated Technology Intensive (TI)

## Domain I: Communication in Multiple Contexts

## $3-6$ credits (Students must complete ENG IOI or its equivalent)

Rationale: Written and oral communication skills are essential for the educated individual and the productive citizen as they offer a means for participation and self-expression in a variety of different situations. As a result, courses focusing on communication in multiple contexts are designed to engage students on theoretical and practical levels along with the enhancement of students' critical thinking skills.

Definition: Courses in this domain help students cultivate the skills necessary to express themselves in a variety of different situations.

Objectives: Upon completion of courses in the area, students will:
I. Demonstrate the ability to engage actively in communication practices, written and verbal; and
2. Demonstrate the ability to communicate in multiple contexts.

## Domain 2: The Arts and Society

3-6 credits
Rationale:The purpose of this domain is to introduce students to the arts and literature throughout the centuries. An understanding and appreciation of arts and literature is an essential characteristic of the educated individual and provides students with an introduction to media of expression that reflect the human experience.

Definition: Courses in this domain will engage students in either artistic performance or the study of a form of artistic performance. Specific courses are designed to reinforce methods and techniques regarding performance practices and skill development in the areas of music, dance, theatre, visual art and creative writing, and/or engage students in the study of music, dance, theatre, visual art and literature in relation to people, place and time.

Objectives: Upon completion of courses in this area of study, students will:
I. Demonstrate methods of artistic performance;
2. Demonstrate an awareness of methods and techniques related to the artistic discipline (i.e. music, dance, theatre, visual art and/or creative writing); and/or
3. Demonstrate an awareness of the role of the arts as part of the human experience in relation to history and culture; and
4. Demonstrate an awareness of relationships between and among arts disciplines and within arts disciplines (inter- and intra-disciplinary connections).

## Domain 3: Quantitative Literacy

## 3-6 credits

Rationale: Members of an increasingly technological society are frequently confronted with issues that originate in the discipline of mathematics. Thoughtful consideration of such matters requires a degree of quantitative literacy and therefore, the educated person should be familiar with such forms of analysis. In addition, the process by which mathematicians have established this understanding is essential to a fundamental awareness of the natural world.

Definition: Courses in this domain seek to address the students' understanding of the fundamental workings of our world from the viewpoint of mathematics.

Objectives: Upon completion of this area of study, students will:
I. Demonstrate an awareness of the principles and practices of mathematical analysis; and
2. Demonstrate the ability to use mathematics in the analysis of questions and the solution of problems.

## Domain 4: The Scientific World

3-8 credits
Rationale: Members of an increasingly technological society are frequently confronted with issues that originate in the sciences. Thoughtful consideration of such matters
requires a degree of scientific knowledge and therefore, the educated person should be familiar with a scientific understanding of our world. In addition, the process by which scientists have established this understanding is essential to a fundamental awareness of the natural world.

Definition: Courses in this domain seeks to address the students' understanding of the fundamental workings of the world from the viewpoint of the natural sciences.

Objectives: Upon completion of courses in this area of study, students will:
I. Demonstrate an awareness of the principles and practice of the scientific method; and
2. Demonstrate the ability to use scientific methodology in the analysis and solution of problems.

## Domain 5: Moral Reasoning

## 3-6 credits

Rationale: Members of an increasingly complex global community need the ability to engage in moral reasoning that includes the exploration of thoughtful questioning. Content in this domain is designed to assist students in the investigation of personal values and ways of thinking that foster creative problem-solving and ethical decisionmaking. Courses in this area enable students to identify creative solutions to difficult problems and to evaluate their actions based upon a foundational understanding of ethics, philosophy and religion.

Definition: Courses in this domain will provide students with the opportunity to evaluate problems and events, generate multiple solutions, and actively participate in the problem solving process, considering both the short- and long-term impact of actions and decisions.

Objectives: Upon completion of courses in this area of study, students will:
I. Demonstrate awareness of foundational knowledge of ethics, philosophy and religion;
2. Demonstrate awareness of ethical principles consistent with the area of study;
3. Demonstrate awareness of how ethics, religion or philosophy shape the decision making process; and
4. Explore personal values and how these values may be reflected in the area of ethics, religion and philosophy.

## Domain 6: Foundations of Human Behavior

## 3-6 credits

Rationale:This domain introduces students to those disciplines that investigate the individual and societal aspects of the human experience. Courses within this domain provide students with an appreciation for the interrelationship of the person and the social environment.

Definition: Courses in this domain will provide students the opportunity to explore theoretical principles related to the foundation and development of human and/or societal behavior.

Objectives: Upon completion of courses in this area of study, students will:
I. Demonstrate an awareness of the role the individual plays in the human experience; and
2. Demonstrate an awareness of the theoretical and practical aspects of self or how individuals participate in and shape society.

## Domain 7: Historical and Cultural Perspectives

3-6 credits (Every first-time, first-year student must complete QEP IOI)
Rationale: A historical and cultural perspective of the world entails both an understanding of how peoples, cultures and governments function as a consequence of historical change and an appreciation of other ways of thinking, doing, communicating and performing. Such a perspective on the world is a cornerstone of productive citizenship. As a result, history, economics, cultural diversity and politics provide essential perspectives for students and citizens of the 21 st century.

Definition: Courses in this domain are designed to assist students in understanding the contemporary world, how it came to be, and the roles individuals play in multiple and varied communities, along with fostering an appreciation of cultural diversity. The ultimate goal of this domain is the expansion of the students' understanding of the changing and complex world.

Objectives: Upon completion of courses in this area of study, students will:
I. Demonstrate an awareness of today's world and their role within it as a consequence of decisions made and actions taken by people, communities and governments in the long span of human history; and
2. Demonstrate an awareness of citizenship as creative and productive action in today's world; and/or
3. Identify similarities and differences in human activity;
4. Demonstrate an awareness of how diversity influences individuals and communities; and
5. Demonstrate an awareness of the role of diversity and tolerance in society.

## Intensity Courses

Courses throughout the general education program as well as the major area of study may include intensive use of skills and knowledge in specific areas. Students are required to complete a minimum of one course designated "intensive" for each of the areas of information literacy, writing, oral communication and technology. Students will find that many of these courses may be taken within their major/program of study or within the general education program's domain courses.

## Information Literacy Intensive

(ILI Designation - A minimum of one course is required.)
I. Courses will introduce students to bibliographic sources of information in a specific field or multiple disciplines.
2. Courses will instruct students in the process of bibliographic research.
3. Students will learn to locate and access information in print and electronic media.
4. Courses will include instruction in the critical evaluation and effective use of bibliographic resources needed to support a written or oral presentation.
5. Upon completion of the course, students will recognize that the skills and knowledge learned in a research-intensive course are transferable to other settings.
6. Courses will instruct students in legal and ethical acquisition and utilization of bibliographic information.

## Writing Intensive

(WI designation - A minimum of one course is required.)
I. Skills and knowledge acquired throughout the course are reflected in a written format.
2. Writing is essential to the course content and evaluation.
3. At least one substantial paper or a number of significant smaller papers must be completed.
4. A substantial part of the course grade must be based on papers.
5. Feedback on writing style and content must be provided by the instructor.
6. The required writing intensive course is in addition to the ENG 101 requirement for the communication in multiple contexts domain.

## Oral Communication Intensive

( OCl designation - A minimum of one course is required.)
I. Skills and knowledge acquired throughout the course are reflected in oral presentations.
2. Oral presentations are essential to the course content and evaluation methods.
3. A substantial part of the course grade must be based upon oral presentation.

## Technology Intensive

(TI designation - A minimum of one course is required.)
I. Successful completion of the course is dependent on the student's ability to demonstrate basic information technological skills.
2. Information technology is a critical component to understanding, analyzing and/or gaining access to information.
3. Information technology must be used as the primary source of communication, presentations and course assignments.

# COLLEGE OF ARTS \& SCIENCES 

Calvin H. Allen, Dean<br>Gregory Hall, Room 157<br>(540) 665-4587

Beverly Brown Schulke, Associate Dean
Henkel Hall, Room 205
(540) 535-3589

## Statement of Purpose

The College of Arts \& Sciences has adopted the following objectives reflective of the mission statement of Shenandoah University:
I.To arouse in Shenandoah University students an awareness of the need for lifelong commitment to learning.
2. To encourage students to develop a comprehensive view of their educational experience regardless of their vocational interests or particular disciplines.
3. To consider matters of mutual academic and scholarly concerns to the various constituencies of Shenandoah and to stimulate meaningful discussion in these areas.
4. To assist students in exploring the career opportunities available to Arts \& Sciences graduates and to prepare for admission to graduate and professional schools.

## Degree Requirements

I.The minimum number of credit hours required for an Arts \& Sciences baccalaureate degree is 120, with 36 of those hours at or above the 300 level. No more than 8 onehour activities credits or 42 hours in a single prefix may count toward I20-hour graduation requirement.
2. A student must complete at least 12 credit hours of 300-400 level major course requirements while in residence at Shenandoah University.
3. In addition to general education, all students must complete the college Core Curriculum. The college Core Curriculum complements the university's general education requirements. Students transferring into Shenandoah University with an associate degree in a liberal arts discipline are exempt from the core curriculum.
4. Finally, all students will complete the requirements for a major. Students may also complete a second major, minors or certificate programs. A grade of " C " or better is required of each course counted toward a major, minor or certificate.

## Core Curriculum

(Effective Admissions, Fall 2003)
Course or Discipline Credits
ENG IOI ..... 3
A literature class from among: ED325; ENGIO2, 202, 246, ..... 3
265, 266, 285, 286, 3 I 0, 3I5, 3I9, 32।-99; FR3II, 3I2;
GER3II, 3I2; SPAN320, 325
A social science class from ANTH, EC, GEO, KIN (3 credit ..... 3
courses only), PSCI, PSY or SOC
A humanities class from AMST, ART, ENG, FL, HIST, HU, ..... 3
MCOM, PHIL, or REL
Foreign language (competency through the intermediate (202) ..... 6*
level in a single language)
Natural science or math (in addition to general education) ..... 3-5
KIN IOI + one activity course ..... 2
Total ..... 23-25**
*Students who have completed a minimum of two years of a foreign language in high school should register for 201. Those students who have not studied a foreign language or who wish to study a foreign language different from one taken in high school can expect to complete 12 hours of a foreign language to meet this requirement.
**No more than 12 hours of this core curriculum may overlap with general education requirements.

## Attendance

It is the policy of the College of Arts \& Sciences that if a student misses more than 20 percent of the contact hours in a course, for any reason, the student will have to withdraw from the course before the withdrawal deadline or receive an "F" as a final grade. The instructor may modify this policy according to the nature of the course.

## Academic Programs

## Core Studies Program

Students are not required to declare a major but may choose to enter the Core Studies Program. This program has three main thrusts: to help students identify their academic strengths and interests through course work in different disciplines; to help students identify the careers for which their strengths and interests best suit them; and to guide them toward completion of the general education and core curriculum requirements underlying all majors in the College of Arts \& Sciences.

Core Studies students will remain in close contact with an academic advisor who is familiar with the range of academic programs and support services available at Shenandoah University. These students will be encouraged to take courses from a wide range of disciplines. They will be encouraged to take advantage of the help provided by Career Services and the Academic Enrichment Center. Core Studies students are invited to special events designed to stimulate exploration of various areas of study and work and to create a sense of community among those weighing their options.

Students in the Core Studies Program may declare a major at any time but must do so by the end of the sophomore year.

## Citizen Scholars Program

The mission of the Citizen Scholars Program is "to develop responsible leaders through a challenging and engaging living-and-learning experience for the most promising students in the College of Arts \& Sciences."' Citizen Scholars take special seminars together beginning in their first semester at the university. Taught by the college's very best teachers, Citizen Scholar seminars empower students for global citizenship by addressing some of the most significant issues, such as human rights, terrorism, hunger and the AIDS crisis. In addition, Citizen Scholars typically share a floor in a campus residence hall and participate in social, cultural and community service activities beyond the classroom designed to enhance their experience and to fulfill the mission of the program. Admission to the program is by invitation of the dean of the College of Arts \& Sciences Calvin Allen; faculty director is Dr.Tiffany Shoop.

## Honors Program

The College of Arts \& Sciences seeks to address the individual academic needs of students with a wide range of skills and interests. In keeping with this goal, the College of Arts \& Sciences provides enhanced course offerings for those students with above average ability or special interests in a particular course or discipline. This might be in the form of specifically designated honors sections of courses but may also take the form of an individually directed program within the context of a regular course offering. Subject to the approval of the instructor, all College of Arts \& Sciences courses are eligible for honors designation. A student desiring to undertake the honors curriculum in a particular course will, with the approval of and in cooperation with the faculty member for that course, complete an honors contract spelling out the specific requirements. These requirements must be both quantitatively (representing approximately one credit hour additional effort) and qualitatively more rigorous than the normal requirements for the course. The completed contract will be reviewed and approved by the appropriate department chair. Copies of all honors contracts (whether approved or not) will be forwarded to the dean of the College of Arts \& Sciences. The contract must be completed before the conclusion of the university's course addition deadline to ensure proper registration. In the event that either the faculty member or student believes that the terms of the contract are not being or cannot be met, the honors contract can be broken and the student returned to regular enrollment status for the course. Successful completion of the honors course requires that the student fulfill all terms of the honors contract and earn either an "A" or "B" for the course. Courses for which a student earns honors designation will be so indicated on the student's transcript.

## Pre-Health Professions Programs

Students wishing to qualify for admissions to health professions such as medicine, physical therapy, occupational therapy, pharmacy, veterinary medicine, physicians assistant, etc., generally complete an undergraduate major that includes strong preparation in the basic sciences or psychology. Typical majors for such fields are biology, chemistry, kinesiology and psychology.

Students planning on applying for admission to professional-level programs should work closely with the appropriate academic advisor to plan a sequence of courses that will
meet the prerequisites of the institutions in which they are interested. Information concerning alternatives is available in the Dean's Office, College of Arts \& Sciences.

Students interested in early admission programs offered through the Division of Physical Therapy and the School of Pharmacy should refer to the University Studies section. Students interested in the early admission program to the Division of Athletic Training should refer to the Kinesiology section. Students interested in the early admission program to Occupational Therapy should refer to the Psychology section.

## Pre-Law Study

William Shendow, Director
Smith Library, second floor, (540) 665-4697
The College of Arts \& Sciences offers a pre-law program for students considering law school admissions and a career in the law. No separate curriculum is prescribed, but pre-law students major in the field of their choice and take electives in those areas that develop communication skills, reasoning ability and an understanding of the social context of American law and legal practice. As its philosophy, the Shenandoah University pre-law program holds that the best preparation for the study and practice of law lies in mastering the skills of writing, critical thinking and cultural understanding inherent in a liberal arts education.

The pre-law program is administered through a pre-law advisor, who counsels students on appropriate courses, law school admissions procedures and preparation for law school admissions tests.

## Degree Programs in the College of Arts \& Sciences

Through the College of Arts \& Sciences, Shenandoah offers 18 baccalaureate majors and 20 minors. In addition, courses leading to Virginia teacher certification in elementary and secondary education are offered. The majors and minors in the degree programs have been developed to serve the needs of students with immediate career objectives as well as those who plan to go on to professional and graduate schools. Unless a specific degree program is highly structured, students are given considerable latitude to select specific elective courses. Those students who wish to design their own multidisciplinary major may do so through the University Studies (B.A.) program.

Each major has general and specific requirements to which the student can add as many electives as academically and financially possible. While not required, a minor is strongly recommended. Through careful planning, the capable student can take up to 144 credit hours of work during four years of college without an increase in tuition or fees.

Students planning to continue their education after graduation should consult graduate or professional school catalogs to determine admissions requirements at those institutions. They should discuss these requirements with their advisors at Shenandoah University so that they might be fully qualified. Degree programs available within the College of Arts \& Sciences are listed below under their appropriate divisions.
American Studies (B.A.)John Jacobs, Professor of EnglishGregory Hall, Room 207, (540) 665-4597

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |

## Biology (B.S.)

Nina Parker, Associate Professor of Biology
Gregory Hall, Room I09B, (540) 665-4593
The Biology major offers a wide variety of opportunities for students to develop both fundamental and in-depth knowledge within the disciplines of the biological sciences. Students will participate in comprehensive hands-on laboratory-based activities that will promote the development of technical skills used in biological science investigations.

The Biology major has been designed to allow students to pursue specialized interests in secondary biology education, field biology and the health-related professions including medicine, dentistry, veterinary medicine, physician assistant, physical therapy, occupational therapy and athletic training, and all related fields of study at the graduate level.

## Courses Required for the Biology Program

| Course |  | Title C | Credit Hours |
| :---: | :---: | :---: | :---: |
| BIO | 121 | General Biology I | 4 |
| BIO | 122 | General Biology II | 4 |
| BIO | 260 | Microbiology | 4 |
| BIO | 312 | Genetics | 4 |
| BIO | 321 | Ecology | 4 |
| BIO | 409 | Cell Biology | 4 |
|  |  | Biology electives* at or above the 200 level | 6-8 |
|  |  | 4 credit hours of course work in which student's will experience and participate in investigative research, writing styles of scientific disciplines, and develop technical skills used in scientific procedures. The following courses are acceptable: BIO 191, BIO I92, BIO 49I, BIO 492, CHEM 49I, CHEM 492, ES 390, ES 42I, or any courses approved by the department chair. | 4 |
| CHEM | 121 | General Chemistry I | 4 |
| CHEM | 122 | General Chemistry II | 4 |
|  |  | Chemistry at or above the CHEM 200 level | 8 |
|  |  | Total | 50-52 |

Collateral recommendation:
Physics at or above the II level 8
MATH 207 Introduction to Statistics 3

## Courses required for the Biology Minor

Course
Title
Credit Hours
Biology Electives*
20
Total 20

The following courses are acceptable as Biology electives:

| CHEM 312 | Biochemistry |
| :--- | :--- |
| ES 101 | Introduction to Environmental Studies |
| ES 421 | Environmental Measurement Methods |

Additional courses of 16-24 credits can be selected for students to pursue specialized interests in Biology.
a) Field Biology
b) Microbiology and Clinical Laboratory Sciences
c) Biology Teacher Licensure
d) Pre-Medicine and Pre-Dentistry
e) Pre-Physician Assistant
f) Pre-Physical Therapy
g) Pre-Occupational Therapy
h) Pre-Veterinary Medicine
*See the program coordinator for recommended courses.

## Chemistry (B.S.)

Diep Ca, Assistant Professor of Chemistry Gregory Hall, Room 2I0, (540) 678-4330

The Chemistry program prepares students for graduate study in chemistry; further studies in health-related occupations such as pharmacy, medicine, and dentistry; teaching in secondary schools; and for a wide variety of chemistry-related positions in industry and government, including quality control, environmental control, production supervision and research and development. The program also provides necessary experience and background for students studying biological or environmental science. Development of comprehension, expertise and hands-on skills occur in a supportive laboratory-based environment and culminate in an individualized research project.

## Criminal Justice (B.S.)

Beverly Brown Schulke, Associate Professor of Criminal Justice
Henkel Hall, Room 205, (540) 535-3589
The Criminal Justice major provides a broad understanding of criminal justice principles and issues in the framework of contemporary society. The major equips students with the breadth of knowledge expected of a liberal arts education. Students majoring in Criminal Justice will be prepared to work in entry-level positions in law enforcement, courts or corrections agencies at the local, state or federal levels or to continue their studies at the graduate level.

## English (B.A.)

John Jacobs, Professor of English
Gregory Hall, Room 207, (540) 665-4597
The English major is designed to help students become critical thinkers, perceptive readers and skilled writers. Through study of great works of Western and world literatures, English majors develop a deep understanding of humankind's artistic heritage, which reflects and shapes humankind's historical, intellectual, psychological and spiritual dimensions. English majors are prepared for a wide variety of careers - including teaching (with appropriate certification), librarianship, academic administration, business, writing, editing, advertising, public relations and civil service - and graduate and professional schools.

## English as a Second Language (Certificate only)

## Sara White

Academic Enrichment Center, (540) 678-4302

All international students for whom English is not their first language and who have been admitted to the university on a provisional basis or as a "special student" are expected to enroll in ESL academic support classes until they have met the English Language Proficiency standards. Students are placed in appropriate ESL classes based upon TOEFL or IELTS scores, recent writing samples and individual conferences with ESL and academic program faculty members.

ESL students are prepared for the academic classroom through a series of courses that emphasize the integration of speaking, listening, reading and writing skills, and incorporating the use of information systems. International students who are able to demonstrate a basic understanding of English may take academic classes while enrolled in ESL with the approval of the instructors of both the ESL and academic classes. This enables the international student to have direct experience in taking academic classes while receiving individualized support in English from ESL instructors and teaching assistants.

Students who demonstrate proficiency in English, through either passing a course at the 109 level or above with a grade of "B" or higher, or through earning a passing score on the TOEFEL, are released from ESL requirements. After gaining ESL proficiency, students may elect to continue improving their English through advanced courses.

Students enrolled in the English as a Second Language Certificate program will be eligible to receive the certificate when they complete two courses at the Intermediate Level and two courses at the Advanced Level with a cumulative GPA of 3.0 or higher for a total of twelve credits.

| Intermediate Level | 3 |
| :--- | :--- |
| ESL I06 Intermediate English Listening Comprehension | 3 |
| ESL I08 Intermediate English Speech Communication | 3 |
| ESL I09 Intermediate English Reading and Writing |  |
|  |  |
| Advanced Level | 3 |
| ESL I2I Advanced English as a Second Language Composition | 3 |
| ESL 122 | Advanced English as a Second Language Speech Communication |
| ESL 195 Topics | 3 |

## Environmental Studies (B.S.)

Woodward Bousquet, Professor of Environmental Studies and Biology Gregory Hall, Room 2I 3, (540) 665-546|

Environmental Studies combines perspectives from the natural and social sciences with applied experiences in the laboratory, field sites and community settings. The major consists of required courses and projects that provide an interdisciplinary understanding of environmental concepts, issues and methods for resolving problems. Additional courses enable the student to develop selected competencies in greater depth as preparation for graduate study and/or a professional career.

## Courses Required for all Environmental Studies Majors

| Course | Title |  | Credit Hours |
| :--- | :---: | :--- | :---: |
| ES | 101 | Introduction to Environmental Studies | 3 |
| ES | 290 | Environmental Issues Seminar | 2 |
| ES | 319 | Environmental Policy and Programs | 3 |
| ES | 390 | Environmental Research Seminar | 2 |
| ES | 419 | Community and Regional Studies | 4 |
| BIO | 121 | General Biology I | 4 |
| BIO | 122 | General Biology II | 4 |
| BIO | 321 | Ecology | 4 |

CHEM 121 General Chemistry I ..... 4
GEOL 201 Geology ..... 4
Electives - One skill-oriented course selected from the list below:
ES 340 Environmental Education ..... 4
ES $399 \quad$ Introduction to GIS ..... 3
ES $421 \quad$ Environmental Measurement Methods ..... 4
Or another approved course at the 200-level or above
One geography-oriented course selected from the list below:
GEO 201 Economic Geography ..... 3
GEO 301 Human Geography ..... 3
HIST 340 Documenting Historic and Cultural Resources ..... 3
Or another approved course at the 200-level or above
Two content-oriented courses selected from the list below:
PSCl 201 U.S. Federal Government ..... 3
PSCl 202 State and Local Government ..... 3
BIO 344 Plant Morphology ..... 4
BIO 35I Vertebrate Zoology ..... 4
BIO 325 Animal Behavior ..... 4
CHEM 122 General Chemistry II ..... 4
CHEM 211 Analytical Chemistry ..... 4
Or another approved course at the 200-level or above Total ..... 47-50
Collateral Recommendations:
MATH 207 Introduction to Statistics ..... 3
MCOM 150 Principles of Public Speaking ..... 3
ISCT I06 Personal Computer Applications ..... 3

Many of the electives listed above can be combined with other courses to develop a specialized field within the broad profession of environmental studies. While optional, I5-20 credits are highly recommended. All specialized fields include an internship. See the program coordinator for recommended courses.

## Specialized Fields:

Environmental Analysis
Environmental Education
Environmental Policy
Field Biology
International Environmental Studies
Self-Designed Field

|  |  | Total | 18 |

## History (B.S.) <br> Julie Hofmann, Assistant Professor of History Davis Hall, Room 207, (540) 665-4792

The major in History is designed to increase an understanding of the present and future by studying and interpreting the past.The content and methodology of historical studies is basic to a liberal arts education in the 21 st century and to an understanding of the world and the dynamics of change. History also provides a firm foundation for many careers. Recent graduates have found their way into various professions, such as museum and curatorial positions, law, journalism, school and college teaching, government service, foreign service, as well as admission to graduate study in a specialized field.

Required courses in the History major provide introductions to the primary historical traditions of world and U.S. history, political theory, methods of historical research and writing and other disciplines such as economics, literature and art, which bear on the historical process. Students are encouraged to use elective hours to develop depth in an area of emphasis such as American political and cultural histories or historic preservation. Students may also prepare for the teaching profession at the elementary, middle and secondary levels.

## History Major Core

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :--- |
| HIST | 101 | World Civilizations I | 3 |
| HIST | 102 | World Civilizations II | 3 |

## Public History Certificate Program

Ann Denkler, Assistant Professor of History

Davis Hall, Room 204, (540) 678-4334
Public History is the study and application of history outside the academic setting. Public historians use professional expertise and skills to document the past and to present it to the public in these settings. They curate and interpret museum collections, uncover and process archival materials and other primary sources, document an area's historic structures, conduct oral histories, create documentary films, work in tourism development and help preserve historic buildings and sites. Most importantly, they possess unparalleled investigative, critical and analytical capabilities, and they apply the tools of their craft in a broad spectrum of work environments.

The Public History Certificate Program at Shenandoah University trains students to work as professionals in these types of endeavors. Students have the unique opportunity to take advantage of cutting-edge programs through course work, internships and classes within the History Department and other departments on campus.

Students must have completed the United States History Survey HIST I03, HIST I 04 sequence prior to enrollment in this program. Students must take HIST 395:
Introduction to Public History (3 credits), complete a 3-credit hour internship and take a minimum of 12 credits from the following courses:*

## Interdisciplinary - choose two

HIST 240 or HIST 24I:America's Cultural and Historic Resources
or Foundations of Historic Preservation
MCOM 205: Introduction to Public Relations 3
MCOM 225: Media Writing I 3
PSCI I02: Introduction to Public Administration 3
PSCI 205: Introduction to Public Policy 3
Interpretive - choose two
ART 200 or ART 216: Art Appreciation or American Art 3
HIST III-IOI: Interpreting Women's History 3
HIST 305: Civil War and Reconstruction 3
HIST 350:Virginia History 3
HIST 395: Special Topics 3
Total 30

## Kinesiology (B.S.)

Brian Wigley, Associate Professor of Kinesiology
Gregory Hall, Room I54, (540) 665-5463
The kinesiology department offers a Bachelor of Science in Kinesiology. Because of the diversity of the field, students are required to pursue one of three emphases within the major: sport management, exercise science or general kinesiology. Teacher licensure in the field of physical education is another option for Kinesiology majors, with the curriculum mandated by the state of Virginia. Minors in Kinesiology are also offered, and the sport management articulated program includes a minor in business.

In addition, a pre-athletic training program is offered in which students will complete 95 undergraduate hours prior to entering the athletic training graduate program, following the exercise science emphasis, in addition to specified elective hours. Upon completion of the first year of the graduate program, athletic training students will be eligible for the bachelor's degree in Kinesiology.

## Kinesiology Core Requirements

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| KIN | 101 | Health and Fitness | । |
| KIN | 190 | Introduction to Kinesiology | 3 |
| KIN | 191 | CPR and First Aid | I |

Activity Course (one of the following activity courses):
KIN 106 Aerobics

KIN IIO Weight Training and Jogging

Field Experience (one of the following field experiences):
KIN $401 \quad$ Internship in Sports Medicine 6

KIN $498 \quad$ Internship in Sports Administration 6
AT 58I/582 Clinical Field Experience I and II 8
KNS 45I Student Teaching 9

## Emphasis (majors must select one) Sport Management Emphasis

Course Title Credit Hours

Choose five courses:
KIN 342 Ethics in Sport 3

KIN $350 \quad 3$

## Coaching Minor

The Kinesiology Coaching minor is recommended for students not majoring in Kinesiology who are interesting in coaching interscholastic or intercollegiate athletics. The requirements for completion of the Coaching minor are:

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| KIN | 110 | Weight Training and Jogging | I |
| KIN | 101 | Health and Fitness | । |
| KIN | 190 | Introduction to Kinesiology | 3 |
| KIN | 191 | First Aid and CPR | 1 |
| KIN | 280 | Care and Treatment of Athletic Injuries | 3 |
| KIN | 350 | Sport and Exercise Psychology | 3 |
| KIN | 477 | Principles and Philosophy of Coaching | 3 |

Choose any two of the following:

| KIN | 160 | Coaching Football | I |
| :--- | :--- | :--- | ---: |
| KIN | 162 | Coaching Basketball | I |
| KIN | 164 | Coaching Volleyball | I |
| KIN | 166 | Coaching Baseball/Softball | I |
| KIN | 168 | Coaching Track and Field/Cross Country | I |
| KIN | 170 | Coaching Soccer | I |
| KIN | 172 | Coaching Lacrosse/Field Hockey | I (2) |
|  |  | Total | 17 |

## Coaching Certificate

The Coaching Certificate Program is recommended for students majoring in Kinesiology who are interested in coaching interscholastic or intercollegiate athletics. In addition to the Kinesiology Core requirements, students seeking a Coaching Certificate are required to complete the following courses:

| Course |  | Title | Credit Hours |
| :---: | :---: | :---: | :---: |
| KIN | 477 | Principles and Philosophy of Coaching | 3 |
| Choose any four of the following: |  |  |  |
| KIN | 280 | Care and Treatment of Athletic Injuries | 3 |
| KIN | 283 | Measurement and Evaluation in Physical Education | 3 |
| KIN | 322 | Motor Learning | 3 |
| KIN | 342 | Sports Ethics | 3 |
| KIN | 350 | Sport and Exercise Psychology | 3 |
| KIN | 450 | Sports Law | 3 |
| KIN | 470 | Facility Planning and Event Management | 3 |
|  |  | Subtotal | 12 |
| Choose any two of the following: |  |  |  |
| KIN | 160 | Coaching Football | I |
| KIN | 162 | Coaching Basketball | I |
| KIN | 164 | Coaching Volleyball | I |
| KIN | 166 | Coaching Baseball/Softball | 1 |
| KIN | 168 | Coaching Track \& Field/Cross Country | I |
| KIN | 170 | Coaching Soccer | 1 |
| KIN | 172 | Coaching Lacrosse/Field Hockey | 1 |
|  |  | Subtotal | 2 |
|  |  | Total | 17 |

## Mass Communications (B.A.)

Gina Daddario, Professor of Mass Communications
Henkel Hall, Room 206A, (540) 678-4338
The Mass Communications major is designed to provide a foundation of knowledge and skills to prepare students for the communication challenges of the 21 st century. All majors complete a common core of courses in media history, theory, writing, research, law and ethics. Students can then select from an array of elective courses in the areas of journalism, digital media, public relations, and media studies to cultivate their individual talents and professional objectives. All students in the program are required to complete at least one campus or field internship.

Mass communications majors learn marketable skills such as presentational and public speaking, news writing and reporting, video production and editing, public relations writing and research, digital graphics and design, among others. SU alumni are employed in the fields of newspaper reporting, radio operations, television sports reporting, university public relations, arts and non-profit management, museum operations and network television news. The curriculum also provides students with a solid foundation for acceptance into graduate programs in mass communications, journalism, education or political science.

## Courses Required for the Mass Communications Major

I. MCOM Core: Required of all majors, in addition to general education and A\&S Core requirements. Transfer students must fulfill the A\&S foreign language requirement.

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| MCOM | 101 | Understanding Mass Communications | 3 |
| MCOM | 201 | Understanding Visual Communication | 3 |
| MCOM | 211 | Media Ethics | 3 |
| MCOM | 310 | Mass Media Theory and Research | 3 |
| MCOM | 335 | Media Writing | 3 |
| MCOM | 411 | Media Law | 3 |
| One of the following: |  |  |  |
| MCOM | 398 | Campus Media Internship | 3 |
| MCOM | 498 | Field Media Internship | 3 |
|  |  | Total | 21 |

II. Elective Areas: All majors must complete a minimum of 15 elective credits. Students may choose from any of the mass communications course offerings and are encouraged to identify electives in consultation with their advisor. At least six credit hours must be at the 300 level or above.

MCOM $150 \quad$ Principles of Public Speaking
MCOM 205 Introduction to Public Relations
MCOM 215 Understanding Movies
MCOM 230 New Communication Technologies
MCOM 305 Public Relations Writing
MCOM 315 Mass Media and Society
MCOM 320 Organizational Communication
MCOM $321 \quad$ Advertising and the Media
MCOM 325 Computer Assisted Reporting
MCOM $330 \quad$ Principles of Digital Design
MCOM 345 Sports Writing
MCOM $350 \quad$ Business and Professional Communication
MCOM 35I Politics and the Media
MCOM 36I Gender and Communication
MCOM 38I Studio Television Production
MCOM $401 \quad$ Topics in Applied Writing
MCOM 405 Public Relations Planning and Management
MCOM 420 Seminar in Intercultural Communication
MCOM $425 \quad$ Public Affairs Reporting
MCOM 44I Voilence, Sex and the Sports Media
MCOM 46I Gender, Sport and the Media
MCOM $470 \quad$ Advanced Video Post-Production
MCOM 47I Race, Sport and the Media
MCOM 480 Advanced Video Field-Production
MCOM 490 Directed Study
MCOM 495 Independent Study
MCOM $498 \quad$ Field Internship

## Certificate in Television Production

The Television Production Certificate Program is recommended for students desiring a professional/practical-based curriculum to complement their major course of study. It is also recommended for college graduates seeking training in a state-of-the-art television studio to enhance their professional skills and/or career mobility.

| Course | Title | Credit Hours |
| :--- | :--- | :---: |
| MCOM 38I | Studio Television Production | 3 |
| MCOM 398 | Campus Media Internship | 3 |
| MCOM 470 | Advanced Video Post Production* | 3 |
| MCOM 480 | Advanced Video Field Production* | 3 |
|  | Total | 12 |

*Note: MCOM 470 and 480 are corequisite and must be taken together.

## Mathematics (B.S.)

Elaine Magee, Assistant Professor of Mathematics
Gregory Hall, Room 208, (540) 545-7283
The Mathematics Program at Shenandoah is designed to offer students a fundamental background in mathematics within a strong liberal arts environment. A student who majors in mathematics may prepare for a position in business, government, industry or teaching where there is growing demand at all levels. Students may also prepare to continue their study of mathematics at the graduate level.

## Courses required for the Mathematics Major

## Physics (Minor only)

Darren Bly, Assistant Professor of Physics
Gregory Hall, Room 2 I I, (540) 678-4477
Physics provides a framework for understanding the fundamental nature of the universe from a scientific basis. The minor in physics, which incorporates study of all the major areas of contemporary physics, equips the student with the rudiments of the physicist's perspective.

Either the algebra-based (PHYS \|\| and PHYS \| I2) or calculus-based (PHYS |2| and PHYS 122) introductory sequence may be used in partial fulfillment of the minor requirements.

## Courses required for the Physics Minor

| PHYS | 331 | Mathematical Methods in the Physical Sciences | 3 |
| PHYS | or | 201 | Introduction to Microcomputers |

## Political Science (B.S.)

William Shendow, Associate Professor of Public Administration/Political Science Smith Library, second floor, (540) 665-4697

The aim of the study of Political Science is to understand the way in which, for a society, policy is formulated and executed, and to understand the moral and legal authority by which policy is or ought to be set. The center of interest for this program is the study of power, government institutions, bureaucracy, and the state of human relations in their political context, both domestically and internationally. Emphasis is placed on enhancing the student's overall comprehension of democracy and the administration of government so that he or she can become an effective citizen, and appropriately consider career options in political science related fields.

## Bachelor of Science in Psychology (Pre-Occupational Therapy Track)

The major in psychology (pre-Occupational Therapy track) is an accelerated program designed to provide students pursuing a career in occupational therapy with a concentration of course work that emphasizes the developmental, biological and applied dimensions of psychology.

Students gaining early admission to the Occupational Therapy Masters Program may earn their Bachelor of Science degree in Psychology by completing a total of 90 undergraduate credit hours including all university general education, Arts \& Sciences Core, Occupational Therapy prerequisites, 36 hours of designated psychology courses, and one full year ( 30 credit hours) in the Occupational Therapy master's program.

## Religion (B.A.)

Barry Penn-Hollar, Professor of Religion and Philosophy Goodson Chapel, Room 9, (540) 665-5467

The Religion major provides students with a comprehensive understanding of the religious traditions of the world with a particular emphasis on the Christian tradition. It enables students to think clearly and critically about religious ideas. Through the comparative study of philosophy, sacred texts, religious history, spirituality, theology and ethics, students learn to think across disciplines and cultures. The major provides a rich encounter with the liberal arts and prepares students for the graduate study of religion. Along with JustFaith Leadership Certificate Program, the Religion major prepares students for seminary and for leadership in the 21 st century church.

## Courses Required for the Religion Major

| Course |  | Title | Credit Hours |
| :---: | :---: | :---: | :---: |
| REL | 202 | World Religions | 3 |
| One of the following: |  |  |  |
| PHIL | 101 | Introduction to Philosophy | 3 |
| PHIL | 120 | History of Western Philosophy | 3 |
| Four additional courses at the 100 or 200 level in Religion |  |  |  |
| At least one of the following: |  |  |  |
| REL | 210 | Introduction to the Hebrew Bible | 3 |
| REL | 211 | Introduction to the New Testament | 3 |

At least one of the following:
REL 225 Christian Social Ethics 3
REL 25I Christian Spirituality 3

Other courses at the 100-200 level that may count toward the major
REL IOI Introduction to Religion 3
REL II2 Christian Discipleship 3
REL 212 Life of Jesus 3
REL 220 A Survey of Western Christianity 3

Six courses at the 300-400 level
One of the following:
REL 310 Judaism 3
REL 311 Asian Religion and Philosophy 3
REL 312 Islam 3
Other courses at the 300-400 level that may count toward the major:
REL $301 \quad$ Christian Theology
REL 320 Christian Education 3
REL 321 Church Leadership 3
REL 330 Christianity in the United States 3
REL 331 Christianity and the African-American Experience 3
REL 340 Religion and Ecology 3
REL 391 Topics in Religion 3
REL 421 Practicum 2-3
REL 45I Interdisciplinary Topics Course 3
PHIL 331 Philosophy of Nonviolence 3

May count one (only one) of the following toward 300-400 level requirements:
HIST $445 \quad$ Renaissance and Reformation
PHIL 36I History of Western Political Philosophy I 3
PHIL 362 History of Western Political Philosophy II 3
Total 36
Capstone project: Every major will be required to complete a capstone project in a 300 or 400 level course taken during the last nine hours of the student's program. That project will require students to apply ideas critically and comparatively from various perspectives and or traditions (possibly nonChristian ones) to a theme, topic, or problem related to the subject matter of that course. For students doing the capstone project in Religion 421 , the project may involve a practical problem or issue related to the context in which students fulfill requirements for Religion 42 I: Practicum.

## JustFaith - Christian Leadership Certificate Program

The JustFaith - Christian Leadership Certificate Program is a three-year cohort program that integrates knowing, being and doing. Its aim is to prepare and empower leaders for the 21 st century church who are committed to spiritual depth and social justice as integral aspects of the church's ministry in a global context. The curricular component involves six religion courses (one each semester) which will fulfill requirements for a minor in religion. In addition to curricular requirements, students in the cohort will be part of a covenant group, have a professional and spiritual mentor, and participate in service and/or ministry activities.

## Courses required for the JustFaith - Christian Leadership Certificate Program

These six courses will be taken as part of a cohort over six consecutive semesters. Students completing these requirements will have fulfilled requirements for the Religion Minor.

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| REL | 110 | The Global Context of Christian Leadership | 3 |
| REL | 112 | Christian Discipleship | 3 |
| REL | 210 | Introduction to Hebrew Bible | 3 |
| REL | 211 | Introduction to New Testament | 3 |
| REL | 301 | Christian Theology | 3 |
| REL | 321 | Christian Leadership | 3 |
|  |  | Total | 18 |

Students wishing to build the JustFaith - Christian Leadership Certificate may count no more than 12 hours from the above toward the requirements for the Religion major.

## Minor in Religion

Students may create their own minor in religion. The possibilities include a minor with a concentration in the following subjects:World Religion, Ethics, Christian Studies and Christian Leadership.
Students must take 18 hours in religion and philosophy with at least 6 hours at the 300 level or above.

## Sociology (B.S.)

Kim Fendley, Associate Professor of Sociology
Gregory Hall, Room 209, (540) 665-5553
The Sociology major provides insight into social factors and forces in society. Students majoring in Sociology will be prepared for careers in the social service, business and government sectors or to continue their studies at the graduate level.

\section*{Courses Required for the Sociology Major <br> | Course | Title | Credit Hours |  |

## Spanish (B.A.)

Bryan Pearce-Gonzales, Assistant Professor of Foreign Languages
Henkel Hall, Room 2I7, (540) 665-6202
The major in Spanish is intended for students interested in teaching Spanish as well as for those preparing to integrate Hispanic studies into their chosen careers. The program includes courses designed to help students develop their skills in speaking, listening comprehension, reading and writing. Students will gain an understanding of Hispanic culture in Spain and Latin America, as well as in the United States. A distinguishing feature of the program is the requirement that all majors do internships working among Hispanics in the Winchester-Frederick community.

## Courses Required for the Spanish Major

| Course |  | Title | Credit hours |
| :--- | :--- | :--- | :---: |
| SPAN | 301 | Conversation | 3 |
| SPAN | 302 | Composition | 3 |
| SPAN | 311 | Spanish Civilization and Culture | 3 |
| SPAN | 312 | Latin American Civilization and Culture | 3 |
| SPAN | 330 | Introduction to Spanish Linguistics | 3 |
| SPAN | 430 | Seminar/Senior Project | 3 |

Plus 15 credits selected from the following courses:
SPAN 315 Reading in U.S. Latino Literature Culture ..... 3
SPAN 316 The Southern Cone ..... 3
SPAN 320 Survey of Peninsular Literature ..... 3
SPAN 325 Survey of Latin American Literature ..... 3
SPAN 403 Topics ..... 3
SPAN 4II Advanced Oral Spanish ..... 3
SPAN 412 Advanced Written Spanish ..... 3

University Studies (B.A. or B.S.)
B.A. Degree:

Calvin Allen, Dean, College of Arts \& Sciences
Gregory Hall, Room I57, (540) 665-4587
B.S. Degree: Education Tracks

Karen Huff, Professor of Education
Bowman Building, Room IIO, (540) 545-72I5
B.S. Degree: Pre-Physical Therapy Track

Calvin Allen, Dean, College of Arts \& Sciences
Gregory Hall, Room I57, (540) 665-4587
B.S. Degree: Pre-Pharmacy Track

Nina Parker, Associate Professor of Biology
Gregory Hall, Room I09B, (540) 665-4593
The University Studies program provides a framework within which interdisciplinary or multidisciplinary study can be undertaken at Shenandoah University. Two degrees are offered within the major. The Bachelor of Arts degree allows students with unique or non-traditional education goals to undertake an individually designed major. The Bachelor of Science degree is one option for students seeking Virginia Teacher Licensure or completion of prerequisite courses for one of the university's Health Professions programs. The unifying characteristic of these degrees is the commitment to a strong liberal arts background within interdisciplinary or multidisciplinary, and/or preprofessional study for certain students.

The University Studies program leads to two degrees:
Bachelor of Arts in University Studies: a self-designed major in which the student, in association with a faculty committee, designs a major that meets an individual's particular academic and professional goals. This degree requires the completion of the Arts \& Sciences Core Curriculum and Shenandoah University's general education requirements in addition to upper level courses in at least two disciplines. The individual student's proposed degree plan is reviewed and approved by a faculty committee and supervised by the dean or the chair of the Interdisciplinary Studies Department.

Bachelor of Science in University Studies: a more prescribed, pre-professional course of study that meets the requirements for Virginia Teacher Licensure for grades PK-6 and 6-8 or prerequisite requirements for Shenandoah University graduate programs in Physical Therapy and Pharmacy. All Arts \& Sciences Core Curriculum and Shenandoah University general education requirements are fulfilled by the B.S. in University Studies degree requirements listed below.

## Bachelor of Arts in University Studies Degree - Self-Designed

## A course of study that incorporates the following:

I. At least 36 credit hours, apportioned between at least two disciplines, that support the student's academic and professional goals. Study in each discipline must include work in both the theory and the methodology of that field. At least 24 hours must be at the 300 or 400 level. No more than 12 hours of College of Arts \& Sciences Core or university general education hours may be counted toward this requirement. (36 hours) 2. A 3 credit senior research study, creative project or essay that reflects the integration of disciplines and experiences in the student's self-designed degree plan (see below). (3 hours)
3. A senior comprehensive examination that integrates core studies and the disciplines of specialization. (No credit)
4. A proposed degree plan that describes the student's academic and professional goals and lists the courses to be taken to fulfill those goals. This proposal must be reviewed and approved by a faculty committee, representing the appropriate disciplines and the dean of the College of Arts \& Sciences. This committee also reviews the senior project and designs the senior comprehensive exam.

Total: 39 hours

## Bachelor of Science in University Studies Degree Elementary and Middle School Education Track (PK-6, 6-8)

This program is designed to provide state licensure for PK-6 and 6-8. Licensure at the middle school level (6-8) requires a minimum of 21 hours in two areas of concentration. This program provides the first concentration in history/social science. The student must select one additional concentration from English, mathematics or science by adding an additional six hours in one area.

## Bachelor of Science in University Studies Degree Pre-Health Professions

The College of Arts \& Sciences has concluded articulation agreements with the Division of Physical Therapy and the Bernard J. Dunn School of Pharmacy at Shenandoah University that allow students to enter their graduate programs upon completion of 90
undergraduate credit hours, to include all general education and Arts \& Sciences core requirements, professional program prerequisites, and residency requirement. The B.S. in University Studies degree is awarded upon completion of the first year (30 hours) of graduate study in the professional school, for a total of I 20 credit hours.

## Pre-Physical Therapy Track

This program is available only to Shenandoah University pre-admitted students beginning with the 2007-08 academic year. The prerequisites for admission to the Physical Therapy program* include the following 47-50 hours:

| Course |  | Title | Credit Hours |
| :---: | :---: | :---: | :---: |
| PSY | 101 | General Psychology | 3 |
| PSY |  | Elective (Developmental or Abnormal Psychology) | 3 |
| BIO | 121 | General Biology I | 4 |
|  | or |  |  |
| BIO | 122 | General Biology II |  |
| BIO | 231 | Human Anatomy and Physiology I | 4 |
| BIO | 232 | Human Anatomy and Physiology II | 4 |
| CHEM | 121 | General Chemistry I | 4 |
| CHEM | 122 | General Chemistry II | 4 |
| PHYS | 111 | College Physics I | 4 |
|  | or |  |  |
| PHYS | 121 | General Physics I |  |
| PHYS | 112 | College Physics II | 4 |
|  | or |  |  |

Additional Programs of Study
Teacher Education ProgramsOffice of Professional LicensureMary E. Bowser, Director
Bowman Building, Room I I I, (540) 535-3575

Students in the College of Arts \& Sciences seeking to become licensed as teachers take courses in Arts \& Sciences as the predominant part of their first two years at the university. Courses that relate to teaching, children and schools are the predominant part of the third and fourth years in the program. Students in the programs seeking endorsement in elementary or secondary education will be required to declare a major in one of the following liberal arts areas: biology, chemistry, English, history, mathematics, kinesiology (PK-12) or University Studies (PK-8). As part of the degree requirements, students also must complete the requirements of the core curriculum in the College of Arts \& Sciences.

## Admission Requirements for All Candidates for Teacher Licensure

## State Requirements for Teacher Licensure

Students preparing to be teachers are expected to meet the requirements for teacher licensure currently in effect in the Commonwealth of Virginia. Most states grant teaching licensure on a reciprocal basis when the educating institution is approved by its own state department of education or when graduates of an institution are eligible for teaching licensure in the state in which they were educated. Teacher education programs at Shenandoah University are approved programs of the Virginia State Board of Education, and graduates will have met all educational requirements for Virginia licensure.

## Statement Regarding Professional Assessments

All initial licensure teacher education programs at Shenandoah University require that I) the PRAXIS I exam must be taken before admission to candidacy in teacher education
programs; 2) the PRAXIS II exam must be taken in the student's last year prior to student teaching; and 3) VCLA must be taken before student teaching. In addition, PK-6 elementary education candidates must take the Virginia Reading Assessment (VRA) before student teaching.

The university's Academic Enrichment Center assists students with preparation for PRAXIS exams by providing study materials, help sessions and access to a computer tutorial software program. This assistance is also extended to Shenandoah University alumni.

The Teacher Education Program Application also requires the following for an applicant to be considered for acceptance into the Teacher Education Program:
I. Submit two recommendation checklists (professional attitude, punctuality, attendance, communication skills, scholarship, cooperativeness, etc.); one from a professional in the major field and one from a professional outside the major field.
2. Submit official transcripts showing a grade point average of at least 2.9 in the area of the major and an overall grade point average of at least 2.5.
3. PRAXIS I scores - passing by Virginia Standards or substitute appropriate SAT or ACT score. See Admissions section of this catalog for specific score requirement.

Score reports must be sent to Shenandoah University's Office of Admissions.
Students must receive satisfactory ratings on the checklists in order to be approved by the Teacher Education Faculty Advisory Board prior to admission into the education program and prior to student teaching. A minimum grade point average of 2.9 in the academic major is required. Prior to student teaching, all students must successfully complete Praxis II in their subject areas, VCLA, and elementary (PK-6) education students must also pass the Virginia Reading Assessment. Shenandoah University reserves the right to determine the fitness of an individual to student teach.

## Elementary/Middle School Teacher Education Professional Studies Certificate

Karen Huff, Professor of Education
Henkel Hall, Room 204A, (540) 665-4549
This program contains the professional studies required by the Virginia Department of Licensure Regulations for elementary and middle school teachers. Students who have completed a major in a liberal arts field (or equivalent) and completed the professional education courses listed below in addition to specific general studies requirements, may qualify for licensure in the areas of PK-6 and/or 6-8 grade levels.

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| PSY | 220 | Child Development | 3 |
| EDU | 221 | Child Development Lab | 1 |
| EDU | 301 | Orientation to Teaching | 3 |
| MCM | 270 | Practicum in Instructional Technology and Media | 3 |
| EDU | 322 | Creative Arts | 2 |
| EDU | 324 | Language Arts | 9 |
| EDU | 336 | Reasoning Skills I: Science | 3 |
| EDU | 337 | Reasoning Skills II: Mathematics | 3 |

| EDU | 345 | Methods and Management in Elementary/Middle Schools | 3 |
| :--- | :--- | :--- | :---: |
| EDU | 346 | Methods and Assessments in Elementary/Middle Schools | 3 |
| RDG | 424 | The Diagnostic Teaching of Reading | 3 |
| RDG | 425 | Reading and Writing in the Content Area | 3 |
| Pass PRAXIS II requirement before student teaching |  |  |  |
| EDU | 461 | Student Teaching in the Elementary and Middle School <br>  | Total |

*Teacher endorsement area requirements may be satisfied through transcript analysis by the Education department faculty. The outcome of this analysis may be possible recommendations for supplementary course work in order for students to achieve compliance with Virginia Department of Education regulations.

## Secondary Teacher Education Professional Studies Certificate (6-12 and K-I2)

Mary E. Bowser, Professor of Education
Henkel Hall, Room 204, (540) 665-4590
This program contains the professional studies required by the Virginia Department of Licensure Regulations for secondary education teachers and K-12 endorsements. Students may elect to add this program as a minor to their current or completed major in a liberal arts field so they could apply for a Virginia Teacher's license in that field.

Course Title Credit Hours
PSY 220 Child Development 3
EDU 221 Child Development Lab I
EDU 301 Orientation to Teaching 3
EDU 343 Methods and Assessment in Middle/Secondary Schools 3
EDU 344 Methods and Management in Middle/Secondary Schools 3
(Health and Physical Education and Spanish have specialty methods courses in
place of EDU 344)
RDG $425 \quad$ Reading and Writing in the Content Area (6-12)
Pass PRAXIS II requirement before student teaching
EDU 441 Student Teaching in the Middle/Secondary Schools 9
Total 25*
*Teacher endorsement area requirements may be satisfied through transcript analysis by the Education department faculty. The outcome of this analysis may be possible recommendations for supplementary course work in order for students to achieve compliance with Virginia Department of Education regulations.

English majors seeking licensure are additionally required to take the following courses:
MCOM 150 Principles of Public Speaking 3
ENG 210 Modern Grammar 3
Total 6
Chemistry majors seeking licensure are additionally required to take the following courses:
BIO I21 General Biology I 4
BIO 122 General Biology II 4
Total 8

## Women's Studies (Minor)

Amy Sarch Schopick, Director of General Education
Henkel Hall, Room 2I 8, (540) 542-6534
The Women's Studies program at Shenandoah University offers students an interdisciplinary minor that crosses traditional academic boundaries, pedagogical perspectives, and personal experiences. The program places women at the center of its curriculum and includes courses grounded in feminist inquiry, theory and practice. The minor is open to all undergraduates in the arts \& sciences, business, health professions and conservatory areas. A minor in Women's Studies complements any major by expanding students' knowledge and understanding of the human experience. Students who minor in Women's Studies will be well prepared for careers in the arts, education, communication, politics, law, business, health, human services, counseling, community advocacy and affirmative action programs.

| Course |  | Title | Credit Hours |

# SCHOOL OF EDUCATION \& HUMAN DEVELOPMENT 

Steven E. Humphries, Director<br>Bowman Building, Room 2 (540) 665-4643

## Statement of Purpose

The School of Education \& Human Development at Shenandoah University prepares exemplary professionals in education and human development within a studentcentered, inquiry-driven environment that places high value on the diverse cultures, experiences and perspectives that are the strengths of the university. Its mission is to educate current and aspiring professionals for success in their chosen vocations; integrate theory, research and practice; promote academic rigor; and nurture reflection, a caring approach to the professions, and collaboration across and within the communities served by the university.

Through commitment to quality academic programs and institutes, extensive opportunities for continued personal and professional growth through all stages of life and community and global outreach, promotes an educational system that is responsive to the challenges of a modern, ever-changing society that seeks to instill and sustain a passion for lifelong service and scholarship.

## Attendance Policy

Syllabi for all courses in the School of Education \& Human Development will contain the attendance policy (or appropriate policy governing participation, as in distance learning courses). Active and informed participation is necessary for effective learning. The instructor's policy in this regard, in a given course, will reflect good practice as it relates to the content and the delivery system. Penalties for violations of this policy will be specified in the syllabus.

## Certificates

Undergraduate Certificates:
Elementary Education (Virginia Licensure)
Middle School Education (Virginia Licensure)
Secondary Education (Virginia Licensure)
Graduate Certificates:
Elementary Education (Virginia Licensure)
Middle School Education (Virginia Licensure)
Secondary Education (Virginia Licensure)
Advanced Professional - TESOL
Professional - TESOL

Public Management
Degrees:
Master of Science in Education
Master of Science in Organizational Leadership
Doctor of Education
Doctor of Professional Studies

# HARRY F. BYRD, JR. SCHOOL OF BUSINESS 

W. Randy Boxx, Dean Halpin-Harrison Hall, Room 104<br>(540) 665-4572, rboxx@su.edu<br>L. Mark Tyree, Associate Dean<br>Halpin-Harrison Hall, Room 157<br>(540) 665-4616, mtyree@su.edu

## Mission

The mission of the Harry F. Byrd, Jr. School of Business is to educate its students to become successful, principled leaders with a global perspective.

Students will graduate with confidence in their ability to solve problems, be effective communicators and work successfully as individuals and team members. The undergraduate curriculum prepares students to operate in a dynamic, ever-changing personal, social and economic environment.

The curriculum provides a solid, general educational foundation requisite for all individuals entering a fast-paced technological and global society. It provides broad-based study in the liberal arts, which marks the educated citizen. In addition, working toward the Bachelor of Business Administration (BBA) degree will provide students with knowledge in the fields of accounting, financial institutions, information systems and computer technology, global business, economics, management and marketing. This academic preparation, linked with communications skills, ethical decision making, entrepreneurship and working in diverse international environments as a team member, will make the graduate a valued member of any organization. Students will have the opportunity for study-abroad experiences, internships, participation in student organizations and other activities, including active management of a student investment fund. The BBA is a part of a lifelong learning process for students that will lead to a better society, a better citizen and a better business leader.

## Vision

The Harry F. Byrd, Jr. School of Business will become recognized as a provider of individualized business education driven by entrepreneurial thinking, global understanding and ethical practice.

## Guiding Principles

The Harry F. Byrd, Jr. School of Business carries out its mission through its commitment to four guiding principles - learning, integrity, recognizing the contributions of others and continuous improvement.

## Undergraduate Degree Program Learning Goals

The learning goals for the BBA program are driven by the business school's mission statement, which is to "educate its students to become successful, principled leaders
with a global perspective." It includes the following concepts:
I. To be able to make and communicate effective decisions. [Successful]
a. To be able to identify the objectives and constraints in making a decision. [Knowledge]
b. To be able to interpret causes and potential effects of elements pertaining to a decision in order to identify key decision drivers. [Understanding]
c. To be able to gather, validate, structure and communicate information in support of decision making. [Application]
2. Principled: to be able to act ethically.
a. To be able to define and distinguish among the philosophical theories that represent the principles of ethical decision making. [Knowledge]
b. To be able to understand concepts associated with business ethics and the impact of business ethics on corporate governance. [Comprehension]
c. To be able to apply ethical foundations and issues to the role of business professionals in corporate, partnership and/or small business settings using a case study approach. [Application, Analysis, Synthesis]
3. Leaders: to be able to demonstrate leadership qualities.
a. To recognize and comprehend common leadership models. [Knowledge, Comprehension]
b. To recognize how leadership skills are developed. [Comprehension]
c. To develop an action plan for developing leadership skills in oneself and others through a process of self-examination, classification of strengths and weaknesses and concluding with an appropriate leadership style. [Application, Analysis, Synthesis]
4. Global Perspective: to be able to function effectively in a global business environment.
a. To be able to identify and describe the elements that distinguish global business from domestic business. [Knowledge]
b. To be able to analyze the opportunities and challenges associated with global business expansion. [Understanding]
c. To be able to demonstrate the ability to adjust business goals to global changes [Application]

## Bachelor of Business Administration (BBA)

The undergraduate degree program in business administration is called the iBBA. As an individualized program of study in business administration, students do not select a predetermined major, but rather are able to design a series of courses corresponding to individual interests, goals, and career aspirations. This individualized program may consist of up to 24 semester hours, providing the student the flexibility needed to pursue career and life goals.

The individualized nature of the program provides the student with a faculty mentor. If the student has a specific interest in a business specialty area (e.g., marketing, management, accounting, finance, information technology or global business), the mentor will be from that discipline and will be available to advise and counsel the student on an appropriate program of study to meet individual career aspirations within the multi-faceted business environment.

## Four elements compose the 120 hour degree program:

| General Education Courses | 30 hours |
| :--- | ---: |
| Non-Business Elective Courses | 24 hours |
| Business Core Courses | 42 hours |
| iBBA Supporting Electives (Business or non-Business) | 24 hours |
| Total | 120 hours |

## Requirements for the BBA Degree Program

## General Education Requirement (30 hours)

Students must conform to the general education requirements of the university that specify course work over seven domains of knowledge. The following general education courses will be taken by all business students and will fulfill I8 of the required 30 hours of course work. Students should work closely with their mentor to ensure they complete the general education requirements in a timely fashion.

| ENG | 101 | Composition (Domain I) | 3 hours |
| :--- | :--- | :--- | :--- |
| MCOM | 150 | Principles of Public Speaking (Domain 1) | 3 hours |
| MATH | 101 | Pre-calculus (Domain 3) | 3 hours |
| BA | 203 | Statistics and Data Analysis (Domain 3) | 3 hours |
| EC | 211 | Principles of Macroeconomics (Domain 6) | 3 hours |
| EC | 212 | Principles of Microeconomics (Domain 6) | 3 hours |

## Non-Business Elective Courses (24 hours)

| A course in either sociology or psychology | 3 hours |
| :--- | ---: |
| Other 3-credit courses (not BA, EC or ISCT) | 21 hours |

May not include one-credit Kinesiology or Study Skills courses.

## Business Core Courses (42 hours)

| ISCT | 204 | Computer Applications in Business Analysis |
| :--- | :--- | :--- |
| BA | $201(303)$ | Legal Environment of Business |
| BA | 211 | Principles of Accounting I |

## iBBA Supporting Electives (24 hours)

With the guidance of a faculty mentor, students will choose electives supporting an individualized BBA program consisting of a minimum of 18 hours of iBBA Supporting Electives that must be taken in the business school at the 300/400 level in Business Administration (BA), Economics (EC) and/or Information Systems \& Computer Technology (ISCT). By advance permission of the dean, an iBBA student may substitute an alternative coherent program of study that includes no fewer than 12 credit hours at the 300- and 400 -level of Business, Economics and Information Systems \& Computer Technology courses and no more than 6 credit hours at the 100 - and 200-level in total.

## BSB Junior Level Standing

An iBBA student has BSB junior-level standing upon meeting all of the following requirements:

1. Complete a minimum of 54 credits with a minimum overall GPA of 2.00
2. Complete the following six courses with a minimum GPA of 2.00:

| BA | 203 | Business Statistics |
| :--- | :--- | :--- |
| BA | 211 | Principles of Accounting I |
| BA | 212 | Principles of Accounting II |
| EC | 211 | Principles of Macroeconomics |
| EC | 212 | Principles of Microeconomics |
| ISCT | 204 | Introduction to Computers |

## BSB Senior Level Standing

An iBBA student has BSB senior-level standing upon meeting all of the following requirements:

1. Complete a minimum of 84 credits with a minimum overall GPA of 2.00
2. Complete the six courses identified for BSB junior-level standing
3. Complete the following six courses with a minimum GPA of 2.00

| BA | $201 / 303$ | Legal Environment |
| :--- | :--- | :--- |
| BA | 302 | Quantitative Analysis |
| BA | 307 | Introduction to Management |
| BA | 310 | Introduction to MIS |
| BA | 330 | Introduction to Finance |
| BA | 360 | Introduction to Marketing |

## Minor in Business Administration 18 hours

The minor in Business Administration consists of a sequence of six required courses designed to provide the foundational courses for the degree-seeking student desiring a business supplement to a non-business degree program. In addition to providing a general knowledge of business practices and terminology, this program prepares a student to take additional business courses either at the undergraduate or graduate level. Faculty members from the Harry F. Byrd, Jr. School of Business are available to advise students about career opportunities and further study beyond the requirements for the minor in Business Administration.

All courses are three credit-hour courses.

| BA | 203 | Statistics and Data Analysis for Business |
| :--- | :--- | :--- |
| BA | 211 | Principles of Accounting I |
| BA | 212 | Principles of Accounting II |
| BA | 307 | Introduction to Management and Organizational Behavior |
| EC | 211 | Principles of Macroeconomics |
| EC | 212 | Principles of Microeconomics |

## Minor in Economics 18 hours

The economics minor enables students to conduct a systematic study of economics as part of their undergraduate education and/or prepare themselves for graduate studies in economics. If students are interested in graduate studies in economics, it is strongly recommended that they take additional course work in Calculus and Statistics.

All courses are three credit-hour courses.

| EC | 211 | Principles of Macroeconomics |
| :--- | :--- | :--- |
| EC | 212 | Principles of Microeconomics |
| EC | 311 | Intermediate Macroeconomics |
| EC | 312 | Intermediate Microeconomics |
| EC | 350 | Money and Banking |
| EC | 450 | International Economics |

## Personal Computer Policy

Every undergraduate student enrolled in the Harry F. Byrd Jr., School of Business is required to have a laptop computer with a repair warranty. For first-time entering freshmen, the following iM Learning Mac configuration will apply:

13-inch Aluminum MacBook Pro, 2.53GHz Intel Core 2 Duo
BootCamp for Windows XP
4-year AppleCare Protection Plan for the MacBook Built in Battery
8GB iPod Touch or iPhone
2-year Apple Care Protection plan for the iPod Touch or iPhone
Incoming freshmen will fully participate in Shenandoah University's technology program. For other students, the minimum laptop computer configuration for the 2009-10 academic year is:
1.7 GHz Core 2 Duo or Centrino Processors

80GB Hard Disk Drive
CD/DVD Drive RW
802.1 I a/b/g Wireless Network Card

2GB RAM
MS Windows XP Professional
MS Office Professional 2007*

## Extended Warranty

*Can be ordered through the SU bookstore at a student price.

## Internships

The internship program provides a hands-on bridge for students to enter into the business world as they work simultaneously to complete their academic work. The program works to augment and expand available internship options for undergraduate and graduate business students. International and domestic internships are available to students attending the business school.

## The Global Experiential Learning (GEL) Program

The GEL program provides students with the opportunity to study and travel abroad in faculty-guided, credit-bearing educational experiences. GEL destinations change each year, but previously included Russia, China, Spain, Ireland, Thailand, England, France, Argentina and Chile.

## Society for Human Resource Management (SHRM)

The Society for Human Resource Management's student program was created to promote mutually beneficial interaction between Human Resource Management (HRM) students and practitioners. Membership offers students the opportunity to supplement their classroom education with real-world knowledge and hands-on experience. The SHRM chapter in the Harry F. Byrd, Jr. School of Business has regular meetings with scheduled programs designed to help members learn more about current developments in the business world and how they will impact future workers. Additional activities allow students to learn more about HRM while building relationships with local professionals and other students.

## Student Advisory Board

The business school's Student Advisory Board offers the dean advice on one basic topic: how to build a higher quality business school. Regular meetings take place during the fall and spring semesters with approximately 20 students participating in these discussions. The board promotes the mission of the school and serves as an important liaison between the student body and the office of the dean.

## Student Investment Fund

Several years ago, a businessman provided initial funding to establish a Student Investment Fund in the Harry F. Byrd, Jr. School of Business. The objective of the fund was to provide students with hands-on experiences managing an investment portfolio that would yield a rate of return greater than that achieved by a broadly diversified portfolio of common stocks. The current market value of the fund is more than $\$ 100,000$. Through this experiential learning opportunity, students meet throughout the academic year to learn about advancing career opportunities and employment options in the investment field.

## Beta Gamma Sigma

Beta Gamma Sigma is the honor society serving business programs accredited by AACSB International - The Association to Advance Collegiate Schools of Business.

Membership in Beta Gamma Sigma is the highest recognition a business student anywhere in the world can receive in a business program accredited by AACSB International. The mission of Beta Gamma Sigma is to encourage and honor academic achievement in the study of business, to honor personal and professional excellence, to advance the values of society and to serve its lifelong members.

## Students in Free Enterprise (SIFE)

Students in Free Enterprise is an integral part of the Harry F. Byrd, Jr. School of Business. The annual SIFE teams learn, teach and practice free enterprise in order to better themselves, their communities and the world. SIFE's mission is to build teams of students that teach others a better understanding of how the free enterprise system works. SIFE'S purpose is accomplished through outreach projects, providing the students an opportunity to teach others what they have learned. By accepting the responsibility of teaching others about free enterprise, SIFE students gain a deeper knowledge of how the free enterprise system works. Each year SIFE teams have the opportunity to share their successes with other teams from across the country in regional and national competitions.

## Byrd Distinguished Lecture Series

The Byrd Distinguished Lecture Series was established in 1983 to provide a forum for the presentation, consideration and discussion of critical issues on the local, regional, national and international scene. This series provides students in the Harry F. Byrd, Jr. School of Business the opportunity to hear and question some of the most interesting business, social, educational and governmental leaders of the day.

## Institute for Entrepreneurship Distinguished Speaker Series

The Institute for Entrepreneurship in the Byrd School sponsors the Distinguished Speaker Series. Successful entrepreneurs are brought to campus to share their experiences, lessons learned and expertise with students, faculty and the business community. Innovative business leaders provide enriching conversations for the student body during both the fall and spring semesters of the academic year.

## Executive-in-Residence and Senior Executive Counselor Programs

The mission of these programs is to enhance the academic excellence of the Byrd School of Business through the practical experience of veteran business executives. Executives provide mentoring and counseling services for students, deliver classroom lectures and provide students with job-search advice as well as career and jobperformance counseling.

## Schedule of Course Offerings

Students are advised to remember that not all courses are offered on a yearly basis, nor are all courses offered every semester. Core business courses are offered on a yearly basis, but not necessarily in each semester. Business elective courses generally follow a two-year cycle. Students should work closely with their mentors to ensure they are enrolled in the proper courses in the proper sequencing so that they can proceed without difficulty in completing their iBBA degree program. The student is ultimately responsible for fulfilling all the requirements - both school and university - of the degree program.

Explanation of Notes:
BA 103 and BA 112 are suggested iBBA elective courses for freshmen. A student can instead take other (higher level) iBBA electives in his/her junior or senior year. Those who are interested in accounting should consult with their advisor on this choice.
${ }^{2}$ ENG 102 is suggested in General Education Domain 2. A student can instead take another course in the same domain.

# SHENANDOAH CONSERVATORY 

Michael Stepniak, Dean<br>Ruebush Hall, Room 108<br>(540) 665-4600

Aimé Sposato, Associate Dean for Undergraduate Studies Ruebush Hall, Room I08-E, (540) 665-4603

## Mission Statement

Shenandoah Conservatory offers undergraduate and graduate curricula that provide professional education for the development of artistic, intellectual and creative excellence in music, theatre and dance. Degree, diploma and certificate programs are structured to meet individualized professional/artistic goals and provide preparation for advanced study. Moreover, programs at Shenandoah Conservatory are designed to cultivate leadership skills and active participation in the advancement of the arts in a global society.

Detailed information regarding study at Shenandoah Conservatory may be found online at www.su.edu/conservatory.

## Conservatory Entrance Requirements

Conservatory applicants must satisfactorily complete an audition, interview or portfolio review prior to the admission decision, except those students entering the Bachelor of Arts in Arts Studies curriculum. In the audition or review, each applicant must demonstrate an appropriate level of technical facility in the chosen medium.

Students desiring to study Costume Design or Scenic and Lighting Design are required to schedule an interview and portfolio review with a member of the design/technical theatre faculty.

Students desiring to study Music Composition are required to schedule an interview and portfolio review with a member of the composition faculty. This requirement is in addition to the performance audition.

Specific audition requirements are found in the Audition Requirements, which follows this section, and in the Conservatory Curriculum Profiles brochure available from the Office of Admissions.

Students do not audition for study with a particular Conservatory teacher. The faculty member conducting the audition is a representative of the division or department and, while students will have an opportunity to express a preference, it is not guaranteed they will study in the studio of the person who hears the audition.

## Audition Requirements

## Dance

All applicants participate in a technique class (ballet, modern dance, and jazz combinations) and present a two-minute to three-minute solo dance (applicant's or
teacher's choreography; transfer students must choreograph their own solos). A CD player is available to play applicant's accompaniment. Include two current photographs with the application: one in first arabesque position (side view) and a head shot.

## Music - Classical Idiom

## Bassoon

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Cello

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Clarinet

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Composition

All applicants audition in major instrument or voice in classical idiom. Composition portfolio is required, including two or three written examples of the applicant's work with CD (MIDI acceptable) if possible. Personal interview with a member of the composition faculty is strongly recommended.

## Double Bass

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Euphonium

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Flute

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Guitar

Prepared solo of appropriate difficulty. Selection may be from music of any style or type, with the understanding that all study will be from the classical idiom. Scales and sightreading.

## Harp

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Horn

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Oboe

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Organ

Major and minor scales. Piano performance of a Two-Part Invention (Bach) or a movement of a classical sonata. Organ performance of one of the Eight Little Preludes
and Fugues (Bach) and a Romantic or 20th century selection. Church Music applicants must also perform sightreading of accompaniments and sightreading of a simple tune. Choral experience helpful.

## Percussion

Upper grade solo selection and/or orchestral excerpt to display technical ability and fundamental technique. Sightreading. All applicants must show proficiency in one of three areas: snare drum, timpani, or melodic instruments. Applicants to performance degrees must demonstrate proficiency in two of the three areas.

## Piano

Performance, Pedagogy and Accompanying: Major and harmonic minor scales. Major arpeggios in root position, sight reading. Memorized material representing three periods, such as: I) Bach suite or invention, 2) classical sonata, 3) Romantic or 20th century composition.

Accompanying: Must also perform one vocal and one instrumental accompaniment; applicants must bring their own performers to accompany.

Musical Theatre Accompanying: Must also perform two accompaniments from the standard American musical theatre repertoire, one ballad and one up-tempo; applicants must bring their own performer to accompany.

Music Education, Music Therapy, Arts Management, Music Production and Recording Technology, Composition and Music with Elective Studies: Major and harmonic minor scales, sightreading. Memorized material representing three periods, such as: I) little prelude (Bach), 2) classical sonatina (Clementi), 3) a piece from Schumann's Album for the Young.

## Saxophone (alto)

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Trombone

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Trumpet

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Tuba

Prepared etude and solo of appropriate difficulty. Scales and sightreading.

## Viola

A concerto movement or concert solo and a contrasting work (such as an unaccompanied Bach, concert piece, sonata movement or contemporary work). Scales in three octaves.

## Violin

A concerto movement or concert solo and a contrasting work (such as an unaccompanied Bach, concert piece, sonata movement or contemporary work). Scales in three octaves.

## Voice

Two memorized songs from standard classical solo vocal repertoire, one in English and one in another language; material should be appropriate to the applicant's voice and current musical development. Examples of standard classical vocal music in English include, but are not limited to, solo songs by Ralph Vaughan Williams, Roger Quilter, Aaron Copland, John Duke, Richard Hundley, New Rorem, and Samuel Barber as well as folk song arrangements by Benjamin Britten and John Jacob Niles. Sightreading is also required at the audition.

## Music - Jazz Idiom

Note I: Applied majors in the jazz idiom are available in the following curricula:
Jazz Studies, Music Production and Recording Technology (Jazz Emphasis), Arts Management - Music (Jazz Emphasis), and Music Therapy (Jazz Emphasis).

Note 2: All applicants must provide a recorded accompaniment (such as the Jamey Aebersold series) for the jazz portion of the audition.

## Bass (electric or acoustic)

One jazz standard, demonstrating melody and walking bass line; demonstration of walking bass, Latin, rock and funk styles; major and minor (natural and harmonic) scales (one octave); major and minor arpeggios; sightreading.

## Drum Set/Percussion

Two pieces using traditional swing pattern (one medium tempo, one up-tempo); one ballad with brushes; one contemporary jazz-fusion piece showing four-way independence; one medium/upper grade snare solo or orchestral excerpt or one medium tempo vibe solo showing melody, improvisation and comping; sightreading.

## Guitar

One jazz standard (ballad or medium tempo); major scales; sightreading of notation and chord symbols.

## Piano

One memorized classical piece (e.g. Bach little prelude, Clementi sonatina, Schumann Album for the Young); major and harmonic minor scales; jazz solo ballad; jazz medium tempo selection in piano trio format, demonstrating melody, improvisation and comping; sightreading of notation and chord symbols.

## Saxophone

Fast and slow etude (e.g.Voxman Selected Studies or Ferling 48 Etudes); one jazz standard, demonstrating melody and improvisation and showing basic knowledge of jazz
style through texts comparable to Niehaus, Basic Jazz Conception; major scales (in eighth notes, quarter $=80$ ), and sightreading.

## Trombone

One prepared classical solo (grade 5-6) or two classical etudes of equal difficulty; two jazz standards in contrasting styles, demonstrating melody and improvisation; major and minor (natural, harmonic, and melodic) scales; sightreading.

## Trumpet

At least one of the following: an etude (comparable to Arban characteristic study), the first or third movement of a major work for trumpet (e.g. Haydn or Hummel concerto, Hindemith, or Kennan sonata), or a complete trumpet solo (e.g. "Carnival of Venice," "Bride of the Waves"); one jazz standard, demonstrating melody and improvisation, scales and sightreading.

## Theatre

Acting, Theatre for Youth, and Arts Management (Theatre concentration, Acting emphasis): Two memorized monologues, one from a Shakespeare play, 20-28 lines in length; the second from a contemporary play, two minutes maximum, reflecting the applicant's age. Attach a standard $8 \times 10$ head shot and resumé to the application.

Costume Design, Scenic and Lighting Design, Arts Management (Theatre concentration, Technical Theatre emphasis): Submit a portfolio that includes photographs of your work, drafting or design sketches and programs. Letters of recommendation in support of the applicant are recommended. Attend an interview with a member of the technical theatre faculty. Attach a resumé to the application.

## Musical Theatre

Sixteen measures of two songs from the standard musical theatre vocal repertoire (see suggested repertoire); one monologue, one minute or less (age-appropriate and chosen from a contemporary play - Shaw or later); and a dance audition taught to the entire auditioning group and evaluated in small groups. Dance or workout attire is required. Attach a standard $8 \times 10$ head shot and resumé to the application.

Suggested repertoire: One song must be chosen from Golden Age or pre-Golden Age musicals (1940-I 964). Suggested song writers include (but are not limited to) Rodgers and Hammerstein, Rodgers and Hart, Lerner and Leowe, Bock and Harnick, Bernstein, Loesser, Porter, Kern, Herbert, Romberg, and Gershwin. One song may be another Golden Age or Pre-Golden Age song, or it may be chosen from more contemporary musical theatre repertoire.

Theatre Stage Management: Attend a personal interview with a member of the theatre faculty; letters of recommendation in support of the applicant are recommended.
Attach a standard resumé to the application.

## Requirements for Certificates and Degrees

Candidates for certificates and baccalaureate degrees must complete the requirements for their majors, concentrations and emphases in addition to successfully meeting all university-wide requirements.

## Language Requirements

Foreign language requirements may be fulfilled with any standard spoken language that is not the student's primary native language. Some curricula have specific requirements printed with the description under Curriculum Requirements following this section.

## Ensemble Requirements and Procedures

Ensemble participation requirements for undergraduate students are stated in terms of duration and credit. Specific requirements are published with each curriculum description in the Shenandoah University undergraduate catalog.

Students are placed in ensembles by audition. Music students must fulfill requirements by performing in their major applied music area. Recipients of Conservatory awards may be required to perform in ensembles beyond curricular minimums.

Instrumental students are placed in large ensembles as auditioned by applied music faculty members. Conservatory award recipients may be required to perform in up to four credits of ensemble per semester, and these responsibilities are considered when students are placed. Students may express ensemble preferences, but final placements are dictated by the personnel and balance needs of each ensemble. Instrumental ensembles are open, by audition, to students from all curricula and all schools.

Students in large choral ensembles are auditioned jointly by all large choral ensemble directors. Students are assigned to a single large choral ensemble. Conservatory award recipients may be required to perform in up to four credits of ensemble per semester, and these responsibilities are considered when students are placed. Students may express preferences, but final placements are dictated by the personnel and balance needs of each ensemble. Choral ensembles are open, by audition, to students from all curricula and all schools.

For most curricula the requirement is completion of a minimum of 16 credits and the duration requirement is for eight different semesters of participation. Ensemble participation is required every semester of fulltime enrollment up to a maximum of eight semesters.

Participation requirements are further specified in terms of large or small ensemble participation. For most curricula the requirement is for six different semesters of participation in a large ensemble with an additional two semesters of participation in large or small ensembles. Participation for students with jazz majors varies by instrument in terms of large and small ensemble requirements.

When a student completes a degree in less than eight semesters and has been enrolled in an ensemble for every semester of enrollment, including large ensemble for at least six semesters, the student is exempt from the remaining duration requirement but must still fulfill the total credit requirement.

When a student is enrolled in a degree program for more than eight semesters, and all ensemble duration and credit requirements have been met, no further ensemble participation is required unless the student has scholarship responsibilities.

Every student who participates in an ensemble must be a student enrolled through the university. A student who wishes to participate in an ensemble beyond eight semesters and who has met all ensemble duration and credit requirements, or who wishes to participate in additional ensembles without credit, may register in one of two ways: I) as a regular credited student or 2 ) without credit through the Shenandoah Conservatory Arts Academy.

Any deviations or exceptions to the above must be approved and documented by the associate dean for undergraduate studies.

## Accompanying Ensemble

All piano performance and accompanying students are placed in the Accompanying Ensemble. Students are grouped within the ensemble and assigned accompanying responsibilities as auditioned by the director.

Participation in the Accompanying Ensemble is normally limited to the majors listed above. Students in other curricula are considered on an individual basis.

## Dance Ensembles

Dance majors are placed in ensembles as auditioned by the dance faculty. Participation is normally limited to dance majors. Students in other curricula are considered on an individual basis by audition.

## Theatre Ensembles and Productions

## Definition of Terms:

"Major production" includes (and is limited to) the following theatre division productions each academic year: musicals, youth theatre productions, laboratory theatre production(s), opera(s) and play(s).
"Involvement" in a production includes any artistic or technical involvement - cast member, directing or assistant directing, stage management and design or technical assistance in set, lighting or costuming.

Students enrolled in theatre curricula are required to participate in Shenandoah theatre productions. Theatre performance majors are required to complete four production credits in order to graduate.

Musical theatre majors are required to audition for:

- all musicals;
- all youth theatre productions;
- all plays; and
- choral ensemble (freshmen only).

Musical theatre majors may audition for the opera, but are not required to do so.

Acting and theatre for youth majors are required to audition for:

- all youth theatre productions; and
- all plays.

Acting and theatre for youth majors may audition for musicals and operas, but are not required to do so.

Senior Showcase is required for all musical theatre and acting majors in the spring semester of the senior year. Senior Showcase is open as an elective to all other theatre majors.

Costume design and scenic and lighting design majors are not required to audition for any productions, but may elect to do so. Design majors typically fulfill production requirements through technical work.

Although participation in theatre productions is normally limited to theatre majors, auditions for all productions are open to non-theatre majors. Students may express role preferences at the time of audition, but the audition is a commitment to participate as cast, and all who audition must accept the roles for which they are cast.

Any involvement in an "outside production" must not conflict with the student's responsibilities at Shenandoah. Matriculation as a theatre major implies a contract for commitment to complete the degree and fully meet all of its requirements. All Shenandoah classes, rehearsals and performances take precedence over outside work.

Additional performing opportunities are available in projects directed by students enrolled in directing classes. Limits on participation in such projects are as follows:

- In each semester, a theatre major not involved in any major production or ensemble, or involved in one major production or ensemble may, in addition, elect to be involved in three directing projects (junior directing class or advanced directing).
- In each semester, a theatre major involved in two major productions or one major production and an ensemble may elect to be involved in two directing projects.
- In each semester, a theatre major involved in two major productions and an ensemble may elect to be involved in one directing project.

## Performance Forum

## Requirements

I. Full-time undergraduate students in music and dance curricula register for PRF IOI, Performance Forum, as a class valued at .5 credit hour per semester for a minimum of five semesters taken continuously from the time of matriculation until the requirement is completed. These students also complete PRF 201 , Health Issues for Artists at . 5 credit hour. If this requirement places a student in an overload situation, the fee is waived.
2. Part-time students must also complete six semesters of PRF IOI, but have the option of not registering continuously.
3. Transfer students must register for PRF IOI for every semester they are enrolled up to six semesters.
4. Performance Forum will consist only of events scheduled as a regular class at 3 p.m. on Wednesdays throughout the semester.
5. Events will provide students with a broad sampling of repertoire to include music, theatre and dance.
6. Events offered will range from no less than 40 minutes in length to a maximum of 50 minutes.
7. Students may not leave early.
8. Grading will be as follows:
$A=7$ Performance Forums
$B=6$ Performance Forums
C $=5$ Performance Forums
$D=4$ Performance Forums
9. Performance Forum Record Keeping

- Attendance will be monitored by adult professional staff members. Attendance slips will be distributed for up to 10 minutes after the start of a performance and slips will be collected at the end of the event.
- Programs will not be accepted as evidence of attendance. Attendance slips are accepted only from the student whose name appears on the slip.
- Records are maintained in the Conservatory office. Students may check their attendance record online at www.su.edu/conservatory/performanceforum.
- Each performance is recorded by Student ID only. Credit is awarded when ID numbers are clear and correct.

10. Credit will not be earned:

- if the ID is incorrect or missing from the attendance slip
- if the information on the attendance slips is illegible and incomplete
- if attendance slips are submitted by a student other than the person seeking credit
- for events in which a student performs, nor for individual student or divisional recitals.
II. Students will not be excused from Performance Forum for student teaching, practicum, etc.

12. Students may not be removed from Performance Forum by faculty members for rehearsals or other programs if the program is still in progress.
13. PRF IOI-IOI Failures

- Full-time students who earn a grade of " $F$ " in any semester must register for additional semesters of PRF IOI-IOI until six semesters are successfully completed. Additionally, PRF IOI-IO2 can be added to double up, ensuring the fulfillment of the six-semester requirement.
- Attendances recorded in a semester of failure will not be carried over into a new semester.
- The full requirement must be earned within the semester the student is registered for credit.
- 14. Performance Forum events are posted weekly online at www.su.edu/conservatory/performanceforum/calendar.html.

## Applied Music Study Description

All students enrolled in Music and Musical Theatre curricula are required to complete both an applied music major and an applied music minor. Students must be continuously enrolled in applied music until curricular requirements are fulfilled. Each curriculum carries specific minimum requirements for both duration of study and credits to be earned. Students whose curriculum requires 16 or fewer credits for the applied major register for the two-credit applied sequence. Students whose curriculum requires more than 16 credits for the applied major register for two or three credits per semester, as needed to complete the total credits required.

## Overall Content

The content of each applied music area is outlined for each semester of study. Minimum requirements in technique, sightreading, memorization, repertoire, performance, etc. are provided by each division of the Conservatory, and may be obtained from the individual instructor or division chair.

As a portion of their development, all piano majors must register for accompanying. Those piano students in all curricula except performance, accompanying and jazz register for Studio Accompanying (MUPP 239) for a total of seven semesters. Piano majors in performance and accompanying complete the same requirement through registration for Accompanying Ensemble (MUEN 323) for eight semesters.

## Secondary Minors

Secondary minors are defined as study on a single instrument within the instrument family of the student's major. In special circumstances, this study may be divided between two instruments within the instrument family of the major.

## Curriculum Requirements

For specific duration of study and credit requirements, see the requirements for each degree program that follows.

## Registration

All Music and Musical Theatre students must register for their applied music major and applied music minor in each semester of full-time enrollment until all curricular requirements are fulfilled.

## Studio Assignment

Students are assigned to studios by the chair of the division who offers the applied major. Students' requests are honored when space and balance in studios permits.

Development in applied music is best supported by stability of instruction. Normally studio changes occur only at the end of the academic year. Information about appropriate procedures is available in the Conservatory office and decisions about studio changes are made by the associate dean for undergraduate studies and the chair of the division. It is appropriate for the student to discuss the desire for change with the current faculty member. It is not appropriate for students to approach other faculty members about studio changes. Studio changes may be initiated by the student or the faculty member.

## Evaluation

Upon completion of a semester's applied music study, the student performs a jury for evaluation by a panel of applied music faculty. A student who is permitted to postpone the jury, for approved reasons, beyond the end of the semester will receive a grade of "I," incomplete.

Prior to the jury, and in accordance with deadlines published by the Conservatory office, each student intending to perform a jury must register on a specific form provided by each division.

Once registered for a jury, the student is committed to perform. If a student fails to perform, the instructor must report a grade of "F" for the semester's study. Exceptions will be made only for documented emergencies; the missed jury must be completed at the earliest opportunity.

## Screening Juries

The screening jury, conducted at the end of the fourth semester of applied major study (or for composition students the end of the second semester), examines the student's progress in applied music and leads to decisions regarding the student's future applied study.

The screening jury determines if the student has made sufficient progress in the applied area to warrant the recommendation to proceed with the curricular applied major. A minimum average grade for the jury is "C-." If the jurors do not recommend proceeding and the average grade for the jury is less than "C--"' the student may repeat the work of the fourth semester of applied study or successfully audition for and enter a new applied area.

The screening jury also approves students for entering performance certificate study.

## Recital Requirements

Music recital requirements fall into two broad categories: non-credited performances and recitals for credit. All students registered for applied music study have some performance requirements which may include credited recitals. For specific requirements, see the descriptions of each degree program.

## Non-credited performances

After two semesters of 100 -level applied music study, each student should appear on two division recitals, or other programs deemed equivalent by the applied music instructor. At least one appearance must be a solo performance.

Other non-credited performances may include studio recitals or performances involving a number of students when each student performs less than 25 minutes of music. Such programs may be presented at any time at the discretion of the applied music instructor and the student.

## Recitals for credit

Whether required by the specific curriculum or not, all half recitals and full recitals must be presented for credit and included in the student's course load for the semester in which the recital is given. Students presenting a half or full recital must be concurrently registered for applied study in the area involved. Music included on one credited recital is not repeated in other credited recitals on campus. Pre-recital hearings are required of all keyboard majors, and may be required of other students at the applied music instructor's discretion.

After four semesters of applied music study and 200-level study is completed, the student may present a half recital, which is defined as including 25 minutes of music.

Before presenting a full recital, the student may give a half recital or have performance experience deemed equivalent by the applied music instructor. A full recital includes 50 minutes of music.

## Performance Certificates

A Music or Musical Theatre student whose curriculum requires 16 or fewer credits for the applied major may earn a Performance Certificate in recognition of achievement beyond curricular minimums.

The Performance Certificate is awarded when the student completes the repertoire requirements for the Bachelor of Music in Performance curriculum and gives a full recital.The additional repertoire and the recital must be completed while the student is enrolled in a baccalaureate-level degree program. The grade point average for the final four semesters of applied study (AP** 32I through AP**422), plus the full recital, must be at least a 3.5.

Permission to enter Performance Certificate study is given as part of the screening jury process. Information on timing, content, and required level of achievement for these juries is available from the individual applied music instructor, division chair or from the division handbook.

## Application of Transfer Credit in Applied Music

Transfer students are initially placed in the lowest number used in that curriculum. At the first jury, the faculty jurors place the student at an appropriate level based on the amount of credit brought in transfer and the level of performance ability. Occasionally, the placement decision is deferred to the second jury.

## Applied Conducting Policies

Applied conducting is available only after MUCO 36 I and MUCO 363 or MUCO 364 have been completed successfully.

All applied conducting study is at the elective level except in the Musical Theatre Accompanying curriculum.

Students enrolled in elective study do not have access to Conservatory ensembles as laboratory conducting settings.

Conducting study will not fulfill requirements for an applied minor.

## Registration Responsibilities

Applied choral conducting instruction is registered through the chair of the Vocal/Choral division.

Applied instrumental conducting instruction is registered through the chair of the Instrumental division.

## Class Attendance

Instructors will provide students with a written statement of the class attendance requirements governing that course and the consequences for violating these requirements. After the written statement has been made available, consequences of class absences may include, but are not limited to, a reduced or failing grade. Students are held responsible for all materials covered and assignments regardless of the reason for absences.

## Participation in Commencement Shenandoah Conservatory Procedures

The policy on student participation in commencement ceremonies, colloquially termed "walking," appears in the Academic Policies section of this catalog.

## Specific implementation for Conservatory students:

Permission to "walk" must be requested in writing from the associate dean for undergraduate studies. When time permits, decisions to approve requests are made in conjunction with the Conservatory division chairs.
Students must be within six credits of degree completion, including transfer work for which transcripts have not yet been received. If the number of credits outstanding increases, through failure of current courses, to more than six after permission is sought and granted, the permission is automatically withdrawn.

Prior to "walking," the student must present evidence of registration for the outstanding work or a completion date for work already in progress.

CLEP examinations are included in the six credit maximum until official scores are received. Computer scores generated at the time the test is taken are not official scores.

All outstanding work must be completed prior to the next commencement ceremony, with the exception of internships that extend beyond the next commencement ceremony.

When outstanding work cannot be completed realistically prior to the next ceremony, permission to "walk" may not be granted, even if less than six credits are required for completion. Outstanding work in this category includes applied music, skill courses and credit for large documents such as theses. Determinations are made on an individual basis by the associate dean for undergraduate studies.

When outstanding work is completed and documented more than 30 calendar days after the ceremony, the student must reapply for the next commencement ceremony. The reapplication must be initiated by the student. When work is not completed prior to the next commencement ceremony, the student may be required to re-apply for admission, meeting the current curricular requirements.

The diploma will be mailed when all outstanding work is completed and documented.
Only students who have fulfilled all degree requirements will be eligible for class honors. Those who complete requirements after the ceremony will be considered for class honors when all degree requirements have been completed.

## Curriculum Requirements

The following curriculum requirements are stated in terms of minimum requirements for graduation. Additional courses may be elected in any semester in accordance with regulations concerning student load. Course substitutions are possible only when approved by the associate dean for undergraduate studies.

## Advanced Placement Credit Policy

The Conservatory accepts advanced placement credits in music credits according to the following guidelines:

Music History: A score of 4 or 5 is equivalent to transfer credit for MULT 200, Introduction to Music Literature.

Music Theory: A score of 4 or 5 enables the student to take the final examination for MUTC IOI, Introduction to Music Theory. If a minimum score of 90 percent is achieved, transfer credit for MUTC IOI will be awarded and the student may advance to MUTC I02, Diatonic Harmony and Simple Forms.

## Sequence of Courses

As students must complete all required courses for graduation, they should carefully follow the advice of their advisor and should consult the program tracking sheet, which is made available to them upon matriculation (copies are available from the advisor or the Conservatory office). All courses are not offered every year and it is the student's responsibility to ensure that all degree requirements are being met in a manner that allows for an on-time graduation. Failure to follow the prescribed sequence of courses or the advice of the advisor may result in a delayed graduation until all degree requirements are met.

## Double Reed Making Requirements

All applied oboe majors are required to enroll in MUPP 24I, Oboe Reed Making Class concurrently with applied oboe lessons.

All applied bassoon majors are required to enroll in MUPP 242, Bassoon Reed Making Class, concurrently with applied bassoon lessons.

## General Education

Conservatory students are encouraged to consult with their advisors when selecting courses to fulfill the university-wide general education curriculum.

## Course Overloads

Students who wish to register for more than 18 credits per semester must secure permission from the associate dean for undergraduate studies. Students enrolled in their first semester of study may not register for an overload. Thereafter permission is granted only when the student earned a grade point average of 3.0 or higher the previous semester.

## Bachelor of Arts in Arts Studies

Philip Sargent, Associate Professor of Music Ruebush Hall, Room 237, (540) 665-4546, psargent@su.edu

The Bachelor of Arts in Arts Studies degree is an interdisciplinary curriculum designed for the student who has an interest in a broad-based general education with an academic emphasis in the arts. The course of study includes a core of liberal arts courses, a major founded in music, theatre, dance and art, and an elective component for which students are given considerable latitude in course selection. A performance audition is not required for admission to this curriculum.

## Program Objectives

Students completing the Bachelor of Arts in Arts Studies will be able to:

- explore the arts including study of music, theatre, visual art and dance;
- demonstrate knowledge of at least one foreign language;
- demonstrate knowledge of historical and philosophical foundations of the arts;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

Course and Credit Requirements for the Bachelor of Arts in Arts Studies Degree

| Course | Title |  |
| :--- | :--- | :--- |
| Art electives chosen from the following: |  |  |
| ART | 200 | Art Appreciation |
| ART | 214 | Investigations in Modern Art |
| ART | 216 | American Art |
| ART | 295 | Topics |

Credit Hours

ART 200 Art Appreciation
ART $214 \quad$ Investigations in Modern Art
ART 295 Topics

Music electives chosen from the following:
MUTC I0I Introduction to Music Theory**
MUTC 102 Diatonic Harmony and Simple Forms*
MULT 200 Introduction to Music Literature
MULT $201 \quad$ History of Western Music I
MULT 202 History of Western Music 2
MULT 225 Introduction to Rock Music
MULT 276 Women in Music
MULT 355 American Musical Theatre I (also listed as TH 355)
MULT 356 American Musical Theatre 2 (also listed as TH 356)
MULT 361 Survey of World Music: South Asia/Middle East/Europe
MULT 362 Survey of World Music: Sub-Saharan Africa/Caribbean

Total

[^2]
## Electives

Consult with advisor to select appropriate electives.
Elective credits must bring degree total to minimum of 120 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically so designated on the list of courses.

## Bachelor of Arts in Dance

Erica Helm, Associate Professor of Dance
Shingleton Hall, Room 26, (540) 665-4647, ehelm@su.edu
The Bachelor of Arts in Dance degree is designed for students who are interested in a broad general education while continuing to pursue their dance studies. It is suitable for students preparing for careers in dance history, therapy, kinesiology and library science. An audition is required for entrance into the program.

## Program Objectives

Students completing the Bachelor of Arts in Dance will be able to:

- demonstrate dance technique in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of at least one foreign language;
- demonstrate knowledge of philosophical, historical, artistic and scientific foundations for dance;
- demonstrate the ability to improvise and compose dance;
- employ technology for the presentation of dance; and
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Course and Credit Requirements for the Bachelor of Arts in Dance Degree

Dance majors must enroll in both ballet and modern dance technique during their first two semesters in residence at Shenandoah University.

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| DA | 111 | Modern Dance 1 | $2^{*}$ |

Elective credits must bring degree total to minimum of 120 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically so designated on the list of courses.
Bachelor of Arts in Dance majors are encouraged to participate in all main-stage productions of the Dance Division as either cast or crew.

## Bachelor of Fine Arts in Acting

Mark Kittlaus, Associate Professor of Theatre Ruebush Hall, Room 127-C, (540) 545-7286, mkittlau@su.edu

The Bachelor of Fine Arts in Acting curriculum is designed for the talented actor who wishes to prepare for a professional career in theatre. The curriculum provides a balance of theatre studies with opportunities for practical experience as well as a strong base of liberal arts studies which will enable students to think critically, perform creatively and communicate effectively both as theatre professionals and as members of a diverse society.

## Program Objectives

Students completing the Bachelor of Fine Arts in Acting will be able to:

- demonstrate a variety of acting and improvisation techniques;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of theatre history and musical theatre history;
- explore other artistic disciplines within the field of theatre;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

Requirements for the Bachelor of Fine Arts in Acting Degree

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :--- |

|  |  | Total | 120 |

## Electives

Consult with advisor to select appropriate electives.
Elective credits must bring degree total to minimum of 120 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.

## Bachelor of Fine Arts in Costume Design

Cheryl Yancey, Associate Professor of Theatre Ruebush Hall, Room I27-B, (540) 545-7247, cyancey@su.edu

The Bachelor of Fine Arts in Costume Design curriculum is designed for the talented designer who wishes to prepare for a professional career in theatre. The program provides a balance of theatre studies and practical experience as well as a strong base of liberal arts studies which will enable students to think critically, perform creatively and communicate effectively both as theatre professionals and as members of a diverse society.

## Program Objectives

Students completing the Bachelor of Fine Arts in Costume Design will be able to:

- demonstrate a variety of techniques in the creation of original artistic designs for the performing arts;
- employ technology in the creation of original designs for the performing arts;
- demonstrate knowledge of theatre history and costume history;
- design for a variety of repertoire;
- explore other disciplines within the field of theatre;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Course and Credit Requirements for the Bachelor of Fine Arts in Costume Design Degree

| Course |  | Title | Credit Hours |
| :---: | :---: | :---: | :---: |

|  |  | Total | 120 |

*Minimum grade of "C" required.

## Electives

Consult with advisor to select appropriate electives.
Elective credits must bring degree total to minimum of 120 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.

## Bachelor of Fine Arts in Dance

Erica Helm, Associate Professor of Dance
Shingleton Hall, Room 26, (540) 665-4647, ehelm@su.edu
The Bachelor of Fine Arts in Dance curriculum is designed to prepare both the student seeking a career in dance as a performing artist as well as the student seeking a career as a teacher/choreographer in a private studio setting.

## Program Objectives

Students completing the Bachelor of Fine Arts in Dance will be able to:

- demonstrate dance technique in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate the ability to improvise and compose dance in both solo and group forms;
- demonstrate knowledge of methods and materials for teaching and presenting dance;
- demonstrate knowledge of philosophical, historical, artistic, and scientific foundations for dance;
- employ technology for the presentation of dance;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

*Minimum grade of " $C$ " required

## Dance Technique Requirements

Majors must take ballet, modern dance, and one additional technique elective each semester. Students are placed at the appropriate technical level in each discipline, and evaluated each semester for advancement to the next level.
Majors must be dancing at the advanced technical level in modern (DA $311 / D A 312$ ) and at least the intermediate technical level in ballet (DA 22 I/DA 222) during both semesters of the senior year.
All 100 level technique classes are repeatable to 4 credits.
All 200 level technique classes are repeatable to 6 credits.
All 300 and higher technique classes are repeatable to 8 credits.
Participation in DA 386 - Dance Ensemble, DA 385 - Dance Workshop, or one of the Dance production courses (DA 35I, DA 352, DA 353, DA 354) is required every semester of enrollment after the freshman year. BFA - Dance Majors are required to participate in all main stage productions of the Dance Division as either cast or crew.

## Electives

Consult with advisor to select appropriate electives.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits must bring degree total to minimum of I20 credits.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically so designated on the list of courses.

## Bachelor of Fine Arts in Dance Education

Erica Helm, Associate Professor of Dance

Shingleton, Room 26, (540) 665-4647, ehelm@su.edu
The Bachelor of Fine Arts in Dance Education curriculum is designed for the student seeking a career as a dance teacher in the public school setting and licensure by a state department of public instruction. It is also appropriate for the student who plans to teach dance in the private studio setting or pursue graduate level studies in fields related to dance or dance education. The dance education curriculum provides development of technical, performance and choreographic skills and is the only dance curriculum that provides all of the courses in dance teaching techniques, education and liberal arts necessary for licensure in Virginia. Graduates who are licensed in Virginia may obtain licensure in other states through reciprocity. The purpose of the Bachelor of Fine Arts in Dance Education program is to provide professional preparation and educational experiences that culminate in directed teaching and the awarding of the baccalaureate degree. The curriculum is designed to develop the dancer and educator in the distinctive Conservatory setting while meeting the standards for teacher licensure established by the Commonwealth of Virginia.

All initial licensure teacher education programs at Shenandoah University require that I) the PRAXIS I exam must be taken before admission to candidacy in teacher education programs, and 2) the PRAXIS II exam must be taken in the student's last year prior to graduation. There is no PRAXIS II exam for Dance K-I2 licensure.

## Directed Teaching in Dance

Directed Teaching in Dance is required during the final semester of the Bachelor of Fine Arts in Dance Education curriculum. Students who wish to pursue Directed Teaching in Dance must apply through their advisor during the semester preceding the anticipated directed teaching experience. To be accepted for directed teaching, the student must have a cumulative grade point average of 2.5. In addition, all courses that are prerequisite to directed teaching (see degree requirements) must be passed with a minimum grade of "C" or repeated until a grade of "C" has been earned. The content of each prerequisite course is stated in course syllabi and is evaluated and graded so that a grade of "C" certifies that the student has mastered the minimum skills necessary to succeed in teaching.

Documented observation of teaching is required of all dance education students prior to the directed teaching experience. Observations must include hours in both the elementary and secondary public school settings as well as hours in the private studio setting. The total observation requirement must be completed prior to admission to directed teaching.

Complete forms and information concerning observations, personal and competency screening and directed teaching applications are obtained through the student's advisor.

## Program Objectives

Students completing the Bachelor of Fine Arts in Dance Education will be able to:

- demonstrate dance technique in solo and ensemble performance;
- perform a variety of repertoire;
- demonstrate knowledge of philosophical, historical, artistic and scientific
foundations for dance;
- demonstrate the ability to improvise and compose dance in both solo and group forms;
- demonstrate the ability to create learning experiences for students;
- demonstrate a variety of teaching techniques for the elementary and secondary dance classrooms;
- demonstrate the ability to lead a class or ensemble;
- demonstrate knowledge of methods, materials and technology for presenting dance;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

*Minimum grade of "C" required.
+Prerequisite to Directed Teaching.
Participation in DA 386 - Dance Ensemble, DA 385 - Dance Workshop, or one of the Dance production courses (DA 35I, DA 352, DA 353, DA 354) is required every semester of enrollment after the freshman year except during student teaching.

## Electives

Consult with advisor to select appropriate electives.
Elective credits must bring degree total to minimum of I 20 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically so designated on the list of courses.

## Bachelor of Fine Arts in Musical Theatre

Jonathan Flom, Assistant Professor of Theatre<br>Ruebush Hall, Room I20, (540) 665-4605, jflom@su.edu

The Bachelor of Fine Arts in Musical Theatre curriculum is designed for the talented performer who wishes to prepare for a professional career in musical theatre. The curriculum provides a balance of theatre, music and dance study with practical applications.

## Program Objectives

Students completing the Bachelor of Fine Arts in Musical Theatre will be able to:

- demonstrate a variety of acting/improvisational techniques;
- demonstrate musicianship in solo and ensemble performance;
- demonstrate dance technique in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of theatre history, music theory and musical theatre history;
- explore other disciplines within the field of theatre;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Bachelor of Fine Arts in Theatre for Youth

Wade Fransen, Assistant Professor of Theatre Ruebush Hall, Room II8, (540) 545-7309, wfransen@su.edu

The Bachelor of Fine Arts in Theatre for Youth curriculum is designed to prepare the student to work as a professional in all areas of theatre for youth, whether it be as director, producer or teacher, working with adults and/or children in theatrical productions, workshops or children's theatre companies. The program provides a balance of theatre studies and practical experience as well as a strong base of liberal arts studies which will enable students to think critically, perform creatively and communicate effectively both as theatre professionals and as members of a diverse society.

## Program Objectives

Students completing the Bachelor of Fine Arts in Theatre for Youth will be able to:

- demonstrate acting and improvisational skills;
- demonstrate the ability to lead performers in performance preparation;
- demonstrate knowledge of acting, improvisation, directing, teaching and producing techniques;
- demonstrate a variety of techniques in the creation of original artistic designs for the performing arts;
- demonstrate knowledge of theatre history;
- perform a variety of repertoire;
- explore other disciplines within the field of theatre;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Bachelor of Music in Church Music

Steven Cooksey, Professor of Music
Goodson Recital Hall, (540) 665-4633, scooksey@su.edu
The Bachelor of Music in Church Music curriculum is designed for students who wish to become full-time church musicians. The student electing this course of study may choose an applied performance major emphasis in organ or voice.

## Program Objectives

Students completing the Bachelor of Music in Church Music will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of repertoire for liturgical settings;
- demonstrate the ability to lead a rehearsal or music component of a church service;
- demonstrate knowledge of music theory, music history, world music, and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically designated on the list of courses.

## Applied Music Minimums

Applied Major (organ or voice): 6 semester duration, sequence of $A P^{* *}\left|23, A P^{* *}\right| 24, A P^{* *} 223, A P^{* *}$ 224, AP** 321, AP** 322.
Class Piano: 4 semester duration, (APCP I05-APCP 206). Students screened into private piano study must additionally complete MUTC I07-MUTC I08 Keyboard Harmony. Secondary minor (organ or voice, whichever is not applied major): 4 semester duration, AP** \| \| I-AP** 212.

## Ensemble Requirements

12 total credits
Twelve ensemble credits to be earned in six different semesters, with ensemble participation every semester of full-time enrollment.

## Bachelor of Music in Music Production and Recording Technology - Classical Applied Emphasis

Golder O'Neill, Associate Professor of Music
Ruebush Hall, Room I36, (540) 665-5567, goneill@su.edu
The Bachelor of Music in Music Production and Recording Technology curriculum is designed to prepare a student for a career in music production and recording technology production, and includes study in composition and arranging, performance and recording and sound reinforcement techniques.

## Program Objectives

Students completing the Bachelor of Music in Music Production and Recording Technology (classical applied emphasis) will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of sound recording and sound reinforcement techniques;
- compose and arrange original music;
- lead a rehearsal, class or ensemble;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Electives

Consult with advisor to select appropriate electives.
Elective credits must bring degree total to minimum of 120 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically so designated on the list of courses.

## Applied Music Minimums

Applied Major: 8 semester duration, AP** $121-A P^{* *} 422$.
Applied Minor:
Non-Piano Majors: 4 semester duration, APPN 1 II-APPN 212 or APCP I05-APCP 206. Piano Majors: 4 semester duration, AP** | II-AP** $2 \mid 2$, single classical or jazz instrument.

## Ensemble Requirements

16 total credits
Twelve credits of large ensemble earned in six different semesters, with ensemble participation every semester of full-time enrollment are required. Four additional credits of either large or small ensembles are required.

## Bachelor of Music in Music Production and Recording Technology - Jazz Applied Emphasis

Golder O'Neill, Associate Professor of Music
Ruebush Hall, Room 136, (540) 665-5567, goneill@su.edu
The Bachelor of Music in Music Production and Recording Technology curriculum is designed to prepare a student for a career in music production and recording technology production and includes study in composition and arranging, performance and recording and sound reinforcement techniques. The jazz applied option is available in bass, guitar, percussion, piano, saxophone, trombone and trumpet.

## Program Objectives

Students completing the Bachelor of Music in Music Production and Recording Technology (jazz applied emphasis) will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of sound recording and sound reinforcement techniques;
- demonstrate the ability to improvise, compose and arrange jazz music;
- demonstrate knowledge of jazz music repertoire, history and style;
- lead a rehearsal, class or ensemble;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

Semester 2: I credit, Class Piano or classical private piano
Semester 3: I credit, Class Piano or classical private piano
Semester 4: I credit, Class Piano or classical private piano

## Minor study for Jazz Piano Majors

Semester I: | credit, Perform. Dev., Jazz Piano, APPD | \| |
Semester 2: I credit, Perform. Dev., Jazz Piano, APPD ||2
Semester 3: | credit, Perform. Dev., Jazz Piano, APPD 2 | |
Semester 4: | credit, Perform. Dev., Jazz Piano, APPD 212
Duration requirements in applied jazz study: All duration requirements must be met fully. Credit from previous study may not be consolidated nor spread to meet duration requirements.

## Ensemble Requirements - Jazz Applied Majors <br> Brass, Woodwind and Percussion Jazz Applied Majors

12 total credits
Eight credits of large ensemble earned in four different semesters, performing on major instrument. Four credits of large or small ensemble. Must include two completions of Jazz Combo: Improvisation Laboratory. Ensemble participation every semester of full-time enrollment is required.

## Piano, Guitar and Bass Jazz Applied Majors

12 total credits
Four credits of large ensemble earned in two different semesters, performing on major instrument. No fewer than eight credits of large or small ensemble earned in six different semesters. Must include two completions of Jazz Combo Improvisation Laboratory. Ensemble participation every semester of full-time enrollment is required.

## Bachelor of Music in Composition

William Averitt, Professor of Music
Ruebush Hall, Room I39, (540) 665-4630, waveritt@su.edu
The Bachelor of Music in Composition curriculum is designed for the student who wishes to pursue a career as a professional composer or as a college teacher of theory and composition. The student's creative skills are guided and developed through intense study in and the practical application of 20th century art music; the curriculum does not include work in popular idioms or jazz. The prospective student must be aware of the
rigorous competition in the field, and should realize that continued study at the graduate level constitutes the minimum standard of professional status.

## Proficiency Examinations

The examinations of achievement held at the conclusion of the second semester of study in applied composition is of special significance. The student's work in composition and theory is reviewed by the composition faculty. A minimum grade of " C " is required for continued study in the composition curriculum. Students not meeting the minimum requirement will receive special counseling, and may re-register for APCM I22, Applied Composition, to be re-examined after an additional semester of study.

## Program Objectives

Students completing the Bachelor of Music in Composition will be able to:

- demonstrate a variety of techniques in the composition of original music;
- compose in a variety of genres;
- have scores performed in a variety of settings;
- demonstrate musicianship in solo and ensemble performance;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Bachelor of Music in Jazz Studies

Robert Larson, Associate Professor of Music
Armstrong Hall, I8-C, (540) 665-4557, rlarson@su.edu
The focus of the Jazz Studies program at Shenandoah University is on the preparation of musicians as performers and arrangers in the broad field of contemporary music, which includes jazz, popular, commercial, classical and studio music. Students are also trained in areas of technology, as well as in jazz teaching techniques, in preparation for a career of evolving opportunities. The philosophy of the Shenandoah University Jazz Studies program is grounded in the belief that 21 st century artists will work in a variety of settings, where performing, composing, studio work, and teaching are important components of a successful musician's overall career.

## Program Objectives

Students completing the Bachelor of Music in Jazz Studies will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of jazz music repertoire, history and style;
- demonstrate the ability to improvise, compose and arrange jazz music;
- demonstrate knowledge of music theory, music history, world music and music technology;
- lead a rehearsal, class or ensemble;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Ensemble Requirements - Jazz Applied Emphasis Majors <br> Brass, Woodwind and Percussion Jazz Applied Majors

16 total credits
Twelve credits of large ensemble earned in six different semesters, performing on major instrument, with ensemble participation every semester of full-time enrollment are required.
Four credits of either large or small ensembles are required. Must include two completions of Jazz Combo: Improvisation Laboratory.

## Piano, Guitar and Bass Jazz Applied Majors

16 total credits
Eight credits of large ensemble earned in four different semesters, performing on major instrument, with ensemble participation every semester of full-time enrollment are required.
No fewer than six credits of small ensemble earned in six different semesters plus two credits of large or small ensemble must be completed. Must include two completions of Jazz Combo: Improvisation Laboratory.

## Bachelor of Music in Music Education

Stephanie Standerfer, Assistant Professor of Music
Ruebush Hall, Room 234, (540)-535-3469, sstander@su.edu
The Bachelor of Music in Music Education curriculum with a concentration in teacher preparation is intended for the student who plans to teach music in the public schools and who seeks licensure as a qualified music teacher by a state department of public instruction. It is also appropriate for the student whose eventual goal is college teaching in fields related to music education. The music education curriculum provides development of skills in the chosen area of music performance and provides all of the courses in music teaching techniques, education and liberal arts necessary for licensure in Virginia. Graduates who are licensed in Virginia may obtain licensure in other states through reciprocity.

## Program Objectives

Students completing the Bachelor of Music in Music Education will be able to:

- demonstrate musicianship in solo and ensemble performance;
- demonstrate the ability to write lesson plans and create learning experiences for students;
- demonstrate a variety of teaching techniques for the elementary and secondary music classrooms;
- demonstrate the ability to lead a class or ensemble;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Admission

Students are admitted to the Bachelor of Music in Music Education degree program based on the entrance criteria established by the university and Conservatory. Students follow the course of study published in the Shenandoah University Undergraduate Catalog for the year of entrance to the university.

All initial licensure teaching education programs at Shenandoah University require that the Praxis I Exam must be passed before admission to candidacy in teacher education programs. Students are admitted to candidacy following successful completion of the screening interview conducted at the end of the sophomore year.These screening interviews assess academic, personal and professional progress. BME students must pass the Virginia Literacy Communication Assessment (VCLA) prior to the screening interview. Specific requirements for the screening interview are found in the Bachelor of Music in Music Education Handbook. Upon successful completion of the screening interview, BME students are admitted as candidates to the teacher education licensure program. Students who do not satisfy the screening interview requirements are not admitted into 300- or 400-level music education (MUED) courses.

## Statement of Purpose

The purpose of the Bachelor of Music in Music Education program is to provide professional preparation and educational experiences that culminate in directed teaching and the awarding of the baccalaureate degree. The curriculum is designed to develop the musician and educator in the distinctive Conservatory setting while meeting the standards for teacher licensure established by the Commonwealth of Virginia.

## Areas of Concentration

The Bachelor of Music in Music Education curriculum is offered with instrumental or choral/general concentrations. Students wishing to be licensed in both the instrumental and choral/general areas must complete an additional I 3.5 credit hours in the second area of concentration.

Areas of concentration are based on the student's applied major. Students with applied majors in traditional band and orchestral instruments enroll in the instrumental concentration, and students with applied majors in voice, piano or guitar enroll in the choral/general concentration.

A student majoring in choral/general music education, who wants to receive additional licensure endorsement in instrumental music education, will be required to take

- eight hours in instrumental methods and materials (MUED 329, MUED 330,

MUPP 313, MUPP 314, MUPP 316 and MUPP 318);

- four hours of major instrumental ensemble; and
- either Marching Band Techniques or Instrumental Conducting.

A student majoring in instrumental music education who wants to receive additional licensure endorsement in choral/general music education, is required to take

- seven hours in choral/general methods and materials (MUED 32I, MUED 322, MUED 323, MUED 333);
- four hours of major choral ensemble (MUEN 3II, MUEN 312 or MUEN 3I3); and
- four hours selected from Introduction to Lyric Diction, Choral Conducting, Jazz and Show Choir Methods or American Orff and Folk Instruments.

Students seeking dual licensure must participate in an ensemble which represents the secondary area of licensure for at least two semesters.

## Directed Teaching in Music

Directed Teaching in Music is required during the final year of the Bachelor of Music in Music Education curriculum. Students must make application with their advisor prior to the planned directed teaching, usually the spring semester of the junior year. To be accepted for directed teaching, the student must have a minimum cumulative grade point average of 2.5 .

In addition, all courses that are prerequisite to directed teaching (see degree requirements) must be passed with a minimum grade of "C" or repeated until a grade of "C" has been earned. Note university policy provides that a student may repeat a course a maximum of three times. See "Repeating Courses" under Academic Policies in this catalog. The content of each prerequisite course is stated in course syllabi and is evaluated and graded so a grade of "C" certifies the student has mastered the minimum skills necessary to succeed in teaching.

Instrumental concentration students must complete MUED 329 and MUED 330 at Shenandoah University prior to directed teaching. Choral/General concentration students must complete MUED 321, MUED 322, and MUED 323 at Shenandoah University prior to directed teaching. In applied music, the student must complete AP** 322 before undertaking directed teaching. Bachelor of Music Education students must also pass the Praxis II Music Content Test prior to directed teaching.

Pre-directed teaching observation of elementary and secondary music classes is required of all music education students. Observations must include hours in both elementary and secondary settings. The total observation requirement must be completed prior to admission to directed teaching.

Complete forms and information concerning pre-directed teaching observations, personal and competency screening (public speaking and technology), and directed teaching application are included in the Bachelor of Music in Music Education Handbook.

## Bachelor of Music in Musical Theatre Accompanying

Karen Keating, Associate Professor of Music
Ruebush Hall, Room I38, (540) 665-464I, kkeating@su.edu
The Bachelor of Music in Musical Theatre Accompanying curriculum prepares talented pianists to be collaborative performers with singers and instrumentalists in all styles of popular musical theatre.

## Program Objectives

Students completing the Bachelor of Music in Musical Theatre Accompanying will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform in a variety of settings;
- demonstrate the ability to lead a rehearsal;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Ensemble Requirements

8 total credits
Minimum of eight total credits with ensemble participation every semester of full-time enrollment. Participation includes serving as accompanist for choral ensembles, jazz ensembles, accompanying ensemble and theatre productions. At least two credits must be earned as accompanist for theatre productions.

## Bachelor of Music with Elective Studies in Another Discipline

Garrick Zoeter, Associate Professor of Music
Armstrong Hall, Room I7, (540) 665-4552, gzoeter@su.edu
The Bachelor of Music with Elective Studies in Another Discipline curriculum offers students the opportunity to focus in music studies as well as in another field of study, which may include a non-arts related area. The plan for study in the second discipline is developed and approved in advance.

## Program Objectives

Students completing the Bachelor of Music in Music with Elective Studies in Another Discipline will be able to:

- demonstrate musicianship in solo and ensemble performance;
- demonstrate the ability to lead a class or ensemble;
- demonstrate knowledge of a secondary field of study;
- demonstrate knowledge of music theory, music history and world music;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Electives

Consult with advisor to select appropriate electives.
Elective credits must bring degree total to minimum of 120 credits.
Elective credits may be used to fulfill general education requirements. Note that some credits required for the major will also complete general education requirements.
Elective credits applied to degree requirements may not include performance- or skill-based instruction unless specifically so designated on the list of courses.

## Applied Music Minimums

Applied Major: 8 semester duration, AP** 121 -AP*** 422
Applied Minor
Non-piano major: Piano, 4 semester duration, APPN 111 -APPN 212 or APCP I05-APCP 206,
Piano major: applied minor, 4 semester duration, AP** $\left|\left|\left|-A P^{* *} 2\right| 2\right.\right.$ in a single classical or jazz instrument.

## Ensemble Requirements

16 total credits
Twelve credits of large ensemble earned in six different semesters, with ensemble participation every semester of full-time enrollment is required. Four additional credits of either large or small ensembles are required.

## Sample Elective Disciplines

24 total credits
Areas of study include, but are not limited to, mathematics, English, history, chemistry, religion, environmental studies, psychology, sociology, mass communications, business studies and computer technology.

## Bachelor of Music in Performance

Vocal: Karen Keating, Associate Professor of Music
Ruebush Hall, Room I38, (540) 665-464I, kkeating@su.edu
Instrumental: Jan Wagner, Associate Professor of Music
Armstrong Hall, Room 19, (540) 665-I29I, jwagner@su.edu
Keyboard: Elizabeth Temple, Professor of Music
Ruebush Hall, Room 200, (540) 665-4640, etemple@su.edu
The Bachelor of Music in Performance curriculum is designed for the exceptionally talented performer seeking a career in their field as a private teacher, college teacher or concert artist. The student aspiring to college teaching or concertizing should realize the exacting standards required for such a career. The student who hopes to achieve professional status should plan to continue study at the graduate level.

## Program Objectives

Students completing the Bachelor of Music in Performance degree will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

Twelve credits of large ensemble earned in six different semesters performing on major instrument, with ensemble participation every semester of full-time enrollment required. Four additional credits of either large or small ensembles are required.

## Bachelor of Music in Collaborative Piano

Elizabeth Temple, Professor of Music
Ruebush Hall, Room 200, (540) 665-4640, etemple@su.edu
The Bachelor of Music in Collaborative Piano curriculum is designed for the talented pianist seeking a career in the fields of chamber music performance and vocal accompanying. The student aspiring to college teaching or concertizing as a collaborative pianist should realize the exacting standards required for such a career. The student who hopes to achieve professional status should plan to continue study at the graduate level.

## Program Objectives

Students completing the Bachelor of Music in Collaborative Piano will be able to:

- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of instrumental and vocal chamber music settings;
- demonstrate the ability to lead a rehearsal;
- demonstrate knowledge of opera literature, vocal literature and piano chamber literature;
- demonstrate basic knowledge of classical music languages and diction as encountered in standard vocal repertoire;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

# Bachelor of Music Therapy 

Michael Rohrbacher, Associate Professor of Music
Ruebush Hall, Room 226-A, (540) 665-4560, mrohrbac@su.edu

## Classical or Jazz Applied Music Emphases <br> Jazz Emphasis available to applied majors in bass, guitar, percussion, piano, saxophone, trumpet or trombone

The Bachelor of Music Therapy curriculum prepares students for careers in which music is used to accomplish therapeutic aims, working with children and adults who require special services because of behavioral, learning, physical or psychological disabilities.
Following the awarding of the degree, which includes a culminating internship at a site affiliated with Shenandoah University or approved by the American Music Therapy Association, students are eligible to take the national examination in music therapy administered by the Certification Board for Music Therapists. Upon passing the examination, the credential Music Therapist-Board Certified (MT-BC) is granted.

## Program Objectives

Students completing the Bachelor of Music in Music Therapy will be able to:

- demonstrate musicianship in solo and ensemble performance including nonsymphonic instrumental skills;
- demonstrate knowledge of clinical foundations across distinct population groups;
- demonstrate a variety of methods for clinical settings;
- demonstrate the ability to document music therapy services according to assessment, implementation and evaluation;
- demonstrate the ability to implement music therapy services across distinct population groups;
- demonstrate knowledge of music theory, music history, world music and music technology;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

## Advancement in the Bachelor of Music Therapy Curriculum

Academic, personal and music therapy screening requirements must be met prior to enrollment in upper level music therapy courses. Specific requirements, procedures and necessary forms are available from the director of Music Therapy and are included in the Music Therapy Program Handbook.

A student who has failed a required course in areas of musical foundations, clinical foundations or general education for a second time may not register in Music Therapy courses until a passing grade in the required course is earned.

A student who has failed any three field placement courses, including failure in the repeat(s) of any one field placement course, will be dismissed from the Music Therapy Program.

All required courses in music therapy, musical foundations, clinical foundations and general education at the freshmen level must be completed before enrollment in junior level music therapy courses.

All required music courses at the 100- and 200-level must be completed before enrollment in 400-level music therapy courses.

Competency demonstration in the areas of piano, voice, guitar, non-symphonic instruments and music technology is required during the semester preceding the start of internship. Specific requirements and procedures are available from the director of Music Therapy and are included in the Music Therapy Program Handbook.

Duration requirements in applied jazz study: all duration requirements must be met fully. Credit from previous study may not be consolidated nor spread to meet duration requirements.

## Ensemble Requirements - Classical Applied Majors

## 14 total credits

Twelve credits of large ensemble earned in six different semesters performing on major instrument, with ensemble participation every semester of full-time enrollment except the internship semester, required. Two additional credits of either large or small ensembles are required.

## Ensemble Requirements - Jazz Applied Majors

14 total credits
Six credits of large ensemble earned in three different semesters, performing on major instrument. Two credits of small ensemble. Six additional credits of large or small ensemble. Participation in every semester of enrollment except the internship semester required.

## Bachelor of Science in Arts Management

David Edelman, Assistant Professor of Arts Management
The Bachelor of Science in Arts Management curriculum combines studies in music, theatre, dance and management to prepare students to enter professional management careers in the arts, entertainment and/or media industries. The core of the program is built around a series of courses in arts management.

## Program Objectives

Students completing the Bachelor of Science in Arts Management will be able to:

- demonstrate the ability to lead and/or contribute to effective management of an arts organization;
- demonstrate knowledge of fiscal responsibilities within an arts setting;
- take an active leadership role in the artistic life of a community;
- demonstrate musicianship in solo and ensemble performance;
- perform a variety of repertoire;
- perform in a variety of settings;
- demonstrate the ability to lead and/or contribute to an arts organization;
- demonstrate knowledge of music theory, music history, world music and music technology (music);
- demonstrate philosophical, historical, artistic, and compositional and technical foundations for dance performance and production (dance);
- demonstrate the use of technological resources in management of an arts organization;
- demonstrate the ability to express ideas orally and in writing; and
- attend a variety of public performances and events.

All majors in the Bachelor of Science in Arts Management Degree - Dance Concentration are strongly encouraged to participate in all mainstage productions of the Dance division as either backstage crew, front of house staff or cast members. Participation in touring engagements is also highly recommended.

## The Certificate in Church Music

## Steven L. Cooksey, Professor of Music

Goodson Recital Hall, (540) 665-4633, scooksey@su.edu
The undergraduate Certificate in Church Music contains basic skill development for church musicians and is offered in two summer sessions, each one week in length, during three consecutive summers.

## Program Objectives

Students completing the Certificate in Church Music will be able to:

- demonstrate knowledge of repertoire for liturgical settings;
- demonstrate the ability to lead a rehearsal or music component of a church service;
- demonstrate knowledge of music history, world music and music technology; and
- demonstrate the ability to express ideas orally and in writing.

## The Certificate in Ethnomusicology

Michael Rohrbacher, Associate Professor of Music
Ruebush Hall, 226-A, (540) 665-4560, mrohrbac@su.edu
The Certificate in Ethnomusicology allows students currently enrolled in an undergraduate Conservatory degree program to pursue study of indigenous music within a socio-cultural context; to foster music-centered, cross-cultural understanding within and beyond the degree program in which they are enrolled, to identify public sector employment opportunities within the context of ethnomusicology, and to prepare students for graduate and doctoral study in the field of ethnomusicology.

## SCHOOL OF HEALTH <br> PROFESSIONS

## Statement of Purpose

The purpose of the School of Health Professions is to prepare students to be efficient and effective health-care practitioners.

## Philosophy of the School of Health Professions

The faculty of the School of Health Professions believes the delivery of health care is a sophisticated procedure involving complex techniques and interrelated disciplines carried out by a team of highly skilled professional and paraprofessional practitioners. Further, the faculty recognizes a patient is a unique individual and is a composite of social, cultural and genetic components with rights and dignity to be preserved. The health-care team must guard these rights and protect the patient at all times. It must, therefore, operate not only on a scientific, but a moral and ethical basis as well. In view of this philosophy, the mission of the School of Health Professions is to provide the best education possible in the selected health-care disciplines and to achieve recognition as a prestigious center of undergraduate and graduate educational programs for students in nursing, respiratory care, physical therapy, occupational therapy, physician assistant studies, athletic training and other health-care disciplines through its graduates, faculty and programs ranging from local/and regional to national and international sites.

## Entrance Requirements

Applicants must meet all general university admission requirements and specific requirements for the School of Health Professions programs. Students are selected by a variety of methods, including an evaluation of high school and college transcripts, college board scores, and other indicators of ability to complete the program. A thorough background in the sciences, humanities and mathematics is strongly recommended.

Where applicable, transfer students must have a grade of " $C$ " or better in all professional courses. In addition, transfer students will be required to demonstrate skill and theory competence equal to that expected of Shenandoah University students at that level of education.

All students admitted to programs in the school are required to submit evidence of specific immunizations and generally good physical and mental health.

## Criminal Background Checks

Prior to beginning health professional courses, a student is required to authorize and submit to a criminal background check, including sex offenses and crimes against minors, and fingerprinting. All students will be expected to submit to random drug testing required by clinical practice sites. Non-compliance with the criminal background checks and/or drug testing policies may be cause for dismissal from a program of study.

# Curriculum Requirements Division of Nursing 

Kathryn M. Ganske, Director
Health Professions Building-Nursing
1775 North Sector Court
(540) 678-4374; nurse@su.edu

## Mission

The mission of the Division of Nursing is to prepare graduates who deliver, manage and lead nursing care in a variety of health care settings, and who participate in personal and professional development.

## Overview of Nursing Program

Since the 1960s, Shenandoah University has played an integral role in the education of nurses in the northern Shenandoah Valley. This rich tradition includes a program of study in the Division of Nursing (DON) that culminates in a Bachelor of Science in Nursing (BSN). Preparation for present and future nursing practice must address everchanging, increasingly complex and multi dimensional health needs of our society.To become educated, learners become involved in intellectual work and critical thinking in order to transform information into knowledge, skills, values, meanings and experiences necessary for the provision, management and coordination of general nursing care for individuals, families, groups and communities at the baccalaureate level. The scholarly habits of learning, established early, increase the graduate's lifetime ability to contribute to the discipline/profession of nursing and to society.

## Undergraduate Program Objectives

Graduates of the Baccalaureate Program will be able to:
I.Analyze knowledge associated with professional nursing practice and membership within the nursing profession.
2. Demonstrate skill in the delivery, management, and leadership of professional nursing care.
3. Demonstrate values consistent with the ethical delivery of professional nursing care.
4. Exemplify unique meanings associated with professional nursing.
5. Actively and intellectually engage in professional nursing experiences.

The BSN may be achieved via several tracks including:
Traditional four year
Transfer five semester
Accelerated second degree
Licensed practical nurse to BSN
Registered nurse to BSN
The curriculum is unique in that it highlights the art and science of nursing. Students have access to modern facilities and equipment at both the Health Professions Building
in Winchester and the Northern Virginia Campus in Leesburg. Facilities include computer labs, well-equipped nursing skills labs, computerized simulation mannequins, health professions library services, a technology-based conference center, distance learning facilities and multiple technology-equipped classrooms. Undergraduate students participate in the university technology program.

## Nursing Policies and Procedures

In addition to policies and procedures of the university as identified in this catalog and the university Student Handbook, nursing students are responsible for reading, understanding and implementing policies and procedures found in the Division of Nursing Student Handbook. Students must meet the Nursing Performance Standards as described in the Division of Nursing Student Handbook found at http://www.su.edu/ nursing/studenthandbook/studenthandbook.pdf.

The Division of Nursing is committed to facilitating students' success in the program, passing the National Council Licensure Examination (NCLEX) for Registered Nurses and delivering competent, safe care to the public. As such, the DON Dosage and Calculation Policy will be followed. All admitted undergraduate students (except the RN to BSN and the Accelerated Second Degree students) will take the TEAS ${ }^{\ominus}$ exam. Students who are not successful in achieving a 65 percent score in any category on the TEAS must register for the appropriate remediation course.

Students entering the DON in fall 2009 must take the TEAS exam prior to the first day of class. Information regarding the test, how to study/practice for the TEAS exam and the location for test administration in Winchester may be obtained by calling (540) 678-4374.

## Transfer Credit

Transfer credit for nursing courses is evaluated by the nursing faculty. It is the student's responsibility to request consideration of all transfer credits and to arrange that official transcripts be sent to the Office of Admissions at Shenandoah University in a timely manner.

Shenandoah University admits transfer students who have been successful in NLNAC/CCNE accredited schools. Transfer of nursing credits will be evaluated and awarded on an individual basis. Students who have been dismissed from another program of nursing are not eligible for admission to the Shenandoah University Division of Nursing. Students requesting advanced placement and/or consideration of transfer of nursing courses must complete the following process:

- Send formal transcripts to the Office of Admission Shenandoah University that includes grades of all courses to be considered for the advanced placement/course transfer process.
- Provide a written request for consideration of advanced placement or course transfer along with two (2) hard copies of the appropriate nursing course syllabi/outlines for consideration. Each course will be evaluated individually.
- Schedule an interview with a faculty member in the Division of Nursing.
- Demonstrate competency of selected nursing skills through challenge exams or standardized tests prior to beginning classes.
- Nursing faculty will evaluate the request and determine acceptance of the individual course.
- Pre-licensure nursing courses with a grade of B or better will be considered for transfer.

## Academic Progression Policy

## Dropping a Course

Students, in consultation with their advisor, may drop a course in which they are formally registered during the university's add/drop period. Dropped courses will not appear on the official transcript.

## Withdrawing from a Nursing Course:

Following the add/drop period students, in consultation with their advisor, may withdraw from a nursing course in which they are formally registered. In doing so, students must consider the pre/corequisite relationship to other nursing courses in which they are currently enrolled and also withdraw from those affected nursing courses.

The Division of Nursing withdrawal period ends six weeks from the first day of classes for the fall and spring semesters and four weeks from the first day of classes for summer sessions. Nursing students may withdraw from a course one time with a maximum of two withdrawals during the completion of the program.

Students who withdraw from a nursing course during the DON withdrawal period will receive a " $W$ "' on their university transcript, which will have no impact on their grade point average. After this withdrawal period, students will either receive a "withdraw passing" (WP) or a "withdraw failing" (WF) notation placed in their nursing academic file depending on their grade at the time of the withdrawal.

## Progression Policy

The Division of Nursing is committed to students' successful and timely progression through their chosen curriculum. Required courses must be taken in approved sequence and with consideration of all pre and corequisite requirements. The following policies are designed to guide this progression:

To progress through all undergraduate curriculum tracks students must pass all required general education and nursing courses with a " C " or better and maintain a cumulative GPA of 2.0 or better. If the semester or cumulative GPA falls below 2.0 , the student will be placed on nursing academic probation for the following semester. If the semester or cumulative GPA, remains below 2.0 after one semester of probation, the student will be dismissed from the program.

Students who fail or withdraw failing (WF) from a required nursing course may repeat the course once within one academic year. Students may be required to re-demonstrate mastery of prerequisite course, lab, and clinical work and skills prior to being allowed to repeat a course. Students may repeat a maximum of two different failed or WF nursing
courses during the completion of the undergraduate program. Students failing or having a "WF" for more than two courses are not eligible to remain in the nursing program.

Students dismissed from the undergraduate nursing program for academic reasons are ineligible for readmission to the program; however, they may be eligible to apply to other programs within the university.

Grading criteria of the DON are divided into three areas:

## I. Academic Grades

2. Safety

## 3. Professional Behavior

Students must demonstrate proficiency in all these areas in order to successfully pass required courses in the nursing program. Failure to meet any one of the three areas constitutes failure of the course. Requirements for academic grades are identified in each course outline. Professional behavior and safety are expected of all DON students. Refer to the Professional Behavior and Safety Performance section in the DON Student Handbook for criteria.

Grading Scale:
$93-100=\mathrm{A}$
85-92 = B
$78-84=C$
$70-77=D$
Below $70=\mathrm{F}$
Any grade involving numerical fraction is rounded ONLY at the end of the semester in the final grade. To be rounded up a fraction must be equal to or greater than .5.

## Licensure Considerations

Students and graduates are subject to the current Commonwealth of Virginia, Health Regulatory Boards, Board of Nursing statutes regarding legal limitations of licensure, licensure examinations and professional practice.

Students who have been convicted of a felony or who may have had previous legal experiences that would interfere with their ability to become licensed as a registered nurse are responsible for informing the director of the Division of Nursing and for contacting the Board of Nursing regarding their eligibility for licensure and the licensure application procedure.

Upon acceptance into the Nursing Program, the following will be required for all tracks:
I. Current American Heart Association CPR certification as a Health Care Provider.
2. Meet university and nursing health and immunization requirements as outlined at http://www.su.edu/admissions/hf.cfm
3. Criminal background check, fingerprinting and random urine drug screen as directed by the Division of Nursing.

DON tries to limit student expenses. However, students will encounter fees or expenses in the following areas:

Textbooks
Lab coats/uniforms
Campus learning laboratory equipment
Required clinical and classroom experiences including student responsibility for arranging their own transportation to and from clinical facilities and between campus sites

Standardized tests
Malpractice insurance
Photocopying beyond the limit covered in the basic tuition (refer to the nursing student handbook for limit)

Technology fee each semester. The technology fee provides a laptop computer, selected software, insurance and hardware and software support

Lab and clinical course fees

## Nursing Curriculum Requirements

The following undergraduate nursing tracks are offered.

## Traditional Four-Year Track

The Traditional Four-YearTrack in Nursing at Shenandoah University is designed for students beginning the BSN program as freshmen. These students are interested in the full, traditional college experience that includes living on campus and fully participating in campus life. Nursing courses begin in the first semester of study as a freshman and occur during every semester of the curriculum. Students have the opportunity, and are encouraged, to work in health care during summers. Technology in the nursing program is integrated throughout the curriculum, therefore all nursing students participate in the computer technology program offered through the university.

Applicants seeking admission to the Traditional Four-YearTrack must meet the following guidelines:
I. Meet all requirements for admission to Shenandoah University.
2. Cumulative high school GPA of 2.7.
3. Submit official transcript(s) from their high school.
4. Minimum combined SAT score of 900 (math \& critical reading only).

## Required Courses

|  |  | College or General Chemistry and Lab | 4 |
| :---: | :---: | :---: | :---: |

| N | 415 | Emergency Preparedness and Disaster Nursing | 3 |
|  |  | Total | 20 |

## Transfer Five-Semester Track

The Transfer Five-Semester Track in Nursing at Shenandoah University is designed for students transferring to Shenandoah University and prepares the student with necessary skills and knowledge for an entry-level nursing position in a variety of settings. This track begins in the fall or spring semester and can be completed in five academic semesters.

Students in the transfer five-semester track must have completed 75 percent of the prerequisite courses and general education requirements prior to being accepted into the BSN program. Students may enter the nursing program with 3 to 6 credits remaining in their prerequisite general education courses. All sciences must be completed before enrolling in nursing courses.

The transfer five-semester consecutive track begins in the fall semester only and courses are taught at the Health Professions Building in Winchester,Virginia. The intensive summer session is compressed into 10 weeks. Because of the intensity and rigor of the
consecutive track, it is strongly recommended that students not be employed during the summer semester. Students in this track must have completed all prerequisite and general education courses prior to enrolling in nursing courses.

Applicants seeking admission to the BSN Transfer Five-Semester Track must meet the following guidelines:
I. Meet all requirements for admission to Shenandoah University.
2. Submit official transcript(s) from each college/university attended.
3. Hold a cumulative GPA of 2.7 on a 4.0 scale of all undergraduate course work.
4. Complete prerequisite and general education requirements prior to matriculation into the nursing program (consecutive 5 semester only).

## Transfer 5 Semester Track: Effective January 2010

Fall Deadline: August I
Spring Deadline: December I

## Admission Criteria

I. Official transcripts from all colleges and/or universities previously attended.
2. A cumulative GPA of 3.0 in these four science courses:

Anatomy and Physiology I
Anatomy and Physiology II
Chemistry
Microbiology
3. A cumulative GPA of 3.0 in these prerequisite/general education courses:

English Composition
Public Speaking
Introduction to Psychology
Introduction to Sociology
Statistics
Three general education courses of the students choice
4. A maximum of two general education prerequisite courses (other than sciences) may be outstanding prior to enrollment.
5. Completion of the Test for Essential Academic Skills (TEAS) with a minimum score of 65 percent (score may be subject to change). Applicants may re-take the exam one time only.

## Required Courses

| Course |  | Title | Credit Hours |
| :---: | :---: | :---: | :---: |
|  |  | Human Anatomy and Physiology I and Lab | 4 |
|  |  | Human Anatomy and Physiology II and Lab | 4 |

| N | 415 | Emergency Preparedness and Disaster Nursing | 3 |
|  |  | Total | 120 |

## Accelerated Second Degree Track

The Accelerated Second Degree Track in Nursing at Shenandoah University prepares students with necessary skills and knowledge for entry-level nursing positions in a variety of diverse settings. This track is 15 months in length and designed for the student who already holds a baccalaureate degree. Because of the intensity of the program it is strongly recommended that students not be employed while enrolled in this accelerated program of study. Information about funding unique to Second Degree Track students is currently available at www.su.edu/nursing.

Applicants seeking admission to the Accelerated Second Degree Track must have completed or show evidence of the following in order to be considered for admission:
I. Bachelor's or higher degree from an accredited college or university or U.S. equivalent bachelor's degree for international students.
2. Cumulative GPA of 3.0 on a 4.0 scale of all undergraduate course work. No grade lower than a " $C$ " will be transferred.
3. Completion of all prerequisite courses prior to matriculation.
4. Two letters of recommendation from past faculty and/ or supervisor.

## Prerequisites

Course

Title
College or General Chemistry and Lab
Credit Hours

Human Anatomy and Physiology I, II and Lab 8
Microbiology and Lab 4

|  |  | Total | 63 |

## Licensed Practical Nurse (LPN) to BSN Track

The Division of Nursing offers advanced placement for LPNs applying to obtain bachelor's degrees in nursing. LPNs who successfully pass designated National League for Nursing standardized tests may receive up to 28 credits and advanced placement in the nursing curriculum.

LPNs taking the general education requirements at SU can complete the program in three years or seven semesters. Students who have already completed the general education requirements (with a grade of "C" or better) may transfer those courses and complete the program in four semesters of full-time study. Students may also complete the program on a part-time basis. At the time of completion of the program, students are eligible to take the National Council Licensing Examination for registered nurses and for entry level professional nurse positions.

LPNs seeking admission to the BSN curriculum must meet the following guidelines:
I. Meet all requirements for admission to Shenandoah University.
2. Cumulative GPA of 2.7 on a 4.0 scale.
3. Evidence of a current U.S. license to practice practical nursing.
4. Successfully pass the National League for Nursing Acceleration Challenge Exam (NLN ACE) I PN-RN (scoring in the 50th percentile or above making a score of 78 or better) to receive credit for the following courses:

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | ---: |
| N | 107 | Fundamentals of Nursing Practice | 4 |
| N | 214 | Health Across the Lifespan: Adults I (Clinical Only) | 2 |
| N | 221 | Skills for Nursing Practice I | 2 |
| N | 322 | Skills for Nursing Practice II | 1 |
| N | 403 | Health Across the Lifespan: Clinical Elective | 3 |
|  |  | Nursing Elective | 3 |
|  |  | Subtotal Challenge Credits | 15 |

Students may only take the NLN ACE I PN-RN twice. If unsuccessful following a second attempt, the student will be required to take all required BSN nursing courses.
I. Optional: Students may choose to take the National League for Nursing (NLN) Pharmacology test (passing score in the 50th percentile or above) to receive credit for the following course: N 283 Pharmacotherapy (3 credits).
2. Students are responsible for all testing fees.

Students may transfer the following college level courses:

| Course | Title | Credit Hours |
| :--- | :--- | ---: |
| Human Anatomy and Physiology and Lab | 4 |  |
| College or General Chemistry and Lab | 4 |  |
| Introductory Microbiology and Lab | 3 |  |
| English Composition and Literature | 3 |  |
| Psychology | 3 |  |
| Sociology |  |  |

| HCP |  | General Education: Historical and Cultural Perspectives | 3 |
| :---: | :---: | :---: | :---: |
| MR |  | General Education: Moral Reasoning | 3 |
| AS |  | General Education:The Arts and Society | 3 |
| GENED |  | General Education: Elective | 3 |
| QL |  | Statistics | 3 |
| OCl |  | Public Speaking | 3 |
|  |  | Nutrition | 3 |
|  |  | Growth and Development | 3 |
|  |  | Subtotal | 49 |
| Nursing Requirements |  |  |  |
| Course |  | Title Creser | Credit Hours |
| N | 201 | Health Assessment | 4 |
| N | 207 | LPN to BSN Transition | I |
| N | 210 | Health Across the Lifespan: Psychiatric Mental Health Nursing | g 5* |
| N | 215 | Health Across the Lifespan: Adults I (didactic only) | 3 |
| N | 272 | Pathophysiology | 3 |
| N | 283 | Pharmacotherapy | 3 |
| N | 306 | Theory, Reasoning and Research in Nursing | 3 |
| N | 307 | Health Across the Lifespan: Children and Adolescents | 4* |
| N | 308 | Health Across the Lifespan: Families | 4* |
| N | 314 | Health Across the Lifespan: Adults II | 5 |
| N | 315 | Health Across the Lifespan: Adults III | 5 |
| N | 323 | Skills for Nursing Practice III | 1 |
| N | 401 | Health Across the Lifespan: Community | 5 |
| N | 404 | Reflection on the Art of Nursing II | 2 |
| N | 405 | Nursing Issues and Career Development | 2 |
| N | 414 | Leadership and Ethics in Professional Nursing Practice | 3 |
| N | 415 | Emergency Preparedness and Disaster Nursing | 3 |
| Total |  |  | 56 |

*Optional: Students with a minimum of two years relevant clinical experience who have passed the NLN ACE I may challenge up to two clinical courses (N 210, N 307 or N 308) by passing the appropriate NLN test with a score in the 50th percentile or above (possibility of up to 9 credits).

## Registered Nurse (RN) to BSN Track

The Division of Nursing offers advanced placement for Registered Nurses who hold an associate degree or a diploma in nursing. For RNs admitted into the program, advanced placement by transfer of credit is offered for general education and nursing courses from other accredited institutions of higher education. Students may complete the program on a full-time or part-time basis. Upon completion of prerequisite courses, students may complete the Bachelor of Science in Nursing degree in two semesters of full-time study and/or three to six semesters of part-time study. The program, including prerequisite courses, requires a total of 120 credits. Nursing courses for RN students are offered on Tuesdays and Wednesdays each semester. As with other undergraduate nursing students, RNs participate in the technology program. Interested applicants are strongly encouraged to meet with a nursing advisor to review transcripts from previous academic institutions

Applicants seeking admission to the RN-BSN track must have completed or show evidence of the following in order to be considered for admission:
I. An associate degree or diploma in nursing from an accredited program of nursing.

## 2. Cumulative GPA of 2.5 on a 4.0 scale of all undergraduate course work.*

3. A current Virginia license to practice as a registered nurse.

No grade lower than "C" will be transferred. All course credits for transfer are evaluated on an individual basis.
*Students who do not meet the 2.5 GPA requirements may apply for admission to the RN to BSN track on a provisional status. Upon completion of nine credits in the nursing curriculum, a student may apply for a change of status from provisional admission to full admission to the $R N$ to $B S N$ track.

Students admitted to the program must demonstrate evidence of a health assessment course prior to entering the N40I Community course. Students have the option to take the NLN Standardized exam to challenge the N20I Health Assessment course for credit.

Of the 120 credits required for graduation, a total of 30 credits must be taken at Shenandoah University to graduate with a baccalaureate degree in nursing. The last 24 credits of the 30 total must be taken at Shenandoah University. RN transfer students must meet SU general education requirements.

## Division of Respiratory Care

William O'Neill, Program Director
Health Professions Building - Respiratory Care
1775 North Sector Court
(540) 665-55 I6, woneil@su.edu

## Bachelor of Science in Respiratory Care

The Bachelor of Science in Respiratory Care Degree is offered in four tracks:
Respiratory Care - Education, Respiratory Care - Critical Care, Respiratory Care General Studies and Respiratory Care - Transfer.

## Entrance Requirements

A grade point average of 2.5 in previous respiratory care and science courses is required.

## Other Regulations

Regulations on academic standing governing Shenandoah students apply to respiratory care students along with the following additional requirements:
I. A grade of " C " or better is required in all respiratory care courses.
2. Students must meet the physical requirement for essential job functions of SU's main clinical affiliates: Winchester Medical Center, City Hospital of Martinsburg, Loudoun Hospital Center and the University of Virginia Medical Center.
3. Students are enrolled in the program subject to its policies and guidelines, copies of which are available in the Respiratory Care Program office.
4. Students are responsible for arranging their own transportation to and from clinical facilities and between campus sites.

## Requirements for the Bachelor of Science in Respiratory Care Education Track

In addition to holding an Associate of Science in Respiratory Care degree from a stateaccredited program, the student must also complete the following courses:

| Course |  | Title | Credit Hours |
| :--- | :--- | :--- | :---: |
| BIO | 436 | Advanced Human Physiology | 4 |
| MCOM | 270 | Practicum in Instructional Technology | 3 |
| ED | 425 | Reading and Writing in the Content Area | 3 |
| KIN | 303 | Materials and Methods in Teaching Health | 3 |
| MATH | 207 | Introduction to Statistics | 3 |
| PSY | 101 | General Psychology | 3 |
| PSY | 220 | Human Growth and Development | 3 |
| PSY | 309 | Educational Psychology | 3 |
| PSY | 312 | Theories of Personality | 3 |
| PSY | 324 | The Adult Years and the Aging Process | 3 |
| PSY | 355 | Social Psychology | 3 |
| PSY | 430 | Behavior Analysis | 3 |
| RC | 321 | Techniques of Neonatal/Pediatric Respiratory Care | 3 |

# GLOBAL \& COMMUNITY EDUCATION 

R.T. Good, Dean<br>Main campus, Cooley Hall International \& Cross-Cultural Center<br>(540) 665-5442

The Global \& Community Education (GCE) unit at Shenandoah University administers a range of educational programs, activities and support services geared to developing community interaction and spanning a local to global scope. In doing so, the GCE unit designs campus systems and educational programs that effectuate a greater connection between diverse institutional campus community members, and with broader communities, especially in the global context, through a series of non-credit educational programs. Further, the GCE unit works with academic partners within and beyond Shenandoah University to provide international opportunities for learning to meet both credit and non-credit objectives.

Specific programs related to the GCE unit include the Center for Lifelong Learning; Global Citizenship Project; Global Experiential Learning; Semester Abroad; other study abroad programs; management of the International \& Cross-Cultural Center; International Day; support services to international students, faculty and staff; as well as other special initiatives.

To reach the Global \& Community Education unit or any of the associated programs, call (540) 665-5442.

## COURSE DESCRIPTIONS

## AMERICAN STUDIES (AMST)

## AMST $210 \quad$ Methodology and Research

An introduction to theories of American Studies and practice in research and writing. Prerequisites: ENG $|0|$ and I02. Offered Fall, every other year. Three credits.

#### Abstract

AMST $310 \quad$ American Autobiography This is a history of the American Self as redefined by commentators from John Woolman to Annie Dillard. Individual works by Woolman, Franklin, Thoreau, Douglass, Adams, Merton, Angelou and Dillard will be examined in their historical contexts and with reference to race and gender as important formative factors in self identity. Prerequisites: ENG 102 and permission of the instructor. Three credits.

## AMST 340 The I960s

Through examination of history, literature, popular arts and contemporary media, this course will seek out the spirit of the 1960 s, characterized by rejection of the establishment and the empowerment of youth. The continuing impact of the 1960s, for better or worse, will also be examined. Prerequisite: permission of the instructor. Three credits.

AMST 499 Senior Thesis
The senior thesis culminates the interdisciplinary emphasis of American Studies. With guidance from two or more faculty, each American Studies senior will complete a significant study of some aspect of American life or culture, from an interdisciplinary perspective. Prerequisite: AMST 202. Three credits.

## ANTHROPOLOGY (ANTH)

## ANTH $210 \quad$ Introduction to Archaeology

An introduction to fieldwork in archeology including excavation, survey, analysis and laboratory processing. Anthropological theory as applied to material culture, New and Old World prehistory and the history of archaeology will also be covered. Students will receive training in all practical aspects of archaeology and an understanding of the concepts and ideas archaeologists utilize in interpreting both historic and prehistoric sites. Three credits.

## ANTH $213 \quad$ Cultural Anthropology

A study concentrating on the principal aspects of human culture with emphasis on kinship, socialization of children, politics, art, religion, social control and the world-view. Three credits.

## ANTH 301 Human Ecology

This course is designed to introduce students to the field of ecological anthropology and to help them gain an understanding of the complex and often competing relationships between social systems and ecosystems. Special emphasis is placed on human adaptation, the role of humans in the transformantion of nature, threats from contemporary risks, and strategies of natural and cultural conservation including co-management of resources. Three credits.

ANTH 420 Seminar in Intercultural Communication
This course examines the relationship between culture and communication with an emphasis on theory and practical application in intercultural contexts. Ethnography and other approaches will be used to study interpersonal and public communication among people from different cultures. Prerequisites: Permission of the instructor. Three credits.

## APPLIED MUSIC (AP** OR AE**)

## General Education: Domain 2: CE

In these course descriptions, $\mathrm{AP}^{* *}=$ curricular study and $A E^{* *}=$ elective study; ** stands for a two-letter code used for registration and ${ }^{* * * *}$ stands for the name of the applied area, as follows:

## Woodwinds

FL = Flute
$\mathrm{OB}=$ Oboe
CL = Clarinet
$\mathrm{BN}=$ Bassoon
SX = Saxophone
$R C=$ Recorder*

## Voice

$\mathrm{VO}=$ Voice

## Brass

HN = Horn
TP = Trumpet
TN = Trombone
BT = Euphonium/Baritone
TB = Tuba

## Strings

VN = Violin
VA = Viola
VC = Cello
DB = Double Bass
HP = Harp
GT = Guitar
LT = Lute
$B J=$ Banjo*

## Keyboard

PN = Piano
HC = Harpsichord
OG = Organ
Ol = Organ Improvisation*

## Percussion

PR $=$ Percussion

## Jazz

JS = Jazz Saxophone
JT = Jazz Trumpet
JB = Jazz Trombone
JP = Jazz Percussion
EB = Jazz Electric Bass
JD = Jazz Double Bass

JG = Jazz Guitar
JK = Jazz Piano

## Other Applied Areas

AC = Accompanying
CM = Composition
CN = Conducting
$\mathrm{CH}=$ Coaching
DA = Dance

## Specialized Applied Areas

ES = Elective Study
PD = Performance Development
RP = Teaching Repertoire
RS = Recital Study
SR = Score Reading
TT = Teaching Techniques
*Available as elective applied study only (AE**| 10,120 )

## Applied Major Study

3 credits (per semester)
Individual lessons for students majoring in performance curricula to fulfill degree requirements as described in specific curriculum outlines. Detailed course descriptions are obtained from the instructor at the first lesson or found in the handbook of the division offering the instruction.

## AP** 123 Applied***

First-semester applied major study; one-hour lesson per week. Prerequisite: successful audition in area of study. Three credits.

## AP** $124 \quad$ Applied ${ }^{* * * *}$

Second-semester applied major study; one-hour lesson per week. Prerequisite: one semester of study in this applied area. Three credits.

## AP** 223 Applied ${ }^{* * * *}$

Third-semester applied major study; one-hour lesson per week. Prerequisite: two semesters of study in this applied area. Three credits.

## AP** 224 Applied ${ }^{* * * *}$

Fourth-semester applied major study; one-hour lesson per week. Prerequisite: three semesters of study in this applied area. Three credits. A grade of "C"' minimum is required.
$A P^{* *}$
323
Applied****

Fifth-semester applied major study; one-hour lesson per week. Prerequisite: four semesters of study in this applied area. Three credits.
AP**
324
Applied****

Sixth-semester applied major study; one-hour lesson per week. Prerequisite: five semesters of study in this applied area. Three credits.

## AP** 423 Applied****

Seventh-semester applied major study; one-hour lesson per week. Prerequisite: six semesters of study in this applied area. Three credits.

## AP** $424 \quad$ Applied ${ }^{* * * *}$

Eighth-semester applied major study; one-hour lesson per week. Prerequisite: seven semesters of study in this applied area. Three credits.

## Applied Major Study

## 2 credits (per semester)

Individual lessons for students majoring in specific music curricula to fulfill degree requirements as described in specific curriculum outlines. Open to students in other curricula as instructor time and studio space allow. Detailed course descriptions are obtained from the instructor at the first lesson or found in the handbook of the division offering the instruction.
AP**
121
Applied****

First-semester applied major study; one-hour lesson per week. Prerequisite: successful audition in area of study. Two credits.

## AP** $122 \quad$ Applied ${ }^{* * * *}$

Second-semester applied major study; one-hour lesson per week. Prerequisite: one semester of study in this applied area. Two credits.

## AP** 221 Applied ${ }^{* * * *}$

Third-semester applied major study; one-hour lesson per week. Prerequisite: two semesters of study in this applied area. Two credits.
AP** 222 Applied ${ }^{* * * *}$

Fourth-semester applied major study; one-hour lesson per week. Prerequisite: three semesters of study in this applied area. Two credits. A grade of " $C$ " minimum is required.

## AP** $321 \quad$ Applied****

Fifth-semester applied major study; one-hour lesson per week. Prerequisite: four semesters of study in this applied area. Two credits.

## AP** 322 Applied****

Sixth-semester applied major study; one-hour lesson per week. Prerequisite: five semesters of study in this applied area. Two credits.
AP**
421
Applied****

Seventh-semester applied major study; one-hour lesson per week. Prerequisite: six semesters of study in this applied area. Two credits.

## AP** 422 Applied****

Eighth-semester applied major study; one-hour lesson per week. Prerequisite: seven semesters of study in this applied area. Two credits.

## Applied Minor Study

I credit (per semester)
Individual lessons for students to fulfill degree requirements as described in specific major or minor curriculum outlines. Open to students in other curricula as instructor time and studio space allow. Detailed course descriptions are obtained from the instructor at the first lesson or found in the Handbook of the division offering the instruction.

## AP** III Applied****

First-semester applied minor study; one-half-hour lesson per week. Prerequisite: successful audition in area of study. One credit.

## AP** II2 Applied****

Second-semester applied minor study; one-half-hour lesson per week. Prerequisite: one semester of study in this applied area. One credit.

## AP** $211 \quad$ Applied****

Third-semester applied minor study; one-half-hour lesson per week. Prerequisite: two semesters of study in this applied area. One credit.

## AP** 212 Applied****

Fourth-semester applied minor study; one-half-hour lesson per week. Prerequisite: three semesters of study in this applied area. One credit.

## AP** 31I Applied****

Fifth-semester applied minor study; one-half-hour lesson per week. Prerequisite: four semesters of study in this applied area. One credit.

## AP** $312 \quad$ Applied****

Sixth-semester applied minor study; one-half-hour lesson per week. Prerequisite: five semesters of study in this applied area. One credit.

## AP** 4II Applied****

Seventh-semester applied minor study; one-half-hour lesson per week. Prerequisite: six semesters of study in this applied area. One credit.

## AP** $412 \quad$ Applied****

Eighth-semester applied minor study; one-half-hour lesson per week. Prerequisite: seven semesters of study in this applied area. One credit.

## Applied Elective Study (AE**)

Individual lessons for students to fulfill duration requirements as described in specific curriculum outlines. Open to students for non-curricular study as instructor time and studio space allow. Detailed course descriptions are obtained from the instructor at the first lesson or found in the Handbook of the division offering the instruction.
AE ${ }^{* *} \quad 10 \quad$ Applied ${ }^{* * * *}$
Elective applied study; one half-hour lesson per week. One credit.
AE** 120 Applied****

Elective applied study; one-hour lesson per week. Two credits.

## Applied Performance Development (APPD)

Applied study in a specific instrument designed to expand knowledge of repertoire and performance practice in idioms as determined by the applied instructor. Applied performance development is normally limited to students enrolled in guitar and applied jazz majors.

## APPD III Applied Performance Development

Applied performance study; one half-hour lesson per week. One credit.
APPD II2 Applied Performance Development
Continuation of APPD ।।।; one half-hour lesson per week. One credit.

## Applied Teaching Repertoire (APRP)

Review of repertoire, from easy to difficult, designed for beginning through adult learners, performing that repertoire to identify mastery problems. Instruction designed to provide knowledge and bibliographic information of repertoire for teaching in a studio situation at all levels of difficulty. The course includes preparation of an annotated bibliography of specific materials, design of specific courses of study and compilations of recitals for students of varying ages.

## APRP III Applied Teaching Repertoire

Applied repertoire study; one half-hour lesson per week. One credit.

## APRP II2 Applied Teaching Repertoire

Continuation of APRP III; one half-hour lesson per week. One credit.

## Applied Recital Study (APRS)

Study designed to allow students to register for applied study if a recital is scheduled and curricular applied requirements have been met. Applied Recital Study carries an additional fee and may not be used to fulfill curricular requirements. Corequisite: registration for applied recital.

## APRS 413 Applied Recital Study

Applied recital study; one half-hour lesson per week. One credit.

## APRS 414 Applied Recital Study

Applied recital study; one half-hour lesson per week. One credit.

## Applied Score Reading (APSR)

Development of skills related to reading open scores at the keyboard, including score reduction as appropriate. Choral and instrumental open scores are included along with study of transposition as related to instrumental scores.

# APSR III Applied Score Reading <br> Applied performance study; one half-hour lesson per week. One credit. 

APSR II2 Applied Score Reading<br>Continuation of APSR III; one half-hour lesson per week. One credit.

## Applied Teaching Techniques (APTT)

Study of the pedagogical approaches related to a specific instrument, voice or area of applied study. Review of the sequential development of technique related to the performance medium. Instruction includes review of etude and technical materials or appropriate physical exercises related to individual pedagogical approaches appropriate to specific stages, ages or grade levels from beginning through adult study, observation of students at various levels of technical development and observed introductory teaching experiences. The course includes preparation of an annotated bibliography of specific materials and an in-depth outline of specific courses of study with appropriate approaches and related etudes, solos, and supplementary material for each stage of development.

## APTT III Applied Teaching Techniques

Applied teaching technique study; one half-hour lesson per week. One credit.

## APTT II2 Applied Teaching Techniques

Continuation of APTT I II; one half-hour lesson per week. One credit.

## Applied Class Piano (APCP)

Group lessons in piano for students majoring in music or music theatre, or students minoring in music, to fulfill degree requirements as described in specific curriculum outlines. Open to students in other curricula as instructor time and studio space allow.The determination of whether the applied piano minor is fulfilled with APPN (private lessons) or APCP (class piano) is made through the piano minor screening, which is administered by the Keyboard Division each year.

## APCP $105 \quad$ Basic Piano and Keyboard Harmony Skills I

A course designed especially for non-keyboard majors to fulfill basic piano requirements for all curricula. Included are scales, triad qualities and inversions, cadences, chord progressions, transposition, harmonization, score-reading, sight-reading and repertoire. Students must pass the final examination to pass the class. The fee structure normally associated with private study is applicable. Offered each semester. One credit.

## APCP $106 \quad$ Basic Piano and Keyboard Harmony Skills 2

A continuation of APCP I05. Each category continues at a more advanced level. The fee structure normally associated with private study is applicable. Prerequisite: APCP I05. Offered each semester. One credit.

## APCP 205 Basic Piano and Keyboard Harmony Skills 3

A continuation of APCP 106. Each category continues at a more advanced level. The fee structure normally associated with private study is applicable. Prerequisite: APCP 106. Offered each semester. One credit.

## APCP 206 Basic Piano and Keyboard Harmony Skills 4

A continuation of APCP 205 and completion of basic piano requirements through projects involving skills directly related to possible vocational needs. Student must pass the final examination to pass class. The fee structure normally associated with private study is applicable. Prerequisite: APCP 205. Offered each semester. One credit.

## APCP 305 Advanced Piano and Keyboard Harmony Skills

A continuation of advanced harmonization, transposition, score-reading and improvisation with emphasis on the practical skills needed in the professional career. Specifically designed for music education and music therapy majors, this course emphasizes the development of practical keyboard skills needed in the professional career. The fee structure normally associated with private study is applicable. Offered each fall semester. One credit.

## APCP 306 Score-Reading

A continuation of APCP 305 with direct emphasis on score-reading. Designed especially for Music Education majors. The fee structure normally associated with private study is applicable. A minimum grade of " C " is required to pass this class for students in the Bachelor of Music Education curriculum. Prerequisite: APCP 305 or permission of instructor. Offered each spring semester. One credit.

## APCP 307 Improvisation

Continuation of APCP 305 with direct emphasis on improvisation. Designed especially for Music Therapy majors. The fee structure normally associated with private study is applicable. Prerequisite: APCP 305. Offered each spring semester. One credit.

## APCP 405 Keyboard Skills for Music Educators I

A continuation of the class piano sequence specifically designed for music education majors in the choral/ general concentration curriculum. Content focuses on the further development of accompanying and other keyboard skills needed in general music programs and classrooms. The fee structure normally associate with private study is applicable. Prerequisite: APCP 306 or equivalent proficiency. One credit.

## APCP 406 Keyboard Skills for Music Educators 2

A continuation of the class piano sequence specifically designed for music education majors in the choral/ general concentration. Content focuses on the further development of accompanying and other keyboard skills needed in general music programs and classrooms. The fee structure normally associate with private study is applicable. Prerequisite: APCP 405 or equivalent proficiency. One credit.

## ART (ART)

With the exception of studio courses, Art courses may be used to fulfill Humanities requirements.

## ART IOI Introduction to Drawing and Composition I

A studio course designed to develop basic observational and drawing skills and to expose students to various drawing materials and techniques. Two credits.

## ART 102 Introduction to Drawing and Composition II

Continuation of Art IOI. Prerequisite: Art IOI or permission of instructor. Two credits.

## ART 200 Art Appreciation

A survey of the principles of aesthetics as applied to painting, sculpture, architecture, ceramics and photography. Three credits.

## ART $214 \quad$ Investigations in Modern Art

Discussion of images and ideas, using slides of art works as subjects, tracing developments in Western art from Impressionism to the present. Prerequisite: Art 200. Three credits.

## ART $216 \quad$ American Art

An historical survey of American art from 1700 to the present. Three credits.

## ART 295 Topics

Study of specific topics, issues or themes within the field of art. Three credits.

## ART 395 Topics

Selected upper-level topics in art history. Prerequisite: Permission of the instructor. Three credits.

## ARTS AND SCIENCES (ARSC)

ARSC 099 First Year Colloquium
An introduction to the academic requirements, community and culture of Shenandoah University. One credit.

## ARTS MANAGEMENT (AMGT)

## AMGT 302 Arts Management in the Electronic Media

This course is designed as a study of the management skills necessary for a successful management career in the electronic media. Specific topics covered include radio, television, records, and video production. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## AMGT 3II Managing Arts, Entertainment and Media Enterprises

Course is designed to give students an overview of the cultural and entertainment industries from a management perspective. Specific topics covered include arts management career paths, history, environments, organizations, strategic planning, organizational design, economics and law. A minimum grade of "C" is required to pass this class. Prerequisite: Permission of the instructor. Three credits.

## AMGT $312 \quad$ Marketing for the Arts

Course is designed to provide students with the tools necessary to understand market potential and to design effective systems for exchange relationships between those in the cultural and entertainment industries and the public. Specific topics covered include arts markets (audiences, segments, target markets, research, competition/collaboration), strategy development (positioning product, pricing, distribution systems and audience/customer loyalty), message deliveries (communications, advertising/sales, direct/database marketing and public relations) and marketing management (plans, budgets, controls and effectiveness evaluation). A minimum grade of " $C$ " is required to pass this class. Prerequisite: Fulfillment of the Domain I General Education requirement or permission of the instructor. Three credits.

## AMGT $313 \quad$ Production/Project Management in the Arts I

Course is designed to provide students with the tools necessary to act as producers or project managers to effectively manage arts productions and/or projects. Specific topics covered include project/production initiation (selection, leadership, organization, planning and conflict/negotiation), implementation (budgeting/cost estimation, scheduling, resource allocation, monitoring/information systems and controls) and termination (auditing, termination and evaluation). A minimum grade of " C " is required to pass this class. Prerequisites: AMGT 31 I, AMGT 312 and AMGT 316 or permission of instructor. Three credits.

## AMGT 314 Production/Project Management in the Arts 2

Course is designed to build upon the concepts introduced in Production/Project Management in the Arts I. Students explore methods of multi-production/project management as well as integrating goals with the organization strategic plan. Students also examine how specialized topics related to the arts are handled within a systems approach to production/project management. A minimum grade of " C " is required to pass this class. Prerequisite: AMGT 313 or permission of the instructor. Three credits.

## AMGT 316 Financial Management for the Creative Enterprise

Course designed to provide a foundation of the financial aspects of working within the arts and in directing the activities of creative organizations. The content of this course includes bookkeeping and accounting fundamentals (including special considerations for non-profit organizations), budgeting basics, revenue streams, fundraising management, grant writing and personal financial management. A minimum grade of " C " is required to pass this class. Prerequisite: ISCT 204 or permission of the instructor. Three credits.

## AMGT 40I Arts Management Internship

Practical experience ( 150 hours minimum for each three-credit course) in a professional arts management situation. Prerequisites: All AMGT required courses, all BA requirements, all ENG requirements, EC 21 I , all major applied study (for music concentration), and permission of the instructor. Three credits each.

## AMGT 402 Arts Management Internship

Practical experience ( 150 hours minimum for each three-credit course) in a professional arts management situation. Prerequisites: All AMGT required courses, all BA requirements, all ENG requirements, EC 2 I I , all major applied study (for music concentration), and permission of the instructor. Three credits.

# AMGT 403 Arts Management Internship <br> Practical experience ( 150 hours minimum for each three-credit course) in a professional arts management situation. Prerequisites: All AMGT required courses, all BA requirements, all ENG requirements, EC 2 II , all major applied study (for music concentration), and permission of the instructor. Three credits. 

## AMGT 415 Arts Management Policy and Practice

Course is designed to provide students with the skills necessary to advance their professional development in the field of arts management. Specific topics covered include problem-based research in applied cultural and entertainment settings, as well as primary and secondary research techniques as they are related to specific career goals of the student. This writing intensive course assists the student in the development of proposal writing skills. Further, the student develops materials to advance their professional study in an applied setting. A minimum grade of "C" is required to pass this class. Prerequisites: AMGT 31 I, AMGT 312 or permission of instructor. Three credits.

## AMGT 495 Special Topics

Investigation of a specialized area of arts management knowledge in a class setting. Prerequisites will vary with topic or permission of instructor. One, two or three credits.

## AMGT 499 Individual Directed Research

A individual instruction setting for projects in arts management. Project must be approved by the dean of the Conservatory and the chairman of the Musical Academics Division prior to registration. Prerequisite:
Permission of the instructor. One, two or three credits.

## ARTS STUDIES (AS)

## AS $100 \quad$ Arts for Life

Arts for Life is an interdisciplinary course in the performing arts for the non-artist, designed to equip the student with basic knowledge of music, theatre and dance, and to arouse in the student a desire for a lifelong appreciation of the performing arts. Three credits.
AS $499 \quad$ Senior Comprehensive Study
An interdisciplinary seminar in the arts culminating in a comprehensive examination or research project. Prerequisite: Senior standing in the Bachelor of Arts Studies curriculum or permission of the instructor. One, two or three credits.

## BIOLOGY (BIO)

## BIO $105 \quad$ The Natural World

Intended for students not majoring in the natural sciences, BIO I05 surveys basic concepts of the life and earth sciences through class discussions, lab and field exercises and written assignments. Students also examine the nature of science, and gain insight into many of the societal implication of scientific knowledge. This course also forms part of a three-course series with PHYS 105 and CHEM I05. Together the three courses provide an overview of the natural sciences and fulfill the requirements for Virginia state elementary ( $\mathrm{K}-6$ ) teacher licensure. There are no prerequisites. The courses may be taken in any sequence. Three lecture hours plus two laboratory hours per week. Four credits. BIOL 105 The Natural World lab must be taken concurrently.

## BIO I2I General Biology I

General Biology is a two-course sequence that examines the ideas and methods basic to an understanding of contemporary biology. This first course focuses on the fundamental theories of biology, historically significant discoveries, classification of organisms, the chemical basis of life, cell biology and heredity. Three lecture hours plus a three-hour laboratory each week. Offered annually in the fall semester. Four credits. BIOL I2I General Biology I lab must be taken concurrently.

## BIO 122 General Biology II

General Biology is a two-course sequence that examines the ideas and methods basic to an understanding of contemporary biology. This second course focuses on the fundamentals of evolution, ecology, classification of organisms and basic plant and animal anatomy and physiology. Three lecture hours plus a three-hour laboratory each week. Prerequisites: A grade of " C " or better in BIO 121 or permission of the instructor. Offered annually in the spring semester. Four credits. BIOL 122 General Biology II lab must be taken concurrently.

## BIO 191 Introduction to Biology Research

This course is designed to give biology majors I) an introduction to primary and secondary sources of literature and research in the biological sciences, 2) to discuss and learn about the importance of ethics in biological sciences research, 3) to distinguish valid research topics based on the development of appropriate scientific hypotheses, 4) to learn to perform valid data collection, 5) to be able to test the hypothesis, 6) to select and use statistics to analyze data, 7) to use scientific logic to conclude the validity of hypotheses proposed based on data analysis, and 8) to give oral and written presentation of results. Three hour lecture each week. Fall semester. Three credits.

## BIO 192 Forensic Science Biotechnology

The objective of this course is to give students who wish to further learn and use forensic science techniques in their current or developing careers a basic understanding of forensic science and how it is used in criminal cases by using case studies, class discussion, laboratory procedures and techniques. This course is designed to be a companion course to the introductory course, BIO I9। Introduction to Biology Research in a sequence of classes primarily used to prepare freshman and sophomore student's knowledge and skills and to satisfy the requirement in the Biology major for experiential skills based instruction. Three-hour lecture and two-hour laboratory per week. Fall and spring semester. BIO 191 or permission of the instructor. BIOL 192 Forensic Science Biotechnology lab must be taken concurrently. Four credits.

## BIO 201 Medical Terminology

The relationship of word parts to their anatomic and physiologic counterparts will be learned in this course. Students will learn to combine appropriate word parts into complete medical terms, to interpret and explain clinical pathology reports, to interpret and explain clinical laboratory results and be able to use correct abbreviations and medical scribe notation. Accurate pronunciation and spelling of complete terms will be emphasized throughout the course. This course is designed to enhance student experiences in courses such as Human Anatomy and Physiology, Pathophysiology or other clinically or medically relevant course. Three hours lecture each week. Fall and spring semester. Three credits.

## BIO 23I Human Anatomy and Physiology I

A course on the structure and function of the human organism. The central theme of homeostasis will be carried throughout. After studying the different structural levels of organization, cells and cellular activity are investigated, followed by the physiology of tissues, skin, bone and muscle. The integrative aspects of the nervous system and sensory organs complete the course. Three-hour lecture plus three hours of laboratory per week. Offered annually in the fall semester. Prerequisite: BIO 121 and BIO 122 with a grade of " C " or better or permission of the instructor. Four credits. BIOL 23I Anatomy and Physiology I lab must be taken concurrently.

## BIO 232 Human Anatomy and Physiology II

As a continuation of BIO 23I, the central theme of homeostasis will be carried throughout. This course begins with the integrative roles of the endocrine system. The cardiovascular system with all of its ramifications is investigated. Study of the maintenance systems of respiration, digestion, metabolism, excretion, body fluids and reproduction completes the course. Three-hour lecture plus three hours of laboratory per week. Offered annually in the spring semester. Prerequisite: BIO 121,122 and 231 with a grade of " $C$ " of better or permission of the instructor. Four credits. BIOL 232 Anatomy and Physiology II lab must be taken concurrently.

## BIO $260 \quad$ Microbiology

The fundamental principles of the importance of microorganisms are presented in the course. Topics of course discussions will include the historical importance of microbiology, systematics, microbial metabolism, microbial genetics, biotechnology, pathogenesis, antimicrobial, epidemiology and immunology. In addition to traditional learning tools, students will use a variety of multimedia and Internet-based technologies for
classroom and laboratory learning experiences. The laboratory will introduce students to the basic techniques for growth and identification of microorganisms. Three-hour lecture plus three-hour laboratory per week.
Offered annually in the spring semester. Four credits. BIOL 260 Microbiology lab must be taken concurrently.

## BIO $312 \quad$ Genetics

This course introduces the major concepts of transmission, molecular and population genetics. Emphasis will be placed upon the various modes of Mandelian (transmission) inheritance. A human perspective will be used in conveying these fundamental aspects of heredity. The laboratory component will include experimental design, data analysis, cytogenetics, as well as experiments, problems and research information from an Internet site. Three-hour lecture plus three-hour laboratory per week. Offered annually in the fall semester. Prerequisites: BIO 12 I and BIO 122 or BIO 232 . Four credits. BIOL 312 Genetics lab must be taken concurrently.

## BIO 321 Ecology

Ecology is the study of the interrelationships between organisms and their physical and biological environments. The course will examine the various levels of ecology - populations, species, communities, and ecosystems - in lecture-discussions, laboratory studies and field investigations. Ecological concepts will be considered from various perspectives including theoretical predictions, laboratory experiments, observations, field measurements and resource management applications. Three-hour lecture plus three-hour laboratory per week. Offered annually in the fall semester. Prerequisites: BIO 121 and 122 . Four credits. BIOL 321 Ecology lab must be taken concurrently.
BIO 325 Animal Behavior
A study of the principles and mechanisms of animal behavior. Behavior will be viewed in a genetic, ecological, and evolutionary context. Three-hour lecture plus three-hour laboratory per week. Offered alternate years. Prerequisites: BIO 121 and BIO 122 or BIO 232 . Four credits. BIOL 325 Animal Behavior lab must be taken concurrently.

## BIO 337 Embryology

An introduction to the developmental processes of the integumentary, digestive, excretory, reproduction, muscle, skeletal, circulatory, nervous, endocrine and respiratory systems in the embryo and fetus. Three-hour lecture plus three-hour laboratory per week. Offered as needed. Prerequisites: BIO 121 and BIO 122 or BIO 232 or permission of the instructor. Four credits. BIOL 337 Embryology lab must be taken concurrently.
BIO 342 Plant Taxonomy
A survey of representative families, general and species of vascular plants (i.e. ferns, fern allies, gymnosperms and angiosperms) through class presentations, field trips and lab work. Students will gain a familiarity with local flora, botanical nomenclature, taxonomic procedures and the use of taxonomic keys. In addition, the class will examine and apply selected techniques for plant community analysis. Three lecture hours and three laboratory hours per week. Prerequisites: BIO 12 I and BIO I22. Four credits. BIOL 342 Plant Taxonomy lab must be taken concurrently.

## BIO $344 \quad$ Plant Morphology

A survey of the evolution of plant forms, life cycles and functions from algae to angiosperms. The relationships between adaptive strategies - such as those for reproduction and dissemination - and the structures that pertain to those strategies will also be examined. Many class exercises will integrate morphology with other biological disciplines including taxonomy, evolution, genetics and ecology. In the laboratory and field, students will examine plant features useful in identification and classification. Three-hour lecture plus three-hour laboratory per week and one or two weekend field trips. Offered alternate years. Prerequisites: BIO 121 and BIO I22. Four credits. BIOL 344 Plant Morphology lab must be taken concurrently.

## BIO 35I Vertebrate Zoology

Vertebrate Zoology investigates the comparative anatomy, taxonomy, evolution, ecology and behavior of the Subphylum Vertebrata of the Phylum Chordata. The class will consider vertebrates from a variety of perspectives. Such an approach will integrate the various sub-specialties of the biological sciences such as genetics, morphology and systematics. Students are expected to come to field sessions prepared for outdoor work, including data collection, regardless of the weather. Field and laboratory studies will emphasize techniques for species identification as well as investigating population biology, morphology and adaptations. Three-hour lecture plus
three-hour laboratory. Offered alternate years. Prerequisites: $\mathrm{BIO}|2|$ and $\mathrm{BIO} \mid 22$. Four credits. BIOL 35 I Vertebrate Zoology lab must be taken concurrently.

## BIO 365 Diseases in History

This course is an interdisciplinary topics course examining the impact of human disease on the development of human history. Topics to be discussed include I) fundamental information about different types of diseases, disorders, syndromes and disease processes, 2) an extensive review of significant points in history where either the illness and possible death of an individual leader or wide spread epidemics changed the course of human history, and 3) research papers and presentations by each student participating in the course. Diseases to be discussed include infectious diseases and genetic disorders. Three-hour lecture. Offered in the spring and fall semesters. Prerequisites: BIO I2I, BIO I22, HIST IOI or HIST IO2 or permission of the instructor. Three credits.

## BIO 395 Topics

Selected topics in biology for reading, discussion, writing, laboratory and field investigation. Prerequisites: BIOI2I and BIO I22, or permission of the instructor. Offered as needed. Two to four credits. BIOL 395 Topics lab might be taken concurrently.

## BIO $409 \quad$ Cell Biology

This course involves a detailed exploration of the organelles and supra-molecular organization of eukaryotic cells. Topics will include cellular growth and reproduction. The physiological processes involved in motility, energetics, and synthesis are also investigated. Three-hour lecture plus three-hour laboratory per week. Offered annually in the spring semester. Prerequisites: BIO 121 and BIO 122 or BIO 232 or permission of the instructor. Four credits. BIOL 409 Cell Biology lab must be taken concurrently.

## BIO 420 Developmental Biology

A study of gametogenesis, fertilization, cell type determination, histogenesis, organogenesis and the formation of the early body plan. Both molecular and organismal aspects of these processes will be discussed, using a text and primary literature. Model systems covered include invertebrate (fly, worm), vertebrate (chicken, frog, fish, mouse) and plant. Laboratory will include observation of and experimentation with invertebrate, vertebrate and plant systems. Three lecture hours and three laboratory hours per week. Prerequisites: A grade of " C " or better in BIO 121 and BIO I22; a grade of " C " or better in CHEM 121 and CHEM I22; a grade of "C" or better in BIO 312 or BIO 409 . BIO 312 or BIO 409 may be taken concurrently with BIO 420. Four credits. BIOL 420 Developmental Biology lab must be taken concurrently.

## BIO 436 Advanced Human Physiology

An in-depth study of endocrine, cardiovascular, pulmonary and kidney function, including the role of each system in maintaining the internal environment. Three-hour lecture plus three-hour laboratory per week. Offered as needed. Prerequisites: CHEM I2I and BIO 121 and BIO 122 or BIO 232 . Four credits. BIOL 436 Advanced Human Physiology lab must be taken concurrently.

## BIO $465 \quad$ Medical Microbiology

A comprehensive course on infectious diseases, students learn how to correlate disease symptoms with laboratory findings, the types of specimens required for diagnosis, laboratory procedures to determine microorganism identity and drug susceptibility, current modes of treatment and any new technological advances used for identification and susceptibility testing in the clinical microbiology laboratory. Three hours lecture and three hours laboratory. Prerequisites: Requires one semester of microbiology at the 100 or 200 level, and either two semesters of General Biology or Anatomy/Physiology, or permission of the instructor. Offered annually in the fall semester. Four credits. BIOL 465 Medical Microbiolgy lab must be taken concurrently.

## BIO 472 Immunology

The study of the immune system including the importance of humoral and cell-mediated immunity in inflammation, infection, vaccination, hypersensitivity, autoimmunity, immunodeficiency, tumor formation and transplantation. This course is designed for students interested in health professions and health education. Three-hour lecture plus three-hour laboratory per week. Prerequisite: BIO 23I, BIO 260 or permission of instructor. Offered annually in the fall semester. Four credits. BIOL 472 Immunology lab must be taken concurrently.

## BIO $490 \quad$ Clinical Internship

Students interested in a career in clinical health professions must participate in a nationally accredited clinical internship that requires on-site training in the clinical discipline of their chosen profession. Examples of disciplines requiring clinical internships include the following: I) clinical laboratory science (medical technology), 2) cytology (cytotechnology), 3) cytogenetics, 4) histology (histotechnology), 5) histocompatability technologist, 6) ultrasound technology, and 7) radiology (radiation technician, nuclear medicine technology). Prerequisites: BIO 121 and $\mathrm{BIO} 122, \mathrm{BIO} 260, \mathrm{CHEM} 121$ and CHEM 122 , and junior or senior standing. Offered as needed. One to twelve credits.

## BIO 49I Research Project

Students will undertake a set of tasks or activities for a research project under the guidance and mentorship of a Biology Program faculty member. The research project will be of a specific and directed nature, and have a definable starting point and well defined objectives. Each task will have a planned completion date (due date) and assigned resources. The organization of the project will generally follow three major parts: planning, execution and completion. Planning and execution will be the focus of this semester activity. The assigned project tasks may encompass a wide variety of activities and may include working with microorganisms, plants, animals, field trips, laboratory procedures and experimentation. Prerequisites: junior or senior standing and permission of the instructor. Offered fall and spring semesters. Two credits.

## BIO 492 Research Project

Students will undertake a set of tasks or activities for a research project under the guidance and mentorship of a Biology Program faculty member. The research project will be of a specific and directed nature and have a definable starting point and well defined objectives. Each task will have a planned completion date (due date) and assigned resources. The organization of the project will generally follow three major parts: planning, execution and completion. Execution and completion will be the focus of this semester activity. Completion of the project may include submission of a research paper with the findings suitable for publication in scientific journals, or presentation of project information at scientific symposia. The assigned project tasks may encompass a wide variety of activities and may include working with microorganisms, plants, animals, field trips, laboratory procedures and experimentation. Prerequisites: junior or senior standing. Two credits.

## BUSINESS ADMINISTRATION (BA)

## BA I03 Introduction to Business

The role of the business firm is studied together with its effect upon the economic and social environment. Emphasis is placed upon business principles and applications. Three credits.

## BA $107 \quad$ Personal Finance

Students learn to budget their finances, balance their checking accounts, and learn about taxes, banking, consumer credit, casualty and life insurance, investment markets, stock transactions, and retirement planning. Intended for students not majoring in business. Three credits.

## BA II2 Mind of the Entrepreneur

Current issues and topics in entrepreneurship are examined via the most recent academic and practitioner printed and electronic media and sources. These issues and topics will be subjected to in-depth analysis in the class sessions and in individual written assignments. Three credits.

## BA 201 Legal Environment of Business

A study of law as it applies to ordinary business situations with focus upon the Uniform Commercial Code dealing with obligations, contracts, agency, and negotiable instruments. Three credits.

## BA 203 Statistics and Data Analysis for Business

This course provides the student with an overview of some important analytical tools that are used to examine business phenomena and improve management decision-making. The two foci of attention are I)learning about the structure of analytical tools, namely exploratory data analysis, probability and statistics; and 2) learning how to use these tools to analyze business phenomena an improve business decision-making. In the process of conducting analyses of business phenomena, the student will focus special attention on one-
and two-sample hypotheses testing; contingency-table analysis; simple linear regression; forecasting and time series analysis; and analysis of variance. Prerequisite: MATH IOI, corequisite: ISCT 204. Three credits.

## BA 2II Principles of Accounting I

An introduction of the fundamentals of accounting which is basic language of business. Journals, ledgers, adjusting entries and closing entries are introduced and utilized in building the financial and operating statements of sole proprietorships. Three credits.

## BA $212 \quad$ Principles of Accounting II

A continuation in the study of accounting fundamentals which cover accruals and deferrals, current liabilities, capital stock, investments and the preparation and analysis of financial statements including the statement of cash flows. The remaining topics will focus primarily on information for management decision-making including cost concepts, budgetary planning and control and responsibility accounting. Prerequisite: BA 211 . Three credits.

## BA $302 \quad$ Quantitative Methods

This course provides the student with an overview of some of the quantitative (mathematically and statistically based) methods that are commonly used to support business decision-making. Course emphasis is on business applications - not on mathematics and statistics. Prerequisite: BA 203, ISCT 204 or permission of the instructor. Three credits.

## BA 307 Introduction to Management and Organizational Behavior

This course introduces students to the fundamental concepts of management systems to include roles, ethical behavior, planning/strategy, structure/organization, leadership, control and change. In like manner, the behavioral aspects of individuals in organizations will be studied. These include improvement of individual, group and organizational behavior, including group dynamics. Prerequisite: Junior level standing or permission of the instructor. Three credits.

## BA $310 \quad$ Introduction to Management Information Systems and Electronic Commerce

This course introduces the student to the concepts underlying the design, implementation, control and evaluation of a contemporary computer-based information system. Students will understand the role that management information systems play in the development of the Internet worked/e-commerce enterprise. The course strives to show how, through information systems, the manager is able to better understand today's new business model. The course will emphasize the interrelationship between the three major business resources: information, information technology and people. This course is intended to provide the student with a major overview of the information function within the e-commerce enterprise. At all times, the emphasis will be on the application of technology to the business environment, with the intent of understanding how information technology has transformed how we live and work. Prerequisites: ISCT 204, and junior-level standing or permission of the instructor. Three credits.

## BA 3II Intermediate Accounting I

The application of generally accepted accounting principles and the actions of FASB to the recording of financial data. A more sophisticated and detailed approach is demonstrated for income statement presentation and for classified statements of financial position. Additional topics include receivables, inventories, fixed assets and accounting applications of the time value of money. Prerequisite: BA 212 . Three credits.

## BA $312 \quad$ Intermediate Accounting II

A continuation of the application of generally accepted accounting principles and the actions of FASB. Topics considered include income determination and valuation of intangible assets, current liabilities, long-term liabilities, short and long-term investments, tax deferrals, pension liabilities and long-term leases. Prerequisite: BA 3II.Three credits.

## BA $\quad 315 \quad$ Cost Accounting

A study of the control and distribution of costs within manufacturing firms and the development of effective analytical tools of cost measurement in the planning and control of business operations. Topics include cost systems, standard costs, measurement and evaluation of quantity and quality variances, job cost identification, process cost identification, assignment of direct and indirect expenses, allocation of overhead expenses, flexible budgets, accounting for by-products, joint products, transfer pricing and the development of an effective
system of cost accounting reports as a tool for utilization in management decision-making. Prerequisite: BA 212. Three credits.

## BA $322 \quad$ Managerial Accounting

The use of accounting data as an information system for recording and projecting the flow of funds through the firm, in determining the net results of the firm's operation, that include budget comparison and analysis, and the evaluation of the performance of management. This is followed by analysis of the role of accounting information in aiding the management control system and the way in which such systems and incentives motivate people within organization. Prerequisite: BA 212 . Three credits.

## BA $330 \quad$ Introduction to Finance

An introduction to all aspects of corporate financial management, including the role of finance in a business organization; the role of financial markets and institutions; interpretation, analysis and forecasting of financial statement; time value of money; the consumption-investment decision; the various instruments of debt and equity; and valuation methods. Prerequisite: Junior standing or permission of the instructor. Three credits Normally offered in the spring.
BA 337 Introduction to Health Care Management
An introductory course relating the concepts and functions of the manager to the specific realm of managing the health services delivery system. Three credits.

## BA $360 \quad$ Introduction to Marketing

Basic marketing functions, institutions, and concepts are studied with emphasis on the "4 Ps of Marketing," which are involved in the creation, pricing, promotion, distribution, and sale of goods and services in industrial and consumer markets. Prerequisites: Junior-level standing or permission of instructor. Three credits.

## BA 36I Marketing Research and Development

Introduction to the techniques, tools and applications of marketing research and product/service development. Upon completion of this course, the student will have acquired the knowledge and skills needed to design proposals and marketing research studies, collect data using field and desk methods, analyze data using purpose-built software, and report findings to aid decision-making - all according to established ethical guidelines. The student will also understand the process of product development and the critical role of research in this process. Prerequisites: BA 360 and BA 203 or equivalent. Three credits.

## BA 362 Marketing Communications

This course provides the marketing student with an in-depth understanding of all the communication tools available for the development and implementation of effective marketing strategies, including advertising, sales promotion, personal selling and publicity. Prerequisites: BA 360, junior-level standing or permission of the instructor. Three credits.

## BA $363 \quad$ Consumer Behavior

Study of activities related to both purchasing and consuming of goods and services together with behavioral and decision processes tied to such activities. Cognitive, affective, and behavioral factors, such as attitude, cognition, perception, learning, motivation, personality and shopping patterns are assessed in terms of their effects, e.g., on consumer relationships, brand preferences, product life-cycle, market posture and competitive advantage. Global thinking is emphasized together with understanding of cultural differences, ethical issues, cost-benefit analysis and marketing efficiency. Prerequisite: BA 360. Three credits.

## BA $367 \quad$ Marketing Channels and Logistics

This course focuses on marketing channels in the global economy analyzing the relationships that individual organizations develop with each other (e.g. manufacturers, wholesalers, retailers, and service providers) in order to implement their marketing strategies. Prerequisite: BA 360. Three credits.

## BA $393 \quad$ Small Business Management and Entrepreneurship

Problems and challenges peculiar to the entrepreneur and small business firms are considered with an emphasis on short- and long-term matters such as starting-up, survival, growth, and financing. Opportunities for small business are studied, as well as the accompanying risks and difficulties. Governmental assistance programs are considered as well as analysis of why many small businesses fail while others succeed. Prerequisites: BA 307, BA 330 and BA 360. Three credits.

## BA $394 \quad$ Students in Free Enterprise (SIFE) Seminar

The seminar is designed for practical application of management, marketing, and entrepreneurial concepts in support of Students in Free Enterprise. Students are required to be a team leader and complete four projects during the semester and be a team member on at least four additional projects. May be repeated as often as the student wishes; however, only six semester hours can be applied to the minimum hours required for graduation. Three credits.
BA 395 Introduction to Operations and Supply Chain Management
This course considers operations and supply chain management as a management process across the full spectrum of business from the sourcing of raw materials to delivery of goods and services to the final consumers. Operations and supply chain management integrates procurement, production and logistics processes to provide a seamless and efficient delivery of the final product or service to the final consumers. Prerequisite: BSB Junior standing and BA 302 or permission of the instructor. Three credits.

## BA $404 \quad$ Corporate Finance

Analysis of operations and forecasting of capital requirements; working capital decisions; capital budgeting; cost of capital; acquisition and management of corporate capital; financial management decision making within the context of corporate governance; application of derivative securities. Prerequisites: BA 212 and BA 330. Three credits. Normally offered in the fall.

## BA $412 \quad$ Advanced Accounting

A critical study of financial measurement and reporting for business combinations, consolidated financial statements, business components, foreign currency translation and an introduction to fund accounting. Prerequisite: BA 3I2. Three credits.

## BA 414 Income Tax I

An analysis of tax laws as applied to individuals. Topics include tax determination, gross income, deductions, business expenses, employee expenses and depreciation. Prerequisite: BA 212. Three credits.

## BA 415 Income Tax II

An analysis of income tax accounting problems relating to individuals and corporations. Other topics include passive losses, tax credits, the AMT and property transactions including depreciation recapture. Prerequisite: BA 4I4.Three credits.

## BA $418 \quad$ Auditing

A study of the purposes, ethical and legal environment, necessary steps in performing an accounting audit reviewing acceptable practices, and the standard accounting techniques and procedures for an audit using working papers, statements and reports. Internal controls and external auditing activities are examined, with particular focus upon the professional responsibility of the auditor to his/her clients. Prerequisite: BA 3 I2. Three credits.

## BA $420 \quad$ Investment and Portfolio Management

Valuation of stocks, bonds, futures, options, real estate and other real and financial assets; risk, return and liquidity, and diversification in modern portfolio theory; the efficient markets hypothesis; direct versus indirect investing through mutual funds, banks, insurance companies, and pensions; the securities industry; institutional considerations facing trust managers and others. Students taking this course are encouraged to participate in the Student Investment Fund which manages a portion of the university's endowment. Prerequisite: BA 404 Three credits. Normally offered in the spring.

## BA $422 \quad$ Contemporary Issues in Management

A course integrating the various management disciplines, concepts and practices using current cases that deal with contemporary problems, issues and questions affecting the management of the business enterprise. Readings in current business literature are assigned and practical experiences are shared in class discussion and in written reports. Prerequisite: BA 307. Three credits.

## BA $424 \quad$ Governmental and Non-Profit Accounting

A study of the accounting principles, procedures and financial reporting used by governmental and non-profit entities as well as an analysis of the environment and characteristics of these entities. Prerequisite: BA 2 I2. Three credits.

## BA $426 \quad$ Financial Institutions

An examination of the financial services industry. Specific topics include the role of financial markets and institutions in the intermediation of credit, the determination of the structure of interest rates, the influence of law and regulation on the industry, and a survey of financial instruments, institutions and markets. Prerequisites: EC 350 and BA 330 (may be taken concurrently). Three credits. Normally offered in the spring of oddnumbered years.

## BA $429 \quad$ Leadership and Cultural Change

This course is designed to develop and put into practice fundamental leadership skills in the context of an organization's overall corporate philosophy and value system. Emphasis is placed upon how the leadership process is derived from and supports the overall organizational culture. It shows how the practice of leadership in turn influences and modifies this culture. Prerequisites: senior standing and permission of the dean. Three credits.

## BA $442 \quad$ Purchasing and Supply Management

This course addresses modern practices and techniques of the purchasing and supply management (PSM) function. Included in the coverage of PSM are supply organization, quality, supplier selection, price determination, purchasing policy and procedures, material and logistic system, inventory, global purchasing, acquisition of capital assets and supplier relations. This course is designed to help students to prepare for examinations leading to professional certification in supply chain management. Prerequisite: BSB Senior standing and BA 395 or permission of the instructor. Three credits.

## BA $446 \quad$ Logistics and Distribution Management

This course provides an overview of distribution operations and tools to make strategic, tactical and operational level decisions. The course includes order management, packaging and materials handling, transportation, location selection, warehousing management and global logistics. This course is designed to help students to prepare for examinations leading to professional certification in supply chain management. Prerequisite: BSB Senior standing and BA 395 or permission of the instructor. Three credits.

## BA $453 \quad H u m a n$ Resource Management and Business Ethics

This course provides a rigorous and comprehensive approach to understanding the management of both human resources and ethics in a framework of current trends and practice. Emphasis is placed on practical, theoretical, and ethical management principles as well as examples and methods for promoting good employment practices. In the study of ethics, the course seeks an understanding of the day-to-day ethical and moral forces impacting employees within public organizations both domestically and internationally where local practices and cultural norms differ from our own. Situational public policy case studies, analysis and problem solving approaches to enhancing passion and commitment to personal and corporate honesty are highlighted. In the field of human resource management, emphasis will be placed upon planning, strategy, personnel selection, equal employment, the legal environment, training, appraisal, compensation and contemporary issues. The course has been developed for the student of general management whose job will involve responsibility for principled leadership in a global environment. Prerequisite: senior standing. Three credits.

## BA 455 International Business

The growth and development of the multi-national corporation is the focus of this course, with attention given to the organizational and staffing problems that occur in the corporation's international role. The impact of differences in customs, mores, habits and their historical basis, economic and political systems, tax structures, religious beliefs, and societal expectations on the business firm when it crosses its national boundaries are studied. Prerequisites: BA 307, BA 212, BA 330 and BA 360. Three credits.

## BA 456 Travel Seminar in International Business

This summer seminar is intended to provide an opportunity for students to experience first hand business operations in varying international settings. The seminar will include preparatory classes and lectures, meeting with senior managers of enterprises in the countries visited, concluding classes and lectures, and a major term paper. Prerequisite: BSB junior or senior standing. Three credits.

## BA $460 \quad$ Marketing and Brand Strategy

Presents brand identity fundamentals and a comprehensive dynamic process for developing and maintaining successful brands. From researching the competition to translating the vision of the CEO to designing and implementing an integrated brand identity program, the process is presented through a step-by-step approach. Topics include research and analysis, brand and identity strategy, brand identity design, brand identity applications, brand asset management as well as standards, guidelines, trademark and other applicable laws. Case studies from small and large businesses are employed to portray the brand identity process in action. Prerequisite: BA 360. Three credits.

## BA 464 International Marketing

Introduction to international marketing for business-to-business and business-to-consumer markets. Course will include examination of cultural, legal, social, environmental and economic trends impacting marketing; international marketing research (primary and secondary research methods); the international marketing mix (product, pricing/INCOTERMS, distribution systems, promotion/branding); marketing strategy development, including market entry and penetration; and ethical issues in international marketing. Implications for small and large businesses will be examined in each case. Prerequisite: BA 360. Three credits.

## BA $\quad 470 \quad$ Current Issues in Health Care Management

Through the media of reading, lectures and presentations, students will be exposed to many of the challenges facing the health care delivery system in relation to its environment. These areas will include organization for delivery of health care services, financing, political and social issues. Ethical considerations in delivery of health care will be addressed. The student will become a more knowledgeable user of health care services. Three credits.

## BA 473 International Financial Management

Management of the contemporary firm's international financial operations. Topics include international money and capital markets, exchange rate risk, international capital structure and the cost of capital, international capital budgeting and cash management. Prerequisite: BA 330. Three credits. Normally offered in the spring of even-numbered years.

## BA $490 \quad$ Business Policy and Strategy

Strategic management, formulation, implementation and control are examined using a case study approach. Topics include corporate social responsibility (CSR), agency theory, resource-based-view of the firm, value chain analysis, executive compensation, balanced scoreboard, bankruptcy, strategic analysis and choice, strategy implementation, structuring an effective organization, organization, organizational leadership, strategic control and continuous improvement. The focus is upon the strategic management and alignment of these areas to achieve the objectives of the business empire. Prerequisite: BSB senior standing or special permission from the instructor. Three credits.

## BA 493 Advanced Management Theory and Practice

A future oriented senior capstone in management designed to synthesize previous learning and to prepare the student for entry into the work force as an entry or mid-level manager. Prerequisite: BSB senior standing. Three credits.

## BA 495 Directed Study

Utilized for courses in business administration that are not offered elsewhere, and for individuals desiring to pursue a given issue, topic, or concentration further than obtainable in regularly scheduled courses. May be repeated once. Prerequisite: BSB junior or senior standing. Three credits.

## BA 498 Business Internship

A link between the classroom and experience on the job, the internship provides qualified students a threeway arrangement among the professor-advisor, the employer and the student-employee. Students may obtain appropriate employment on their own or in conjunction with the internship advisor of the school of business. A minimum of two 40 -hour work periods is required for each semester hour of credit for which the course is taken. Prerequisites: BSB junior or senior standing and permission of the internship advisor. Three or six credits.

## BA 499 Business Seminar

Group study of an advanced topic in business administration. This course can be built around a common interest of the enrolled students or may be used as a forum for presentation and discussion of current faculty research. Prerequisite: BSB junior or senior standing. Three credits.

## CHEMISTRY (CHEM)

## CHEM $105 \quad$ Chemistry and Society

This course is intended for students not majoring in the natural sciences. It provides an introduction to the chemistry of everyday life with a focus on its relation to societal issues. Topics may include the atmosphere, water, nuclear and solar energy, plastics, drugs, cosmetics, and nutrition. Three lecture hours plus two laboratory hours per week. CHML 105 Chemistry and Society lab must be taken concurrently. Four credits.

## CHEM I2I General Chemistry I

A study of the fundamental laws and principles of chemistry. Emphasis is given to standard laboratory procedures and techniques for chemical analysis. This course is designed to provide the student with a chemical background to be utilized in other fields of work as well as for further work in science. Three-hour lecture plus three-hour laboratory per week. CHML 12 I General Chemistry I lab must be taken concurrently. Four credits.

## CHEM 122 General Chemistry II

A continuation of the fundamental concepts of chemistry. Included is a study of the preparation, properties, and uses of the more important elements and their compounds. Three-hour lecture plus three-hour laboratory per week. Prerequisite: CHEM I2I; should have a "C" or better in CHEM 121. CHML 122 General Chemistry II lab must be taken concurrently. Four credits.

## CHEM 21I Analytical Chemistry

Recent techniques of chemical analysis are presented. Basic principles of quantitative acid-base, redox and complexometric titrimentry. Gravimetric and colorimetric analysis are included. Three-hour lecture plus threehour laboratory per week. Prerequisite: CHEM 122 CHML 21 I Analytical Chemistry lab must be taken concurrently. Four credits.

## CHEM 301 Organic Chemistry I

A comprehensive introduction to the modern theories of organic structure and reactivity. Three-hour lecture plus three-hour laboratory per week. Prerequisite: CHEM I22. CHML 301 Organic Chemistry I lab must be taken concurrently. Four credits.

## CHEM 302 Organic Chemistry II

A continuation of the fundamental principles of organic chemistry. Three-hour lecture plus three-hour laboratory per week. Prerequisite: CHEM 301; should have a " C " or better in CHEM 30I. CHML 302 Organic Chemistry II lab must be taken concurrently. Four credits.

## CHEM 31I Instrumental Analysis

Modern analytical methods of separation and characterization. The theory and technique of spectrophotometric, electronanalytical and chromatographic methods of analysis. Three-hour lecture plus three-hour laboratory per week. Prerequisite: BIO 121 and I22 or BIO 232 or CHEM I22. CHML 3 II Intrumental Analysis lab must be taken concurrently. Four credits.

## CHEM 312 Introduction to Biochemistry

A study of the fundamental principles and applications of biochemistry. Topics include a study of metabolic pathways in living systems and the properties of major types of molecules that support these systems. Threehour lecture plus three-hour laboratory per week. Prerequisites: CHEM 30 I. Prerequisite or corequisite: CHEM 302. CHML 3 I 2 Introduction to Biochemistry lab must be taken concurrently. Four credits.

## CHEM 317 Inorganic Chemistry

A survey of fundamental aspects of the inorganic chemistry of main group and transition metal elements. Topics include atomic structure, molecular symmetry, bonding models, coordination chemistry and metal carbonyl chemistry. Three-hour lecture plus three-hour laboratory per week. Offered alternate years. Prerequisite: CHEM 122. CHML 3 I7 Inorganic Chemistry lab must be taken concurrently. Four credits.

## CHEM 321 Physical Chemistry I

An application of laws and principles of physics and mathematics to chemical systems. Topics studied include thermodynamics, kinetics, equilibria, electrochemistry, nuclear chemistry, and elementary quantum mechanics.

Three-hour lecture plus three-hour laboratory per week. Prerequisites: CHEM I 22 and MATH 202. CHML 32 I Physical Chemistry I lab must be taken concurrently. Four credits.

## CHEM 322 Physical Chemistry II

This course is a continuation of CHEM 321. Three-hour lecture plus three-hour laboratory per week. Prerequisite: CHEM 321. CHML 322 Physical Chemistry II lab must be taken concurrently. Four credits.

## CHEM $380 \quad$ Chemistry Practicum

This course will involve observation and participation in the operation of an industrial chemical laboratory. Assignments will be made by Shenandoah University faculty in cooperation with local industry and will include twenty-five hours of working experience per semester. Prerequisite: Chemistry majors with 15 credit hours of chemistry only. Check with department chair for availability. One credit.

## CHEM 420 Advanced Synthesis and Analysis

This is a laboratory-oriented course in which advanced techniques in chemical synthesis and qualitative analysis are studied. Four-hour laboratory per week. Prerequisites: CHEM 21 I, CHEM 302 and senior standing. Three credits.

## CHEM 49I Research Seminar

This course is designed to provide an opportunity for study of the scientific approach to the solution of technical problems. Prerequisites: CHEM 2II, CHEM 302 and permission of the instructor.Two credits. It is strongly recommended that students enroll in this course in the fall or spring of their junior year.

## CHEM 492 Research Seminar

This course is designed to provide an opportunity for study of the scientific approach to the solution of technical problems. Prerequisites: CHEM 2 II, CHEM 302, CHEM 49 I and permission of the instructor. Two credits.

## CHURCH MUSIC (MUCH)

## MUCH 33I Church Music I

An inclusive week of "hands on" study in the field of church music with special emphasis on children's choir methods and materials, basic conducting and the role of music in the church. (Replaces MUCH 20 I, Children's Choir Methods and Materials; MUCH 307, Conducting for Church Musicians I; and MUCH 403, Music and Worship I.) This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MUCH $332 \quad$ Church Music 2

An inclusive week of "hands on" study in the field of church music in which students plan, prepare and participate in a wide variety of church services. The adult choir (methods and materials and conducting the adult volunteer choir), plus the role of music in the church, is the central focus of the week. (Replaces MUCH 202, Adult Choir Methods and Materials; MUCH 30I, Church Music Seminar I; and MUCH 308, Conducting for Church Musicians II.) This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MUCH $333 \quad$ Church Music 3

An inclusive week of "hands on" study in the field of church music in which the participants plan, prepare, and participate in a wide variety of church services. Special emphasis of this week is the role of the organ in worship, organ repertoire, hymn playing and organ accompaniment. (Replaces MUCH 304, Organ Repertoire for the Church I; MUCH 309, Choral Conducting for Church Musicians; and MUCH 404, Music and Worship II.) This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MUCH $334 \quad$ Church Music 4

An inclusive week of "hands on" study in the field of church music in which the participants plan, prepare, and participate in a wide variety of church services. Emphasis will be placed on service playing, organ repertoire and console conducting. (Replaces MUCH 302, Church Music Seminar II; MUCH 305, Organ Repertoire for
the Church II; and MUCH 306, Service Playing and Console Conducting.) This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MUCH $335 \quad$ Church Music 5

An inclusive week of "hands on" study in the field of church music in which the participants plan, prepare, and participate in a wide variety of church services. Emphasis will be placed on the study of hymns, their utilization in worship and their history and theological interpretation. (Replaces MUCH 40I, Hymnology I; MUCH 405, Music and Worship III; and MUCH 406, Instruments and Worship.) This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MUCH $336 \quad$ Church Music 6

An inclusive week of "hands on" study in the field of church music in which the participants plan, prepare, and participate in a wide variety of church services. Hymns as theological statements and advanced choral conducting are the special emphases. (Replaces MUCH 303, Church Music Seminar III; MUCH 3I0, Advanced Choral Conducting for Church Musicians; and MUCH 402, Hymnology II.) This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MUCH $407 \quad$ Church Music Internship

Supervised practical experiences in a church music setting for a minimum of 150 clock hours. Prerequisite: Permission of the instructor. Three credits.

## MUCH 495 Special Topics

Investigation of a specialized area of knowledge in a class setting. Prerequisites will vary with topic but include permission of the instructor. One, two or three credits.

## MUCH 499 Individual Directed Research

A private instruction setting for individual projects in Church Music. May be used to fulfill electives only. Project proposal must be approved by the associate dean for undergraduate studies and the division chair prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## CRIMINAL JUSTICE (CJ)

## CJ $201 \quad$ Introduction to Criminal Justice

A survey of the organization and practices of police, courts and prisons in America. Three credits.

## CJ 261 Juvenile Delinquency

Defining and explaining delinquency, its social context and types of intervention. Three credits.

## CJ $295 \quad$ Topics in Criminal Justice

Investigation of specific topics or issues in the field of criminal justice. Three credits.

## CJ $305 \quad$ Criminal Theory

A review of the classical and contemporary schools of criminal theory. Prerequisite: CJ 201. Three credits.
CJ $321 \quad$ Policing and Law Enforcement
Policing and Law Enforcement is an upper-level course for criminal justice majors designed to acquaint students with how society came to accept policing and law enforcement historically and how law enforcement officials operate currently, primarily in the U.S. but also globally. Prerequisite: CJ 20 I. Three credits.

## CJ $322 \quad$ The Courts

The Courts is designed to examine the structure of the various courts of the United States at the local, state and federal levels. Class will survey current issues that inform and compose court administration using sociological criminological theories. Prerequisite: CJ 201. Three credits.
CJ 323 Corrections
Examination of theories and programs that inform and compose corrections in the United States. Prerequisite: CJ 201. Three credits.

## CJ $335 \quad$ Women and Crime

Women and Crime is an upper level course for criminal justice majors designed to allow students to examine how crime impacts women, both as perpetrators and victims. Prerequisites: CJ 201 and six additional hours of criminal justice. Three credits.

## CJ 343 Law for the Criminal Justice Professional

An examination of the central legal principles, procedures and concerns in the criminal justice system. Prerequisite: CJ 201. Three credits.

## CJ 401 Internship in Criminal Justice

Internship in the field of Criminal Justice. Offered in the spring. Prerequisites: Junior standing or Criminal Justice major, 2.5 GPA and permission of the instructor. Three credits.

## CJ 477 Issues in Criminal Justice

A seminar on selected topics in the administration of criminal justice. Prerequisite: Senior standing as an Criminal Justice major or permission of instructor. Three credits.

## CJ $495 \quad$ Topics in Criminal Justice

Investigation of specific topics or issues in the field of criminal justice. Offered in the spring of every fourth year. Prerequisites: CJ 201 and junior standing. Three credits.

## CJ $499 \quad$ Guided Independent Study

Guided individualized study of a particular area of topic in Criminal Justice as agreed by the student and instructor. An outline of the proposed study content, learning activities, and evaluation methods must be submitted to the instructor for approval prior to enrollment. Prerequisites: CJ 201 and permission of the instructor. One to three credits.

DANCE (DA)

## DA III Modern Dance I

A course for dance majors (and others with instructor's permission) that involves the development of skill, knowledge, and appreciation of modern dance through the study of fundamental techniques and other movement experiences. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. Two credits.

## DA $112 \quad$ Modern Dance 2

A course for dance majors (and others with instructor's permission) that involves the development of skill, knowledge, and appreciation of modern dance through the study of fundamental techniques and other movement experiences.Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA III or permission of instructor. Two credits.

## DA |2I Ballet I

A course for dance majors (and others with instructor's permission) that involves the development of skills, knowledge and appreciation of ballet through the study of fundamental techniques and movement vocabulary. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. Two credits.

## DA $122 \quad$ Ballet 2

A course for dance majors (and others with instructor's permission) that involves the development of skills, knowledge and appreciation of ballet through the study of fundamental techniques and movement vocabulary. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 121 or permission of the instructor. Two credits.

## DA |3| Jazz I

A course for dance majors (and others with instructor's permission) that develops skills, knowledge and appreciation of jazz dance through the study of fundamental techniques and both contemporary and musical theatre styles. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. Two credits.

## DA 132 Jazz 2

A course for dance majors (and others with instructor's permission) that develops skills, knowledge and appreciation of jazz dance through the study of fundamental techniques and both contemporary and musical theatre styles. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 13| or permission of instructor. Two credits.

## DA |4| Dance Improvisation

A course that develops movement innovation through spontaneous movement experiences. Through these processes, students develop an understanding of the technical skills and artistic foundations necessary for performance, choreography and teaching. Emphasis on freedom of self expression and creative awareness. Prerequisite: Permission of the instructor. Two credits.

## DA $\quad 152 \quad$ Contact Improvisation

Exploration of contact improvisation and contemporary partnering skills. Prerequisite: Permission of the instructor. One credit.

## DA 191 Pilates Mat

This course is designed for students to develop an understanding of Pilates' 6 Principles and physical mastery of the 34 Pilates Mat exercises. The material presented will cover the specific benefits of the Pilates method as it applies to cross training for dance and the professional performer/athlete. One credit.

## DA 2II Modern Dance 3

For the dance major (and others with instructor's permission), continued exploration in movement and motion further develop skills and knowledge of modern dance technique, with emphasis on performance skills. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this course. Prerequisite: DA 112 or permission of the instructor. Two credits.

## DA $212 \quad$ Modern Dance 4

For the dance major (and others with instructor's permission), continued exploration in movement and motion further develop skills and knowledge of modern dance technique, with emphasis on performance skills. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 211 or permission of the instructor. Two credits.

## DA 22I Ballet 3

For the dance major (and others with instructor's permission), continued training with emphasis on increasing technical proficiency of technical skills and knowledge of the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 122 or permission of the instructor. Two credits.

## DA $222 \quad$ Ballet 4

For the dance major (and others with instructor's permission), continued training with emphasis on increasing proficiency of technical skills and knowledge of the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 221 or permission of the instructor. Two credits.

## DA 23I Jazz 3

For the dance major (and others with instructor's permission), a continuation of the study of technique in the jazz style, with emphasis on increasing proficiency of technical and performance skills, as well as knowledge of the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 132 or permission of the instructor. Two credits.

## DA 232 Jazz 4

For the dance major (and others with instructor's permission), a continuation of the study of technique in the jazz style, with emphasis on increasing proficiency of technical and performance skills, as well as knowledge of the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 23 I or permission of the instructor. Two credits.

## DA 24I Dance Composition I

Basic elements and principles of composing movement for dance are presented. Simple compositional forms for the solo performer are stressed. Technology skills that support choreographic creativity are developed. A repertoire of questioning strategies in literal, interpretive, critical and evaluative thinking is developed in both oral and written formats. This course develops a foundation of knowledge, skills and processes for choreography appropriate to dance performance and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 14| or permission of the instructor. Two credits.

## DA 242 Dance Composition 2

Basic elements and principles of composing movement for dance are presented. Simple compositional forms for the solo performer are developed into duet and trio structures. Technology skills that support choreographic creativity are developed. A repertoire of questioning strategies in literal, interpretive, critical and evaluative thinking is developed in both oral and written formats. This course develops a foundation of knowledge, skills and processes for choreography appropriate to dance performance and teaching. A minimum grade of "C" is required to pass this class. Prerequisite: DA 241. Two credits.

## DA 26I Creative Movement for Children

Survey methods and materials appropriate to teaching creative movement for children are presented. Movement activities address a variety of ages and developmental levels and include individual, cooperative and team activities. Students develop instruction procedures and materials utilizing a variety of teaching resources, including the Virginia Standards of Learning, and gain practical experience in classroom management and communication skills. Prerequisite: Permission of the instructor. Two credits.

## DA 262 Techniques for Teaching Dance

Overview of principles and methodologies appropriate to the teaching of dance are presented. The course offers the advanced dance student the opportunity to prepare goal-specific lesson plans, analyze technique principles and develop evaluation strategies. Strategies for addressing developmental levels, exceptional students and related issues are discussed. Technology resources appropriate to teaching are identified and examined. Supervised teaching experiences provide opportunities to develop effective classroom management techniques and communication skills while employing a variety of teaching methods. Assignments develop critical and evaluative thinking and familiarity with the Virginia Standards of Learning and a variety of other teaching resources. Prerequisite: Permission of the instructor. Two credits.

## DA 291 Pilates Mat Teacher Training I

This course is designed for students to develop mastery of Pilates' 6 Principles, The Pilates Lab 5 Principles, the 34 Pilates Mat exercises and modifications in preparation for a Pilates Mat Teacher Training Completion Certificate. Contraindications for pregnancy, diabetes and orthopedic conditions will be covered as well as use of Magic Circle, Foam Roller and Theraball props. This course may be taken to fulfill dance technique elective credits. A minimum grade is required for students who wish to proceed to DA 292, Pilates Mat Teacher Training 2 to complete the Pilates Mat Teacher Training Completion Certificate. Consult with the instructor for details. Prerequisite: One semester of college level anatomy approved by the instructor. Corequisite: Concurrent enrollment in DA 19| Pilates Mat. Two credits.

## DA $292 \quad$ Pilates Mat Teacher Training 2

This course is designed for students to further develop mastery of Pilates' 6 Principles, The Pilates Lab 5 Principles, the 34 Pilates Mat exercises and modifications in preparation for a Pilates Mat Teacher Training Completion Certificate, which will be granted at the end of the semester provided the minimum grade is attained. Contraindications for pregnancy, diabetes and orthopedic conditions will be covered as well as use of Magic Circle, Foam Roller and Theraball props. Emphasis will be placed on the observation of other student teachers, preparing and teaching lessons in preparation for a career in teaching Pilates Mat. Certificate students must have earned a minimum grade in DA 291. Consult with instructor for details. This course may be taken to fulfill dance technique elective credits. Prerequisite: DA 29। Pilates Mat Teacher Training I. Corequisite: Concurrent enrollment in DA 191 Pilates Mat. One credit.

## DA 3II Modern 5

Continued study of modern dance technique for the advanced student emphasizes the attainment of technical proficiency and high quality performance skills and increased knowledge about the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 212 or permission of the instructor. Two credits.

## DA $312 \quad$ Modern 6

Continued study of modern dance technique for the advanced student, emphasizes the attainment of technical proficiency and high quality performance skills and increased knowledge about the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 31I or permission of the instructor. Two credits.

## DA 32I Ballet 5

Continued study of ballet for the advanced student, emphasizes the attainment of technical proficiency and high quality performance skills and increased knowledge about the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of "C" is required to pass this class. Prerequisite: DA 222 or permission of the instructor. Two credits.

## DA $322 \quad$ Ballet 6

Continued study of ballet for the advanced student, emphasizes the attainment of technical proficiency and high quality performance skills and increased knowledge about the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of "C" is required to pass this class. Prerequisite: DA 321 or permission of the instructor. Two credits.

## DA 323 Pointe

Study in classical pointe technique for the ballet dancer includes training exercises for strength development. Advanced dancers may study ballet variations and pas de deux drawn from the classical repertoire. A minimum grade of " $C$ " is required to pass this class. Prerequisite: permission of the instructor. Two credits.

## DA 331 Jazz 5

Continued study of jazz dance for the advanced student with emphasis on attaining technical proficiency, high quality performance skills, and increased knowledge about the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 232 or permission of the instructor. Two credits.

## DA 332 Jazz 6

Continued study of jazz dance for the advanced student with emphasis on attaining technical proficiency, high quality performance skills, and increased knowledge about the art form. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " $C$ " is required to pass this class. Prerequisite: DA 33 I or permission of instructor. Two credits.

## DA 34I Dance Composition 3

Further exploration in composing duets, trios, quartets and large group pieces. Emphasis on exploring spatial designs and rhythmic variations for group works. Technology skills that support choreographic creativity are developed. Ethical and legal issues relating to technology and copyright are discussed with regard to their impact on choreography, reconstruction and performance. This course further develops a foundation of knowledge, skills and processes appropriate for dance performance and teaching. A minimum grade of " C " is required to pass this class. Prerequisite: DA 242 . Two credits.

## DA $342 \quad$ Dance Composition 4

Further exploration in composing duets, trios, quartets and large group pieces. Emphasis is placed on exploring spatial designs and rhythmic variations for group works. Technology skills that support choreographic creativity are developed. Ethical and legal issues relating to technology and copyright are discussed with regard to their impact on choreography, reconstruction and performance. This course further develops a foundation of knowledge, skills and processes appropriate for dance performance and teaching. A minimum grade of "C" is required to pass this class. Prerequisite: DA 34I. Two credits.

## DA 35I Dance Production I

Production principles of dance performance include production personnel and scheduling, lighting, staging, costuming, sound production and video techniques. Discussion of these topics will be combined with firsthand experience, as students assist in preparations for all scheduled dance performances. This course develops a foundation of knowledge, skills and processes appropriate for dance performance and teaching. One credit.

## DA $352 \quad$ Dance Production 2

This course is designed to acquaint students with dance production management. Topics include scheduling, budgeting and contractual requirements, publicity and box office management, program funding, and production week activities. Discussion of these topics will be combined with first-hand experience, as students assist in preparations for all scheduled dance performances. This course develops a foundation of knowledge skills and processes appropriate for dance performance and teaching. One credit.

## DA $353 \quad$ Dance Production 3

This course is designed to provide students with advanced-level experience in dance production, planning and management. Students will serve as assistants to the production manager and artistic directors, gaining firsthand experience in the development of schedules, contracting personnel and working with a purchasing system for the acquisition of materials and supplies. Students take a more active leadership role during load-in, and may stage manage a mainstage concert, supervise backstage preparations and call cues for performance. Prerequisite: DA 35 I or permission of the instructor. One credit.

DA $354 \quad$ Dance Production 4
This course is designed to provide students with advanced-level experience in dance production planning and management, particularly in relation to front-of-the-house activities and publicity. Students take a more active leadership role during load-in, and may stage manage a mainstage concert, supervise backstage preparations and call cues for performance. Students may also assist with Outreach Programming, gaining first-hand touring management experience. Prerequisite: DA 352 or permission of the instructor. One credit.

## DA 361 Ballet Pedagogy

Analysis of content material specific to the pedagogy of ballet technique focusing on sound principles of technique, curriculum development, implementation of goal-specific teaching strategies and evaluation of pupil performance. Technology resources appropriate to teaching are identified, examined and utilized. Independent projects develop reading comprehension, research and oral/written communication skills and familiarity with the Virginia Standards of Learning. Supervised teaching experiences provide opportunities to develop effective classroom management skills and employ a variety of teaching methods. Students must be concurrently enrolled in a major level ballet technique course. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " $C$ " is required to pass this class in the BFA Dance Education curriculum. Prerequisite: Permission of the instructor; open to dance majors only. Two credits.

## DA 362 Modern Dance Pedagogy

Analysis of content material specific to the pedagogy of modern dance technique focusing on sound principles of technique, curriculum development, implementation of goal-specific teaching strategies and evaluation of pupil performance. Technology resources appropriate to teaching are identified, examined and utilized.

Independent projects develop reading comprehension, research and oral/written communication skills and familiarity with the Virginia Standards of Learning. Supervised teaching experiences provide opportunities to develop effective classroom management skills and employ a variety of teaching methods. Students must be concurrently enrolled in a major level modern dance technique course. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class in the BFA Dance Education curriculum. Prerequisite: Permission of instructor; open to dance majors only. Two credits.

## DA 363 Jazz Dance Pedagogy

Analysis of content material specific to the pedagogy of jazz dance technique focusing on sound principles of technique, curriculum development, implementation of goal-specific teaching strategies and evaluation of pupil performance. Technology resources appropriate to teaching are identified, examined and utilized. Independent projects develop reading comprehension, research and oral/written communication skills and familiary with the Virginia Standards of Learning. Supervised teaching experiences provide opportunities to develop effective classroom management skills and employ a variety of teaching methods. Students must be concurrently enrolled in a major level jazz dance technique course. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class in the BFA Dance Education curriculum. Prerequisite: Permission of the instructor; open to dance majors only. Two credits.

## DA $371 \quad$ Dance Science: Kinesiology

In-depth exploration of human anatomical structure and its relationship to dance movement. Emphasis given to understanding joint limitations, injury prevention, and application of knowledge to studio teaching. This course develops a foundation of knowledge, skills and processes appropriate for dance performance and teaching. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: permission of the instructor. Three credits.

## DA 372 Dance Science: Biomechanics

Continued study of anatomical structure in relation to dance movement, including the principles of physics that influence stability and mobility in the human body. Emphasis given to the creation of desired results in dance training through properly-directed effort and economy of movement. This course develops the foundation of knowledge, skills and processes appropriate for dance performance and teaching. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: DA 37I or permission of the instructor.Three credits.

## DA 38I Dance and Music

Seminar in music for the dance professional. Topics include selection criteria, rhythmic training, and score reading and working with dance musicians. Ethical and legal issues pertaining to the use of technology and copyright are examined within the context of the dance profession. This course develops the foundation of knowledge, skills and processes appropriate for dance performance, choreography and teaching. Two credits.

## DA 385 Dance Workshop

Practical experience in dance styles, with preparation of repertoire for performance. Physical skills, professional discipline and artistic expression are developed through these processes to provide a foundation for future performance, choreography and teaching. Prerequisites: Open by audition only. One credit.

## DA 386 Dance Ensemble

Practical experience in performance and repertoire through intensive rehearsals and a variety of performance opportunities. Physical skills, professional discipline and artistic expression are developed through these processes to provide a foundation for future performance, choreography and teaching. Prerequisites: Open by audition only.Two credits.

## DA 443 Senior Concert and Seminar I

Final performance and choreographic project for all BFA Dance and Dance Education majors. Requirements to be determined by dance faculty. Seminar focuses on fostering the creative process and providing production support while developing decision-making, problem-solving and oral/written communication skills. Appropriate technologies will be utilized to access and exchange information, facilitate creative processes and production management, and develop required documentation throughout the experience. A minimum grade of " C " is required to pass this class. Prerequisites: DA 312 or DA 322 or DA 332 and DA 342. One credit.

## DA 444 Senior Concert and Seminar 2

Conclusion of final performance and choreography project for all BFA Dance and Dance Education majors. Requirements to be determined by dance faculty. Seminar focuses on career management strategies for the entry-level dance professional and opportunities for continuing education in the field. Appropriate technologies will be utilized to access and exchange information, facilitate creative processes and production management, and develop required documentation throughout the experience. Prerequisite: DA 443. One credit.

## DA 47I History and Philosophy of Dance I

A study of the development of Western theatrical dance, relating this history to the cultural trends that shaped it. Philosophical theories of dance as a performing art and the writings of contemporary critics are examined and discussed. Emphasis placed on the development of an individual aesthetic base, developed through exposure to a wide variety of recorded resources. Independent reading, writing and research assignments develop comprehension, technology and oral/written communication skills. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## DA $472 \quad$ History and Philosophy of Dance 2

A continuation of DA 47I. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## DA $483 \quad$ Conditioning and Wellness for Dance

This course is designed to facilitate a greater understanding of the dancing body with an emphasis on conditioning and maintaining wellness. Involving both lecture and experiential learning, this course explores movement reeducation and cross-training techniques as well as conventional and alternative body therapies. Prerequisites: Successful completion of DA 37I Dance Science and Kinesiology, or permission of the instructor. This course is offered on an alternating schedule. Check with advisor for next offering. Two credits.

## DA $495 \quad$ Special Topics

Investigation of a specialized area of dance knowledge in a class or studio setting. Prerequisite: Permission of the instructor. One, two, or three credits.

## DA $498 \quad$ Culminating Project

An independent instruction setting for preparation of a culminating project in dance studies. Focus and development of ideas leads to research into a topic of the student's choice. The culminating project results in a written document and an oral presentation of the student's work in a public forum. Prerequisite: Permission of the instructor. One or two credits.

## DA 499 Individual Directed Research

A private instruction setting for individual projects in dance. May be used to fulfill dance electives only. Project proposal must be approved by the associate dean for undergraduate studies and the division chair prior to registration. Prerequisite: Permission of instructor. One, two, or three credits.

## DANCE EDUCATION (DAED)

## DAED 332 Foundations for Dance Education

Exploration of historical, social and philosophical foundations of current education practices and their relationship to the dance educator's experience within the public school system. Concurrent enrollment in DAED 333 is required. Student must be a BFA Dance Education major to enroll in this course. A minimum grade of " C " is required to pass this class. Prerequisites: Permission of the instructor. Two credits.
DAED 333 Field Experience I
DAED 334 Field Experience 2
Practical experience and observation of teaching strategies and skills in a variety of educational settings in elementary, middle and secondary levels. Assignments facilitate reflection on each observation experience, including the evaluation of teaching methods, classroom management strategies, content of lessons, use of materials and resources, and pupil performance. Student must be a BFA Dance Education major to enroll in
these courses. A minimum grade of " C " is required to pass this class. Prerequisites: Permission of the instructor. One credit each.

| DAED | 421 | Directed Teaching in the Elementary School |
| :--- | :--- | :--- |
| DAED | 422 | Directed Teaching in the Secondary School |

Observation and teaching in public schools and private dance studios under direct supervision. Students will demonstrate a command of the knowledge, skills and processes necessary to meet a range of developmental levels for students in preK-12.Through the planning, delivery and evaluation of lessons as required by each teaching assignment, student will demonstrate the ability to develop content, utilize appropriate teaching resources, employ effective classroom management strategies, evaluate student progress and communicate effectively with students, colleagues and parents. Prerequisites: DAED 333, DAED 334, DA 361 or DA 362 or DA 363 and a minimum grade of " $C$ " in technique classes as specified in the Dance Education curriculum. Student must be a BFA Dance Education major to enroll in these courses. Four credits each; may be taken concurrently.

## DANCE: LIFETIME FITNESS (DAPE)

## DAPE II3 Modern Dance I

A course designed for non-dance majors that involves the development of skill, knowledge and appreciation of modern dance through the presentation of fundamental techniques and other movement experiences. One credit.

## DAPE 114 Modern Dance 2

A course designed for non-dance majors that involves the development of skill, knowledge and appreciation of modern dance through the presentation of fundamental techniques and other movement experiences. Prerequisite: DA II3 or permission of the instructor. One credit.

## DAPE $120 \quad$ Foundations of Ballet Technique

Designed for the non-dance major, this course offers intensive training in the basic skills, knowledge and processes of ballet technique and vocabulary. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Three credits.

## DAPE 123 Ballet I

A course designed for the non-dance major as an introduction to the basic skills, knowledge and processes of ballet technique and vocabulary. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Prerequisites: DAPE 120 or permission of the instructor. One credit.

## DAPE 124 Ballet 2

A course designed for the non-dance major as an introduction to the basic skills, knowledge and processes of ballet technique and vocabulary. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Prerequisite: DA 123 or permission of the instructor. One credit.

## DAPE 133 Jazz I

A course for non-dance majors that develops technical skills, knowledge and appreciation of jazz dance, with emphasis on musical theatre styles. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Prerequisite: DA I20 or permission of the instructor. One credit.

## DAPE 134 Jazz 2

A course for non-dance majors that develops technical skills, knowledge and appreciation of jazz dance, with emphasis on musical theatre styles. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Prerequisite: DA I33 or permission of the instructor. One credit.

## DAPE I35 Tap I

A course that develops skills, knowledge and appreciation of tap dance through the study of elementary rhythms, basic steps and terminology. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " C " is required to pass this class in the BFA Dance Education curriculum. Prerequisite: Permission of the instructor. One credit.

## DAPE $136 \quad$ Tap 2

A course that develops skills, knowledge and appreciation of tap dance through the study of elementary rhythms, basic steps and terminology. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. A minimum grade of " $C$ " is required to pass this class in the BFA Dance Education curriculum. Prerequisite: DAPE I 35 or permission of the instructor. One credit.

## DAPE 152 Contact Improvisation and Partnering

Exploration of contact improvisation and contemporary partnering skills. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. One credit.

## DAPE 191 Pilates Mat

This course is designed for students to develop an understanding of Pilates' 6 Principles and physical mastery of the 34 Pilates Mat exercises. One credit.

## DAPE $220 \quad$ Dance Technique for Musical Theatre

The course offers intensive training in the skills, knowledge and processes of ballet and jazz dance techniques. Emphasis is placed on development of movement vocabulary, performance skills, technical accuracy and injury prevention awareness. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Course is open to students from all majors, but an audition is required for placement. Prerequisite: Placement by audition. Three credits.

## DAPE 223 <br> Ballet 3

For the non-dance major, continued training with emphasis on increasing technical proficiency and awareness of the art form. Prerequisite: DAPE 124 or permission of the instructor. One credit.

## DAPE $224 \quad$ Ballet 4

For the non-dance major, continued training with emphasis on increasing technical proficiency and awareness of the art form. Prerequisite: DAPE 223 or permission of the instructor. One credit.

## DAPE

233
Jazz 3
For the non-dance major, a continuation of the study of technique in the jazz style, with emphasis on performance skills. Prerequisite: DAPE 134 or permission of the instructor. One credit.

## DAPE 234 Jazz 4

For the non-dance major, a continuation of the study of technique in the jazz style, with emphasis on performance skills. Prerequisite: DAPE 233 or permission of the instructor. One credit.

## DAPE 235 Tap 3

Continued study of tap dancing, with emphasis on complex rhythms and advanced technical skills. Prerequisite: DAPE I36 or permission of the instructor. One credit.

## DAPE 236 Tap 4

Continued study of tap dancing, with emphasis on complex rhythms and advanced technical skills. Prerequisite: DAPE 235 or permission of the instructor. One credit.

## DAPE 333 Musical Theatre Dance Styles I

A course for musical theatre majors (and others with permission of the instructor) that develops skills, knowledge and processes for the study of music theatre dance repertoire. Emphasis is placed on performance of traditional movement vocabulary for different historical time periods and musical genres, developing a character through choreography, and developing the versatility necessary for professional work. Through these
processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography, and teaching. Prerequisite: Permission of the instructor. One credit.

## DAPE $334 \quad$ Musical Theatre Dance Styles 2

A course for music theatre majors (and others with permission of the instructor) that develops skills, knowledge and processes for the study of music theatre dance repertoire. Emphasis is placed on performance of movement vocabulary for a variety of contemporary musicals, developing a character through choreography and developing the versatility and adaptability necessary for professional work. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. Prerequisite: Permission of the instructor. One credit.

## DAPE 393 Social Dance Styles

A course in the fundamentals of contemporary dance styles such as ballroom, folk dance, contra dance and country line dancing. Through these processes, students develop an understanding of the technical and artistic foundations necessary for performance, choreography and teaching. One credit.

## ECONOMICS (EC)

## EC 2II Principles of Macroeconomics

Principles and problems of macroeconomics: national income, employment, inflation, economic growth, monetary and fiscal policy, interest rates, international economics and alternative economic systems. Three credits.

## EC $\quad 212 \quad$ Principles of Microeconomics

Principles and problems of microeconomics: price, value and distribution, and economic decision making under different market structures. Emphasis is placed on the efficient allocation of resources by firms and owners of the factors of production. Three credits.

## EC 3II Intermediate Macroeconomics

Intermediate-level analysis of the determination of economic aggregates, including national income, employment, inflation and economic growth. Theory and applications. The roles of monetary and fiscal policy, private sector shocks and the transmission of the same via the financial sector. Prerequisites: BA 203 or MATH 207, EC 2 II, MATH IOI. Three credits.

## EC $312 \quad$ Intermediate Microeconomics

Intermediate-level analysis of the determination of price, resource allocation and income distribution in different market structures as these may be affected by taxes and subsidies and other interventions. Theory and applications. Prerequisites: BA 203 or MATH 207, ECON 2I2, MATH IOI. Three credits.

## EC $350 \quad$ Money and Banking

An examination of money, credit, and banking, and of monetary policy. Topics include money and inflation, the determination of interest rates, bank management and lending, and bank safety and regulation. Prerequisites: EC 211 and EC 212 . Three credits.

## EC 450 International Economics

An examination of international trade and economic development. Topics include trade policy, international monetary regimes, the determination of exchange rates, and international capital flows. Prerequisites: EC 2 II and EC 212 . Three credits.

## EDUCATION (EDU)

EDU 221 Child Development Lab
This course supplements Child Development (PSY 220) by providing field observation in daycare centers as well as elementary, middle and secondary schools (NR-I2) for students in the teacher licensure program. One credit.

## EDU 301 Orientation to Teaching/Practicum

Designed to develop an understanding of the historical, social and philosophical foundations underlying the role, development and organization of U.S. public education and instructional design based on assessment data. Legal status of teachers and students, including federal and state laws and regulations, school as an organizational culture and contemporary issues in education are addressed. In Practica, students observe and participate in limited ways in the activities of the school. Three credits.

EDU 322 Creative Arts
This course is designed to prepare elementary school classroom teachers to help children develop creativity. The basic objective of the course is to give the prospective elementary teacher knowledge of current methods and materials which can be used to enrich music and art experiences in the classroom. Two credits.

## EDU 324 Language Arts

An overview of curriculum and instruction in the elementary school language arts programs. This course will integrate current theory and research in language development, reading methods, diagnostic procedures with specific methods for teaching reading, writing, spelling, grammar, listening and speech in the elementary classroom. The course will also focus on methods of using children's literature to enhance the teaching of language arts. Six credits.

## EDU $325 \quad$ Children's Literature

An introduction to the various types of literature for children and the methods for evaluating and selecting literature to meet the interests and needs of individual children in the elementary school. Three credits.

## EDU 336 Reasoning Skills I: Science

Students will examine science education at the elementary school level from philosophical, historical and a current and practical perspective. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia. Three credits.

## EDU 337 Reasoning Skills II: Mathematics

Students will examine mathematics education at the elementary school level from a philosophical, historical, and a current and practical perspective. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia. Three credits.

## EDU 34I Teaching Methods in Middle and Secondary Schools

A study of the various instructional techniques, methodologies, and management strategies commonly used in middle and secondary schools. The course includes microteaching experiences, classroom observation, and participation in schools. Prerequisite: EDU 30I. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia. Three credits.

## EDU 343 Methods and Assessments in Middle and Secondary Schools

Students will study and implement effective middle and secondary school teaching methods and assessments for improving achievement, aligned with Virginia's Standards of Learning, according to research-based students with diverse and/or special needs. Course includes field practicum in area school. Prerequisites: EDU 301 and acceptance into teacher education program. Three credits.

## EDU 344 Methods and Management in Middle and Secondary Schools

Students will study and implement effective middle and secondary school teaching methods and management strategies for improving achievement, aligned with Virginia's Standards of Learning, according to research-based best practices for large group, small group or individualized instruction and including students with diverse and/or special needs. Course includes field placement in area middle/secondary school. Prerequisites: EDU 30 I and acceptance into teacher education program. Three credits.

## EDU 345 Methods and Management in Elementary and Middle Schools

Students will study and implement effective elementary and middle school teaching methods and management strategies for improving achievement, aligned with Virginia's Standards of Learning, according to research-based best practices for large group, small group or individualized instruction and including students with diverse and/or special needs. Course includes field placement in area elementary/middle school.
Prerequisites: EDU 301 and acceptance into teacher education program. Three credits.

## EDU $346 \quad$ Methods and Assessments in Middle and Secondary Schools

Students will study and implement effective elementary and middle school teaching methods and assessments for improving achievement, aligned with Virginia's Standards of Learning, according to research-based best practices for large group, small group or individualized instruction and including students with diverse and/or special needs. Course includes field placement in area middle/secondary school. Prerequisites: EDU 30I and acceptance into teacher education program. Three credits.

## EDU 403 Special Topics in Education

Considers selected topics related to education. The participants will choose areas in which they wish to study either individually or in a group. Topics related to education may also be taken as workshop experiences when appropriate. May be repeated for additional credit. Prerequisite: Permission of the instructor. One, two, or three credits.

## EDU 43I Teaching Methods in Elementary and Middle School

A study of the various instructional techniques, methodologies, and approaches commonly used in elementary and middle schools. The course includes classroom observation and participation in schools. Prerequisites: EDU 20I/EDU 30I, EDU 324, EDU 336 and EDU 337. Must submit evidence of Praxis / score that satisfies licensure regulations for the Commonwealth of Virginia. Three credits.

## EDU 44I Student Teaching in the Middle and Secondary Schools

Observation and participation in the teaching of students at the middle and/or secondary levels in area schools. Assignments to specific schools will be made by Shenandoah University faculty in cooperation with the administrators of the schools systems. Prerequisite: EDU 34I. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia. Nine credits.

## EDU 46I Student Teaching in Elementary and Middle Schools

Observation and participation in the teaching of students at the elementary or middle school level in area schools. Assignments will be made by Shenandoah University faculty in cooperation with the administrators of the school systems. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia. Nine credits.

ENGLISH (ENG)

## ENG IOI Composition

Instruction and practice designed to increase competence in communication, with primary emphasis on expository writing. Three credits.

## ENG 102 Introduction to Literature

English 102 introduces students to major literary genres including short fiction, the novel, poetry and drama. A Writing Intensive course, English 102 continues English 101 instruction in composition and essay writing. Prerequisite: ENG 101 or permission of the department. Three credits.

## ENG 201 Advanced Essay

Instruction and practice in writing substantial essays of varied types: personal, expository, persuasive and literary. Prerequisite: ENG 102 or permission of the instructor. Three credits.

## ENG 207 Imaginative Writing

Instruction and practice in the fundamentals of imaginative writing - drama, fiction and poetry. Prerequisite: ENG 102. Offered alternate years. Three credits.

## ENG 209 Research Writing in English

Intensive practice in methods and materials of writing research reports and papers according to Modern Language Association Guidelines. Bibliographic studies include library and Web resources dedicated to the study of literature. Required of English majors, this course is open to other students interested in learning techniques of literary research, analysis and composition. Prerequisite: ENG I02. Three credits.

## ENG $210 \quad$ Modern Grammar

An intensive study of the terminology and function of grammar. Beginning with the eight parts of speech, the course goes through complex forms such as absolutes, clauses and gerundives. The course concludes with a survey of modern theories of linguistics. Prerequisite: ENG $10 \mid$ or permission of the instructor. Offered alternate years. Three credits.

## ENG $213 \quad$ Literature in Critical Perspectives

Instruction in modern critical approaches to literature. Offered alternate years. Prerequisite: ENG I02. Three credits.

ENG 235 Ancient World Literature
A survey of selected literary masterpieces from Classical times to the Renaissance. Prerequisite: ENG 102. Offered alternate years. Three credits.

## Writing Workshops

Writing workshops (ENG $301,303,304$, and 305) are offered by private instruction only. Students enrolled in these courses will be charged the appropriate fees. Students wishing to enroll in writing workshops must inform the English faculty before the seventh week of the semester preceding that in which they wish to do so and confer with the instructors they want to work with. The instructors may give permission or require that the students submit portfolios of their writing as evidence of preparation for the work. Credits earned in writing workshops may not be used to satisfy genre requirements for the English major or minor. Two credits.

## ENG $301 \quad$ Workshop - Advanced Essay

Workshop in writing substantial essays of varied types. Independent writing with faculty criticism. Prerequisite: ENG 201. May be repeated for credit. Two credits.

## ENG 303 Workshop - Creative Writing/Fiction

Workshop in creative writing. Independent writing with faculty criticism. Prerequisite: ENG 203. May be repeated for credit. Two credits.

## ENG 304 Workshop - Creative Writing/Drama

Workshop in creative writing. Independent writing with faculty criticism. Prerequisite: ENG 204. May be repeated for credit. Two credits.

## ENG $305 \quad$ Workshop - Creative Writing/Poetry

Workshop in creative writing. Independent writing with faculty criticism. Prerequisite: ENG 205. May be repeated for credit. Two credits.

## ENG $310 \quad$ American Autobiography

This is a history of the American Self as redefined by commentators from John Woolman to Annie Dillard. Individual works by Woolman, Franklin, Thoreau, Douglass, Adams, Merton, Angelou, and Dillard will be examined in their historical contexts and with reference to race and gender as important formative factors in self identity. Prerequisites: ENG 102 and permission of the instructor. Three credits.

## ENG $315 \quad$ Nature Writing in America

Nature writing in America enjoys a long and rich tradition; it ranges from essays that are purely descriptive to those that become autobiographical and even metaphysical. Most of the readings are contemporary, although classical I9th century examples and perspectives will be examined initially. Prerequisite: ENG I02. Offered in the spring of every third year. Three credits.

## ENG 32I-340 Studies in Short Fiction

Studies in short fiction (short story, novella, novelette) in which wide reading of exemplary works is the basis of critical analysis and discussion. Prerequisite: ENG 102 . Three credits.

## ENG 34I-360 Studies in Long Fiction

Studies in long prose fiction (novel or other extended prose narrative) in which wide reading of exemplary works is the basis of critical analysis and discussion. Prerequisite: ENG IO2. Three credits.

## ENG 36I-380 Studies in Drama

Studies in drama in which wide reading of exemplary works is the basis of critical analysis and discussion. Prerequisite: ENG 102 . Three credits.

## ENG 38I-399 Studies in Poetry

Studies in poetry in which wide reading of exemplary works is the basis of critical analysis and discussion. Prerequisite: ENG I02. Three credits.

## ENG 401 English Linguistics

Introduction to scientific study of language with emphasis on current linguistic trends in major areas of linguistic studies: phonetics, phonology. syntax, semantics; applied linguistics, historical linguistics, psycholinguistics and sociolinguistics. Prerequisite: Permission of instructor. Three credits.

## ENG 499 Senior Comprehensive Study

Independent study in which a senior English major is expected to demonstrate maturity as a reader, writer and critic. Based on a reading list prepared by the English faculty and made available to students when they declare major status and culminating in a substantial examination. During the time of preparation for the examination, students are invited to arrange for consultation with individual members of the English faculty. If a student's performance on the examination is unsatisfactory, he or she must wait at least thirty days before re-attempting the examination. Required in the senior year of every student who majors in English. Prerequisites: 21 credits in English courses at and above 200-level with at least nine hours at the 300-level. Three credits.

## ENGLISH AS A SECOND LANGUAGE (ESL)

## ESL $100 \quad$ Beginning English Conversation

Emphasis is placed on verbal skills, which include pronunciation and vocabulary development, providing students opportunities to build their communication ability through face-to-face interactions and though presenting formal speeches. Current issues are discussed and offer students rich content for critical thinking, guided learning and language development. Three credits.

## ESL 103 Beginning English Listening Comprehension

Skills developed include hearing and pronouncing vowel and consonant sounds, syllable stress, and intonation common to American English; acquiring listening strategies and developing note taking in order to gain understanding of what is heard in both every day and academic contexts. Three credits.

## ESL 105 Beginning English Reading and Writing

Students at the beginning levels of reading English are guided through literature in a question and answer process that strengthens reading comprehension. Beginning written expression is emphasized through various types of essay. Organization, support, focus and mechanics of writing are developed, as well as grammatical accuracy and vocabulary. Three credits.

## ESL IO6 Intermediate Reading and Writing

Reading and interacting with literature provides the catalyst for academic writing assignments that range from informal essays and formal papers to a process-oriented development of a research project. This course is designed for students at the intermediate level of English proficiency. Prerequisites: ESL I00 and I05 or permission of the instructor. Three credits.

## ESL 108 Intermediate Listening Comprehension

Listening comprehension continues to be developed through hearing and pronouncing difficult words and syllabications in American English and though developing strong note taking skills in academic lecture situations. Prerequisites: ESL IO0 and I03 or permission of the instructor. Three credits.

## ESL 109 Intermediate Speech Communication

Skills for the intermediate learner focus on the development of academic communicative abilities. Students interact in seminar discussions, draft and present speeches, research and debate topics, and perform group projects. Prerequisites: ESL IO0 and I05 or permission of the instructor. Three credits.

## ESL I21 Advanced English as a Second Language Composition

Students are guided through the process of written communication through composing quality essays and research papers and orally presenting their writings. While using literature as the foundation for writing, researching, note taking, outlining, drafting and editing to completion are emphasized. The instructor works closely with each student to carefully examine the content and continuity of the writing. This course is taken in conjunction with ENG 101 , English Composition, so that students can transfer the skills learned in ESL 121 to mainstream academic classes. Graduate students may choose to take ESL 121 as a stand-alone course. Prerequisite: ESL 106 or permission of the instructor. Three credits.

## ESL 122 Advanced English as a Second Language Speech Communication

Emphasis is placed on the principles of public speaking, including purpose, written development, pronunciation, vocabulary choice, delivery and practice. This course is taken in conjunction with MCOM I50, Principles of Public Speaking, so that students can transfer the skills learned in ESL 122 to mainstream academic classes. Graduate students may choose to take ESL 122 as a stand-alone course. Prerequisite: ESL 109 or permission of the instructor. Three credits.

## ESL 195 Topics

This directed study class is for the advanced ESL student who desires more focused instruction in English. ESL 195 can be taken on its own or coupled with any 100 or 200 level course in Arts \& Sciences. Graduate students may choose to take this class along with any graduate-level course. Prerequisites: ESL I21, I22 or permission of the instructor. Three credits.

## ENVIRONMENTAL STUDIES (ES)

## ES IOI Introduction to Environmental Studies

Intended for anyone interested in the environment, this course addresses the inter-related scientific, technological, economic, social, political and ethical dimensions of environmental issues. Offered annually. Three credits.

## ES $105 \quad$ Field Natural History

An introduction to natural science designed for students not majoring in either environmental studies or biology. Among the topics covered are weather, plate tectonics, geology of the central Appalachians, evolution, pond and stream ecosystems, field and forest succession, plant and animal biology, and the use of identification keys, topographic maps and environmental studies of biology. Three lecture hours plus two-hour lab per week. Offered annually. ELAB 105 Field Natural History lab must be taken concurrently. Four credits.

## ES $290 \quad$ Environmental Issues Seminar

An introduction to current issues and methods in the environmental professions and to selected scientists, thinkers and activists whose efforts have shaped the environmental studies field. The course includes field sessions, laboratory experiences and an examination of career opportunities. Intended for freshmen, sophomores and transfer students in environmental studies and natural sciences programs but open to all students. Does not meet any general education requirements. Two lecture hours per week. Prerequisite: One of the following: ES IOI, ES I05, BIO I2I or permission of the instructor. Two credits.

## ES $319 \quad$ Environmental Policy and Programs

An examination of environmental policies, policy formulation, and policy implementation at the community, state, national, and international levels. Programs, both public and private, to protect environmental quality and implement environmental laws and policies will also be addresses. Trips to the offices of government agencies and non-governmental organizations supplement lectures. Three lecture hours per week. Prerequisite: ES IOI. Three credits.

## ES 340 Environmental Education

Discusses the history, settings, methods, and prospects for environmental education. Students examine environmental education curriculum materials, try out various teaching methods and discuss how the objectives of environmental education can be translated into programs and activities. Teaching sessions in various formal and informal education settings arranged. Prerequisites: $\mathrm{BIO} \operatorname{IOI}$ and BIO 102 or ES IOI, at least two natural science courses at the 200-level or above or permission of the instructor. Three-hour lecture
plus three-hour laboratory per week. ELAB 340 Environmental Education lab must be taken concurrently. Four credits.

## ES 390 Environmental Research Seminar

An examination of selected research techniques for assessing environmental quality. The course includes field sessions, laboratory experiences and discussions with environmental professionals. Intended for juniors and seniors in environmental studies and natural sciences programs. Does not meet any general education requirements. Two lecture hours per week. Prerequisite: One of the following: ES IOI, ES I05, ES 290 or BIO 321. Two credits.

## ES $395 \quad$ Topics in Environmental Studies

Selected topics in environmental studies for reading, discussion, writing and project work. Offered as needed. Prerequisite: permission of the instructor. Two or three credits.

## ES $399 \quad$ Directed Study

Directed study in a wide variety of areas of environmental studies. May be repeated for credit. Prerequisite: Permission of the instructor. One, two or three credits.

## ES 401 Environmental Studies Internship

Students combine academic study on a topic that is agreed upon with the instructor and professional experience in the environmental field working for a cooperating institution or agency. Student progress is monitored by a work supervisor in conjunction with Shenandoah University faculty. Forty work hours are required for each credit hour. One, two or three credits.

## ES $419 \quad$ Community and Regional Studies

An examination of the processes that transform the natural environment and create the environments in which people live and class investigations of the ways communities deal with the problems they face. Students analyze environmental and social concerns in Winchester and in the central Appalachian region. Results presented orally and in written reports. A group project on a regional environmental issue resulting in a product useful to local citizens concludes the course. Three-hour lecture plus three-hour laboratory per week. Prerequisites: ES IOI and junior standing. SOC IOI or PSCl IOI recommended. ELAB 4I9 Community and Regional Studies Lab must be taken concurrently. Four credits.

## ES 42I Environmental Measurement Methods

This course assists students in understanding and applying selected scientific techniques used in ecology, field biology and environmental assessment. The class discusses ecological principles and environmental protection measures as they relate to the methods studied. Students contribute to one or more research projects of the Environmental Studies Program or other science programs at Shenandoah University. Students also have the opportunity to design their own related projects. Prerequisite: Ecology (BIO 32I) or the equivalent. Threehour lecture plus three-hour laboratory per week. ELAB 421 Environmental Measurement Methods Lab must be taken concurrently. Four credits.
ES 492 Research Seminar in Environmental Studies
Students propose and conduct research on a topic of environmental interest. Two credits.

## ETHNOMUSICOLOGY (MUET)

## MUET 301 Introduction to Ethnomusicology

Emphasis on methods of study that support the view of musical expression within a cultural context. Topics include theoretical foundations, significant persons, organizational and material resources, regional studies, research topics and employment opportunities. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor.Two credits.

## MUET 302 Methods of Ethnomusicology

Analytical methods in ethnomusicology described in terms of purpose, processes, historical and current practice, sources of data for analysis, specific approaches used in the analysis of music and culture, reporting outcomes and ethical considerations. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUET 30I or permission of the instructor. Two credits.

## MUET 40I Field Experience in Ethnomusicology

Methods of field work for generating data on which knowledge, including musical and cross-cultural understanding, is based. Early and recent methodological approaches are compared, including the use of technology. Strategies, protocol and techniques are presented for the collection and initial organization of musical, bio-social-cultural and historical data. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUET 301 or permission of the instructor. Two credits.

## FRENCH (FR)

## FR IOI Beginning French I

For students who have had very little or no exposure to French. This course introduces the student to spoken French through in-class conversational drills and recreations of everyday situations. Three credits.

## FR $102 \quad$ Beginning French II

A continuation of $\mathrm{FR} \operatorname{IO}$ I, this course builds on the basic speech patterns acquired in the preceding semester and is intended to help the student make the transition from passive familiarity to active use of the language. Prerequisite: FR IOI. Three credits.

## FR 201 Intermediate French I

This course is intended to help the student acquire the ability to speak fluent French. Emphasis will be laid on idiomatic expressions, the art of translation, and the more sophisticated elements of written and spoken French. Prerequisite: FR IO2 or permission of the instructor. Three credits.

## FR 202 Intermediate French II

Emphasis is placed on perfecting the student's ability to think and converse in French with ease. Language books are supplemented by readings in French literature, culture, and civilization. Prerequisite: FR 201 or permission of the instructor. Three credits.

## FR 301 French Conversation

Development of oral expression and fluency with emphasis on expansion of vocabulary and attention to grammatical correctness. Offered in the fall of every year. Prerequisite: FR 202 or equivalent. Three credits.

## FR $302 \quad$ French Grammar and Composition

Development of written expression with emphasis on expansion of vocabulary and attention to grammatical correctness. Prerequisite: FR 202. Three credits.

## FR $315 \quad$ French/Francophone Literatures

This course introduces students to literary works from the French/and Francophone world. Students will develop through the reading and discussions of works (narrative, prose. drama, poetry, visual materials) analytical skills and will become familiar with major writers of different cultures. Prerequisite: FR 202. Three credits.

## FR $316 \quad$ French/Francophone Cultural Voices

Students explore aspects of French and Francophone culture with an emphasis on cultural expression of contemporary works. We will examine through literary works, artifacts and technological production the impact of historical and political movements and learn about the values and beliefs of the respective cultures. Prerequisite: FR 315 . Three credits.

## FR $360 \quad$ Advanced Grammar and Composition

The course stresses improving comprehension and written production skills in French. Culturally authentic written materials will enhance proficiency in all aspects of the French language. Assignments include a review of the fine points of French grammar. Prerequisite: FR 316. Three credits.

## FR 395 Topics

This course is designed to enrich student's knowledge of the French/and Francophone Literatures and Cultures in their diversity, social and cultural complexity. This course is taught in French. Prerequisite: FR 360. Three credits.

## GEOGRAPHY (GEO)

## GEO IOI Physical Geography

A basic course in geography; study of the characteristics of the Earth and of its land forms, water resources, weather and climate, vegetation and soil types. Three credits.

## GEO 20I Economic Geography

A study of the locations of economic activities, raw materials, markets, labor supply, and transportation costs; relationships among different economic activities; and specific studies of major commercial products from their origins to consumer. Three credits.
GEO $301 \quad$ Human Geography
A study of the spatial differentiation and organization of human activity and human use of the physical environment. Three credits.

## GEOLOGY (GEOL)

## GEOL 201 Geology

An overview of earth materials and processes including plate tectonics, the rock cycle, minerals, weathering, erosion, and physiography. Laboratory and field activities involve map studies, rock and mineral classification, examination of local geologic features, and a van traverse of the southern Appalachians. Debates will help students gain insight into how people relate to the earth sciences. Although primary emphasis is placed upon physical geology, historical geology will be introduced to provide a time frame for understanding geologic processes and formations. Three-hour lecture plus three-hour laboratory per week as well as one four-day weekend field trip. Offered alternate years. Prerequisite: any four-credit laboratory science course. GELB 20I Geology lab must be taken concurrently. Four credits.

## GEOL 21I Introduction to the Study of Dinosaurs

This course includes a study of our geologic past with dinosaur paleontology as a central theme. Topics include analysis of paleontological evidence, evolutionary roots of dinosaurs, dinosaur behavior and physiology, and dinosaur extinction. The laboratory deals with preparation of dinosaur specimens and chemical conservation practices. One-hour lecture plus two-hour laboratory per week. Two credits.

## GERMAN (GER)

## GER IOI Beginning German I

For students who have had little or no exposure to German. This course introduces the student to spoken German through in-class conversational drills and recreations of everyday situations. Three credits.

## GER 102 Beginning German II

A continuation of GER 101 , this course builds on the basic speech patterns acquired in the preceding semester and is intended to help the student make the transition from passive familiarity to active use of the language. Prerequisite: GER IOI.Three credits.

## GER 201 Intermediate German I

This course is intended to help the student acquire the ability to speak fluent German. Emphasis will be laid on idiomatic expressions, the art of translation and the more sophisticated elements of written and spoken German. Prerequisite: GER 102. Three credits.

## GER 202 Intermediate German II

Emphasis is laid on perfecting the student's ability to think and converse in German with ease. Language books are supplemented by readings in German literature, culture and civilization. Prerequisite: GER 20I.Three credits.

## GER 3II 20th Century Literature and Civilization I

A systematic survey of German literature and culture from the turn of the century to Expressionism, the Weimar Republic through the collapse of the Third Reich. Among the authors studied are: Kafka, Mann, Werfel, Kaiser, Toll, early Brecht, Rilke, Stefan George and Benn. Prerequisite: GER 202. Three credits.

## GER 312 20th Century Literature and Civilization II

A continuation of German 3II, this course resumes with the first major works of POW and repatriation literature. Subsequently, it will examine the novels of Boll and Grass, the plays of Weiss, Handke, Frisch and Durrenmatt. The course concludes with an explication of the poetry of Benn, Sachs, Enzensberger and Celan. Prerequisite: GER 202. Three credits.

## GOING GLOBAL (QEP)

## QEP IOI Going Global First Year Seminar

Multi-disciplinary, first-year seminar classes which cover a wide-range of topics designed to facilitate student's interest in global learning and to demonstrate an increased capacity to realize development as global citizens able to make responsible contributions within a community, nation and world. Open only to first-year, firstsemester students.

## HEALTH PROFESSIONS (HP)

## HP 291 Searching Medical Resources

This is a hands-on course in searching and evaluating information found in medical databases and online. Student will develop skills and ability to utilize tools needed to locate and interpret information relevant to the topics taught in other health professions courses. Copyright, plagiarism and the latest APA (American Psychological Association) bibliographic format will also be covered. One credit.

## HP 45I Bioethics for Health Care Professionals

This course introduces the student to the history, theory, principles and decision-making frameworks found in the field of bioethics. The course addresses current ethical issues that challenge healthcare professionals and allows the student to use learned ethical theory and principles in analyzing discipline-specific situations. It is a seminar limited to 20 students who will participate in open dialogue. Pre/corequisites: PHIL I 30 or permission of instructor. Three credits.

## HP 476 Substance and Relationship Abuse

This course is designed as an interdisciplinary offering to assist health care profession students in recognition and beginning-level interventions in populations at risk for substance dependence and/or abusive relationships. Emphasis is placed on providing interventions that are congruent with age, health status, culture, occupation and legal/ethical concerns. Three credits.

## HISTORY (HIST)

## HIST $101 \quad$ World Civilizations I

A survey of world history from Ancient Egypt, Greece, and Rome to the European Middle Ages. Three credits.

## HIST 102 World Civilizations II

A survey of world history from the Middle Ages to the present. Three credits.

## HIST $103 \quad$ United States History 1

A survey of American history from the colonial period to the Civil War. Three credits.
HIST $104 \quad$ United States History II

A survey of American history from the Civil War to the present. Three credits.

## HIST III Thinking Historically

Developing the insights and perspective of thinking historically is a dimension of every field of study．Using principles of critical thinking，analysis of evidence，examination of arguments and assumptions and expository writing，this course helps to develop these skills for any student．Course topics vary；recent offerings have focused on terrorism and women＇s issues．Three credits．

## HIST 201 Historical Research

Designed to prepare the student to do research in history．Selected works and topics will be utilized in conducting research．Prerequisites：HIST IOI and HIST IO2 or HIST IO3 and HIST I04．Offered alternate years．Three credits．

## HIST 242 Introduction to Museums

The course will provide an overview of all aspects of museum work，including museum management， governance，collections care and conservation，marketing，fundraising，interpretation and educational program development and preservation of cultural resources．Themes woven throughout the course will include collection and interpretation ethics，the role of museums in society and strategies of cultural preservation． Three credits．

## HIST 295 Topics

Study of specific topics，issues or themes within the field of history．Three credits．

## HIST 30I Historical Thought and Interpretation

This course examines the foundations and philosophy of history as a discipline from antiquity to present times （i．e．a course in historiography）．Its primary purpose is to define history and its relationship to causation，social forces，continuity and change over time，longevity，the roles of individuals and the masses，ideas and power． Prerequisites：HIST IOI and HIST IO2 or HIST 103 and HIST I 04 ．Three credits．

## HIST 303 American Colonial History

A study of the social and political development of the American colonies．Prerequisitie：HIST I03 or permission of the instructor．Three credits．

## HIST $304 \quad$ Middle Period America

A study of American History from 1789 to 1860 covering the post－Revolutionary Era，Jeffersonian America， Jacksonian America and the Sectional Crisis．Prerequisites：HIST 103 or permission of the instructor．Three credits．

## HIST $305 \quad$ Civil War and Reconstruction

A military，political，economic，social and cultural study of the war from the Compromise of 1850 to the removal of federal troops from the Southern states in 1877．Prerequisites：HIST I03 or HIST I 04 or permission of the instructor．Three credits．

## HIST $310 \quad$ U．S．Constitution（same as PSCI 310）

An analysis of Supreme Court decisions throughout our nation＇s history affecting the three branches of the national government and federal／state relations．Political Science majors have the following prerequisites： PSCl 101 and PSCl 201 or the permission of the instructor．Three credits．

## HIST $350 \quad$ Virginia History

The history of Virginia from its founding to the present．Prerequisites：HIST I03 and HIST I 04 or permission of the instructor．Offered alternate years．Three credits．

## HIST 362 Modern Middle East

A study of Middle Eastern politics，culture and historical events from the Ottoman Empire to the present． Prerequisites：HIST IOI and HIST IO2 or permission of the instructor．Three credits．

## HIST $365 \quad$ Diseases in History

This course will be an interdisciplinary topics course examining the impact of human disease on the development of human history．Topics to be discussed will include I）fundamental information about different types of diseases，disorders，syndromes and disease processes，2）an extensive review of significant points in history where either the illness and possible death of an individual leader or widespread epidemics changed
the course of human history, and 3) a research paper and presentation by each student participating in the course. Diseases to be discussed will include infectious diseases and genetic disorders. Offered annually. Prerequisites: BIO I2I, BIO I22, HIST IOI or HIST IO2 or permission of the instructor. This course satisfies a requirement for interdisciplinary studies. Three-hour lecture. Three credits.

## HIST $371 \quad$ Modern European History

A study of the "Long 19th Century" from the Age of Revolution to World War I. Prerequisites: HIST IOI and HIST I02 or permission of the instructor. Three credits.

## HIST $381 \quad$ British History

A survey of British history from prehistoric Britain to the House of Windsor. Emphasis will be placed on the significance of British history for understanding American social and political institutions. Prerequisites: HIST IOI, HIST IO2 and HIST I 03. Three credits.

## HIST 391 Asian History

An introduction to the cultural and historical experience of Pacific Rim countries, particularly China, Japan, Korea and Indonesia. Attention will also be paid to the emerging role of Pacific Rim countries in contemporary world affairs. Three credits.

## HIST $395 \quad$ Topics in History

Selected topics in history for reading, discussion, and writing. Prerequisite: Permission of the instructor. Three credits.

## HIST 40I Internship in History

Experience in historic site administration and public history, gained through employment at historic sites, archives, and societies. May be repeated once. Prerequisites: HIST IOI, HIST IO2, HIST I03, HIST I04 and permission of the instructor. Three or six credits.

## HIST $440 \quad$ Contemporary Issues in Historic Sites and Museums

In order for students to develop a lifelong appreciation for the value of preserving cultural and historic resources, this course is a fourteen-part seminar that exposes students to a wide range of contemporary social, historical, and scientific issues that confront historic preservation organizations in the United States and to the core values, ethics, and management techniques used to confront these issues. Prerequisites: HIST 240, HIST 24I and HIST 340. Three credits.

## HIST 445 Renaissance and Reformation

An analysis of the Renaissance in Italy and Northern Europe and the Protestant and Catholic Reformations. Three credits.

## HIST 495 Senior Seminar

This course serves as the capstone seminar for all History majors. Students will discuss, research, write and present their historical work based upon selected historical subjects. Prerequisite: Junior or Senior standing or permission of the instructor. Three credits.

## HUMANITIES (HU)

## HU $200 \quad$ The Arts in Western Europe

A survey of music, musicians, art, artists, architecture and sculpture of the past and present, produced in selected European countries. Three credits.

## HU 295 Topics

Study of specific topics, issues or themes within the humanities. Three credits.

## HU $495 \quad$ Advanced Topics

Study of specific topics, issues or themes in the humanities. Prerequisite: Permission of the instructor. Three credits.

## INFORMATION SYSTEMS AND COMPUTER TECHNOLOGY (ISCT)

## ISCT 204 Computer Applications in Business Analysis

A laboratory course that introduces the student to the Internet and productivity software that are used as tools in business problem-solving activities and analysis. It provides a working knowledge of a commercial spreadsheet package to include designing a variety of worksheets, business applications, preparing graphs, working with database query, macro writing and menu techniques to support business analysis and decision making. Emphasis is on understanding, using, and applying these productivity tools to business analysis. Three credits.

## ISCT $307 \quad$ Object Oriented Programming

This course is designed to serve as an introduction to computer programming in the business environment with a view toward the understanding and learning of the fundamentals of software development. The course is an information systems approach to object oriented programming. The course is also designed to develop a basic and generic foundation in object oriented programming. The course content will include creating simple applications, storing and manipulating data in objects, and changing the program flow with decision. Other areas to be covered will include program loops, encapsulation, arrays and collections, user interface objects, database connectivity and inheritance and polymorphism. Prerequisite: ISCT 204. Three credits.

## ISCT $321 \quad$ Emerging Technologies

An examination of emerging technologies and trends that will affect the information systems of the near and distant future. The course will critically evaluate those technologies that I) are so new that most enterprises haven't exploited them or 2) are fairly well established, but businesses haven't fully exploited them. Emphasis will be placed on how these technologies will impact E-commerce. Prerequisite: ISCT 204. Three credits.

## ISCT 354 Knowledge-Based Systems

The purpose of this course is to introduce the student to the concept of expert systems development. The software package VP-Expert will provide the basis of the expert systems development and application to real life business decision-making and prototyping. Prerequisite: ISCT 307. Three credits.

## ISCT $410 \quad$ Database Systems

Introduction to application program development in a database environment with an emphasis on loading, modifying and querying the database, discussion and application of data structures, indexed and direct file organizations and models of data including hierarchical, network and relational. Other topics include discussion of storage devices, data administration, data analysis, design and implementation. Prerequisite: ISCT 307. Three credits.

## ISCT 4II Data Communications and Networking

The features of centralized, decentralized, and distributed systems will be examined. Technology implications of computer hardware, software and communications are discussed as they relate to the design, development and implementation of distributed data processing systems. Prerequisite: ISCT 307. Three credits.

## ISCT $456 \quad$ Multimedia for Decision Making

Topics include effective presentation of data input devices (scanners, cameras, microphones, etc.) audio sound, (analog, digital, MIDI, etc.) visual graphics, animation, video and movies, printing technology, color models, hypertext and hypermedia and storage technology (CD-ROM, etc.). Internet technology and Web page design are integrated throughout the course. Prerequisite: ISCT 307. Three credits.
ISCT 495 Directed Study
Utilized for courses/subjects in information systems \& computer technology, which are not offered elsewhere in the curriculum, and for individuals desiring to pursue a given issue, topic, or concentration further than obtainable in the regularly scheduled courses. May be repeated once. Prerequisite: BSB junior or senior standing. Three credits.

## ISCT 498 Information Systems and Computer Technology Internship

A link between the classroom and experience on the job, the internship provides qualified students a threeway arrangement among the professor-advisor, the employer and the student-employee. Students may obtain appropriate employment on their own or in conjunction with the internship advisor of the School of Business.

A minimum of two 40-hour work periods is required for each semester hour of credit for which the course is taken. Prerequisites: BSB junior or senior standing and permission of the internship advisor. Three or six credit hours.

## ITALIAN (IT)

## IT IOI Beginning Italian I

For students who have had very little or no exposure to Italian. This course introduces the student to spoken Italian through in-class conversational drills and recreations of everyday situations. Three credits.

## IT $\quad 102 \quad$ Beginning Italian II

A continuation of IT 101 , this course builds on the basic speech patterns acquired in the preceding semester and is intended to help the student make the transition from passive familiarity to active use of the language. Prerequisite: IT IOI.Three credits.

## KINESIOLOGY (KIN)

KIN IOI Lifetime Fitness and Wellness
Designed to examine the concepts and benefits of physical activity and develop the knowledge and fundamental skills necessary for maintaining a healthy lifestyle throughout the life span. One credit.

## KIN $102 \quad$ Volleyball/Basketball

Basic instruction in the skills and rules of volleyball and basketball. Team offensive and defensive strategies are presented. One credit.

KIN IO3 Tennis
The skills and basic concepts of physical education are taught through tennis. One credit.
KIN $106 \quad$ Aerobics
The concepts of using oxygen to produce energy for an efficient fitness level will be taught through a variety of aerobic activities as a preventive measure for cardiovascular disease. One credit.

## KIN $\quad 110 \quad$ Weight Training and Jogging

The skills and basic concepts of physical education are taught through weight training and jogging. One credit.
KIN III Softball

The skills and basic concepts of physical education are taught through softball. One credit.

## KIN II3 Yoga

An introductory course in Hatha Yoga introducing the student to asanas (posture), pranayama (breathing techniques) and relaxation techniques. One credit.

## KIN $116 \quad$ Field Sports

Basic instruction in the skills and rules of the following field sports: soccer, speedball, lacrosse, and flag football. Two will be offered together in a semester. One credit.

## KIN II8 Tai Chi Chuan

A system of slow, centered movement that is practiced for health, exercise and self-defense. Derived from Chinese martial arts and philosophy, it is suitable for people of all ages and physical conditions. One credit.

## KIN II9 Tae Kwon Do/Self Defense

Instruction and practice of basic self defense techniques using principles of Tae Kwon do, Hapkido, and kick boxing. Also, instruction and practice in the basic arm and leg techniques, stances, warm up exercise, one-step sparring, formal exercise and historical background on U.S. Karate. One credit.

## KIN $125 \quad$ Early and International Sport and Games

This course provides students with exposure to, and experience participating in, games and sports played throughout history and sports played in other parts of the world. Examples of activities taught include Cricket, Tacraw, Kabaddi and Petanque. One credit.

## KIN $128 \quad$ Intermediate Tai Chi Chuan

Derived from Chinese martial arts and philosophy. Suitable for people of all ages and physical conditions. Emphasis on advanced techniques of taijiquan movements. Prerequisite: KIN II8 or permission of the instructor. One credit.

## KIN $160 \quad$ Coaching Football

Course topics include football game strategy, principles of practice and training, and team management. One credit.

## KIN 162 Coaching Basketball

Course topics include basketball game strategy, principles of practice and training and team management. One credit.

## KIN $164 \quad$ Coaching Volleyball

Course topics include volleyball game strategy, principles of practice and training, and team management. One credit.

## KIN 166 Coaching Baseball/Softball

Course topics include baseball and softball game strategies, principles of practice and training and team management. One credit.

## KIN 168 Coaching Track \& Field/Cross Country

Course topics include track and field/cross country meet strategies, principles of practice and training and team management. One credit.

## $\begin{array}{lll}\text { KIN } & 170 \quad \text { Coaching Soccer }\end{array}$

Course topics include soccer game strategies, principles of practice and training and team management. One credit.

## KIN I72 Coaching Lacrosse/Field Hockey

Course topics include lacrosse/field hockey game strategies, principles of practice and training and team management. One credit.

KIN $190 \quad$ Introduction to Kinesiology
An introductory course intended to introduce first year students to the field of Kinesiology. Topics include the fundamentals of the historical, philosophical and scientific foundations of physical education and sport, and organizational and administrative practices in current sport entities. Three credits.

## KIN I91 First Aid and CPR

Satisfactory completion of this course will lead to American Red Cross Certification in both Standard First Aid and Cardiopulmonary Resuscitation (CPR). A Red Cross certification fee is required. One credit.

## KIN 252 Personal and Community Health

Designed to develop attitudes and practices that contribute to better individual and group health. Emphasis is placed upon current health issues and decision making in health behaviors and health needs. Three credits.

## KIN 263 Games of Low Organization

Recreational leadership course designed to teach the fundamental skills associated with various age groups and to aid in the selection of motor activities for optimal child development. One credit.

## KIN $264 \quad$ Practicum

Designed to provide observation and participation in public school programs under the supervision of an experienced teacher. One credit.

## KIN $280 \quad$ Care and Treatment of Athletic Injuries

Knowledge of common athletic injuries; their prevention, care and treatment. Three credits.

## KIN 283 Measurement and Evaluation in Physical Education

Nature and purpose of measurement in physical education utilizing available tests. Three credits.

## KIN 284 Fitness Program Administration

This course addresses the many facets of the administration of fitness programming, from risk factor analysis and basic exercise prescription to health counseling and legal issues in fitness facilities. Students will also learn a variety of practical skills useful for the assessment of fitness in the general public. Three credits.

## KIN 322 Motor Learning

This course is designed to acquaint students with the theoretical foundations of motor learning and corresponding practical applications to the teaching of movement skills. Course topics include motor skills, principles of learning and performance, teacher feedback and instructional strategies. Prerequisites: KIN 190 and KIN 263. Three credits.

## KIN $340 \quad$ Practicum in Exercise Science

Designed to provide clinical lab experience in a work setting under the supervision of experienced professionals. One credit.

## KIN $342 \quad$ Ethics in Sport

An analysis of moral and ethical issues in organized sport. Topics will include issues in intercollegiate athletics, the Olympic movement, high school sport and the private sector. Three credits.

## KIN $350 \quad$ Sport and Exercise Psychology

An examination of the psychological dimensions of exercise and sport with emphasis on skill acquisition and preparation for athletic performance. Three credits.

## KIN $352 \quad$ Sports Nutrition

This course is a survey of the basics of nutrition with regards to its effect on exercise performance. The major focus of discussion will be the impact of diet on health, prevalence of disease and especially sport performance, with significant emphasis on sports supplements and weight control. Prerequisite: KIN 384 or permission of instructor. Three credits.

## KIN 365 Practicum in Sport Administration

The practicum is designed to provide students with the opportunity to gain first hand experience in the world of sports business. Students are required to undertake 2-3 hours per week, throughout the semester, in an industry setting of their choice. Prerequisite: Approval of instructor. One credit.

## KIN 374 Sports Marketing, Sponsorship and Promotion

Basic knowledge of theory and application of the three major components of sport marketing process: sponsorship, promotion and marketing. Areas of study include merchandising, licensing, demographics, psychographics, consumer behavior, pricing in sport, target markets and sports media consumption. Course activities include designing a marketing research project and utilizing survey instruments to access marketing objectives. Three credits.

## KIN 381 Biomechanics

The study and analysis of the structure and mechanics of the human body. Prerequisites: BIO 23 I and BIO 232. Three credits.

## KIN $384 \quad$ Physiology of Exercise

A study of the functional adjustments of the human body under the stress of motor activity. Emphasis is on physiology of muscular contraction and circulo-respiratory response to activity. Prerequisite: BIO 23 I and BIO 232. KIN 384 Physiology of Exercise lab must be taken concurrently. Four credits.

## KIN 386 Sport Sociology

The impact of sports upon the American culture with focus on competition, economics, race relations and gender. Three credits.

## KIN $387 \quad$ Principles of Strength and Conditioning

This course is designed to provide students with an understanding of the principles of strength and conditioning and the practical application of these principles. Three credits.

## KIN $399 \quad$ Directed Studies

Directed studies in a wide variety of areas of physical education and recreation. Prerequisite: permission of the instructor. May be repeated for credit. One, two or three credits.

## KIN $401 \quad$ Internship in Sports Medicine

Sixteen-week supervised work experience during the senior year designed to provide exercise science majors an opportunity to gain practical experience in a medical, fitness, or recreational facility. Prerequisites: senior standing and permission of the program coordinator. Six credits.

## KIN $410 \quad$ Fitness Concepts and Exercise Prescription

Provides an understanding of individualized exercise prescription design in programs to develop and maintain physical fitness through testing and re-evaluation strategies. Prerequisite: KIN 384.Three credits.

## KIN 44I Violence, Sex and the Sports Media

This course looks at the intersection of sex and violence in the American sports media. Particular emphasis will be placed on how the media frame highly publicized cases and trials. Prerequisite: KIN I9I, MCOM IO I, or permission of the instructor. Three credits.

## KIN 450 Sport Law

A presentation of the basic legal system, its terminology, and principles as applied to professional and amateur sports. Emphasis is on identifying and analyzing legal issues, the ramifications of those issues, and the means of limiting the liability of sport organizations. Topics include tort law, product liability, contract law, administrative law, and the legal system. Prerequisite: KIN 282 or permission of instructor. Three credits.

## KIN $460 \quad$ Certification in Exercise Science

Students preparing for the ACSM's Health and Fitness Instructor Exam or the NSCA Certified Strength and Conditioning Specialist Exam will attend weekly review and quiz sessions for a chapter-by-chapter overview of the exam materials. A practice exam will be administered at the end of the semester. Prerequisites: Senior standing and completion of the following KIN courses: 252, 283, 284, 340, 352, 38I, 384 and 387 . Concurrent enrollment is acceptable if all other courses have been completed. Two credits.

## KIN 46I Gender, Sport and the Media

This course examines media depictions of gender and sport through an examination of media texts including sports broadcasts, newspaper and magazine articles and documentary and feature films. Particular emphasis is placed on the social and mediated constructions of femininity and masculinity in sport. Prerequisite: MCOM IOI. Three credits.

## KIN $470 \quad$ Facility Planning and Event Management

This course provides an overview of the fundamentals of planning, designing and managing athletic, physical education, recreation and sports facilities. Areas of study include; risk management in sports facilities, ADA compliance, facility access variables and security issues for participants and spectators. Three credits.

## KIN $471 \quad$ Race, Sport and the Media

This course examines media depictions of race and sport through an examination of media texts including sports broadcasts, newspaper and magazine articles and documentary and feature films. Particular emphasis is placed on the social and mediated constructions of race in American sport. Prerequisite: MCOM IOI and KIN IOI. Three credits.

## KIN $477 \quad$ Principles and Philosophy of Coaching

Development of skills and knowledge related to coaching interscholastic sports in general. Course topics include but are not limited to: managing athletic budgets, interacting with sport media, scheduling athletic contests and communicating with parents and community members. In addition, issues such as player selection/ retention, motivation and leadership will be addressed. Prerequisites: KIN 280 and KIN 350. Three credits.

## KIN 485 Sport Governance and Finance

This course is designed to prepare the prospective sport manager with an overview of the major financial issues and organizational structure of entities within the sports industry. Differences between financial and organizational aspects of the sports industry and the traditional business environment will be examined. Prerequisite: BA 103. Three credits.

KIN 498 Internship in Sport Administration
Culminating activity for students in sport administration. On-the-job learning experience in a segment of the sport industry. Students will undertake a 12-15 week; full-time 40 hours per week supervised internship. Prerequisites: Senior standing and permission of instructor. Six credits.

## KINESIOLOGY EDUCATION (KNS)

## KNS $303 \quad$ Materials and Methods in Teaching Health

This course is designed to familiarize student teachers with various modes of course organization, class preparation and instructional methods suitable for teaching health in the secondary school. Prerequisites: ED 20I, KIN 252 and KIN 352. Three credits.

## KNS $304 \quad$ Materials and Methods in Teaching Elementary and Secondary Physical Education

Materials, methods and the practical application of skills necessary for teaching physical education in elementary and secondary schools. Prerequisite: ED 20I. Three credits.

## KNS 45I Student Teaching in Health/Physical Education, K-I2

Observation and participation in the teaching of students at the elementary level and middle or secondary level in area schools. Assignments to specific schools will be made by Shenandoah University faculty in cooperation with the administrators of the school systems. Prerequisite: KNS 303. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia. Nine credits.

## KNS 48I Adapted Physical Education

The identification and recognition of physical abnormalities frequently found in school-age children and how physical activity can be adapted to improve various conditions. Prerequisite: KIN 38।. Three credits.

## MASS COMMUNICATIONS (MCOM)

## MCOM IOI Understanding Mass Communications

An introductory survey of the history and current understanding of mass communication from a sociocultural perspective. Areas covered include print media (newspapers, magazines and books), electronic media (radio, television, film, the Internet), advertising, public relations and mass media theory and research and ethics. Three credits.

## MCOM $150 \quad$ Principles of Public Speaking

An introduction to the principles of public speaking, including theory, rhetoric, history, and practice. This course presents both classical and contemporary theories of rhetoric while at the same time emphasizing the practical skills of public speaking in modern society. The course offers full coverage of all major aspects of speech preparation and presentation and requires student practice throughout the course. Three credits.

## MCOM 201 Understanding Visual Communications

This course focuses on the nature and power of visual imagery - especially the photographic image. Provides perspective on the cultural significance and social effects of image production, and combines theory with practice. Students apply the principles of image production in visual exercises in using Adobe Photoshop. Three credits.

## MCOM 205 Introduction to Public Relations

This course is designed to familiarize students with the field of public relations and the role it plays in the mass media. The course will outline the process of public relations, including fact-finding and research, planning and programming, communication and actions and evaluation. It will also examine pertinent communication and persuasion theories. Prerequisite: ENG I02. Three credits.

## MCOM 211 <br> Media Ethics

This course considers the ethical issues facing communication students, professional journalists and media practitioners. Students will be provided with ethics principles, models and theories to work through ethical issues and moral dilemmas. Three credits.

## MCOM $215 \quad$ Understanding Movies

This course provides an introduction to motion pictures as an artistic and cultural form, as well as film's relationship to other popular media. The course content explores movies' narrative conventions; the stylistic conventions of lighting, cinematography, sound and editing; and how they communicate to mass audiences in popular genres like the Western, science fiction, the musical, women's films and film noir. No prerequisite. Three credits.

## MCOM 230 New Communication Technologies

An overview of recent technological developments and their impact in the field of mass communication. Students will be introduced to new communication technologies and applications including desktop publishing, multimedia, desktop video, presentation software and Web page design. Three credits.

## MCOM 305 Public Relations Writing

This course examines the forms of informational and persuasive writing used in the public relations field. Emphasis is on developing the writing and research skills necessary for producing various types of public relations copy including news releases, public service announcements and audiovisual scripts, as well as copy for newsletters, brochures, annual reports and press kits. Prerequisite: MCOM 205. Three credits.

## MCOM $310 \quad$ Mass Media Theory and Research

This course is designed to familiarize students with the social science research methods most commonly used in mass communication. It also examines the theories which have been shaped and informed by media research. Students will design and conduct a media research project. Prerequisite: MCOM 101 or permission of instructor. Three credits.

## MCOM 3I5 Mass Media and Society

This course is designed to increase the student's understanding of the impact of the mass media on society and the way these effects have evolved and increased over time. Issues examined include freedom and responsibility of the media, sex and violence in media, portrayals of minorities and women, media and democracy and the emergence of mass culture. Prerequisite: $\mathrm{MCOM} \operatorname{IOI}$ or permission of instructor. Three credits.

## MCOM 320 Organizational Communication

This course examines the internal and external systems of communication, including small group, interpersonal and public communication. It provides opportunities for developing organizational skills, identifying problems, analyzing outcomes and taking appropriate corrective action. Prerequisite: MCOM 150. Three credits.

## MCOM 32I Advertising and the Media

This course examines the social, cultural, and economic roles of advertising in modern capitalistic society with a focus on how commercial messages and images help construct social perceptions and consumptive behavior. Prerequisites: MCOM IOI and MCOM 20I or permission of the instructor. Three credits.

## MCOM 325 Computer-Assisted Reporting

Students will learn the basic tools of computer-assisted reporting (CAR). They will learn to organize information and develop story ideas using computer spreadsheets and databases. They will learn to research stories using electronically sorted public documents and the Internet. Prerequisite: MCOM 225. Three credits.

## MCOM $330 \quad$ Principles of Digital Design

A project-oriented course utilizing computer-based graphic design and publishing applications. Students will write, edit, design and publish several projects. Prerequisite: MCOM 20I. Three credits.

## MCOM 335 Media Writing

This course focuses on the process of writing news stories using standard news values, basic news gathering techniques, the inverted pyramid and Associated Press style. Students will also be introduced to other types of media writing, including feature, broadcast, Web and public relations writing. Prerequisites: MCOM IOI, ENG 101 . Three credits.

## MCOM 345 Sports Writing

This course focuses on sports writing, reporting and editorial practice for print, broadcast and online media. Prerequisite: ENG IOI.Three credits.

## MCOM $350 \quad$ Business and Professional Communication

This course is designed to familiarize students with the kinds of oral and written communications needed to succeed in business and professional contexts, and to develop in them the skills needed for effective communication in a variety of organizational settings. The course also explores theories of persuasion, group dynamics and management to increase student awareness and understanding of underlying communication process. Prerequisite: MCOM 150. Three credits.

## MCOM 35I Politics and the Media

An interdisciplinary introduction to the complex interrelationship between politics and the media as well as between media/politics and all other areas of contemporary life. This course will present principles of politics and the media and train the students to analyze political life, issues, trends, and events as they are covered, or not covered, by the newsmedia. Prerequisite: MCOM IOI. Offered every two years. Three credits.

## MCOM 36I Gender and Communication

This course considers how gender influences interpersonal and mediated communication with a focus on gender theory, rhetorical analysis, media criticism and personal experiences. Students study the relationship between gender and communication with a particular emphasis on how gender can help shape discourse and meaning. Prerequisite: MCOM IOI or permission of the instructor. Three credits.

## MCOM 365 Editing the News

Advanced practice in journalistic writing, reporting, and news editorial. Students act as editors for the campus newspaper, supervising and editing the work of the student staff. This class will also provide students with hands-on opportunities to practice the craft of news editing in various media including print, broadcast and online. Prerequisite: Grade of "B" or better in MCOM 225. Three credits.

## MCOM 370 Practicum in Interactive Media Production

Advanced techniques for the design and production of multimedia, hypermedia and other interactive media. Prerequisites: MCOM 230 and MCOM 280. Three credits.

## MCOM 38I Studio Television Production

This course is designed to introduce the student to the principles, procedures, and techniques of television studio production through lectures, reading, computer simulations and hands-on practice in the campus television studio. Students will also be required to participate outside of class on the WCT production crew. Prerequisite: MCOM 230 or permission of instructor. Three credits.

## MCOM 398 Campus Media Internship

An on-campus internship with one of the university media, public relations or information offices.
Prerequisites: Junior standing and permission of advisor. Three credits.

## MCOM 40I Topics in Applied Writing

The backbone of the pre-production process is script writing. Effective conceptualization and organization as a producer/director is practiced in several field settings. The class will generate a series of "magazine" television programs, with each student writing one show. Prerequisite: MCOM 225. Three credits.

## MCOM 405 Public Relations Planning and Management

This course explores theory, techniques and models related to setting long- and short-term goals and objectives, designing strategies and tactics, segmenting audiences, analyzing problems and opportunities, communicating with top management, developing budgets, contingency planning for crises and disasters,
managing issues, developing timetables and calendars and assigning authority and responsibility. Prerequisite: MCOM 205. Three credits.

## MCOM 4II Media Law

This course examines media law using historical, theoretical and case study approaches. Among topics covered are the First Amendment, libel, privacy, journalist privilege, free press/fair trial, indecency and obscenity. Prerequisites: MCOM 101 , MCOM 211 and/or permission of the instructor. Three credits.

## MCOM 420 Seminar in Intercultural Communication

This course examines the relationship between culture and communication with an emphasis on theory and practical application in intercultural contexts. Ethnography and other approaches will be used to study interpersonal and public communication among people from different cultures. Prerequisite: Completion of cross-cultural requirements or permission of instructor. Three credits.

## MCOM $425 \quad$ Public Affairs Reporting

This course introduces student to covering government (primarily state and local), public schools, courts, crime, and social services. Using Winchester and Frederick County as their laboratory, student will cover city and/or county government and school board meetings, courts, the police beat, the environment, health care, and other public policy stories. It also introduces them to the theory of civic journalism and explores the role of journalism in a democratic society. Prerequisites: MCOM 225 and MCOM 226 or permission of the instructor. Three credits.

## MCOM 44I Violence, Sex and the Sports Media

This course looks at the intersection of sex and violence in the American sports media. Particular emphasis will be placed on how the media frame highly publicized cases and trials. Prerequisites: KIN I91, MCOM I0I or permission of the instructor. Three credits.

## MCOM 470 Advanced Video Post-Production

This course is designed to familiarize the student with the principles of the post-production process and with advanced techniques of video editing. The primary activity in the course will be the application of these technical and aesthetic concepts through hands-on experience in video editing projects. Students will also be required to participate outside of class in the WCT non-linear digital editing facility. Prerequisite: MCOM 28। or permission of instructor. Corequisite: MCOM 480. Three credits.

## MCOM 480 Advanced Video Field Production

This course is designed to familiarize the student with advanced techniques of video field production. The primary activity in the course will be the application of these techniques in video field production projects. The emphasis in this course will be single-camera production techniques, though multi-camera remote production will be discussed. Students will also be required to participate outside of class on the WCT production crew. Prerequisite: MCOM 28I or permission of instructor. Corequisite: MCOM 470. Three credits.

## MCOM 48I Print Media Applications

Supervise practicum managing and editing the campus newspaper or magazine as a staff member. May be repeated for a total of three hours credit. Prerequisites: Upper division standing and permission of instructor. One credit.

MCOM $490 \quad$ Directed Study
Directed study in mass communication. Three credits.
MCOM 495 Independent Study
Independent study in mass communication. Three credits.
MCOM 498 Field Internship
A field internship with an area, regional or national communication organization. Prerequisites: Junior standing and permission of advisor. Three credits.

## MASS COMMUNICATIONS EDUCATION (MCM)

## MCM $270 \quad$ Practicum in Instructional Technology and Media

A practical survey of audio/visual communications media and computer technologies and their instructional and interactive applications. Focus will be on effective and appropriate production and use of both commercially and locally prepared media and software for training and teaching purposes. Offered annually. Prerequisite: MCOM 201 or permission of instructor. Three credits.

## MATHEMATICS (MATH)

## MATH $099 \quad$ Basic Algebra

This course establishes a foundation in algebraic concepts and problem solving needed for college-level mathematics. Topics include the real number system, equations, inequalities, graphs, exponents, polynomials and factoring. Grade of " S " or " U " only. This course fulfills no curricular requirements. Three pre-college-level credits.

## MATH IOI Precalculus I

A precalculus course for students continuing their study of mathematics. Topics include basic algebraic operations, equations, inequalities and various functions including polynomial and rational functions. Prerequisites: Two years of high school algebra and one year of geometry. Three credits.

## MATH 102 Precalculus II

A precalculus course for students continuing their study of mathematics. Topics include logarithmic and exponential functions, trigonometry, and advanced topics of algebra. Prerequisite: Math IOI or high school equivalent. Three credits.

## MATH I5I Finite Mathematics

Mathematical models for the analysis of decision-making problems are examined. Topics include network models, optimization by linear programming including the simplex method, risk decisions using probability, expected value and statistics. Additional topics may be chosen from game theory, coding information, or social choice and decision making. Prerequisites:Two years of high school algebra and one year of geometry. Three credits.

## MATH 201 Calculus and Analytic Geometry I

The study of algebraic, trigonometric, and exponential functions including limits, continuity, derivatives, and an introduction to integration along with their applications. Prerequisite: MATH 102 or high school precalculus. Five credits.

## MATH 202 Calculus and Analytic Geometry II

The study of algebraic, trigonometric, and transcendental functions including methods of integration, improper integrals, rectangular, polar, and parametric graphing, and power series along with their applications.
Prerequisite: Math 201 . Five credits.

## MATH 206 Linear Algebra

An introduction to the theory of vector spaces, linear transformations, and matrices. Prerequisites: MATH I02 and permission of the instructor. Offered spring semester of odd years. Three credits.

## MATH 207 Introduction to Statistics

A study of elementary statistical methods, probability, estimation, test of hypothesis, regression, correlation and time series. Prerequisites: Two years of high school algebra and one year of geometry or permission of the instructor. Three credits.

## MATH 208 Advanced Statistics

A continuation of MATH 207, designed to develop in the student a level of statistical sophistication sufficient for the comprehension of empirical research and to assist the student in the selection, application, and interpretation of commonly used statistics. Topics include hypothesis testing and parameter estimation on four classes of parameters: relative frequency, location, dispersion, and statistical inference. Prerequisite: MATH 207. Offered spring semester of even years. Three credits.

## MATH $210 \quad$ Mathematics for the Health Professions

A study of the mathematics needed by clinical health professionals. Topics include drug dosage calculations, measurement conversions, percent strength in solutions, and pharmacokinetics. The emphasis will be on the application of mathematics as used by health professionals. Prerequisites: Two years of high school algebra and one year of geometry. One credit.

## MATH 295 Topics

Study of specific topics, issues or themes within the field of mathematics. One, two or three credits.

## MATH 302 Multivariable Calculus

The study of vector-valued functions, partial derivatives, multiple integrals, vector fields, and their applications. Offered fall semester of even years. Prerequisite: MATH 202. Three credits.

## MATH $310 \quad$ Using Technology in Mathematics Education

Calculators and computer software are important tools for doing mathematics. How teachers use these tools affects how well students learn mathematics. This course offers opportunities for pre-service teachers in middle and secondary schools to explore the applications of technological tools for learning and teaching mathematics. Prerequisites: 12 credit hours of mathematics courses. Three credits.

## MATH 325 Discrete Math

Discrete mathematics is concerned with structures of objects that can assume only distinct values, often characterized by integers. Combinatorics, graph theory, algorithms and recurrence relations are a part of this course. Prerequisite: MATH 102 or equivalent. Three credits.

## MATH $341 \quad$ Elementary Theory of Numbers

Selected topics in Number Theory including divisibility. Euclidian algorithm, congruencies, residue classes, Euler's Function, primitive roots, Chinese remainder theorem, quadratic residues, and Gaussian integers. Offered fall semester of even years. Prerequisite: MATH I 02. Three credits.

## MATH 35I Differential Equations

The study of the methods, theory and applications of differential equations including first order and linear second order equations, series solutions, and the Laplace transform. Offered spring semester of odd years. Prerequisite: MATH 202. Three credits.

## MATH $365 \quad$ History of Mathematics

Study of the development of mathematics from classical antiquity through the end of the 19th century. Focuses on the critical periods in the development of areas of mathematics such as equation solving, geometry, calculus, number theory and probability. Offered fall semester of odd years. Prerequisite: MATH 20I. Three credits.

## MATH $370 \quad$ Numerical Analysis

An introduction to numerical solutions to problems. Topics include solution of equations, interpolation and approximation of polynomials, numerical differentiation and integration, summation of series, and use of orthogonal polynomials. Assignments using a computer and mathematical software packages are important components of this course. Offered spring semester of odd years. Prerequisite: MATH 202. Three credits.

## MATH $399 \quad$ Directed Studies

Selected topics in mathematics. Prerequisite: Permission of the instructor. One, two or three credits.

## MATH 403 Introduction to Modern Algebra

A study of sets, mappings and algebraic concepts such as groups, rings, integral domains and fields.
Prerequisite: MATH 102 or permission of the instructor. Three credits.

## MATH 405 Geometry

Examination of fundamental topics in Geometry from an advanced viewpoint. The historical development of Geometry and topics from Non-Euclidean geometry are included. Offered fall semester of even years. Prerequisite: MATH 102 or permission of the instructor. Three credits.

## MATH 432 Real Analysis

Real Analysis is the study of the theory behind calculus. Based on the development of the basic theorems of calculus, this course includes limits, continuity, differentiability, integrability, sequences and infinite series.
Prerequisites: MATH 302 or permission of the instructor. Three credits.

## MATH $442 \quad$ Functions of a Complex Variable

A study of the complex variable including analytic functions, Cauchy-Riemann equations, Cauchy's Theorem, power series, residue theorem and conformal mapping. Offered fall semester of odd years. Prerequisite: MATH 202. Three credits.

## MATH 475 Research Seminar

This is a capstone course for the mathematics major. The student is expected to find an interesting mathematics topic to explore and pursue it in-depth. The student is expected to write up the results of this exploration in a research paper and do a presentation on the research as a part of this course. Prerequisite: Junior or senior standing and permission of the instructor. Two credits.

## MATH 495 Advanced Topics

Study of specific topics, issues or themes within the field of mathematics. prerequisite: Permission of the instructor. One, two or three credits.

## MATH EDUCATION (MTH)

## MTH 335 Mathematics for the Elementary and Middle School I

Concepts and theories underlying elementary school mathematics, including systems of numeration, whole numbers and integers, operations with integers, equations and inequalities, number theory, probability and statistics. Intended for school educators. Prerequisites: MATH IOI and MATH 207 or the equivalent. Three credits.

## MTH 336 Mathematics for the Elementary and Middle School II

A continuation of MATH 335. Topics include fraction models and operations, real numbers, patterns and functions, algebra, geometry and measurement. Intended for school educators. Prerequisite: MATH 335. Three credits.

## MUSIC CONDUCTING (MUCO)

## MUCO 36I Beginning Choral and Instrumental Conducting

Effective musicianship through the study of fundamentals of conducting, including patterns, baton technique, score reading, and rehearsal techniques for choral and instrumental music as these skills relate to teaching music performance ensembles. Students will acquire basic competency in rehearsing and conducting choral ensembles and combined vocal and instrumental school groups. In addition, the program shall provide instruction in business procedures, organization and management for large and small choral ensembles. A minimum grade of " C " is required to pass this class in the Bachelor of Music in Music Education curriculum. One and one-half credits.

## MUCO $363 \quad$ Choral Conducting

Further refinement of effective musicianship through the development of skills in conducting, score reading, teaching music courses, rehearsal techniques for choral and instrumental music, business procedures, organization and management of large and small choral ensembles. Focus will be primarily on choral conducting with additional emphasis on acquiring competency in rehearsing combined vocal and instrumental school groups. Prerequisites: MUCO 36I, MUTC 20I, MUTC 203 and MUTC 205. A minimum grade of "C" is required to pass this class. One and one-half credits.

## MUCO 364 Instrumental Conducting

Further refinement of effective musicianship throughout the development of skills in instrumental conducting, score reading, teaching music courses, rehearsal techniques for choral and instrumental music, business
procedures, organization and management of large and small instrumental ensembles. Focus will be primarily on instrumental conducting, with additional emphasis on acquiring competency in rehearsal combined vocal and instrumental school groups. Prerequisites: MUCO 36I, MUTC 20I, MUTC 203 and MUTC 205. A minimum grade of " C " is required to pass this class in the Bachelor of Music in Music Education curriculum. One and one-half credits.

## MUCO 463 Advanced Choral Conducting

Study and interpretation of the standard choral repertoire. Prerequisites: MUCO 363, MUTC 20I, MUTC 203 and MUTC 205. Two credits.

## MUCO 464 Advanced Instrumental Conducting

Baton technique and critical examination of large-form works, rehearsal techniques, and interpretive problems. Prerequisites: MUCO 364, MUTC 20I, MUTC 203 and MUTC 205 or permission of the instructor.Two credits.

## MUCO 495 Special Topics

Investigation of a specialized area of knowledge in a class setting. Prerequisites will vary with topic but include permission of the instructor. One, two, or three credits.

## MUCO 499 Individual Directed Research

A private instruction setting for individual projects in conducting. May be used to fulfill electives only. Project must be approved by the dean of the Conservatory and the chair of the Musical Academics Division prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## MUSIC CONFERENCES (MUCC)

## MUCC 497 Trends and Practices

This course will provide students with the opportunity to attend a professional conference and experience and review a variety of performance and non-performance sessions. One, two or three credits.

## MUCC <br> 498 <br> Readings

This course will provide students with the opportunity to complete analytical readings of current articles from professional journals, book chapters or similar materials. Concurrent enrollment in MUCC 497 required. One credit.

## MUCC 499 Best Practices Document

The purpose of this course is to provide students with the opportunity to explore in depth one topic related to exemplary practices currently employed in teaching. Concurrent enrollment in MUCC 497 and MUCC 498 is required. One credit.

## MUSIC EDUCATION (MUED)

## MUED I30 Orientation to Music Education

An orientation in music education to a wide array of topics regarding music in the schools ( $\mathrm{K}-\mathrm{I} 2$ ). Readings, guided observations, and discussion of contemporary trends and practices presented in a seminar setting. A minimum grade of " $C$ " is required to pass this course. Prerequisite: Permission of instructor. One-half credit.

## MUED I35 Foundations of Education in Music

Introduction and orientation to historical, philosophical and sociological foundations of education and music in the United States. Overview of ethical, legal and contemporary trends and implications for music education are included. A minimum grade of " $C$ " is required to pass this course. Prerequisite: MUED I 30. Two credits.

## MUED 235 Reading and Literacy in Music

Reading, writing, speaking and listening processes as they apply to the development of literacy in the K-I2 education of music students. Study of word, text, sign and symbol and their comprehension and strategies for
instruction are included. A minimum grade of "C" is required to pass this course. Prerequisite: MUED I 30. Two credits.

## MUED 236 Introduction to Curriculum and Assessment in Music Education

A study of music curricula and assessment and the creation of learning environments that support diverse learners in inclusive settings. Includes construction, administration and evaluation of tests and other assessment tools. Begins with an overview of instructional planning, the relationship of objectives to standards and strategies for ensuring alignment between standards, curriculum and instruction, and assessment. A minimum grade of "C" is required to pass this class. Prerequisites: MUED I 35, MUED 235. Two credits.

## MUED 321 Pre-School and Elementary Choral/General Music Methods

A study of the various methods and materials used in the teaching of choral and general music in prekindergarten through grade six including curriculum design with national and state music standards as well as performing, responding and creative assessments. Course experiences are highly participatory to facilitate improvement of musical and pedagogical skills. A minimum grade of " C " is required to pass this class. Corequisite: MUED 333. Prerequisites: MUED 236 and successful completion of Sophomore Screening in Music Education. Two credits.

## MUED 322 Middle School Choral/General Music Methods

Methods, materials and media appropriate to the teaching of general music classes and choral rehearsals for teaching adolescent students in grades six through eight. Basic skills in teaching musical courses, rehearsal techniques for choral music and designing instruction within the middle school learning environment are included. A minimum grade of " $C$ " is required to pass this class. Corequisite: MUED 334. Prerequisites: MUED 321 and successful completion of Sophomore Screening in Music Education. Two credits.

## MUED 323 High School Choral/General Music Methods

Methods, materials and media appropriate to the teaching of general music classes and choral rehearsals for teaching adolescent students in grades nine through twelve. Instruction in business procedures, organization and management of large and small choral ensembles, with knowledge of techniques in rehearsing, conducting and designing instruction for vocal/choral schools groups. Knowledge and understanding of artistic copyright laws is included. A minimum grade of " C " is required to pass this class. Corequisite: MUED 335. Prerequisites: MUED 32I, MUED 322, MUCO 363 and successful completion of Sophomore Screening in Music Education. Two credits.

## MUED 324 Marching Band Techniques

An examination of marching fundamentals and maneuvers, charting techniques and show design principles; auxiliary units; and philosophical, administrative, and organizational concerns of the marching band director. An original half-time/competition show design is required. This course offered on an alternating schedule. Check with advisor for next offering. Two credits.

## MUED 325 Jazz and Show Choir Methods

An introduction to materials and techniques for teaching jazz and show choir. Choreography and staging techniques included. This course offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " $C$ " is required to pass this class. One credit.

## MUED 329 Instrumental Music Methods and Materials I

A study of the methods, materials, techniques, administration, and philosophy related to teaching instrumental music in schools, including teacher responsibilities, working with administration, school law, discipline, and motivation, teaching beginners, reading in the music content area, school budgets, funding and relationships with parents. A minimum grade of " C " is required to pass this class. Corequisite: MUED 333. Prerequisites: MUED 236 and successful completion of Sophomore Screening in Music Education. Two credits.

## MUED $330 \quad$ Instrumental Music Methods and Materials 2

Continued study of the methods, materials, techniques, administration, and philosophy related to teaching instrumental music in schools, including historical bases for music in the schools, philosophical bases for the art of music, curricular development, National Standards for Arts Education, Virginia Standards of Learning, psychology of teaching, adapting for special learners and evaluation of student learning. A minimum grade of " C " is required to pass this class. Corequisite: MUED 334. Prerequisite: Permission of the instructor, MUED 236 and successful completion of Sophomore Screening in Music Education. Two credits.

## MUED 333 Field Experience I

Component designed to be taken in conjunction with MUED 321 or MUED 329. This experience provides practical application of the teaching skills and strategies discussed in the methods class. A minimum grade of "C" is required to pass this class. Corequisite: MUED 321 (Choral/General concentration) or MUED 329 (Instrumental concentration). One credit.

## MUED 334 Field Experience 2

Component designed to be taken in conjunction with MUED 322 or MUED 330. This experience provides practical application of the teaching skills and strategies discussed in the methods class. A minimum grade of " $C$ " is required to pass this class. Corequisite: MUED 322 (Choral/General concentration) or MUED 330 (Insrumental concentration). One credit.

## MUED 335 Field Experience 3

Component designed to be taken in conjunction with MUED 323. This experience provides practical application of the teaching skills and strategies discussed in the methods class. A minimum grade of " C " is required to pass this class. Corequisite: MUED 323. One credit.

## MUED $421 \quad$ Directed Teaching in Elementary Music MUED 422 Directed Teaching in Secondary Music

Observation and teaching in the public schools under the direct supervision of public school faculty and Shenandoah Conservatory faculty. (At present, the minimum number of directed teaching hours is 300, which is subject to change, as specified by the Virginia Board of Education to fulfill teacher licensure requirements. The student teaching experience as required by Shenandoah Conservatory, including observation, teaching and seminars, is a full semester in duration.)
Prerequisites for both concentrations: Completion of pre-directed teaching observation and personal screening; successful completion of the Sophomore Screening in Music Education; completion of competencies in public speaking and technology; minimum cumulative grade point average of 2.5 ; completion of $A P^{*} * 322$; and a minimum grade of " $C$ " in specific prerequisite courses listed below:
Choral/General Concentration prerequisites: APCP 306, MUCO 363, MUED I 30, MUED I 35, MUED 235, MUED 32I, MUED 322, MUED 323, MUED 325, MUED 333, MUED 334, MUED 335, MUED 236, MUPP 304, MUTC 20I, MUTC 204 and MUTC 206.
Instrumental Concentration prerequisites: APCP 306, MUCO 364, MUED I 30, MUED I 35, MUED 235, MUED 236, MUED 329, MUED 330, MUED 333, MUED 334, MUED 236, MUPP 303, MUPP 3I3, MUPP 3I4, MUPP 316, MUPP 3I7, MUPP 3I8, MUPP 3I9, MUTC 20I, MUTC 204 and MUTC 206.
Four credits each, taken concurrently.

## MUED 499 Individual Directed Research

A private instruction setting for individual projects in music education. May be used to fulfill music electives only. Projects must be approved by the associate dean for undergraduate studies and the division chair prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## MUSIC ENSEMBLES (MUEN) Large Ensembles

## MUEN 301 Symphonic Wind Ensemble

An instrumental organization of winds and percussion whose major objective is the development of musical understanding through the study and preparation of original compositions and transcriptions of significant musical worth for the ensemble. Prerequisite: Audition. Two credits.

## MUEN 302 Concert Band

An instrumental organization that provides students with an opportunity to develop musical understanding through the study and preparation of representative compositions and transcriptions for bands. Prerequisite: Audition. Two credits.

## MUEN 303 Symphony Orchestra

A concert organization that studies and performs the standard orchestral literature and contemporary compositions. Membership is required of string majors and open to wind and percussion students by audition. Prerequisite: Audition. Two credits.

## MUEN $304 \quad$ Conservatory Jazz Ensemble

Consisting of full sections of trumpets, trombones, saxophones, rhythm section instruments, and other instruments needed for various arrangements, the jazz ensemble is a select group dedicated to performing music ranging from the style of the "big bands" to contemporary and experimental jazz forms. In addition to developing jazz skills, the musicians develop facility in jazz composition, arranging and improvisation. Prerequisite: Audition. Two credits.

## MUEN 306 Guitar Ensemble

An ensemble that performs music composed or arranged for multiple guitars. Prerequisite: Audition. Two credits.

## MUEN 311 Conservatory Choir

A select group of singers who perform sacred and secular choral music ranging from Renaissance to contemporary compositions. Prerequisite: Audition. Two credits each semester.

## MUEN 312 Shenandoah Chorus

A mixed vocal ensemble that performs sacred and secular choral music. Emphasis is also placed upon the development of basic choral skills. Prerequisite: Audition. Two credits.

## MUEN $313 \quad$ Cantus Singers

A select choral organization that performs music written especially for treble voices. Prerequisite: Audition. Two credits.

## MUEN 323 Accompanying Ensemble

For keyboard majors in performance pedagogy and accompanying curricula. Consists of four clock hours of assigned accompanying responsibilities per week ( 2 hours in studio; 2 hours in rehearsal or the equivalent as determined by the accompanying coordinator), with regular individual coaching by members of the keyboard faculty. Formal instruction in the art of piano accompanying, including the study of vocal and instrumental literature, differing musical styles and performance practices from the earliest material through the present. Prerequisite: Audition. Two credits.

## Small and Chamber Ensembles

## MUEN 314 Shenandoah Singers

A vocal group that performs an eclectic repertoire of a cappella jazz, pop and world music. Designed for students interested in studying repertoire drawn from the popular music tradition, this vocal chamber group consists of a select ensemble of eight to twelve singers. Prerequisite: Audition. One credit.

## MUEN $316 \quad$ Double Bass Ensemble

An ensemble performing original compositions and transcriptions for homogeneous double bass ensemble. Prerequisite: Audition. One credit.

## MUEN 33I Kammermusik Players

A large, mixed chamber ensemble comprised of wind, string and percussion instruments (mostly one instrument per part) that studies and performs music of all styles. Prerequisite: Audition. One credit.

## MUEN 332 Clarinet Choir

The clarinet choir, comprising all members of the clarinet family, performs original works and transcriptions. Prerequisite: Audition. One credit.

## MUEN 333 Percussion Ensemble

This ensemble performs standard and original compositions, written for percussion instruments. Prerequisite: Audition. One credit.

## MUEN 335 Jazz Guitar Ensemble

This combo is designed to expand upon the student's improvisation and interpretative skills in a jazz chamber music setting. Emphasis will be placed on standard repertoire from the swing era up to the present. Student arrangements are encouraged. Particular attention will be focused on ear training and listening skills with respect to chord/scale recognition in improvisation. The student may also be required to memorize some or all of the repertoire. Prerequisite: Audition. One credit.

## MUEN 34I Chamber Choir

A highly selected mixed vocal group of limited size that performs vocal chamber music of all periods. Prerequisite: Audition. One credit.

## MUEN 352 New Music Ensemble

A mixed ensemble of indeterminate personnel, open to both singers and instrumentalists, that regularly performs contemporary chamber music and features premiere performances of new works as often as possible. Prerequisite: Audition. One credit.

## MUEN 353 Pit Orchestra

An orchestra that plays for music theatre productions. Specific instrumentation needed is determined by the production offered, but typically would include: five woodwinds (doubling), five to eight brasses, strings (3,2,2, I), piano and percussion. Prerequisite: Audition. One credit.

## MUEN 354 Pep Band

A small instrumental ensemble of no more than 20 performers that performs music suitable for home football events. May not be used to fulfill any curricular ensemble requirement in the conservatory. Offered in the fall semester. Prerequisite: Audition. One credit.

## MUEN 36I Brass Ensembles

Small brass ensembles, mainly brass quintets, coached by faculty members of the brass faculty. Membership on a yearly basis. Prerequisite: Audition. One credit.

## MUEN 362 Woodwind Ensemble

Various ensembles of woodwind instruments in diverse groupings whose repertoire includes standard quartets and quintets. Prerequisite: Audition. One credit.

## MUEN 363 String Chamber Ensemble

Preparation and performance of standard string ensemble literature (duo, string trio, piano trio, string quartet, piano quartet, etc.). Prerequisite: Audition. One credit.

## MUEN 364 Saxophone Ensemble

One or more student saxophone quartets are formed each semester to perform standard quartet literature from the French, German, and American schools. Prerequisite: Audition. One credit.

## MUEN 365 Flute Ensemble

An ensemble performing music for flute groups of varying size. Prerequisite: Audition. One credit.

## MUEN 366 Guitar Consort

Performance of repertoire expressly composed or arranged for guitar duo, trio, or quartet. Enrollment is limited and each student will be expected to assume total responsibility for one part. Prerequisite: Audition. One credit.

## MUEN 367 Cello Ensemble

An ensemble performing original compositions and transcriptions for homogeneous cello ensemble. Prerequisite: Audition. One credit.

## MUEN 37I Jazz Combo, Jazz Trombone Ensemble

These jazz combos are designed to expand upon the student's improvisation and interpretive skills in a jazz chamber music setting. Emphasis will be placed on standard repertoire from the swing era up to the present. Student arrangements are encouraged. Particular attention will be focused on ear-training and listening skills with respect to chord/scale recognition in improvisation. The students may also be required to memorize some or all of the repertoire. Prerequisite: Audition. One credit.

## MUEN 372 World Music Ensemble

Contextual study, rehearsal, and performance of vocal and instrumental music primarily associated with indigenous, non-Western music traditions. Prerequisite: Audition. One credit.

## MUEN 375 Jazz Combo: Improvisation Laboratory

A small ensemble with the emphasis on development of performance and improvisational skills. Prerequisite: Permission of instructor. Prerequisite: Audition. One credit.

MUEN 378 Harp Ensemble
Study and performance of compositions and transcriptions for harp ensemble to develop the ensemble skills of harp students. Study of orchestral excerpts is included. Prerequisite: Audition. One credit.

## MUSIC LITERATURE (MULT)

## MULT 200 Introduction to Music Literature

A survey of Western European art music representing all periods and genres. Emphasis on basic terminology and knowledge of standard musical works. (Formerly MULT I I3.) Prerequisite: Permission of the instructor. One credit.

## MULT 20I History of Western Music I

Western European art music from the Medieval through Baroque eras. Special emphasis is placed upon development of musical sensitivity and knowledge of style characteristics and standard works from each era. (Formerly MULT 3II.) Prerequisite: MULT 200 or permission of the instructor. A minimum grade of " $C$ " is required for students in the Bachelor of Music Education curriculum. Three credits.

## MULT 202 History of Western Music 2

Western European art music from the Classical era to the present. Special emphasis is placed upon development of musical sensitivity and knowledge of style characteristics and standard works from each era. (Formerly MULT 3I2.) Prerequisite: MULT 200 or permission of the instructor. A minimum grade of " C " is required for students in the Bachelor of Music Education curriculum. Three credits.

## MULT 225 Introduction to Rock Music

This course serves as an introduction to the history of rock music, emphasizing primarily the period between 1955 and 2000. Mixing historical and cultural readings with intense listening, this course covers the vast repertoire of rock music and many other associated styles. Students focus on the sounds of the music, learning to distinguish a wide variety of genres, while also tracing the development and transformation of rock and pop styles. The lectures that comprise the teaching element of the course use a wide variety of multimedia, including audio, video and interactive Web-based sources. Knowledge of a technical musical vocabulary and an ability to read music are not required for this course. Three credits.

## MULT 275 Survey of Western Music

A survey of Western European art music representing all periods and genres. Emphasis on basic terminology and knowledge of standard musical works. Prerequisite: Permission of the instructor. Three credits.

## MULT 276 Women in Music

Course explores the music of women in the Western art tradition, taking a wide view of women's contributions to music history as composers, poets, performers, patrons, and as the subject of musical expression. The goal is understanding the role of women in musical culture and exploration of those areas in which women have created a distinct presence. Prerequisite: Permission of the instructor. Three credits.

## MULT 355 American Musical Theatre I

The history and development of popular musical theatre in the United States from colonial times through 1942, including extravaganza, minstrelsy, revue, vaudeville, burlesque, operetta and early musical comedy. Prerequisite: Permission of the instructor. Three credits.

## MULT 356 American Musical Theatre 2

The history and development of popular musical theatre in the United States from 1943 through the present, including musical comedy, the musical play, the concept musical, the through-sung musical, foreign influences and modern trends. Prerequisite: Permission of the instructor. Three credits.

## MULT 361 Survey of World Music: South Asia/Middle East/Europe

Study of contemporary music indigenous to South Asia/Middle East/Europe. Analysis and comparison of tonal and rhythmic attributes. Promotion of socio-cultural awareness. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. One credit.

## MULT 362 Survey of World Music: Sub-Saharan Africa/Caribbean

Study of contemporary music indigenous to Sub-Saharan Africa/Caribbean. Analysis and comparison of tonal and rhythmic attributes. Promotion of socio-cultural awareness. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. One credit.

## MULT 363 Survey of World Music: The Americas

Study of contemporary music indigenous to the Americas. Analysis and comparison of tonal and rhythmic attributes. Promotion of socio-cultural awareness. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. One credit.

## MULT 364 Survey of World Music: Central/East/South-East Asia

Study of contemporary music indigenous to Central/East/South-East Asia. Analysis and comparison of tonal and rhythmic attributes. Promotion of socio-cultural awareness. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. One credit.

## MULT 40I Symphonic Literature

Historical and analytical study of selected works from the Classical period to the present. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MULT 402 Oratorio/Choral Literature

Historical and analytical study of selected works representing major forms and styles from the late Renaissance to the present. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MULT 403 Brass Literature

Historical and analytical survey of solo literature and advanced method materials written for brass instruments. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MULT 405 Guitar Literature

Historical and analytical survey of guitar literature from the Renaissance Era through the 20th century. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MULT 407 Organ Literature I

Historical and analytical survey of organ literature. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MULT $408 \quad$ Organ Literature 2

Continuation of MULT 407. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MULT 407 or permission of the instructor. Two credits.

## MULT $409 \quad$ Percussion Literature

Historical and analytical survey of percussion solo and ensemble music. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MULT 4II Piano Literature I

A historical and analytical survey of piano literature from the earliest sources through the Classical period. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MULT $412 \quad$ Piano Literature 2

Historical and analytical survey of piano literature from the Romantic period to the present. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MULT 4l3 Woodwind Literature

Historical, analytical and pedagogical survey of solo and ensemble literature written for woodwind instruments, including solos with large ensemble accompaniment. The literature of each instrument is surveyed from the Baroque period through the 20th century period. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MULT $417 \quad$ String Literature

Historical and analytical survey of literature for solo and chamber strings throughout the major historical musical periods. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MULT 420 Opera Literature

A brief history of opera through the examination of major works in historical context, as well as a survey of opera repertoire through in-class performance and in and out of class listening. Students will develop individual repertoire reference materials. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Three credits.

## MULT $430 \quad$ Survey of American Music

A survey of music in the United States, beginning with the sacred music of Colonial New England and continuing to the present. The development of jazz and the American popular song is included. Prerequisite: Permission of the instructor. Three credits.

## MULT 432 Jazz History

A study of the origin, development styles and major contributors of jazz through listening, analysis and research. This course is offered on an alternating schedule. Check with advisor for next offering. (Formerly MULT 422.) Prerequisite: Permission of the instructor. Two credits.

## MULT 433 Survey of Vocal Literature

A presentation of the history and development of the art song, including in-class performances and discussions. The song compositions of Italian, German, French, Spanish, Latin American, British and American composers will be covered. If time allows, Scandinavian, Russian and Slavic composers will be addressed as well. Performance and critical listening are the major emphasis of the class. There will be assigned readings, a term paper with oral presentation and two songs by the composer chosen for the paper. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## MULT 434 The Piano in Chamber Literature

Historical and analytical survey of repertoire for chamber ensemble with piano. Exploration through listening, reading and class discussion of works from the 17 th century to present day. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. (Formerly MULT 424.) Two credits.

## MULT 495 Special Topics

Investigation of a specialized area of knowledge in a class setting. Prerequisite: Permission of the instructor. One, two or three credits.

## MULT 499 Individual Directed Research

A private instruction setting for individual projects in music literature. May be used to fulfill music electives only. Project proposal must be approved by the associate dean for undergraduate studies and the division chair prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## MUSIC PERFORMANCE AND PEDAGOGY (MUPP)

## MUPP $121 \quad$ Beginning Guitar Class

A class for anyone who would like to learn the basics of playing the guitar. The course will cover basic music reading, chord building, song accompaniment, playing solos and the guitar heritage. Prerequisite: Permission of the instructor. One credit.

## MUPP |5I Recording Systems: Design and Application I

Acquaintance for musicians with appropriate applications of hardware used to record musical performances. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. Two credits.

## MUPP 152 Recording Systems: Design and Application 2

A continuation of MUPP I5I. Aspects and applications of recording studio techniques, including editing, session set-ups, mixing, console flow logic, patch bay applications and microphone placement. Two hours of studio time per week accompany the class. A minimum grade of " C " is required to pass this class. Prerequisite: MUPP 15I or permission of the instructor. Two credits.

## MUPP 162 Recording Systems Studio Time

Course provides a laboratory experience to parallel the content of MUPP 152, Recording Systems 2. Weekly small group sessions provide practical experience with equipment and techniques utilized in MUPP I52.A studio recording fee is assessed. Prerequisite: MUPP I5I. One-half credit.

## MUPP 225 Opera Stage Training I

Use of dramatic techniques in the interpretation and performance of operatic music. Basic acting for the operatic stage, movement, improvisation, makeup, period dances, and techniques of relaxation. Prerequisite:TH IOI or 105 or by permission of instructor. One credit.

## MUPP 226 Opera Stage Training 2

A continuation of Opera Stage Training 1. Acting of operatic roles in different periods and styles including pantomime, spoken dialogue, recitatives and short scene study in English. Prerequisite: MUPP 225. One credit.

## MUPP 233 Voice Class

Designed for non-voice majors, this course is a study of vocal physiology, diction, tone production and performance. Vocal literature, voice classification and vocal health will be discussed. Classes will be oriented toward performance improvement. Prerequisite: Permission of the instructor. One credit.

## MUPP 239 Studio Accompanying

Practical experience through assigned accompanying responsibilities coordinated by the faculty director of the accompanying pool. Required of all keyboard majors in non-performance curricula. Prerequisite: Permission of the instructor. Optional one-half credit.

## MUPP 24I Oboe Reed Making Class

Practical instruction in the gouging, shaping, tying and scraping of oboe reeds. Concurrent enrollment with applied oboe instruction required. Prerequisite: Permission of the instructor. One-half credit.

## MUPP 242 Bassoon Reed Making Class

Practical instruction in the profiling, shaping, forming, and scraping of bassoon reeds. Concurrent enrollment with applied bassoon instruction required. Prerequisite: Permission of the instructor. One-half credit.

## MUPP 25I Sound Reinforcement

A study of equipment used for musical sound reinforcement, including small, large, portable and fixed systems; specifications on instrumentation, nature of music performed and location; set-up, microphone placement and equipment selection. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUPP I52. Two credits.

## MUPP 252 Remote Recording Practicum

Practical application of remote recording techniques in recitals and other concerts, working as a sound technician and assisting with remote recording sessions. May be repeated for a total of two credits. A minimum grade of " C " is required to pass this course. Prerequisite: MUPP I5I. One credit.

## MUPP 253 Sound Reinforcement Practicum

Practical application of equipment used for sound reinforcement, including small, large, portable and fixed systems; specifications on instrumentation, nature of music performed and location; set-up, microphone placement and equipment selection; and practical application through working as a sound technician for a variety of on-campus performances in a variety of venues. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class in the MPRT curriculum. Prerequisite: MUPP 25I. One credit.

## MUPP 259 Introduction to Educational Technology in Music

A study of educational technologies including effective use of computer systems and the utilization of computer software, knowledge of terms associated with educational computing and technology, computer productivity tools for professional use, the use of instructional hardware and software to support Virginia's Standards of Learning and other instructional objectives, data collection information management, problem solving, decision making, communication and presentation within the curriculum, planning and implementation of lessons and strategies that integrate technology to meet the diverse needs of learners in a variety of educational settings, and knowledge of ethical and legal issues relating to the use of technology. Prerequisite: Permission of the instructor.Two credits.

## MUPP 260 Introduction to Lyric Diction

Designed for the non-performance voice major, this course is a discussion and practice of the fundamentals of Latin, Italian, German and French pronunciation for singers utilizing the International Phonetic Alphabet. Performance of songs in each language will be required. Prerequisite: Permission of the instructor. Two credits.

## MUPP 263 Singer's Diction I

Discussion and practice in the fundamentals of Latin and Italian pronunciation for singers utilizing the International Phonetic Alphabet. Performance of songs in these languages is required. Prerequisite: Permission of the instructor. Two credits.

## MUPP 264 Singer's Diction 2

Discussion and practice in the fundamentals of French and German pronunciation for singers utilizing the International Phonetic Alphabet. Performance of songs in these languages is required. Prerequisite: MUPP 263 or permission of the instructor. Two credits.

## MUPP 303 Pedagogy of Jazz Teaching Techniques

An introduction to the fundamentals of jazz and jazz teaching, focusing on ensemble conducting, program development, improvisation, jazz style and basic jazz history. This course is designed to assist students in becoming successful middle, junior and senior high school jazz band directors. This course offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " $C$ " is required to pass this class for students in the Bachelor of Music in Music Education curriculum. Prerequisite: Permission of the instructor. One credit.

## MUPP 304 American Folk and Orff Instruments

The study of chanting, singing, moving and playing in ensemble using voice, body percussion, pitched and unpitched percussion and recorder for elementary music classes. Instruction will include strategies that focus on composing, arranging and adapting music to meet the classroom needs and ability levels of school vocal/choral and general music students, skills in providing and directing creative experiences and improvising when necessary, and proficiency on appropriate accompanying instruments. A minimum grade of " C " is required to pass their course for students in the Bachelor of Music in Music Education curriculum.
Prerequisite: Permission of the instructor. One credit.

## MUPP 31I Musical Theatre Styles

An in-depth study and application of methods for singing musical theatre styles. Instruction will be two hours weekly, consisting of lecture, training and discussion of relevant techniques and solutions. Course will cover treatment of vowels, consonants, song authenticity and correct style musically and vocally. Through songs, students will explore various vocal styles found in musical theatre while maintaining vocal health. Prerequisites: Junior standing in the musical theatre curriculum or permission of instructor. One credit.

## MUPP $313 \quad$ Percussion Teaching Techniques

Fundamental playing techniques of percussion instruments. Focus includes survey of teaching techniques and materials, competency in rehearsing and conducting instrumental ensembles. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. One credit.

## MUPP $314 \quad$ String Teaching Techniques

Fundamental playing techniques of string instruments. Focus includes survey of teaching techniques and materials, competency in rehearsing and conducting instrumental ensembles. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. One credit.

## MUPP $316 \quad$ Woodwind Teaching Techniques I

Fundamental playing techniques of woodwind instruments. Focus includes survey of teaching techniques and materials, competency in rehearsing and conducting instrumental ensembles. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. One credit.

## MUPP $317 \quad$ Woodwind Teaching Techniques 2

Additional acquisition of playing techniques of woodwind instruments. Focus includes teaching techniques and materials, competency in rehearsing and conducting instrumental ensembles. A minimum grade of " C " is required to pass this class. Prerequisite: MUPP 316. One credit.

## MUPP $318 \quad$ Brass Teaching Techniques I

Fundamental playing techniques of brass instruments. Focus includes survey of teaching techniques and materials, competency in rehearsing and conducting instrumental ensembles. A minimum grade of " $C$ " is required to pass this class. Prerequisite: Permission of the instructor. One credit.

## MUPP $319 \quad$ Brass Teaching Techniques 2

Additional acquisition of playing techniques of brass instruments. Focus includes teaching techniques and materials, competency in rehearsing and conducting instrumental ensembles. A minimum grade of " C " is required to pass this class. Prerequisite: MUPP 318. One credit.

## MUPP 320 Guitar Class I

Fundamentals of guitar playing. Basic chords strummed to familiar songs, with emphasis on folk song styles in order to provide sufficient skills for classroom instruction of guitar. Nylon string guitar preferred. Prerequisite: Permission of the instructor. One credit.

## MUPP $321 \quad$ Guitar Class 2

Continued study of fundamentals of guitar playing, including introduction to classical techniques. Basic chords strummed to familiar songs, with emphasis on folk song styles. Nylon string guitar preferred. Prerequisite: Permission of the instructor. One credit.

## MUPP 322 Functional Guitar Skills

Fundamentals of guitar playing is the primary focus of this course. Students perform a basic repertoire of traditional, folk and popular songs with or without printed music. Many basic chords, strumming patterns and picking patterns employed. Overall general care and use of the guitar taught. Open only to Music Therapy students. Prerequisite: Permission of the instructor. One credit.

## MUPP 330 Repertoire for Piano Ensemble

A survey of the history and performance of literature for piano four hands and for two or more pianos. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MUPP 332 Piano Pedagogy

A study of materials, methods, and repertoire for the successful teaching of piano students from the beginning stages through the advanced and college preparatory levels. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. Two credits.

## MUPP $334 \quad$ Group Pedagogy

Practical application of group dynamics to the art of applied instrument teaching. Students meet one hour weekly as a large group to discuss group teaching principles and one hour per week to discuss materials in a specific applied area. This course offered on an alternating schedule. Check with advisor for next offering. Corequisite: Concurrent registration in MUPP 335. (Formerly MUPP 330) Prerequisite: Permission of instructor. One credit.

## MUPP 335 Survey of Materials for Group Pedagogy

A survey of materials used for group instruction on a specific applied instrument. Must be taken concurrently with MUPP 334. Prerequisite: Permission of the instructor. (Formerly MUPP 215.) This course offered on an alternating schedule. Check with advisor for next offering. One credit.

## MUPP 336 Supervised Private Teaching

Supervised teaching of beginning and intermediate applied music students with periodic seminars to discuss relevant teaching techniques and solutions. May be repeated with different instructor or in a different applied field. Prerequisites: Keyboard - MUPP 332 and permission of the instructor;Voice - MUPP 433, and permission of the instructor; Instruments - appropriate pedagogy class and permission of the instructor. (Formerly MUPP 430.) Three credits.

## MUPP 337 Supervised Group Teaching

Supervised teaching of beginning and intermediate students in groups with periodic seminars to discuss relevant teaching techniques and solutions. Prerequisites: MUPP 334, MUPP 335 and permission of the instructor. (Formerly MUPP 430.) Three credits.

## MUPP 338 Business of Studio Teaching

A study of the business of studio teaching and management. Individual project resulting in the development of studio policies, resume and other materials appropriate to the successful operation of an independent teaching studio. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: Permission of the instructor. (Formerly MUPP 428.). One credit.

## MUPP 34I Half Recital

Presentation of a half recital, including classical music and jazz performances, may be undertaken by a Conservatory student after AP**200-level study has been completed. Students in non-Conservatory curricula may undertake a half recital after four semesters of study. The length of each half of the recital is not to exceed 25 minutes of music. Prerequisite: Permission of the instructor. Concurrent enrollment in applied study is required. One credit.

## MUPP 343 Jazz Repertoire

A course devoted to developing the repertoire necessary for jazz musicians to work in various environments, specifically in professional "club date" and "jam session" settings. Memorization of music in various styles is emphasized. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisitie: Permission of instructor. One credit.

## MUPP 345 Fretboard Theory

Development of functional theoretical concepts on the guitar. Prerequisite: Completion of APGT 200-level study or permission of the instructor. One credit.

## MUPP $350 \quad$ Basic Electronics

Basic electronics survey for the recording studio. Theoretical concepts of voltage, current, resistance, capacitance and inductance are developed. Prerequisite: Permission of instructor. Two credits.

## MUPP 35I Digital and Advanced Recording

A continuation of MUPP 152. Aspects and application of digital audio recording and principles of digital audio. Working with computer software programs such as Pro Tool and Cubase including editing, recording and MIDI.Two hours of studio time per week accompany this class. This course offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisite: MUPP I52.Two credits.

## MUPP 353 Studio Maintenance and Repair

Development of skills for the use of test equipment for preventative maintenance and equipment calibration. Trouble shooting and basic repair procedures are included. Prerequisite: MUPP 350 or permission of the instructor. One credit.

MUPP 354 Tonmeister Seminar
A course taken near conclusion of the program consisting of study and application of the aesthetics of Tonmeister technology by recording various student and/or faculty performing ensembles. A minimum grade of "C" is required to pass this class. Prerequisite: MUPP 35I. One credit.

## MUPP 36I Digital and Advanced Recording Studio Time

Course provides a laboratory experience to parallel the content of MUPP 35I, Digital and Advanced Recording. Weekly small group sessions provide practical experience with equipment and techniques utilized in MUPP 351. A studio recording fee is assessed. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisites: MUPP 152, MUPP 351 and concurrent enrollment in MUPP 35I. Onehalf credit.

## MUPP $403 \quad$ Guitar Pedagogy

Survey of teaching methods and materials for private instruction. Prerequisites: MUPP 213 and completion of APGT 200-level study or permission of the instructor. Two credits.

## MUPP 405 Organ Pedagogy

Methods of private instruction, analysis of teaching, problems and investigation of graded literature.
Prerequisite: Permission of the instructor. Two credits.

## MUPP 425 Opera Workshop

In-depth study of scenes selected from the standard operatic repertoire. In addition to background research and character development exercises, the course culminates in a public performance of excerpts performed in the original language, with minimal sets and costumes. Emphasis is on the expressive use of the body and the language. Offered each semester. May be taken multiple times. Prerequisites: MUPP 225 and MUPP 226. Two credits.

## MUPP 433 Anatomy and Function of the Singing Voice

Emphasis on the analysis of teaching problems and the development of vocal technique through the study of anatomical structures and physiological mechanisms as applied to singing. A study of how the human voice physiologically emerges from the body through the combined blending of body actions that overlap and assist each other, specifically: posture and movement, respiration, phonation, resonation and articulation. Analysis of the voice as an acoustic chain. Practical application and laboratory experiences include supervised private teaching. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: completion of APVO 200-level study or permission of the instructor. Three credits.

## MUPP $440 \quad$ Full Recital

Presentation of a full recital, including solo classical, accompanying and/or jazz performances. May be undertaken at any time after AP** 300-level is begun by Conservatory students. Non-Conservatory students may undertake a full recital after six semesters of study. Prerequisite: Permission of the instructor. Concurrent enrollment in applied study is required. Two credits.

## MUPP 46I Music Production I

This course is intended for students who expect to be in a recording studio as a musician, writer or producer. A study of console mixing from multi-track to stereo or mono format, using multi-band equalization, pan pots, reverberation and outboard effects such as compressors and limiters. A minimum grade of " C " is required to pass this class. Prerequisites: MUPP 35I, MUPP 252, MUTC 419 and MUTC 420.Two credits.

## MUPP 462 Music Production 2

A continuation of MUPP 46I, culminating in a final project which the student must compose, produce and record. A minimum grade of " C " is required to pass this class. Prerequisites: MUPP 46I. Two credits.

## MUPP 463 Mixdown Techniques Lab I

A one-hour lab that provides a laboratory supplement to the work done concurrently in Music Production I. A minimum grade of " C " is required to pass this class. Prerequisite: MUPP 351 . One-half credit.

## MUPP 464 Mixdown Techniques Lab 2

A one-hour lab that provides a laboratory supplement to the work done concurrently in Music Production I. A minimum grade of " C " is required to pass this class. Prerequisites: MUPP 461 and MUPP 463. One-half credit.

## MUPP 465 Music Production and Recording Technology Internship

Internship to provide the opportunity to apply expertise gained in controlled classroom to a realistic situation. Minimum requirement of 150 hours of practical experience. Prerequisites: MUPP 462, MUPP 472, MUPP 464, MUPP 253, MUPP 354 and MUTC 452. Three credits.

## MUPP 47I Music Production I Studio Time

Course provides a laboratory experience to parallel the content of MUPP 46I, Music Production I. Weekly small group sessions provide practical experience with equipment and techniques utilized in MUPP 46I.A studio recording fee is assessed. A minimum grade of "C" is required to pass this class. Prerequiste: MUPP 35।. One credit.

## MUPP 472 Music Production 2 Studio Time

Course provides a laboratory experience to parallel the content of MUPP 462, Music Production 2. Weekly small group sessions provide practical experience with equipment and techniques utilized in MUPP 462. A studio recording fee is assessed. A minimum grade of " $C$ " is required to pass this class. Prerequisite: MUPP 471. One credit.

## MUPP 495 Special Topics

Investigation of a specialized area of knowledge in a class setting. Prerequisites will vary with topic and permission of the instructor. One, two or three credits.

## MUPP 498 Internship

Internship or practical training in an area of performance or future employment conducted under the supervision of a member of the faculty. Offered each term. Prerequisite: Permission of the instructor and associate dean for undergraduate studies. One credit.

## MUPP 499 Individual Directed Research

A private instruction setting for individual project in performance practice or pedagogy. May be used to fulfill electives only. Project proposals must be approved by the associate dean for undergraduate studies and the division chair prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## MUSIC THEORY (MUTC)

## MUTC 099 Music Fundamentals

Preparatory course for MUTC IOI; required of any student who does not meet the minimum threshold score on the Music Theory Placement Test. Review of music fundamentals including pitch reading in treble and bass clefs, basic rhythm and meter, key signatures, scales, intervals, triads. A minimum grade of " C " is required to pass this class. Two credits.

## MUTC IOI Introduction to Music Theory

Key, modality, rhythm and meter; notation; all tonal interval, scale, triad and seventh chord forms; an introduction to part-writing and harmonic progression in tonal music. Concepts are reinforced with studentwritten examples, analysis of classical repertoire, intervallic and harmonic identification, melodic and rhythmic dictations, and sightsinging. Enrollment by placement examination only. After successful completion of MUTC IOI, students must be continuously registered each fall and spring semester until the sequence of MUTC IOI, MUTC I02, MUTC 20I, and MUTC 202 is completed. Because success in MUTC IOI is the foundation for subsequent semesters of study in music theory, a minimum grade of " C " must be achieved. Two credits.

## MUTC 102 Diatonic Harmony and Simple Forms

A continuation of the study of tonal music, including more advanced harmonic writing and analysis (seventh chords, secondary function and modulation), figured bass realization and part writing. A minimum grade of "C" is required to pass this class. Prerequisite: Successful completion of MUTC IOI or permission of the instructor. Three credits.

## MUTC 107 Keyboard Harmony I

Harmonization using diatonic triads reinforced by chord progression drills, accompaniment styles, transposition, reading of open score and C-clef and improvisation. Material is correlated with MUTC IOI. Special emphasis on developing the sightreading skills of the performing pianist through the use of appropriate repertoire. Prerequisite: Permission of the instructor. One credit.

## MUTC 108 Keyboard Harmony 2

Continuation of MUTC 107, with harmonization exercises extended to secondary dominants and to the use of figured bass. Material is correlated with MUTC 102. Continuation of special emphasis on developing the sightreading skills of the performing pianist through the use of appropriate repertoire. Prerequisites: MUTC 107 or permission of the instructor. One credit.

## MUTC $109 \quad$ Ear Training

Practical application of the content of MUTC 102 to the hearing and performance of music. Introduction to tonal and rhythmic sightsinging techniques using movable-do solfege. Continuation of the melodic, rhythmic and harmonic dictation skills introduced in MUTC IOI. Introduction of cadences and simple four-part dictation. A minimum grade of " C " is required to pass this course. Prerequisite: MUTC IOI or permission of the instructor. Two credits.

## MUTC 121 Music Theory for Musical Theatre I

An introduction to counterpoint, tonal harmony, and phrase structure for musical theatre performers. Concepts will be addressed through reading assignments, written workbook assignments and repertoire analyses. Prerequisite: Successful completion of the Music Theory Entrance Examination or MUTC 099. Two credits.

## MUTC $122 \quad$ Music Theory for Musical Theatre 2

The study of secondary or "applied" harmonies, modulation, chromatic melodies and song forms for musical theatre performers. Concepts will be addressed through reading assignments, written workbook assignments and repertoire analyses. Prerequisite: MUTC I21.Two credits.

## MUTC $123 \quad$ Sightsinging for Musical Theatre I

Practical application of the concepts in MUTC 121 in performance and introduction to diatonic and rhythmic sightsinging for musical theatre performers. Prerequisite: Successful completion of the Music Theory Entrance Examination or MUTC 099. One credit.

## MUTC $124 \quad$ Sightsinging for Musical Theatre 2

Practical application of the concepts in MUTC 122 in performance, continuation of diatonic sightsinging and introduction to chromatic sightsinging for musical theatre performers. Prerequisite: MUTC 123. One credit.

## MUTC 201 Chromatic Harmony and Compound Forms

The final examination of tonal music, including advanced harmonic writing and analysis (augmented sixth chords, Neapolitan sixth chords, other altered chords, and ninth chords), style period analysis concentrated on the Classical and Romantic periods, sonata form and contrapuntal techniques, including fugue. A minimum grade of "C is required to pass this class in the BME and BM Composition curriculum. Prerequisite: MUTC 102 or permission of the instructor. Three credits.

## MUTC 202 20th Century Theory

Examination of compositional materials and techniques of the late 19th and early 20th centuries, techniques of the Contemporary period, including the twelve-tone system, new uses of tonality and modality, the avant garde and music of the present. Prerequisite: MUTC 20I or permission of the instructor. Two credits.

## MUTC 203 Intermediate Aural Skills

Intervals, triads, modulatory melodic examples, seventh chords, cadences, four-part dictation with inversions and altered chords. Aural analysis parallels MUTC 20I. Prerequisites: MUTC I09 and MUTC I02 or permission of the instructor. One credit.

## MUTC 204 Advanced Aural Skills

Continuation of MUTC 203. Addition of 9th, I 3th, Neapolitan sixth and augmented sixth chords. A minimum grade of " C " is required to pass this course for students in the Bachelor of Music Education curriculum. Prerequisites: MUTC 20 I and MUTC 203 or permission of the instructor. One credit.

## MUTC 205 Intermediate Sightsinging

Tonal and rhythmic performance techniques paralleling MUTC 20 I and MUTC 203 (using moveable-do solfege system). Prerequisites: MUTC 109 and MUTC 102 or permission of the instructor. One credit.

## MUTC 206 Advanced Sightsinging

A continuation of MUTC 205, with techniques paralleling MUTC 202 (using moveable-do solfege for tonal music and fixed-do solfege for atonal music). A minimum grade of " C " is required to pass this course for students in the Bachelor of Music Education curriculum. Prerequisites: MUTC 205 and MUTC 201 or permission of the instructor. One credit.

## MUTC $310 \quad$ Music Notation

A practical course in music notation, including correct practices for instrumental, vocal and keyboard music in all combinations, editing, proofreading, layout, and extractions of parts from a score. Also includes pencil/pen techniques (studio and publisher styles) and computer music notation and printing. Prerequisite: Permission of the instructor. Two credits.

## MUTC 3II Jazz Theory I

A course designed to equip the student with theory skills necessary to successfully improvise in the jazz idiom. Lead sheet notation, modes, and harmonic analysis are emphasized, as well as an introduction to jazz style. Prerequisite: Permission of the instructor. Two credits.

## MUTC $312 \quad$ Jazz Theory 2

A continuation of Jazz Theory I, with a review of chord/scale relationships, modal interchange, voicings and voice leading, non-harmonic tone treatment, melodic elaboration, chord substitution, rhythm changes, Coltrane matrix and extensive exploration of solo analysis. Prerequisite: MUTC 311 or permission of the instructor. Two credits.

## MUTC 40I Form and Analysis I

A study of the various structural elements of music: melodic, rhythmic, harmonic, and textural. Emphasis on traditional structural concepts and terminology, from sub-phrase units through single-movement classical forms. Prerequisite: MUTC 20I or permission of the instructor. Two credits.

## MUTC 402 Form and Analysis 2

A continuation of MUTC 40I including work with baroque and pre-baroque forms and procedures, concerto forms, art songs, etc. Prerequisite: MUTC 40I or permission of the instructor. Two credits.

## MUTC 408 16th Century Counterpoint

A study and application of modal counterpoint in two, three and four parts, including text-setting. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUTC 201 or permission of the instructor.Two credits.

## MUTC $409 \quad$ 18th Century Counterpoint

A study and application of principles of tonal counterpoint, including canons, inventions and fugues. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUTC 20I or permission of the instructor. Two credits.

## MUTC 4I3 Jazz Arranging and Composition

A basic course in arranging techniques, focusing on the small jazz ensemble. Voicing techniques, non-harmonic tone treatment, style, instrumentation and jazz form are emphasized. This course offered on an alternating
schedule. Check with advisor for next offering. Prerequisites: MUTC 202 and MUTC 3 II or permission of the instructor.Two credits.

## MUTC 414 Advanced Jazz Arranging and Composition

A course devoted to the study of large jazz ensemble arranging techniques. This is a continuation of the concepts explored in MUTC 413 as applied to big band writing. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUTC 413 or permission of the instructor. Two credits.

## MUTC 415 Contemporary Styles

Analysis of the compositional techniques and basic stylistic features of contemporary music. Analysis is drawn from composers from Wagner to the present. This course offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUTC 202 or permission of the instructor. Two credits.

## MUTC $419 \quad$ MIDI and Electronic Music

Electronic music concepts, techniques, and hardware, including MIDI and MIDI software, basic digital equipment and computers. Two clock hours of studio time per week accompany the class. A minimum grade of " $C$ " is required to pass this class in the Bachelor of Music in Music Production and Recording Technology curriculum. Prerequisite: MUTC 202. Two credits.

## MUTC 420 Electronic Music Synthesis

Introduction of electronic music concepts and synthesis, techniques, and hardware, including basic digital and analog equipment and computers. One hour of studio time per week accompanies the class. A minimum grade of " C " is required to pass this class in the Bachelor of Music in Music Production and Recording Technology curriculum. Prerequisite: MUTC 419. One credit.

## MUTC 42I Arranging

Fundamentals of arranging techniques and vocal arranging, supported by practical writing assignments. Prerequisite: MUTC 201. Two credits.

## MUTC 422 Instrumentation

Principles and techniques for use of orchestral instruments. Study of ranges, voicings, timbre and idiomatic characteristics supported by practical scoring for each group and for various combinations of all instruments. Prerequisite: MUTC 201. Two credits.

## MUTC 45I Song and Jingle Writing

A thorough analysis of the techniques of composing music in the "pop" idiom including analysis of harmonic and melodic structures, lyrics and instrumentation. Exploration of the industry and writing techniques of radio/ television commercial jingle writing. Class assignments include several written compositions, including a "pop" song for vocal quartet, a complete song in the "top 40" idiom and several 30 -second commercial spots. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this course in the Bachelor of Music in Music Production and Recording Technology curriculum. Prerequisite: MUTC 20I.Two credits.

## MUTC 452 Advanced Song and Jingle Writing

A continuation of MUTC 45 I with an emphasis on music for video. A minimum grade of " C " is required to pass this class in the Bachelor of Music in Music Production and Recording Technology curriculum. Prerequisite: MUTC 45I. Two credits.
MUTC 495 Special Topics
Investigation of a specialized area of knowledge in a class setting. Prerequisites will vary with topic and permission of the instructor. One, two or three credits.

## MUTC 499 Individual Directed Research

A private instruction setting for individual projects in theory and musicology. May be used to fulfill music electives only. Project proposal must be approved by the associate dean for undergraduate studies and the music theory program coordinator prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## MUSIC THERAPY (MUTH)

## MUTH 3II Introduction to Music Therapy

An introductory orientation to music therapy in terms of its history, theoretical foundations, scope of current clinical practice and research and relationship to other health care professions. A minimum grade of " C " is required to pass this class. Two credits.

## MUTH $312 \quad$ Music in Therapy

A survey of music resources used in a variety of therapeutic settings with emphasis on student development of musicianship, including accompanying skills on keyboard, guitar and other fretted instruments, and leadership skills used by music therapists. A minimum grade of " C " is required to pass this class. Two credits.

## MUTH $321 \quad$ Standards of Clinical Practice

Emphasis on application of the AMTA Standards of Clinical Practice, in preparation for music therapy field placement experiences. Topics include music therapy assessment, treatment planning, program implementation, program evaluation, documentation and termination/discharge planning. A minimum grade of " C " is required to pass this class. Prerequisite: MUTH 3II.Two credits.

## MUTH 322 Music Therapy Methods

A survey of methods used in music therapy practice, including performance, improvisation, song materials, physiological/psychological responses to music, music and movement, technology, recreational music, music psychotherapy, and combine interdisciplinary approaches. A minimum grade of " C " is required to pass this class. Prerequisites: MUTH 3II, MUTH 312 and MUTH 33I. Two credits.

## MUTH 331 Psychology of Music

The integration of music therapy knowledge and skills in field placement settings associated with gerontology. Emphasis on use of the AMTA Professional Competencies as the basis for student learning. Concurrent classroom instruction, including lecture, demonstration and rehearsal of skills. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of instructor. Two credits.

## MUTH 332 Influences of Music on Behavior

Emphasis on reading, evaluating and applying experimental research findings on the influence of music on behavior to music therapy clinical settings. Topics include measurement of physiological and psychological responses to music and the use of quantitative research methods when collecting, codifying, interpreting and presenting behaviorally-based data generated within a musical context. A minimum grade of " C " is required to pass this class. Prerequisites: MUTH 321 and MUTH 322. Two credits.

## MUTH $340 \quad$ Music Therapy and Gerontology

The integration of music therapy knowledge and skills in field placement settings associated with gerontology. Emphasis on use of the AMTA Professional Competencies as the basis for student learning. Concurrent classroom instruction, including lecture, demonstration and rehearsal of skills. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisites: MUTH 312 and MUTH 32I. Two credits.

## MUTH $350 \quad$ Music Therapy and Developmental Disabilities

The integration of music therapy knowledge and skills in field placement settings associated with developmental disabilities. Emphasis on use of the AMTA Professional Competencies as the basis for student learning. Concurrent classroom instruction, including lecture, demonstration and rehearsal of skills. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisites: MUTH 312 and MUTH 321. Two credits.

## MUTH 36I Clinical Improvisation

This experiential course focuses on developing skills necessary for achieving therapeutic goals through the use of continuous, interactive music based initially on client-centered motor, affective and cognitive behaviors. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: MUTH 3II and MUTH 3I2. One credit.

## MUTH 363 Introduction to Sign Language

Fundamentals of American sign language. This course is offered on an alternating schedule. Check with advisor for next offering. One credit.

## MUTH 40I Music Therapy Seminar

A synthesis of music therapy education and training in preparation for internship. Emphasis on foundation, functions, professional responsibilities, therapeutic relationships, the identification of competency-based strengths and needs and future directions. Corequisite: MUTH 440 or MUTH 450. A minimum grade of "C" is required to pass this class. Prerequisites: MUTH 33I and MUTH 332. Two credits.

## MUTH $440 \quad$ Music Therapy and Mental Health

The integration of music therapy knowledge and skills in field placement settings associated with mental health. Emphasis on use of the AMTA Professional Competencies as the basis for student learning. Concurrent classroom instruction, including lecture, demonstration and rehearsal of skills. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisites: MUTH 312 and MUTH 321. Two credits.

## MUTH $450 \quad$ Music Therapy and Medicine/Rehabilitation

The integration of music therapy knowledge and skills in field placement settings associated with medicine/rehabilitation. Emphasis on use of the AMTA Professional Competencies as the basis for student learning. Concurrent classroom instruction, including lecture, demonstration and rehearsal of skills. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisites: MUTH 312 and MUTH 321.Two credits.

## MUTH 482 Music Therapy Internship

Internship requires 1,040 hours of clinical music therapy services under the supervision of a board certified music therapist, completed at a facility approved by the American Music Therapy Association, Inc. Prerequisites: Completion of all courses required for the Bachelor of Music Therapy degree or all courses required for the Certificate in Music Therapy, depending on program in which enrolled, and proficiency in piano, voice, guitar and nonsymphonic instruments. Minimum grade point average of 2.5 in core music therapy courses. Prerequisites: MUTH 40 I, MUTH 340, MUTH 350, MUTH 440 and MUTH 450. Twelve credits.

## MUTH 483 Music Therapy Internship I

A minimum of 225 hours of clinical music therapy services under the supervision of a board certified music therapist, completed at a facility approved by the American Music Therapy Association, Inc., or at Shenandoah University affiliated sites. Prerequisites: Completion of all courses required for the Bachelor of Music Therapy degree and proficiency in piano, voice, guitar and non-symphonic instruments. Minimum grade point average of 2.5 in core music therapy courses. Prerequisites: MUTH 40I, MUTH 340, MUTH 350, MUTH 440 and MUTH 450. Three credits.

## MUTH $484 \quad$ Music Therapy Internship 2

A minimum of 225 hours of clinical music therapy services under the supervision of a board certified music therapist, completed at a facility approved by the American Music Therapy Association, Inc., or at Shenandoah University affiliated sites. Prerequisites: Completion of all courses required for the Bachelor of Music Therapy degree and proficiency in piano, voice, guitar and non-symphonic instruments. Minimum grade point average of 2.5 in core music therapy courses. Prerequisites: MUTH 40I, MUTH 340, MUTH 350, MUTH 440 and MUTH 450. Three credits.

## MUTH $485 \quad$ Music Therapy Internship 3

A minimum of 225 hours of clinical music therapy services under the supervision of a board certified music therapist, completed at a facility approved by the American Music Therapy Association, Inc., or at Shenandoah University affiliated sites. Prerequisites: Completion of all courses required for the Bachelor of Music Therapy degree and proficiency in piano, voice, guitar and non-symphonic instruments. Minimum grade point average of 2.5 in core music therapy courses. Prerequisites: MUTH 40I, MUTH 340, MUTH 350, MUTH 440 and MUTH 450. Three credits.

## MUTH $486 \quad$ Music Therapy Internship 4

A minimum of 225 hours of clinical music therapy services under the supervision of a board certified music therapist, completed at a facility approved by the American Music Therapy Association, Inc., or at Shenandoah University affiliated sites. Prerequisites: Completion of all courses required for the Bachelor of Music Therapy degree and proficiency in piano, voice, guitar and non-symphonic instruments. Minimum grade point average of 2.5 in core music therapy courses. Prerequisites: MUTH 40I, MUTH 340, MUTH 350, MUTH 440 and MUTH 450. Three credits.

## MUTH 495 Special Topics

Investigation of a specialized area of knowledge in a class setting. A minimum grade of " C " is required to pass this class. Prerequisite: Permission of the instructor. One, two or three credits.

## MUTH 499 Individual Directed Research

A private instruction setting for individual projects in music therapy. May be used to fulfill electives only. Project proposal must be approved by the associate dean for undergraduate studies and the music therapy division coordinator prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## NURSING (N)

## N $100 \quad$ CARE: Career and Readiness Experiences

This course is designed to introduce students to essential knowledge, skills, values, meanings and experiences necessary to be successful in professional nursing practice. One credit.

## N $105 \quad$ Health Across the Lifespan: Health Promotion

This course offered in the classroom or online, introduces the student to knowledge, skills, values, meanings and experiences essential to the promotion of health and wellness in individuals, families and communities across the lifespan. The course focuses on self-knowledge, personal responsibility and appropriate use of resources to promote health and wellness in diverse populations. Special emphasis is on essential knowledge of the relationship of food, nutrition and health throughout the life span. Three credits.

## N $107 \quad$ Fundamentals of Nursing Practice

This course introduces the student to fundamental knowledge, skills, values, meanings, and experiences associated with professional nursing, and, in particular, the role of the nurse as a provider of care, coordinator of care and member of the profession. Basic concepts of caring for individuals with alterations in health and wellbeing are addressed. In addition, the student is introduced to nursing process and factors influencing care and the profession. The clinical component provides the student with the opportunity to practice basic nursing skills in the campus learning lab and provide basic nursing care to individuals in selected health care settings. Three hours lecture plus three hours clinical per week. Four credits.

## N 20I Health Assessment

This course assists students in developing knowledge, skills, values, meanings and experiences necessary to achieve competency in performing comprehensive/holistic health assessment of individuals across the lifespan. Pre/corequisites: N 272, N 283, N 107 and N 221.Three lecture hours plus three hours of lab/week. Four credits.

## N $207 \quad$ LPN to BSN Transition Course

This course assists the student in making the transition from the role of a Licensed Practical Nurse (LPN) to a professional Registered Nurse (RN) with a Baccalaureate degree. Prerequisites: Admission to the LPN to BSN Track. One credit.

## N $210 \quad$ Health Across the Lifespan: Psychiatric Mental Health Nursing

This course assists the student in developing, integrating and applying essential knowledge, skills, values, meanings and experiences in the care of diverse psychiatric mental health patients. Emphasis will be placed on assisting patients in achieving a higher level of mental health and enhanced quality of life in a variety of acute and community- based settings. Pre/corequisites: Psych 101, N 201, N 221 (N213-Second Degree), N 272 and N 283. Three lecture hours plus six hours clinical per week. Five credits.

## N $213 \quad$ Fundamentals and Skills for Nursing Practice

This laboratory course introduces the accelerated track nursing student to basic and intermediate skills that are essential to providing direct nursing care to individuals across the lifespan with a variety of lived experiences. Pre/corequisites: Admission to Accelerate Second Degree Track, N 272, N 283 and N 20 I. Two lecture hours plus six hours clinical per week. Three credits.

## N $214 \quad$ Health Across the Lifespan: Adults I

The intent of this course is to facilitate the development of knowledge, skills, values, meanings and experiences in order to provide comprehensive nursing care of diverse patients with alterations in fluid and electrolyte balance, diabetes, perioperative, pulmonary and cardiovascular function. Pre/corequisites: N20I, N2 IO (second degree), N22 I. Three lecture hours plus six clinical hours per week. Five credits.

## N $215 \quad$ Health Across the Lifespan I (Didactic Only)

The intent of this course is to facilitate the development of knowledge, skills, values, meanings and experiences in order to provide comprehensive nursing care of diverse patients with alterations in fluid and electrolyte balance, diabetes, perioperative, pulmonary and cardiovascular function. Pre/corequisites: N20I, N2IO (second degree), N22I. Three lecture hours. Three credits.

## N 22I Skills for Nursing Practice I

This laboratory course builds upon beginning skills learned in NIO7 and introduces the student to additional beginning skills used in providing comprehensive nursing care to individuals across the lifespan. Pre/corequisites: N 272, N 283, N 201 and N 107. Six hours of lab. Two credits.

## N $272 \quad$ Pathophysiology

This course is designed to assist the student in developing basic knowledge, skills, values, meanings and experiences associated with the pathophysiology of common illnesses/diseases. Emphasis is placed on cellular, tissue, organ and systems concepts as they interact to influence the health of human beings across the life span (formerly HP272). Prerequisites: BIO 260, BIO 260 lab ; BIO 23I, BIO 23 I lab; BIO 232, BIO 232 lab ; CHEM I2I.Three credits.

## N $283 \quad$ Pharmacotherapy

This course examine theories and basic principles of pharmacokinetics, pharmacodynamics and pharmacogenetics which provide a foundation for critical thinking, the application of research findings and the utilization of the nursing process in the use of pharmacotherapeutic agents to diverse clients across the lifespan. Pre/corequisite: MATH 210 is required ifTEAS math score is unsatisfactory. Three credits.

## N $306 \quad$ Theory, Reasoning and Research in Nursing

This course is designed to assist the student in developing knowledge, skills, values, meanings and experiences associated with utilization of theory, research, and reasoning in nursing practice. Students will learn how to translate and utilize replicated research in nursing practice. Prerequisites: Statistics; corequisites: N 214 . Three credits.

## N $\quad 307 \quad$ Health Across the Lifespan: Children and Adolescents

This course is designed to assist the student in developing knowledge, skills, values, meanings and experiences associated with comprehensive nursing care for diverse infants; children, adolescents and their families and communities. Emphasis is placed on provision of individualized care based on growth and developmental needs. Prerequisites: Completion of all N 200 level courses. Corequisite: N 323. Three lecture hours plus three clinical per week. Four credits.

## N $308 \quad$ Health Across the Lifespan: Families

This course prepares the student to utilize nursing knowledge, skills, values, and meanings and experiences to design and deliver comprehensive nursing care to families across the lifespan and in a variety of settings. Emphasis is placed on issues relevant to the experiences of families. Prerequisites: Completion of all N 200 level courses and N322. Three lecture hours plus three clinical hours per week. Four credits.

## N $314 \quad$ Health Across the Lifespan: Adults II

This course facilitates further development of nursing knowledge, skills, values, meanings and experiences related to the delivery of professional comprehensive nursing care for patients with common alterations in genetic, hematological, gastrointestinal, urinary tract, reproductive and endocrine health as well as those
experiencing cancer. The role of the nurse as a provision and manager of care is also emphasized.
Prerequisites: Completion of all N 200 level courses and N 322. Three lecture hours plus six clinical hours per week. Five credits.

## N $315 \quad$ Health Across the Lifespan: Adults III

This course builds on previous nursing knowledge, skills, values, meanings and experiences in preparing students to provide, manage and coordinate professional comprehensive nursing care for diverse patients with common alterations in neurological, musculoskeletal, immunological, and infectious alterations in health. Prerequisites: All 200 level nursing courses, and N 322. Pre/corequisites: N3I4, N 323. Three lecture hours plus six clinical hours per week. Five credits.

## N $316 \quad$ Palliative and End of Life Care

This course introduces the student to the basic principles and concepts involved in palliative and end of life care. The role of the nurse is explored with emphasis on holistic care. The student will be prepared to provide symptom management and pain control to the patient. Students will address ethical issues surrounding end of life care and various cultural issues of a diverse population. Students will gain knowledge, skills, values, meanings and experiences related to the chronically ill or dying patient. Prerequisites: All 200 clinical nursing courses or permission of instructor. Three credits.

## N $317 \quad$ Spirituality in Nursing

This course will explore the relationship between spirituality and the knowledge, skills, values, meanings and experiences associated with nursing. The course includes a historical perspective of spirituality as a healing art, contemporary theological and spiritual approaches to nursing care and the role of Parish Nurse. The nurse's personal spiritual needs will be explored and potential spiritual support mechanisms will be identified. Spirituality will be examined broadly, according to a variety of theologies; however, the primary orientation of the course content is derived from the Judaeo-Christian tradition. Pre/corequisites: All N 200 level clinical nursing courses or permission of instructor. Three credits.

## N $322 \quad$ Skills for Nursing Practice II

This laboratory course builds upon basic knowledge, skills, values, meanings and experiences achieved in N22I and introduce the student to intermediate skills used in providing direct nursing care to diverse individuals across the lifespan. Prerequisites: N 272, N 283, N20I and N221. Three hours of lab. One credit.

## N $323 \quad$ Skills for Nursing Practice III

This laboratory course builds upon basic knowledge, skills, values, meanings and experiences achieved in N322 and introduce the student to advanced skills used in direct nursing care of diverse individuals across the lifespan. Prerequisite: N 322. Corequisite: N 314 (Accelerated Second Degree Students only) and N 3 I5. Three hours of lab. One credit.

## N $374 \quad$ Living with Grief and Death

This course is designed to explore the knowledge, skills, values, meanings and experiences surrounding death and death traditions of selected global populations. It will focus on an in-depth analysis of grieving and dying. The course will explore nursing measures that facilitate acceptance of the grieving and dying processes. Prerequisites: Admission to Nursing Program and permission of the faculty. Three credits.

## N $375 \quad$ Adult and Adolescent Physical and Sexual Assault

This course is designed to provide a basis for study of the evolving status of forensic nursing by exploring issues, identifying trends that will influence the development of this specialty and interacting and working with members of a multidisciplinary team of professionals involved in the care of victims of violent crime. Emphasis is placed on providing interventions that are congruent with age, health status, culture, occupation and legal and ethical concerns. Knowledge, skills, values, meanings and experiences will be incorporated in the course presentation. Prerequisite: Permission of the instructor. Three credits.

## N 376 Evolution of the Nursing Profession

The focus of this course is to review the history of nursing analyze its impact on contemporary nursing knowledge, skills, values, meanings and experiences. The class examines historical nursing leaders and events that influenced development of the nursing profession. All N 200 level nursing courses or permission of instructor. Three credits.

## N $401 \quad$ Health Across the Lifespan：Communities

This course is designed to prepare students for contemporary public and community health nursing practice． Students will develop appropriate knowledge，skills，values，meanings and experiences associated with public and community nursing of diverse individuals，families，groups，and aggregate communities．Concepts of community as partner，empowerment and healing，participatory research and ecology are explored．Clinical experiences will take place in a variety of community settings．Prerequisites：All N 300 level courses and Sociology．Corequisite：N 4I5．Three lecture hours plus six hours clinical／week．Five credits．

## N $403 \quad$ Health Across the Lifespan：Clinical Elective

This course provides the student with additional experiences in the provision，management and coordination of professional and comprehensive nursing care in a variety of specialty practice areas．This course also begins to transitions individuals from the role of student to the role of independent nurse．Post－conference time allows for discourse and analysis of specialty clinical experiences in preparation for the National Council of Licensure registered nurse examination．Pre／corequisite：N40I．Nine hours clinical per week．Three credits．

## N $404 \quad$ Reflections on the Art of Nursing

This course is designed to introduce the student to the knowledge，skills，values，meanings and experiences in art of nursing．Emphasis is on the impact of written，verbal，performing，and visual arts on the healing process． Pre／corequisites：All N 200 level course or permission of the faculty．Two credits．

## N $405 \quad$ Nursing Issues and Career Development

This course is designed to explore contemporary nursing issues and synthesize nursing knowledge，skills， values，meanings and experiences necessary to prepare the student for entry into the professional nursing workforce．Experiences include analysis of current trends and issues in professional nursing and completing a presentation or debate on a controversial issue with their class peers．Student will be prepared to apply for State Board Licensure registered nurse，the job interview process，completing resumes／professional portfolios and career planning．Pre／corequisite： N 403．Two credits．

## N $414 \quad$ Leadership and Ethics in Professional Nursing Practice

This course continues to develop knowledge，skills，values，meanings and experiences associated with developing professional and ethical leaders and mentors in the delivery of comprehensive nursing care．A variety of nursing ethics，management and leadership theories，principles，and models are examined．Students will have the opportunity to apply management，leadership，and ethics theories，principles and models in simulated experiences．Pre／corequisites：All 300－or 400－level nursing courses or permission of the instructor． Three class hours．Three credits．

## N $415 \quad$ Emergency Preparedness and Disaster Nursing

This course explores and prepares the nurse for response to various types of disasters，including natural， environmental，mass casualty，public health emergencies，terrorism and bioterrorism by utilizing essential knowledge，skills，values，meanings and experience in the basic competencies of emergency preparedness and disaster nursing．Pre／corequisites：All 40 I or admission to the RN－BSN track．Three credits．

## N $450 \quad$ International Health Care

This course provides students with the opportunity to experience international travel and develop knowledge，skills，values and meanings associated with nursing and health care in a variety of international settings．Students will explore political，economic，social，and cultural influence on the role of nursing and other health care providers in promoting and providing health care in the international community．Prerequisite： Admission into the Nursing Program or permission of the faculty．Three credits．

## N $499 \quad$ Selected Topics in Nursing

This independent study course is designed to allow students to scientifically explore selected problems or issues in nursing and／or health care under the direction of a nursing faculty member．Prerequisite：Admission to Nursing Program．One，two or three credits．

## PERFORMANCE ATTENDANCE (PRF)

## PRF IOI Performance Attendance

Required attendance at selected events that support curricular offerings. One-half credit.

## PRF 20I Health Issues for Artists

The purpose of this course is to provide injury prevention education for students in the Conservatory curricula in music and dance. One-half credit.

## PHILOSOPHY (PHIL)

## PHIL IOI Introduction to Philosophy

A course designed to introduce the student to the nature of philosophical thought. Attention is given to philosophical method, definition of terms, identification of philosophical problems and a limited number of individual philosophers and their systems. Offered yearly in the spring. Three credits.

## PHIL $120 \quad$ History of Western Philosophy

This course offers students an historical survey of Western philosophy from the pre-Socratics to the present. Offered alternate years in the fall. Three credits.

## PHIL I30 Introduction to Medical Ethics

An introduction to morality in general and an inquiry into the major moral problems of medical practice. Three credits.

## PHIL $150 \quad$ Ethics and Society

This course will offer a general philosophical introduction to ethics with readings from Aristotle, Kant and Mill. These classical approaches will be utilized in the analysis of issues and cases of general relevance and those specifically related to the fields of study represented by the schools of the university. Three credits.

## PHIL $220 \quad$ Critical Thinking

As the result of this course, students will understand the structures of reasoning, methods of decision-making, analysis, interpretation, evaluation, inference, the principles and methodologies of critical thinking, and the use of this understanding in developing good decision-making tools for personal and career use. Three credits.

## PHIL 225 Christian Social Ethics

This course will explore possible Christian responses to contemporary social problems. Topics typically includes just war and pacifism, poverty and economic justice, sexuality (including homosexuality, abortion and sexism), euthanasia, capital punishment and racism. Three credits.

## PHIL 3II Asian Religion and Philosophy

This course examines the major philosophies and religions of Asia, including Hinduism, Buddhism, Taoism, Confucianism and Shinto. Particular attention will be paid to conceptions of self, nature, divinity and ethics. The course will also examine the ways in which these religions have influenced each other. Prerequisite: PHIL IOI or PHIL I 20 or REL I 0 I or REL 202. Offered alternate years in the fall. Three credits.

## PHIL 320 Aesthetics

A study of the nature of art with emphasis on both experience and criticism. The study of interpretations of the aesthetic experience is made within the context of selected works of art. Prerequisite: PHIL $10 \mid$ or permission of the instructor. Offered alternate years. Three credits.

## PHIL $331 \quad$ Philosophy of Nonviolence

This course examines the history, theory and practice of nonviolence as it has developed through human history. Particular attention is paid to the nonviolence of Mahatma Gandhi and Martin Luther King, Jr. through their writings and campaigns for justice, as well as an evaluation of the merits and limitations of nonviolence as a means of social change. Prerequisite: One course in philosophy or religion and one course in history or political science. Three credits.

## PHIL 341 Problems in Philosophy

An intensive study of some of the major and perennial problems of philosophy, religion, and science. Prerequisite: PHIL IOI. Three credits.

## PHIL $361 \quad$ History of Western Political Philosophy I

A survey of the great political writings of Western Civilization from Ancient Greece to the Renaissance. Three credits.

## PHIL 362 History of Western Political Philosophy II

A continuation of PHIL 36I covering the great political writings from the Renaissance to the present. The course covers the rise of modern political ideology. Prerequisite: PHIL 36 I or permission of the instructor. Three credits.

## PHYSICS (PHYS)

## PHYS 103 Acoustics

Basic concepts of sound in relation to music. The course includes an introduction to the physics of vibrations, the nature and transmission of sound waves, spectrum description of complex waves, spectrum analysis of musical instruments, properties of musical scales, and temperament. The biophysics of sound reception includes a study of the ways in which the ear and the auditory nervous system transform and encode musical messages. Two-hour lecture plus two-hour laboratory per week. Three credits.

## PHYS $105 \quad$ The Physical Universe

This is a conceptual survey course covering the basic principles of physics and space science. Emphasis will be placed on developing an appreciation of the subject as it relates both to every day phenomena and to socially relevant physical science issues. The course is specifically designed for the non-technical student and requires only a minimal fluency in mathematics. This course also forms part of a three-course series with BIO 105 and CHEM 105. Together the three courses provide an overview of the natural sciences and fulfill the requirements for Virginia state elementary (K-6) teacher licensure. The courses may be taken in any sequence. Three-hour lecture plus two-hour laboratory per week. Four credits. PHYL 105 The Physical Universe lab must be taken concurrently.

## PHYS III College Physics I

A study of the fundamental laws and principles of physics with emphasis on topics and applications to areas of the health professions. This course covers principles of statics, dynamics, work and energy, states of matter, heat and thermodynamics and wave phenomena. Three-hour lecture plus three-hour laboratory and one-hour recitation per week. Prerequisite: MATH I02. Four credits. PHYL Lab and PHYR III Recitation must be taken concurrently.

## PHYS II2 College Physics II

A continuation of PHYS \| \|. Topics include electricity, magnetism, light, modern physics, and nuclear radiation. Three-hour lecture plus three-hour laboratory and one-hour recitation per week. Prerequisite: PHYS III. Four credits. PHYL Lab and PHYR I I2 Recitation must be taken concurrently.

## PHYS 121 General Physics I

An introduction to the basic principles of physics including classical mechanics, vibrations and waves, properties of matter, kinetic theory of gases, light, relativity, electricity, magnetism and radioactivity. This course is calculus-based and intended for students majoring in science, mathematics, computer information systems, and engineering. Three-hour lecture plus three-hour laboratory and one-hour recitation per week. Prerequisite: MATH 20I. Four credits. PHYL Lab and PHYR 121 Recitation must be taken concurrently.

## PHYS I22 General Physics II

A continuation of PHYS 121.Three-hour lecture plus three-hour laboratory and one-hour recitation per week. Prerequisite: PHYS I21. Four credits. PHYL Lab and PHYR 122 Recitation must be taken concurrently.

## PHYS 201 Introduction to Microcomputers

Topics to be covered include microcomputer system components and how they function, instruction sets and how they are programmed, input/output controller design and $A / D$ and D/A converters. Selected experiments conducted to obtain hands-on experience with micro-computer circuitry. Three-hour lecture plus three-hour laboratory per week. Prerequisite: PHYS I22. Four credits. PHYL 20 I Introduction to Microcomputers lab must be taken concurrently.

## PHYS $221 \quad$ Modern Physics

An introduction to post-classical physics as based upon the twin pillars of relativity and quantum mechanics. Material will be selected from areas of atomic, nuclear, solid-state and astro-physics. Prerequisites: MATH 201 and MATH 202, PHYS III/PHYS II2 or PHYS I2I/PHYS I22.Three credits.

## PHYS 295 Topics

Study of specific topics, issues or themes within the field of physics. Three or four credits. PHYL 295 Topics lab might be taken concurrently.

## PHYS $299 \quad$ Directed Studies

This course is designed to provide an opportunity for open-ended study of scientific methods and results of current interest in physics. The independent study may consist of a basic research problem, a library thesis or a problem in science education. Prerequisite: Four credits in physics. One, two or three credits.

## PHYS 33I Mathematical Methods in the Physical Sciences

A course designed to provide the science student with a repertoire of advanced mathematical techniques. Topics include infinite series, multivariate calculus, Vector analysis, complex variables, differential equations, integral transform and probability. Emphasis placed on applications to problems in physics. Prerequisites: MATH 201 and MATH 202. Recommended: PHYS III/PHYS II2 or PHYS I2I/PHYS I22. Three credits.

## PHYS 352 Health Physics

This course deals with topics in physics related to the health area. Topics include nuclear binding energy, nuclear models, radioactive decay, interaction of radiation with matter and radiation dose measurements. Prerequisite: PHYS II2 or PHYS 122. Three credits.

## PHYS 375 Research Seminar

This course is designed to provide an opportunity for study of the scientific approach to the solution of technical problems. Prerequisite: Junior or senior standing or permission of the instructor. Two credits.

## PHYS 495 Advanced Topics

Study of specific topics, issues, or themes within the field of physics. Prerequisite: Permission of the instructor. Three or four credits. PHYL 495 Advanced Topics lab may be taken concurrently.

## POLITICAL SCIENCE (PSCI)

## PSCI IOI Introduction to Political Science

An introduction to political science emphasizing concepts basic to politics and political thought. Three credits.
PSCI 102 Introduction to Public Administration
A survey of the principles, functions and processes of public administration with the specific emphasis on the political aspects and environment of bureaucracies. This is an introductory course. No prerequisites are required. Offered every year. Three credits.

## PSCI 201 American Government

An introduction to the processes and institutions of the federal government. Three credits.
PSCI 202 State and Local Government
An introduction to the forms and functions of state and local government, emphasizing Virginia. Three credits.

## PSCI 204 Introduction to International Politics

This course is designed as an introduction to the complex and dynamic nature of world politics. The goal of this course is to assist students in their endeavor to make sense of global issues and how they affect the global system, nation-states, not-state actors and the individual. Three credits.
PSCI 205 Introduction to Public Policy
A study of the process of making public policy, including detection of public issues, consideration of alternatives and adoption and implementation of solutions. Recommend PSCI IO2 or approval of the instructor. Offered every other year. Three credits.

## PSCI 206 Introduction to Theories of Public Organization

An introduction into public administration theory with a focus on public organization theories of management, motivation, leadership, communication, conflict resolution and decision making. Recommended: PSCl IOI and PSCl I02. Offered every other year. Three credits.

## PSCI 207 Communism, Fascism and Democracy

During the last century, three competing ideologies dominated the global system: liberalism, communism and fascism. The primary goal of this course is to familiarize students with the philosophical foundations for these ideologies and the goal cultures they hope to achieve. Three credits.

## PSCI 209 Introduction to Comparative Politics

This course is designed as an introduction to the comparative study of political institutions and social processes at both the theoretical and practical levels. Examination at the theoretical level will entail a comparative assessment of the multiple means of governance. The practical study will include an examination of a set of nation-states with differing political, ideological, cultural and economic structures. Three credits.

## PSCI 295 Topics

Study of specific topics, issues or themes within the field of political science. Three credits.

## PSCI 301 History of Western Political Philosophy I

A survey of the great political writings of Western Civilization from Ancient Greece to the Renaissance. Three credits.

PSCI 302 History of Western Political Philosophy II
A continuation of PSCl 301 covering the great political writings from the Renaissance to the present. Prerequisite: PSCl 30 I or permission of the instructor. Three credits.

## PSCI 303 American Foreign Policy

This course serves as an introduction to the complex nature of American foreign policy and focuses on several aspects of the foreign policy making process. These include the historical evolution of U.S. foreign policy, institutional processes involved in decision making and key issues American officials confront. Three credits.

## PSCI $305 \quad$ Conflict Management

This course is designed to provide the student with an understanding of the dynamics of personal and organizational conflict and the knowledge and skills necessary to manage conflict. Recommend PSCl 102 and $\mathrm{PSCl} \operatorname{IOI}$ or permission of the instructor. Offered every other year. Three credits.
PSCI 306 American Political Parties, Elections and Voting Behavior
A study of national political organizations, processes, and behavior to include political parties, the nomination and election process, and the development of political attitudes and behavior. Three credits.

## PSCI 308 The American Presidency

This course will focus on the emergence and development of the modern presidency as an institution and its role in contemporary politics. The course will emphasize the constitutional background of the office, the evolution of presidential powers, the relationship between the presidency and Congress and the bureaucracy, the presidential election process, and the role of the presidency in policy-making. Offered every other year. Three credits.

## PSCI $310 \quad$ U.S. Constitution (same as HIST 3I0)

An analysis of Supreme Court decisions throughout the nation's history affecting the three branches of the national government and federal/state relations. Recommend PSCl 101 and PSCl 201 or the permission of the instructor. Three credits.

## PSCI 3II Organizational Leadership

A course designed for the purpose of providing the student with an understanding of the theory and practice of organizational leadership. Three credits.

## PSCI 35I Politics and the Media

An interdisciplinary introduction to the complex interrelationship between politics and the media as well as between media/politics and all other areas of contemporary life. This course presents principles of politics and the media and trains students to analyze political life, issues, trends and events as they are covered, or not covered, by the news media. Prerequisites: MCOM IOI and MCOM I30. Three credits. Offered every two years.

## PSCI 40I Research Studies in Political Science

Research in Political Science of an instructor approved topic. May be taken as independent study. Three credits.

## PSCI 402 Internship in Political Science

On-the-job working experience in a Political Science-related career field. Three credits.

## PSCI 403 Global Governance and International Organizations

This course examines the role of international organizations and international law in the contemporary global political system. It does so with particular focus on trends of rapid globalization and efforts to set up a means for global governance. Primary attention is devoted to global institutions, particularly the United Nations system. Three credits.

## PSCI 404 Global Human Rights

This course is designed to engage students in both a discussion of the philosophical and legal foundations of global human rights and an analysis of specific-issue areas within the human rights discipline. These issue-areas will be chosen in conjunction with the students, but might include foreign policy, humanitarian law, economic policy, women's rights or children's rights. Prerequisite: PSCI 204 or 303. Three credits.

## PSCI 495 Topics

A study of selected topics in political science to be published in advance of the semester offered. Prerequisite: three credits in political science or permission of the instructor. Three credits.

## PSYCHOLOGY (PSY)

## PSY IOI General Psychology

A basic introduction to psychology with emphasis given to such ideas as measurement, testing, learning, motivation, emotions, attitudes, social influences on behavior, personality, behavior disorders, mental health and psychotherapy. Three credits.

## PSY $220 \quad$ Child Development

This course focuses on the study of the physical, social, emotional and intellectual development of children from conception through adolescence. Individual differences and developmental issues as they relate to all areas of the child's life will be emphasized. Prerequisite: PSY IOI. Three credits.

## PSY 308 Experimental Methods in Psychology

This course examines the basics of research design. Emphasis is placed on formulating, conducting, analyzing and reporting psychological research. Prerequisites: PSY IOI and MATH 207.Three credits.

## PSY $310 \quad$ Abnormal Psychology

A survey of the description, causes, and treatment of abnormal or maladaptive behaviors. Prerequisite: PSY 101. Three credits.

## PSY $312 \quad$ Theories of Personality

A critical examination of the major theories, past and present, that have been proposed to explain individual differences in behavior. Prerequisite: PSY IOI. Three credits.

## PSY 322 Adolescent Development

This course provides students with an understanding of the biological, cognitive and socioemotional changes occurring during adolescence, and factors that may individually influence these changes, such as the family, culture, gender, peer group, media and school. Prerequisite: PSY IOI. Three credits.

## PSY $324 \quad$ The Adult Years and the Aging Process

This course is a study of the stages and processes of adult development from young adulthood until death. Developmental theories and research from many disciplines are used to investigate the continuity and change that define the journey of adulthood. Prerequisite: PSY IOI.Three credits.

## PSY $325 \quad$ Psychology in the Classroom

This course applies the principles of psychology and psychological research methods to the teaching and learning processes in the classroom. Theories of learning and motivation as well as strategies for classroom management, effective teaching and student assessment are examined with regards to both children exhibiting "typical" development and children with exceptionalities. Socioeconomic, cultural, ethnic and gender influences also are emphasized. Prerequisite: PSY IOI.Three credits.

## PSY $330 \quad$ Behavior Modification

Learning theories and their application to therapeutic situations are presented. Classical conditioning, operant conditioning, and social learning are presented and applied to clinical settings. Prerequisite: PSY 101 . Three credits.

## PSY 355 Social Psychology

An investigation of how individuals interact with each other in varying social contexts, including emphasis on social cognition and social influence. Prerequisite: PSY IOI. Three credits.

## PSY $360 \quad$ Biopsychology

This is a course about the biology of behavior. Special attention is given to sex, drug action and addiction, perception, sleeping and eating. Other topics include: the neural substrates of eating disorders, schizophrenia, memory and autism, as well as what happens when sexual differentiation goes wrong. This course also includes an optional field trip to an area cadaver lab to examine human brains. A background in biology is helpful, but not required. Prerequisite: PSY IOI or any class in biology. Three credits.

## PSY 391 Topics in Psychology

Investigation of specific topics or issues within the field of psychology. Prerequisite: PSY IOI. Three credits.

## PSY 40I Practicum

An opportunity for psychology majors to integrate classroom experiences in applied psychological settings. Prerequisites: Twelve credit hours in psychology and permission of instructor. May be repeated once. Three credits.

## PSY 405 Research Practicum

An opportunity for psychology majors to integrate classroom experiences in an applied research setting. Prerequisites: PSY IOI, PSY 308, and permission of the instructor. Three credits.

## PSY 4II Foundations of Counseling and Counseling Theories

An introduction to the profession of counseling with emphasis upon relevant personal, situational, ethical and legal aspects of the counseling process, as well as traditional and contemporary theories of counseling. Prerequisite: PSY IOI. Three credits.

## PSY 4I2 Clinical Helping Skills

This course provides an introduction to the basic helping and interviewing skills that apply to a broad range of helping professions. The format of the course emphasizes experiential learning in meeting course objectives. Prerequisites: PSY IOI. Three credits.

## PSY $425 \quad$ Psychology, Gender and Culture

This course examines gender and culture drawing examples from the fields of psychology, anthropology, religion and history. Special attention is given to how biological and cultural factors work in concert with our psychological perceptions to shape our definitions of sex/gender and how this impacts our daily lives. Topics include gender identity whether male or female, or other, gender diversity in stereotypes and roles, relationships, sexuality, gendered rituals and gender portrayals in myth and religion. Prerequisite: PSY IOI or WST 100. Three credits.

## PSY $428 \quad$ Cognitive Development

This course is a study of cognitive development from infancy through adolescence. Perception, language, memory, social cognition, play, categorization, theory and the role of culture in cognitive development are highlighted. Prerequisites: PSY IOI and PSY 220. Three credits.

## PSY $430 \quad$ Psychology and Animal Behavior

This upper-division course is intended for psychology students interested in exploring animal behavioral research literature with an emphasis on primates and cetacea (porpoises, dolphins and whales). Offered alternate years. Prerequisites: PSY 101 and 308 . Three credits.

## PSY $460 \quad$ The Psychobiology of Stress

This course will examine how the nervous system responds to stress and how prolonged stress can cause or intensify a range of physical and mental afflictions. Techniques for managing stress will also be highlighted. A background in biology is helpful, but is neither required nor necessary. Prerequisite: PSY 101 or any class in biology.Three credits.

## PSY $465 \quad$ Cross-Cultural Psychology

This upper division course is intended for psychology students interested in exploring how culture affects and interacts with the entire range of psychology and human behavior, from our senses and perception to development, emotions, cognition and learning, etc. Prerequisites: PSY 101 and 12 additional credit hours in psychology. Three credits.

| PSY 480 | Advanced Data Analysis: |
| :--- | :--- |
|  | Computer Analysis of Psychological Research Data |

This course provides the students with a practical, hands-on approach to learning how to use computers to enter, "clean," manipulate, statistically analyze and interpret a wide variety of real-world social science data. It is the second in the two course methodology requirement for psychology majors. Prerequisite: PSY 308. Three credits.

## READING EDUCATION (RDG)

## RDG 424 The Diagnostic Teaching of Reading

Training in techniques for evaluation of reading progress, diagnosis of reading difficulties and correction of reading problems. Prerequisite: ED 324 . Three credits. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia.

## RDG 425 Reading and Writing in the Content Area

This course will examine effective methods of teaching reading and writing within the frameworks of content areas other than language arts. Students will become familiar with the theoretical foundations of teaching reading and writing in content area course work, as well as have opportunities to apply those theories to their own reading and writing skills improvement. The focus will be on reading and writing principles and practices employed to increase student achievement in the content areas. For their application projects, students will have tutoring experiences with local middle and secondary school students who need tutoring in reading and writing skills. Prerequisites: EDU 20 I/EDU 30 I and EDU 34 I/KNS 303 or EDU 324 or permission of instructor. Three credits. Must submit evidence of Praxis I score that satisfies licensure regulations for the Commonwealth of Virginia.

## RELIGION (REL)

## REL IOI Introduction to Religion

A wide-ranging study of religious thought and experiences. Both Christian and non-Christian ideas examined. Offered yearly in the fall. Three credits.

## REL IIO The Global Context of Christian Leadership

This course explores the global context of 21 st century Christian leadership. It examines the challenge of Christian mission and leadership in a post-modern and post-Christian world. Three credits.
REL II2 Christian Discipleship
This course will focus on the beliefs, attitudes and practices that define Christian discipleship. Drawing upon both film and a variety of types of literature (both fictional and non-fictional) it will consider various possible cross-denominational understandings of what it means to be a Christian, contrasting those that focus on "beliefs" with those that focus on "character" and "practices." Of particular interest will be the distinctive spirituality and morality associated with Christian life. The course will introduce the spiritual or devotional practices (both corporate and personal) by which Christians cultivate their relationship to God and through which Christian identity and character are formed. Finally, the course will look at ways Christians make decisions in relation to significant contemporary moral challenges. Three credits.

## REL 202 World Religions

A study of non-Christian religions, their origins and teachings. Offered alternate years in the spring. Three credits.

## REL $210 \quad$ Introduction to the Hebrew Bible

This course will survey the religious ideas and theological motifs of the Hebrew Bible. Students will be introduced to critical methods of scriptural study as these relate to the origins, development, canonization and meanings of the text. The role of the Hebrew Bible in shaping the devotional, liturgical and moral lives of both Jewish and Christian people today will be considered. Three credits.

## REL 2II Introduction to the New Testament

This course will survey the religious ideas and theological motifs of New Testament. Students will be introduced to critical methods of scriptural study as these relate to the origins, development, canonization and meanings of the text as a document written in the Greco-Roman world of the first century. The role of the New Testament in shaping the devotional, liturgical, and moral lives of Christian people today will be considered. Three credits.

## REL $212 \quad$ Life of Jesus

A study of the life of Jesus utilizing Biblical, historical and theological sources. Prerequisite: Permission of the instructor. Three credits.

## REL $220 \quad$ A Survey of Western Christianity

This course will survey a selected number of the major ideas and events in the history of the western churches from the second to the 20th century. The course content will provide familiarity with the central concepts and practices of Christian traditions as well as setting forth the ideas and practices that ground the faith of ordinary Christians through the centuries. Three credits.

## REL 225 Christian Social Ethics

This course explores possible Christian responses to contemporary social problems. Topics include just war and pacifism, poverty and economic justice, sexuality (including homosexuality, abortion and sexism), euthanasia, capital punishment and racism. Offered alternate years in the fall. Three credits.

## REL 25I Christian Spirituality

This course studies the beliefs, attitudes and practices by which Christians seek to cultivate their relationship with God and grow in Christian discipleship. Prerequisite: Permission of the instructor. Three credits.

## REL 301 Christian Theology

This course serves as an introduction to Christian Systematic Theology and considers the purpose of and methods for engaging in systematic theological reflection, the nature of God as Trinity, the person and work of Christ (Christology and Soteriology), the work of the Holy Spirit (Pneumatology), the nature and ministry of
the Church (Ecclesiology) and Christian Hope (Eschatology). Prerequisites: PHIL 120 and REL I I । or permission of the instructor. Offered alternate years in the fall. Three credits.

## REL $310 \quad$ Judaism

This course examines basic Jewish beliefs, sacred texts, customs/ceremonies, Holy Days (the Jewish year), as well as the most common issues facing modern day Jews and Judaism. Prerequisite: REL IOI or REL I। | or REL 202 or permission of the instructor. Offered alternate years in the fall. Three credits.

## REL 3II Asian Religion and Philosophy

This course examines the major philosophies and religions of Asia, including Hinduism, Buddhism, Taoism, Confucianism and Shinto. Particular attention will be paid to conceptions of self, nature, divinity and ethics. The course examines the ways in which these religions have influenced each other. Prerequisite: PHIL $10 \mid$ or PHIL 120 or REL IOI or REL 202. Offered alternate years in the fall. Three credits.

## REL 312 Islam

This course provides a general introduction to Islam. It considers the history, doctrines and cultic and devotional practices of Islam. The emergence of Islamic Fundamentalism and political Islam in the 20th century considered. Prerequisites:Two courses in religion or philosophy or permission of the instructor. Offered every four years in the spring. Three credits.

## REL $320 \quad$ Christian Education

In this course, students examine the educational ministry of the church. Some of the key topics include the teaching style of Jesus, theories of Christian education, the formation of Christian identity and conscience, theories of faith development, leadership development and practical issues related to resources, curriculum and programming. Prerequisites: REL I II or REL 212 and REL 225 or REL 25 I or REL 30 I or permission of the instructor. Offered in alternate years in the fall. Three credits.

## REL $321 \quad$ Church Leadership

This course provides students with a foundation for understanding the ministry of the local congregation and of the leadership issues related to ministry in that setting. It considers biblical and theological understandings of the ministry of the church and of the distinction between clerical and lay ministry. Different forms of church organization, styles of leadership and the decision-making structures in the local church considered. Each student has an opportunity to explore leadership issues of individual interest such as leadership in social or political ministry, the leadership of women, leadership in Black churches, worship leadership, etc. Prerequisite: permission of the instructor. Three credits.

## REL $330 \quad$ Christianity in the United States

This course considers the role and place of Christianity in the public culture of the United States.Topics include historical Christian justification of democracy, the first amendment and "separation of church and state," the theological significance of "America," the emergence of fundamentalism as a political force, contemporary concerns about hostility toward and trivialization of religious belief in public discourse and the media and recent Christian proposals for relating the Christian community to democratic society. Prerequisites: One course in religion and one course in United States history or permission of the instructor. Offered alternate years in the fall. Three credits.

## REL 332 Christianity and the African-American Experience

This course examines the interrelationship between Christianity and the unique experience of persons of African decent in the United States. The course focuses on the impact of the slave experience on AfricanAmerican religion, the development of African-American churches with particular emphasis on the AfricanAmerican church as a social and political institution and the role of African-American churches in the Civil Rights and Black Power movements. Prerequisites: One course in religion, one course in U.S. history or permission of the instructor. Offered every three years in the spring. Three credits.

## REL $340 \quad$ Religion and Ecology

This course examines and evaluates the beliefs, attitudes and practices of the major religious traditions as they pertain to human interaction with the natural world. It will help students understand the relation of religion and ecology and to become acquainted with the thought of the best thinkers in this emerging field of study. Prerequisite: Completion of the general education requirements in natural sciences and moral reasoning. Three credits.

## REL 391 Topics in Religion

Selected topics in religion for intensive reading, discussion and writing. Prerequisite: Any 100- or 200-level religion course or permission of the instructor. Three credits.
REL $401 \quad$ Seminar in Religion
An intensive seminar on a current Biblical or theological topic. Prerequisite: Nine credits of religion beyond the 100 level. Three credits.

## REL $421 \quad$ Practicum in Ministry I

In this course, a student serves as an apprentice in ministry at a local church or agency. The course offers students an opportunity to explore, in a practical way, a particular aspect of the ministry of the church while receiving on-site and faculty supervision. Prerequisites: REL 32I, enrollment in the Christian Leadership program and permission of the instructor. Two or three credits.
REL $422 \quad$ Practicum in Ministry II
A continuation of REL 42I. Prerequisites: REL 42I, enrollment in the Christian Leadership program and permission of the instructor. Two or three credits.

## REL 45I Interdisciplinary Topics

This course is designed to make available areas of study in religion and its relation to other disciplines that are not included in the regular course offerings. It may be taken as an Independent Study. Since the content will vary, this course may be repeated once for credit. Prerequisites: Nine credits in philosophy or religion above the 100 level. Three credits.

## RESEARCH (RSCH)

## RSCH IIO Information Resources for ESL Students

An introduction to the use of print and electronic information resources that are necessary for ESL student success at the college level. The course aims to acquaint those students with best practices for finding, evaluating and utilizing information in proprietary online databases, as well as utilizing Blackboard, MS Office Suite and other online resources at SU. Note:This course is designed specifically for those students for whom English is a second language. Students may not take both RSCH 190 and this course for credit. Three credits.

## RSCH I90 Information Literacy

Research 190 introduces students to a variety of traditional print and electronic information resources including proprietary online databases and specially selected free Internet sites. Students will learn how to develop search strategies for electronic databases and how to critically evaluate the materials found. Additionally, students will learn to use computer mediated communication tools to disseminate information including word processing, presentation and Web page creation software. Please note - bibliographic research is the heart of this course; less than 15 percent of class time will be devoted to software training. Three credits.

## RESPIRATORY CARE (RC)

## RC $305 \quad$ Foundations of Neonatal and Pediatric Respiratory Care

An in-depth study of neonatal/pediatric anatomy, physiology, growth and development; physical, radiological, laboratory and risk assessment; general principles of management of the sick neonate and child; and special considerations in neonatal/pediatric pharmacology as each applies to respiratory care of the neonatal/pediatric patient. Offered in the fall. Three credits.

## RC 3II Neonatal and Pediatric Pulmonary Pathophysiology

An in-depth study of neonatal/pediatric pathophysiology including parenchymal disease, obstructive airway disease, lesions of the lungs and airways, congenital abnormalities, respiratory distress syndrome, apnea disorders, neurological disorders and trauma as each applies to respiratory care of the neonatal/pediatric patient. Offered in the fall. Three credits.

## RC $321 \quad$ Techniques of Neonatal and Pediatric Respiratory Care

An in-depth study of the application of respiratory care equipment, procedures and techniques in the management of the neonatal/pediatric patient, including oxygen therapy, humidity/aerosol therapy, chest physiotherapy, airway care, blood gas analysis, cardiopulmonary monitoring and home care. Certification in Neonatal Resuscitation and discussion of ethical and legal concerns is also included. Offered in the fall. Three credits.

RC $\quad 322 \quad$ Clinical Specialty in Neonatal and Pediatric Respiratory Care
This is a clinical course involving application in the clinical setting of respiratory care equipment, procedures and techniques studied in RC 42I.The emphasis is on development of the basic skills required in the delivery of routine respiratory care to the neonatal/pediatric patient and on the integration of the information from RC 405 and RC 4II as it relates to the application of therapy. Pre/corequisites: RC 405, RC 4II and RC 42I. Offered in the fall. Three credits.

## RC 35I Advanced Techniques in Adult Critical Care

A study of current respiratory care procedures for the critically ill adult patient along with an exploration into newer and experimental techniques. Topics include independent lung ventilation, ECMO , high frequency ventilation, inverse ratio and disease specific ventilatory support. Three credits.

## RC $399 \quad$ Education Practicum I

This course is designed as an introduction to clinical teaching in a respiratory care program. The course includes self-directed study in instructional and evaluation strategies and development of performance objectives. The student performs functions required of a clinical instructor in a respiratory care program. Prerequisite: Permission of the instructor. Three credits.

## RC 405 Respiratory Health and Disease

This course is a continuation of RC 410 . The methods of performing and interpreting clinical, laboratory and radiological assessment of pulmonary disease are covered as well as and overview of cardiopulmonary pathophysiology. A review of the current literature on a topic concerning cardiopulmonary care in clinical practice will be assigned. Prerequisites: RC 4 IO, RC 4 II, RC $4 I 2$ and 409. Three credits.

## RC $407 \quad$ Mechanical Ventilatory Support

This course is a study of the clinical application of mechanical ventilation. It includes the design and operation of common mechanical ventilators and the indications for mechanical ventilation. Monitoring devices, assessment procedures, clinical strategies, weaning methods and potential complications of managing patients on ventilators are also studied. Prerequisites: RC $410, R C 4 I I$ and RC 4I2. Three credits.

## RC 409 Pulmonary Pharmacology

This course focuses on the medications used in respiratory care. Emphasis will be given to the mechanism of action, basic pharmacokinetics, indications for use, dosage range, routes of administration, adverse reactions and patient monitoring parameters for the medications commonly used in respiratory care. Corequisites: RC $4 I 0, R C 4 I I$ and RC 4I2. One credit.

## RC $\quad 410 \quad$ Cardiorespiratory Physiology

This course is the foundation of anatomy and physiology of the heart and lungs. It begins with a comprehensive study of the respiratory system including structure and function, pulmonary mechanics, ventilation, oxygenation and acid-base balance. Other topics include cardiac cycle, hemodynamics, fetal circulation and effects of exercise. Corequisites: RC 409, RC 4 II and RC 412 . Three credits.

## RC 4II Methodology of Respiratory Care I

This course serves as the basis for the practice of respiratory care. Topic include infection control, patient assessment, medical gas therapy, humidity and aerosol therapy, hyperinflation therapy, chest physiotherapy, airway management and closed chest drainage. Also included is a physical assessment workshop. Corequisites: RC 4I2, RC 409 and RC 4 IO. Four credits.

## RC $\quad 412 \quad$ Applied Respiratory Care I

The application, in the laboratory and clinical setting, of the patient care procedures and equipment covered in RC 4II. Corequisites: RC 409, RC 4 I 0 and RC 4 II. Four credits.

## RC 42I Methodology of Respiratory Care II

This course is a continuation of RC 4II and includes the study of cardiopulmonary diagnostics and monitoring techniques, pulmonary rehabilitation and home care and special procedures. Prerequisites: RC 410 , RC 4II and RC 4I2. Corequisite: RC 422. Three credits.

## RC 422 Applied Respiratory Care II

This course involves the application of procedures and equipment covered in RC 407 and RC 421 in the clinical setting. The accent is on respiratory care for the critically ill patient. Mechanical ventilation airway management, chest drainage systems, patient assessment and cardio-pulmonary instrumentation are covered during clinical rotations. Prerequisites: RC 4 IO, RC 4 II and RC 4 I2. Corequisites: RC 405, RC 407 and RC 421 . Four credits.

## RC 423 Respiratory Care Seminar

This seminar is directed to the study of topics pertinent to respiratory care. The course introduces concepts of credentialing, continuing education, clinical simulation examinations, resume writing, interviewing techniques, Myers-Briggs personality tests, grief, death and dying, ethics and management of respiratory care in the overall health system. Clinical simulations and clinical simulation concepts reviewed and used in the course. A project is completed by the student. Prerequisites: RC $409, R C 410, R C 4 I I$ and RC 412 . One credit.

## RC 433 Clinical Practice III

This course involves the application of procedures and equipment covered in RC 207 and RC 221 in the clinical setting. The accent is on respiratory care for the critically ill patient. Mechanical ventilation, airway management, chest drainage systems, patient assessment and cardio-pulmonary instrumentation are covered during clinical rotations. Clinical experience allows the student to independently apply knowledge acquired in didactic, laboratory and clinical exposures. This course is designed to give the student an opportunity to provide patient care within the limits of their previous learning experiences. Decision-making, priority-setting skills and critical thinking skills are enhanced. Didactic time is incorporated into this clinical experience to provide the student with computerized practice for the entry level and advanced practitioner tests offered by the National Board for Respiratory Care. Four credits.

## RC 439 Education Practicum II

This course is designed to introduce the student to preparation, teaching and evaluation in the classroom. The course includes self-directed study in course development, correlation of clinical and classroom instruction, evaluation and lesson planning. Prerequisite: RC 399. Three credits.

## RC 452 Cardiopulmonary Instrumentation and Hemodynamics

This course covers hemodynamic monitoring and pulmonary artery catheter anatomy, insertion and use. Topics include the development of hemodynamic profiles for and monitoring in acute myocardial infarction, respiratory failure, post operative cardiac surgery and critical care transport. Three credits.
RC $462 \quad$ Clinical Specialty in Adult Critical Care I
Application in the clinical setting of equipment and procedures studied in RC 35 I and RC 452. The emphasis is on the delivery of respiratory critical care to thoracic and cardiovascular surgery patients. Three credits.

## RC $472 \quad$ Clinical Specialty in Adult Critical Care II

This course complements RC 462 with the application in the clinical setting of equipment and procedures studied in RC 35I and RC 452. The emphasis is on the delivery of respiratory critical care to medical/surgical ICU and neurological ICU patients. Three credits.
RC $485 \quad$ Selected Topics in Respiratory Care - Independent Study
This independent study allows students to investigate selected issues in respiratory care or health care in general under the direction of a respiratory care faculty member. One to three credits.

## SCIENCE (SCI)

## SCI IOI Special Topics in Science

This is a course for non-science majors which presents topics in lecture, seminar, and laboratory settings, designed to promote increased scientific interest and literacy in students. One, two, or three hours per week. Offered alternate years. One, two or three credits.

## SOCIOLOGY (SOC)

## SOC IOI Introductory Sociology

Designed to acquaint the student with the general field of sociology, the course surveys sociological concepts, processes and mechanisms of group behavior, the community and its structure, social organization and interaction and culture and personality. Three credits.

## SOC $210 \quad$ Social Problems

An analysis of the major social issues, such as healthcare, poverty, the environment, technology, family, confronting groups and individuals. Three credits.

## SOC 238 Comparative Sociology

Studies of the differences and similarities in culture, communication, family, polity, education, social inequality, deviance and social control of selected areas of the world. Three credits.

## SOC 25I Marriage and the Family

A course designed to give the student a realistic and comprehensive view of marriage and parenthood. Topics covered include courtship, marriage systems, parent education and family crises. Three credits.

## SOC $295 \quad$ Topics in Society and Culture

Investigation of specific topics or issues in society and culture. Topic focus is preceeded by a short course on the basics of human behavior from the sociological perspective. Three credits. May be repeated for credit when the topic changes.

## SOC $300 \quad$ Statistical Package for the Social Sciences (SPSS)

Hands-on experience using SPSS. Prerequisite: MATH 207 or similar statistics course. One credit.

## SOC $310 \quad$ Community Service

Sociology student working in community service to put thoughts into action. Prerequisite: Junior standing as a Sociology major. One credit.

## SOC $312 \quad$ Social Class and Inequality

An examination of the objective and subjective dimensions of inequality in America including class, race, ethnicity and gender. Prerequisite: SOC IOI. Three credits.

## SOC $313 \quad$ Social Interaction

Theoretical and empirical analysis of the relationship between the individual and society with particular emphasis on the formation of self. Emphasis on symbolic interactionism. Three credits.

## SOC $315 \quad$ Gender Issues

This research-based course examines a number of topics related to sex differences and sex equity. Emphasis placed on historical and contemporary American perspectives. Focus placed on the following topics: biological/ genetic theories, socialization, work, family/relationships, literature and media, religion, cognition, aggression, legal issues and sociological and psychological theories. (Formerly SOC 225). Three credits.

## SOC 330 Sociology of Education

A study of schooling and education using sociological theories and research. Schools and colleges as social systems and education in a stratified society also examined. Prerequisite: SOC IOI.Three credits.

## SOC 332 Medical Sociology

This course is a survey of the current issues in health and health care in the United States with an emphasis on the social construction of health and illness and on the structural provision of health care. Prerequisite: SOC IOI. Three credits.

SOC $334 \quad$ Childhood and Society
The sociology of childhood. A study of society's commitment to children including the role of social institutions that affect childhood experiences. Prerequisite: SOC IOI and junior standing. Three credits.

## SOC 336 Political Sociology

A study of political organizations, leadership, participation and action in America. Prerequisites: SOC IOI or PSCl 10 I and junior standing. Three credits.
SOC $350 \quad$ Research Methods for the Social Sciences
Systematic survey of research strategies used in the social sciences with an emphasis on the practical applications of research techniques. Prerequisites: SOC IOI or PSY IOI and MATH 207 or comparable courses or permission of the instructor. Three credits.

## SOC 352 Advanced Research Methods

Design, collection, analysis and presentation of data. Research methods used include interviews, focus groups, secondary data analysis, surveys and field research. Prerequisites: SOC IOI, SOC 350 and junior standing. Three credits.

SOC $360 \quad$ Social Theory
Review of classical and contemporary schools of sociological theory. Prerequisite: SOC IOI or PSY IOI.Three credits.

SOC 395 Topics
Investigation of specific topics or issues in society and culture. Prerequisite SOC IOI and junior standing. May be repeated for credit when the topic changes. Three credits.
SOC 401 Internship
Internship in the field of sociology. Prerequisities: Senior standing as a Sociology major, 2.5 GPA and permission of the instructor. Three credits.

## SOC 415 Sociology of Religion

A study, using social science methods, of religion as a social institution in America. The focus is the role of religion in society including established religions, tele-evangelism, new religious movements, as well as the process of secularization. Prerequisites: SOC IOI and junior standing. Three credits.
SOC $421 \quad$ American Society and the Media
The impact of media as agents of socialization on American society. Prerequisites: Six hours in Sociology, including SOC IOI, junior standing or permission of instructor. Three credits.

## SOC 43I Social Movements and Extremism

Effectively organized social movements in America can lead to extensive social change. This course is a survey of the development and effect of non-institutional groups, with an emphasis on religions, cults and extremist political groups in America. Prerequisites: SOC IOI and junior standing. Three credits.
SOC 44I Deviant Behavior
Definitions, theories, analysis, and social responses to various forms of deviance in American society. Prerequisite: Six hours of Sociology including SOC IOI and junior standing. Three credits.
SOC 45I Violence and Victims
Examination of the role of violence in society. Prerequisites: Six hours in Sociology, including SOC IOI and junior/senior standing. Three credits.

## SOC 475 Sociology Senior Seminar

An integration of the substantive areas of sociology using the sociological perspective. Emphasis on contemporary social issues, the applications of sociology and the critical analysis of our social world. Prerequisite: Senior standing as a Sociology major. Three credits.

## SPANISH (SPAN)

## SPAN IOI Beginning Spanish I

An introductory course for students with little or no previous Spanish. Students will acquire basic skills in listening, speaking, reading, and writing with particular emphasis on conversation. Students learn to function in the language within a limited context of vocabulary and structure. Three credits.

## SPAN 102 Beginning Spanish II

For students with one semester of college Spanish or one to two years of high school Spanish. Students will develop basic skills in listening, speaking, reading, and writing, with particular emphasis on conversation. Students will increase vocabulary, improve comprehension and fluency, learn to narrate past events, and use more complex structures. Prerequisite: SPAN IOI. Three credits.

## SPAN III Beginning Spanish for Health Care Practitioners

An introductory course for students with little or no previous Spanish. Students will acquire basic skills in listening, speaking, reading and writing with particular emphasis on conversation in health care settings and medical vocabulary. Students learn to function in the language within a limited context of vocabulary and structure. Three credits.

## SPAN II2 Beginning Spanish II for Health Care Practitioners

A basic skills course for students with one semester of college Spanish or one to two years of high school Spanish. Students will acquire basic skills in listening, speaking, reading and writing with particular emphasis on conversation in health care settings and medical vocabulary. Prerequisite: Spanish 101 or $11 \mid$ or equivalent competency.Three credits.

## SPAN 201 Intermediate Spanish I

For students with two semesters of college Spanish or two to three years of high school Spanish. Students will increase vocabulary, improve comprehension and fluency, and will be able to carry out all basic language functions. Prerequisite: SPAN I02 or equivalent. Three credits.

## SPAN 202 Intermediate Spanish II

For students with three semesters of college Spanish or three to four years of high school Spanish. Students will increase vocabulary and improve comprehension and fluency. By the end of the course, students will have been exposed to essentially all of the structure of the language and will be able to follow a conversation between native speakers at normal speed. Prerequisite: SPAN 20I or permission of the instructor. Three credits.

## SPAN 295 Topics

Study of specific topics, issues or themes within the field of Spanish. Three credits.

## SPAN 30I Spanish Conversation

Development of oral expression and fluency with emphasis on expansion of vocabulary and attention to grammatical correctness. Offered in the fall of every year. Prerequisite: SPAN 202 or equivalent. Three credits.

## SPAN 302 Spanish Composition

Development of written expression, with emphasis on expansion of vocabulary and attention to grammatical correctness. Offered in the spring of every year. Prerequisite: SPAN 202 or equivalent. Three credits.

## SPAN 3II Spanish Civilization and Culture

Students study the history, civilization and culture of Spain through extensive readings, videos, writing and class discussion. Prerequisite: SPAN 202 or equivalent. Three credits.

## SPAN $312 \quad$ Latin American Civilization and Culture

History and culture of Latin America from the Encounter to the present day. The course is taught in Spanish. Prerequisite: SPAN 202 or equivalent. Three credits.

## SPAN $315 \quad$ Reading in U.S. Latino Literature and Culture: Chicano/a Narrative

This is an introductory survey course of the major literary works and themes throughout the development of the cultural experience formed from the conflict and confluence of U.S. American and Spanish American cultures - U.S. Latino culture. As such, it covers the major literary genres in U.S. Latino/a literature: the essay, epic poetry, lyric poetry, the short story, novel and drama, as well as folk literature. Three credits.

## SPAN 316 The Southern Cone

Topics dealing with the geography, history, and culture of the countries of South America's Southern Cone: Argentina, Chile, Uruguay and Paraguay.There will be an overview of the art, literature (prose and poetry) and film. Prerequisite: Spanish 301 or 302 or permission of instructor. Three credits.

## SPAN 320 Survey of Peninsular Literature

This course treats the major movements in the literature of Spain from the Spanish Middle Ages until the present. Students are exposed to the major genres (poetry, narrative, essay and theater) through extensive readings and will become familiar with the greatest writers of Spanish literature. Prerequisite: SPAN 30I or equivalent. Three credits.

## SPAN 325 Survey of Latin American Literature

This course treats the major movements in Latin American literatures from Pre-Colombian times until the present. Students are exposed to the major genres (poetry, narrative, essay and theater) through extensive reading and will become familiar with the greatest writers of Hispanic literature. Students are expected to discuss, analyze and compare the works studied. Prerequisite: SPAN 301 or equivalent. Three credits.

## SPAN 330 Introduction to Spanish Linguistics

Study of syntactical, morphological and phonological structure of Spanish and the evolution of the Spanish language from Latin. Prerequisite: SPAN 302 or equivalent. Three credits.

## SPAN 39I Internship in Spanish

A regularly scheduled and supervised weekly activity in connection with a community or volunteer organization, a health facility or a public or private school in which the student is speaking and/or writing Spanish. Prerequisites: Spanish placement at 300-level or higher and permission of instructor. One credit.

## SPAN 392 Internship in Spanish

A regularly scheduled and supervised weekly activity in connection with a community or volunteer organization, a health facility or a public or private school in which the student is speaking and/or writing Spanish. Prerequisite: Spanish placement at 300-level or higher and permission of instructor. Two credits.

## SPAN 393 Internship in Spanish

A regularly scheduled and supervised weekly activity in connection with a community or volunteer organization, a health facility or a public or private school in which the student is speaking and/or writing Spanish. Prerequisites: Spanish placement at 300-level or higher and permission of instructor. Three credits.

## SPAN 403 Topics

Topics dealing with language, literature, culture or pedagogy. Prerequisite: 300-level course or permission of the instructor. Three credits.

## SPAN 4II Advanced Oral Spanish

Development of vocabulary, improvement of aural comprehension and strengthening of conversational skills. Prerequisites: SPAN 301 and SPAN 302 or equivalent. Three credits.

## SPAN 412 Advanced Written Spanish

Development of composition skills, with emphasis on acquiring a natural style in Spanish that is free from English influence. Includes study of model essays in Spanish and weekly guided and original compositions. Prerequisite: SPAN 302 or equivalent. Three credits.

## SPAN 430 Senior Seminar and Project

A cross-cultural experience for senior majors that will involve activity in a Spanish-speaking country or a Spanish-speaking community in the United States. The project will require pre-reading and a reflective essay. Prerequisites: SPAN 3II or 312 and permission of instructor. Three credits.

## SPAN 440 Second Language Acquisition

A survey of the theories of second language acquisition and a study of techniques of language instruction. Prerequisite: SPAN 330. Three credits.

## SPAN 45I Introduction to Translation

Development of translation skills from English to Spanish and Spanish to English. Uses texts from contemporary materials: newspapers, magazines and government agency reports. Prerequisite: SPAN 302 or equivalent. Three credits.

## SPAN 452 Advanced Spanish Translation

Advanced work in translation from Spanish to English and from English to Spanish of selected texts from diverse fields. Prerequisite: SPAN 45I. Three credits.

## STUDY SKILLS (STSK)

## STSK IOI Study Skills I

This course gives students methods for time management and study skills or success in their university career. Topics covered include how to read, study and review course material, how to take and organize notes, how to study for and take exams, how to organize and write term papers and time management techniques. The goal of this course is to teach the skills needed, not merely for student survival, but for student success and confidence. One credit.

## STSK $103 \quad$ Study Skills II

STSK 103 is open to all students who need assistance with improving their grade point average. The class is a requirement for students who are on academic probation or returning after academic suspension. The course is part of a diagnostic-prescriptive program that assists the students with assessing their learning style, study habits, etc. The student and instructor will develop an individual plan for academic success. One credit.

## THEATRE (TH)

## TH IOI Basic Acting

Exercises in acting techniques with the emphasis on truth, powers of observation, and concentration. Beginning elements of script analysis for scene study. Enrollment limited to theatre majors. A minimum grade of " C " is required to pass this class in the Bachelor of Fine Arts in Acting curriculum, Bachelor of Fine Arts in Musical Theatre curriculum and the Bachelor of Fine Arts in Theatre for Youth curriculum. Three credits.

## $\begin{array}{lll}\text { TH } & 102 \quad \text { Acting Techniques }\end{array}$

Advanced study of acting techniques with the emphasis on emotional and physical life for character development. Enrollment limited to theatre majors. A minimum grade of " C " is required to pass this class in the Bachelor of Fine Arts in Acting curriculum, Bachelor of Fine Arts in Musical Theatre curriculum and the Bachelor of Fine Arts in Theatre for Youth curriculum. Prerequisite:TH IOI.Three credits.

## TH IO5 Introduction to Acting I

Study of stage terminology, theatre games and acting techniques with emphasis on observation, concentration and stimulating the imagination. Script analysis in preparation for scene presentation. Open to students from all curricula. One credit.

## TH $106 \quad$ Introduction to Acting 2

Continuation of TH I05. More advanced scene study. Prerequisite: TH 105 or permission of the instructor. Two credits.

## TH $107 \quad$ Theatre Appreciation

This course explores the creative elements of theatre as an art form, the collaborative involvement of playwright, director, producer, actor, designer and audience, and the evolution of this art form from the classical period to present day. Three credits.

## TH 108 Improvisation

Exercises in non-scripted and impromptu character work, storytelling and performance utilizing solo and group assignments. Scenarios in this course are selected to improve each actor's confidence and creativity. Enrollment normally limited to Bachelor of Fine Arts in Acting and Theatre for Youth majors. One credit.

## TH III Stage Lighting I

An intensive training and lecture course in designing, hanging and operating stage lights with practical experience working on Shenandoah Conservatory theatre productions. A minimum grade of " $C$ " is required to pass this class in the BFA Scenic and Lighting Design curriculum. Three credits.

## TH II2 Stage Craft

A training and lecture course in scenic construction, painting and design principles. Practical experience in building sets for Shenandoah University theatre productions. A minimum grade of " C " is required to pass this class in the BFA Scenic and Lighting Design curriculum. Three credits.

## TH |3| Stage Costuming

A course in designing and constructing stage costumes. Practical experience will be provided in the construction of costumes for Shenandoah University theatre and dance productions. A minimum grade of "C" is required to pass this class in the BFA Costume Design curriculum. Three credits.

## TH $132 \quad$ Costume Construction

An advanced course in stage costuming with emphasis on advanced sewing techniques, textiles and finishing techniques. Practical experience will be provided through class projects. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class. Prerequisite:TH 131.Two credits.

## TH $133 \quad$ Pattern Drafting

A course in pattern making, including flat patterning and draping techniques. Practical experience will be provided through class projects. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH I 32. Two credits.

## TH $\quad$ 14I Theatrical Stage Make-up

An introduction to basic stage make-up, covering products, theory and techniques of application. The development of a character make-up design is emphasid through the coverage of contour, corrective and aging techniques. Additional topics include special effects, period, fantasy, and animal make-up. This course includes a laboratory component. Students will be expected to serve on a wardrobe/hair and makeup crew for one production. A minimum grade of " $C$ " is required to pass this class in the Bachelor of Fine Arts in Costume Design curriculum. Three credits.

## TH $149 \quad$ Foundations of General American Speech

This course develops the actor's knowledge of the International Phonetic Alphabet and the application of it for corrective speech and speech for the stage. Three credits.

## TH 20I Scene Study I

Development of the actor through work on scenes and monologues from contemporary naturalistic playwrights to be performed and critiqued in class. Enrollment limited to theatre majors. Prerequisite:TH I02 or permission of the instructor. Three credits.

## TH 202 Scene Study 2

Continued development of the actor through work on scenes and monologues from contemporary naturalistic playwrights to be performed and critiqued in class. A minimum grade of " C " is required to pass this class. Enrollment limited to theatre majors. Prerequisite:TH 20I. Three credits.

## TH 203 Acting Through Song I

An introduction to scene-song integration in musical theatre and the application of acting techniques in musical theatre song. Prerequisite:TH 201. Two credits.

## TH 205 Creative and Process Drama

An introduction and orientation to the study and practice of various methodologies, materials, theories and philosophies used in non-performance, non-exhibited, participant-centered drama; including instructional procedures and practical experience for various populations. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## TH 206 Performance Techniques for Theatre for Youth

A study and application of methods, materials, and theories employed in the performance of theatre for youth. Topics may include puppetry, mask, mime, movement, circus and various acting techniques. Prerequisite: TH IOI. Two credits.

## TH 207 Stage Management I

Fundamentals of stage management and production organization, emphasizing responsibilities and requirements for running a production. This course offered on an alternating schedule. Check with advisor for next offering. Students are required to assist in a production. Prerequisite:TH \| I . Three credits.

## TH $208 \quad$ Script Analysis

In this course students learn to analyze, compare and contrast dramatic works representing diverse historic periods, construction and themes. Their observations are presented through and supported by written analysis. Prerequisite: TH IOI.Three credits.

## TH 2II Lighting Design

An advanced, in-depth course in lighting design including design for dance, theatrical genres and stages. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class in the Bachelor of Fine Arts in Scenic and Lighting Design curriculum. Prerequisite: TH III.Three credits.

## TH $213 \quad$ Theatre Drawing

Basic drawing techniques and graphic skills for the designer and students interested in drawing. This course utilizes a method of observation and eye-hand coordination that allows even a total novice to achieve realistic representations. Special focus will be given to perspective techniques utilized in theatrical design. Three credits.

## TH $215 \quad$ Scenic Design

Principles of color, line, mass, motion and rhythm along with research and play analysis for the designer. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of "C" is required to pass this class in the Bachelor of Fine Arts in Scenic and Lighting Design curriculum. Prerequisite: TH 213 or permission of the instructor. Three credits.

## TH $217 \quad$ Fundamentals of Theatre Drafting

An in-depth course in linear and scenographic techniques with an emphasis on drafting skills including projects for plays, musicals and operas in proscenium and other stagings. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " $C$ " is required to pass this class in the Bachelor of Fine Arts Scenic and Lighting Design curriculum. Prerequisite:TH I I 2 . Three credits.

## TH 22I Stage Properties

The production, procurement, and running of properties, including evolution and development of atmospheric and sound effects for the stage. History of periods and styles included. Students are required to assist on a production. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH II2. Three credits.

## TH $225 \quad$ Costume Rendering

Drawing and painting techniques for the costume designer, including figure drawing, fabric rendering and portfolio preparation. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## TH 23I Costume Design I

Principles of line, color, texture and visualization of character analysis and relationships and historical research. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of "C" is required to pass this course in the Bachelor of Fine Arts in Costume Design curriculum. Prerequisite: TH 213 . Three credits.

## TH $232 \quad$ Costume Design 2

A continuation ofTH 23I, with emphasis on play analysis and style. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH 23I. Three credits.

## TH 24I Advanced Stage Make-up

A course that builds upon techniques taught in TH 14I, Theatrical Stage Make-up. Appropriate for the costume design student as well as any student interested in furthering their make-up skills and knowledge. Course taught through lecture and student application. Topics include mask making, prosthetics, slush casting, wigs and facial hair and special effects. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH 14।. Three credits.

## TH 25I Voice and Speech for the Actor

This course builds upon the knowledge and skills acquired in TH 149 or MUPP 260 for the advancement and mastery of speaking and vocal support skills for the stage, particularly for heightened language plays. Prerequisite: TH I49 or MUPP 260. Two credits.

## TH 252 Accents/Dialects

A continuation of TH 25 I with emphasis on regional and international accents in performance. Prerequisite: TH 25I.Two credits.

## TH 30I Period Acting Styles I

This course will develop the actor's skills in performing material in a variety of period styles as well as reinforce a foundation of stage movement, mask and mime techniques. Historical and contextual background for different theatre traditions will be included. Enrollment limited to theatre majors. Prerequisite: TH 202. Three credits.

## TH $302 \quad$ Period Acting Styles 2

This course will develop the actor's skills in performing commedia dell'arte and the plays of Shakespeare and his contemporaries. Students will learn about the history and contexts of the Elizabethan stage and the influence of Shakespeare on modern and global stages and film. Enrollment limited to theatre majors. Prerequisite: TH 301 . Three credits.

## TH $305 \quad$ Foundations of Theatre for Youth

A study and orientation to Theatre for Youth, including the history, people, theatres and major trends. Focus will be on directing, production values and literature for Theatre for Youth. The course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: TH IOI.Three credits.

## TH $306 \quad$ Teaching Methods of Theatre

A study of the methods, materials, theories and philosophies employed in the teaching of theatre. Emphasis will be on the teaching of acting for school aged populations. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH IOI.Three credits.

## TH $307 \quad$ Directing

Analysis of the play from a director's viewpoint. Breakdown of script into dramatic elements. Study of various theatrical styles. A minimum grade of " C " is required to pass this class in the BFA Theatre for Youth curriculum. Prerequisite:TH 202 or permission of the instructor. Three credits.

## TH 309 Preparation for the Theatre Profession

This course will provide information and strategies for becoming a theatre professional. Major areas of emphasis include audition technique, the theatre business and networking. Prerequisite: TH 202 or permission of instructor. Three credits.

## TH $310 \quad$ Stage Management 2

An advanced, in-depth course in stage management for multiple theatrical genres including theatre, dance and opera. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH 207. Three credits.

## TH 3II Musical Theatre Styles

An in-depth study and application of methods for singing musical theatre styles. Instruction will consist of lecture, training and discussion of relevant techniques and solutions. Course will cover treatment of vowels, consonants, song authenticity and correct style musically and vocally. Through songs, students will explore various vocal styles found in musical theatre while maintaining vocal health. Prerequisites: Junior standing in the musical theatre curriculum, or permission of instructor. One credit.

## TH $312 \quad$ Advanced Stage Craft

A course that builds upon the knowledge and techniques of TH I I 2 Stage Craft. Advanced areas of technical production are covered including welding, theatrical furniture design and construction, and technical management techniques. Lecture and practical projects are included. opera. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisites: TH II2 and permission of instructor. Three credits.

## TH $313 \quad$ Graphic Arts for Design

Emphasis on developing skills in various rendering techniques and visual presentation. This course is offered on an alternating schedule. Check with advisor for next offering. A minimum grade of " C " is required to pass this class in the Bachelor of Fine Arts in Scenic and Lighting Design curriculum. Prerequisite:TH 213 . Three credits.

## TH $315 \quad$ Advanced Design for Theatre

A continuation of TH 211 and TH 215 . This advanced class in scenic and lighting design will cover plays, musicals and opera in proscenium and other stagings. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisites:TH 211 and TH 215. Three credits.

## TH $318 \quad$ CAD for the Stage

Application of two and three-dimensional graphics programs to solve creative problems in theatre drafting. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite: TH 217 . Three credits.

## TH $319 \quad$ Computer Rendering

Application of various software programs to solve problems in theatre design. This class is offered in alternate years. Check with advisor for next offering. Prerequisites: TH 318 and TH 313. Three credits.

## TH $320 \quad$ Theatre Sound

Introduction to principles and practices of theatre sound design. Training for position of sound designer for theatre. Principles, practices and equipment used to create finished sound designs for theatre, dance and related areas. This class is offered in alternate years. Check with advisor for next offering. Prerequisites:TH II। and TH II2.Three credits.

## TH $340 \quad$ Movement for Actors

This course focuses on the relationship of movement to characterization and the need to cultivate physical and emotional relationships in body movement. Students will expand and develop kinesthetic awareness and connect the actor's inner life, imagination and expressive body. Approaches will be selected from a variety of methods, such as Laban, Grotowski, Chekhov, mask work, Tai Chi and yoga to help the student create a relaxed, alert, expressive physical instrument. Prerequisite:TH I02. Two credits.

## TH 34I Stage Combat

A beginning level course in the art and skill of stage combat. This course will focus heavily on safety for the stage. The primary weapons of focus are unarmed stage combat and rapier and dagger. Introduction to other stage weaponry at the discretion of the instructor. This course is offered on an alternating schedule. Check with advisor for next offering. Two credits.

## TH 35I History of Theatre I

Development of drama, theatre architecture, companies, personalities and styles from antiquity to the Renaissance. Prerequisites: Permission of the instructor. Three credits.

## TH $352 \quad$ History of Theatre 2

Continuation of TH 35 I from the Renaissance to the present. Prerequisite:TH 35 I or permission of the instructor. Three credits.

## TH $353 \quad$ History of Costume I

A history of fashion and style from antiquity to the present, especially emphasizing periods of importance to theatrical style and production. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## TH $354 \quad$ History of Costume 2

Continued study of the history of fashion and style from antiquity to the present, especially emphasizing periods of importance to theatrical style and production. This course is offered on an alternating schedule. Check with advisor for next offering. Three credits.

## TH $355 \quad$ American Musical Theatre I

The history and development of popular musical theatre in the U.S. from colonial times through mid-20th century, including extravaganza, minstrelsy, revue, vaudeville, burlesque, operetta and early musical comedy. Three credits.

## TH $356 \quad$ American Musical Theatre 2

The history and development of popular musical theatre in the United States from mid-20th century through the present, including the modern musical comedy, the musical play, the concept musical, the through-sung musical, foreign influences and modern trends. Three credits.

## TH $390 \quad$ Technical Theatre Practicum

In-depth technical production work in a practical laboratory setting for theatrical and dance productions.

## TH $399 \quad$ Theatre Production

Participation in major theatrical productions. Entrance by audition or permission of the instructor. One credit.

## TH 403 Advanced Acting Through Song I

This course builds upon the techniques taught in TH 203, Acting Through Song. Emphasis is placed on contemporary, post Golden-Age repertoire. Students will explore a range of musical theatre scenes from varying styles including concept pieces, thru-sung musicals, and non-realism. Prerequisite:TH 203. Two credits.

## TH 404 Advanced Acting Through Song 2

A continuation ofTH 403 with further work on concept-style scenes and larger group scenes in contemporary musical theatre. This course will serve as the culminating course in the musical theatre training program. Prerequisite: TH 403. Two credits.

## TH $407 \quad$ Theatre for Youth Directing Workshop I

Students select plays from various periods and styles and, after completing a thorough research of the period, direct a scene from the play or possibly the play itself. A minimum grade of " C " is required to pass this class in the Bachelor of Fine Arts in Theatre for Youth curriculum. Enrollment limited to Theatre for Youth majors. Prerequisite:TH 307.and Theatre for Youth major. Two credits.

## TH $408 \quad$ Theatre for Youth Directing Workshop 2

Continuation of TH 407. Enrollment limited to Theatre for Youth majors. Prerequisite: TH 407 and Theatre for Youth major. Two credits.

## TH 4l3 Scenic Art

An advanced course in scene painting techniques, including drops, three-dimensional rendering and acrylic, latex and dye painting. Students will be required to assist on at least one production. This course is offered on an alternating schedule. Check with advisor for next offering. Prerequisite:TH 213. Three credits.

## TH 425 Theatre for Youth Production Seminar I

A course for the advanced Theatre for Youth major, students will have assignments designing lesson plans, leading drama sessions or workshops and reporting on readings in the field. There may also be assignments in other areas of educational theatre to be arranged with the instructor and student. A minimum grade of " C " is required to pass this class. Prerequisite: Senior year Theatre for Youth Major or permission of the instructor. One credit.

## TH 426 Theatre for Youth Production Seminar 2

A continuation of TH 425. Prerequisite: TH 425 . One credit.

## TH $450 \quad$ Senior Showcase

Presentation of a revue, including all aspects of program development, production, staging, lighting, costuming, choreography and performance. Required of graduating seniors in the Bachelor of Fine Arts in Musical Theatre and Acting curricula. Prerequisite: Must be presented only in the academic year of the student's graduation. Two credits.

## TH $490 \quad$ Stage Management Internship I

Practical experience ( 150 hours minimum) in a professional theatrical stage management setting. Prerequisites: All TH requirements through TH 356 or permission of the instructor. Three credits.

## TH 49I Stage Management Internship 2

Practical experience ( 150 hours minimum) in a professional theatrical stage management setting. Prerequisites: All TH requirements through TH 356 or permission of the instructor. Three credits.

## TH 495 Special Topics

Investigation of a specialized area of knowledge in a class setting. Prerequisites will vary with topic and permission of the instructor. One, two or three credits.

## TH $498 \quad$ Technical Theatre Thesis

A course for the advanced design major as a culmination design project or assuming a major responsibility such as technical director for a theatre or dance production. This course will help students build their portfolios for entrance into graduate school or going directly into the professional world. Prerequisites: A minimum of two successful completions of TH 399 and a minimum of two successful completions of TH 398 or permission of the instructor. Three credits.

## TH 499 Individual Directed Research

A private instruction setting for individual projects in theatre. May be used to fulfill electives only. Project proposal must be approved by the associate dean for undergraduate studies and the chair of the Theatre Division prior to registration. Prerequisite: Permission of the instructor. One, two or three credits.

## WOMENS STUDIES (WST)

## WST $100 \quad$ Women's Issues Across Perspectives

This course introduces students to the interdisciplinary field of women's studies by exploring feminist theory and women's issues from multiple perspectives. A particular topic is explored through its representation in literature, film and art, as well as from the perspectives of health, history, sociology, politics and/or psychology. Through this cross-perspective approach, students are introduced to feminist approaches to theory and criticism. Three credits.

## WST 200 Images of Women in American Film

This course examines the changing images of women in American film from the silent era to the present. Readings, film screenings and discussions will focus on the historical, social and cultural contexts that helped shape the portrayals of women as mothers, wives, workers and sexual beings. The course also examines film genres, narrative techniques and directorial styles. Three credits.

## WST $310 \quad$ Interdisciplinary Seminar in Women's Studies

This seminar is offered to undergraduate students who are interested in conducting research in the interdisciplinary field of women's studies and who wish to pursue one of the methodological questions raised in feminist scholarship. The course provides students with the opportunity to share their research ideas and lived experiences with each other in a seminar setting. Students will be expected to present their findings in a university or community forum. Prerequisite:WST 100. Three credits.

## WST $400 \quad$ Special Topics in Women's Studies

This course provides opportunity for critical reading, discussion and analysis of a selected topic in Women's Studies. The course meets three hours each week with students arriving in class prepared to discuss readings and other assigned learning activities. Topics vary depending on the instructor. Prerequisite:WST IO0.Three credits.

## WST $410 \quad$ Supervised Individualized Study

Guided individual study of a particular area or topic in Women's Studies as agreed by the student and instructor. An outline of the proposed study content, learning activities and evaluation methods is submitted to the instructor for approval prior to enrollment. Prerequisite:WST IOO and permission of the instructor. One to three credits.

## BOARD OF TRUSTEES

## Officers of the Board

Charles A. Veatch, chairman James T.Vickers, Ist vice chairman Andrew U. Ferrari, 2nd vice chairman Richard C. Shickle, Sr., treasurer Tracy Fitzsimmons, president/registered agent Harry S. Smith, past chairman

## Members of the Board

Walter H. Aikens, Winchester, VA
Daniel R. Bannister, Bonita Springs, FL
C.J. Borden, Strasburg, VA

William F. Brandt, Winchester, VA
Stephen P. Caruthers, Arlington, VA
Katherine K. Clark, Oakton, VA
Terri Cluss, Winchester, VA
Laura N. Dabinett, Berryville, VA
Andrew U. Ferrari, Winchester, VA
Tracy Fitzsimmons, ex-officio, Winchester,VA
The Rev. Dr. David T. Forrest, ex-officio, Winchester, VA
Robert J. Frogale, Winchester, VA
Michael J. Halseth, Winchester, VA
The Rev. Dr. Jay M. Hanke, Arlington, VA
Stanley E. Harrison, Winchester, VA
Jeffrey D. Hester, Winchester, VA
L. Janell Hoffman, White Post, VA

William B. Holtzman, Mt. Jackson, VA
Susan R. Jones, Berryville, VA
Ann MacLeod, Upperville,VA
John K. Marlow, Front Royal, VA
Lisa S. Mauck, ex-officio, Front Royal, VA
Keith A. May, Bergton, VA
Richard R.J. Morin, Harrisonburg, VA
Mark J. Ohrstrom, The Plains, VA
Larry T. Omps, Winchester,VA
Bipin B. Patel, Winchester, VA
The Rev. C. Edward Pruitt, ex-officio, Harrisonburg, VA
The Rev. Dr. Lee B. Sheaffer, Richmond, VA
Richard C. Shickle, Sr., ex-officio, Winchester, VA
Mary Farland Shockey, Millwood, VA
William F. Simmons, III, Winchester, VA
Harry S. Smith, Winchester, VA
Gerald F. Smith, Jr., Winchester, VA
C. Robert Solenberger, Winchester, VA

Mark E. Stavish, Leesburg, VA
John D. Stokely, Jr., Oakton, VA
Charles A. Veatch, Herndon, VA

James T. Vickers, Winchester, VA
F. Dixon Whitworth, Jr., Winchester, VA

James R. Wilkins, Jr., Winchester,VA
Heather H. Wilson, Winchester, VA
The Rev. Dr. Raymond F.Wrenn, Winchester, VA Irene R. Wurtzel, Washington, DC

## Honorary Trustee

Miyako Kake, Takahashi City, Okayama, Japan

## Trustees Emeriti

Joseph A. Allen, Winchester,VA
Frank Armstrong, III, Winchester, VA
Warren L. Braun, Harrisonburg, VA
Ruth D. Bridgeforth, Winchester, VA
Magalen O. Bryant, Middleburg, VA
The Hon. Harry F. Byrd, Jr., Winchester, VA
William H. Clement, Winchester, VA
Howard W. Collins, Inwood, WV
Eugene F. Dearing, Jr., Winchester, VA
H. Robert Edwards, Winchester, VA

Wilbur M. Feltner, Winchester, VA
Hunter M. Gaunt, Jr., Winchester, VA
Dorothy H. Glaize, Winchester,VA
Marvin E. Gore, Jr., Winchester, VA
Elizabeth G. Helm, Winchester, VA
The Hon. John O. Marsh, Jr., Winchester,VA
Suzanne W. McKown, Berryville, VA
Jan Neuharth, Middleburg, VA
Aubrey J. Owen, Winchester, VA
Charles A. Pine, Jr., Winchester, VA
Lacy I. Rice, Jr., Martinsburg, WV
Linda C. Russell, Winchester, VA
Fred H. Scott, Harrisonburg, VA
Ralph D. Shockey, Winchester, VA
The Hon. Kenneth W. Starr, Malibu, CA
W. James Truettner, Jr., Vero Beach, FL

Major General Charles E. Williams, Potomac Falls, VA

## ADMINISTRATIVE OFFICERS

## Senior Administrative Officers

Tracy Fitzsimmons, President; B.A. Princeton University; M.A., Ph.D., Stanford University
Bryon Lee Grigsby, Senior Vice President \& Vice President for Academic Affairs; B.A., Moravian College; M.A., Wake Forest University; Ph.D., Loyola University Chicago
Mitchell L. Moore, Vice President for Advancement; B.A., University of Richmond; M.P.A., Virginia Commonwealth University
Clarresa Morton, Vice President for Student Affairs; B.A. Oral Roberts University; M.A. and Ph.D., Virginia Polytechnic Institute and State University
Richard C. Shickle, Vice President for Administration and Finance; B.S., Virginia Polytechnic Institute and State University; C.P.A., Virginia

## Administrative Officers

Karen Abraham-Justice, Director of the Division of Physical Therapy; B.S., University of Maryland at Baltimore; Ph.D., East Carolina University
Quaiser Absar, Director of Institutional Computing; B.S., M.S., University of Evansville
Calvin H. Allen, Jr., Associate Vice President for Academic Affairs and Dean of the College of Arts \& Sciences; B.A., University of Pittsburgh; M.A., Ph.D., University of Washington

David D. Anthony, Dean of Admissions; B.S., Clarion State University; M.Ed., American University
Donald Appiarius, Director of Residential Life, B.A., Mary Washington University, M.S., George Mason University
Christopher A. Bean, Director of Library Services; B.A., University of New Hampshire; M.L.S., University of Rhode Island; M.A., Virginia Polytechnic Institute and State University Jennifer Bousquet, Director of Foundation and Corporate Relations; B.A., University of Arkansas; J.D., University of Arkansas at Little Rock
W. Randy Boxx, Dean of the Harry F. Byrd, Jr. School of Business; B.S., M.B.A., University of Southern Mississippi; Ph.D., University of Arkansas
Nancy S. Bragg, Director of Financial Aid; B.S., M.S., Syracuse University
Demetrius L. Carmichael, Comptroller, B.B.A., University of Texas; M.B.A., University of Saint Thomas; Certified Public Accountant

Gene E. Fisher, Director of Physical Plant; B.S., Virginia Polytechnic Institute and State University
Kari A. Frazier, Director of Donor Relations \& Special Events; B.S., University of Wisconsin La Crosse; M.S. Shenandoah University

RT Good, III, Dean of Global Education and Special Initiatives; B.A., Virginia Commonwealth University; M.B.A., Mary Washington College; Ed.D., Nova Southeastern University
Jennifer Green-Flint, Assistant to the Dean and Director, Shenandoah Conservatory Arts Academy and Instructor, Dance; B.A., Mary Washington College
John E. Hachtel, Associate Vice President for Marketing and Communications; B.A., University of Delaware; M.A., University of Baltimore

Michael Hatfield, Executive Director of the Alumni Association; B.A., M.B.A., Shenandoah University
Steven E. Humphries, Director, School of Education and Human Development and Assistant Professor, Teaching English to Speakers of Other Languages; B.A., Auburn University; M.S., Ph.D., Florida State University Marie C. Landes, Director of Human Resources

Cathy J. Loranger, APR, Director of Public Relations; B.A., Eastern Nazarene College; M.S., Syracuse University Deborah Marr, Director of the Division of Occupational Therapy; B.S., Colorado State University; M.S., Michigan State University; ScD., Boston University
Alan B. McKay, Dean of the Bernard J. Dunn School of Pharmacy; B.S., Mercer University; M.S., Ph.D., University of Mississippi
Anthony A. Miller, Director of the Division of Physician Assistant Studies; A.A.S. Cuyahoga Community College; B.S., University of Akron; Physician Assistant Certificate, Cleveland Clinic Foundation; M.Ed., Cleveland State University; Ph.D. candidate, University of Toledo

Rebecca Myers, Director of the Student Union/Activities, B.A., Shepherd University; M.A., Indiana University of Pennsylvania
William O'Neill, Director of the Program in Respiratory Care; A.A.S., Hudson Valley Community College; B.T., Florida International University; M.A., University of South Florida
Jane D. Pittman, Associate Vice President for Advancement; B.A., Findlay College; M.B.A., Shenandoah University Rose A. Schmieg, Director of the Division of Athletic Training; B.S., West Chester University; M.S., Beaver College; D.H.Sc., University of St. Augustine
Wayne Sealock, Director of Public Safety
Bradley C. Snowden, Director of Major and Planned Gifts; B.S., Shepherd College; J.D., Capital University Jennifer Spataro, Director of Career Services; B.A., Campbell University; M.A., West Virginia University Michael J. Stepniak, Dean of Shenandoah Conservatory; B.A., Atlantic Union College; M.M., New England Conservatory; M.M., Northwestern University; M.M.; Peabody Conservatory at Johns Hopkins University; Ed.D., Harvard University Graduate School of Education

John V. Stevens, Director of Auxiliary Services; B.S., Bloomsburg University; M.B.A., Mount Saint Mary's College Ron Stickley, Director, Wilkins Wellness Center, B.S., Eastern Mennonite University
Rhonda VanDyke Colby, Dean of Spiritual Life; B.S., James Madison University; M.Div., Wesley Theological Seminary; D.Min., Baptist Theological Seminary
Kriesta L. Watson, Director of Institutional Research and Assessment; B.A., University of Michigan; M.E., Harvard University; Ed.D., Morgan State University
Sherry D. Whitelaw, Director of Student Accounts; B.S., Bridgewater College
Deborah E.Wyne, Director of Academic Enrichment Center; A.A., Ferrum College; B.A., M.Ed., George Mason University

## FACULTY

This list includes those full-time and part-time faculty members who taught during the 2008-09 academic year and who are expected to continue, and new full-time faculty hired as of May 29, 2009, for the 2009-10 academic year.

* Members of the Graduate Faculty are designated by an asterisk (*). The graduate faculty is defined as those members of the full-time and part-time faculty who hold the appropriate terminal degree, or the professional equivalent, and who are to teach graduate courses. Graduate faculty may also teach undergraduate courses.
$\wedge$ Members of the Interim Graduate Faculty are designated by an arrow (^). The interim graduate faculty is defined as those members of the full-time or part-time faculty who do not meet one or more of the essential criteria for appointment to graduate faculty status, but who are expected to meet all essential criteria within a reasonable period of time.
The undergraduate faculty is defined as those members of the faculty who hold at least a master's degree, or the professional equivalent, and who are assigned to teach undergraduate courses. Most of Shenandoah's undergraduate faculty also hold a terminal degree in their field, however, those designated as undergraduate faculty are not teaching graduate courses.
+ Full-time administrative or staff appointments with part-time teaching assignments are designated by a plus sign (+).
$=$ Faculty members teaching in more than one school or division are designated by an equal sign ( $=$ ).

## COLLEGE OF ARTS \& SCIENCES

+*Calvin H. Allen, Jr. (2002), Associate Vice President for Academic Affairs, Dean of the College of Arts \& Sciences and Professor, History; B.A., University of Pittsburgh; M.A., Ph.D., University of Washington
Beverly Brown Schulke (2003), Associate Dean and Associate Professor, Criminal Justice; B.S., M.A., University of North Dakota; Ph.D., George Washington University

## Full-time Faculty

John P. Balcer (I972), Professor, English; A.B., Middlebury College; M.A., John Carroll University; Ph.D., Kent State University
Darren Bly (I997), Assistant Professor, Physics; B.S., The University of Sussex (United Kingdom); M.S., Ph.D., University of Maryland-Baltimore County
Woodward S. Bousquet (I993), Professor, Environmental Studies and Biology; B.S., Cornell University; M.S., Ph.D., The Ohio State University
Rodney A. Bragdon (2005), Assistant Professor, Psychology; B.S., University of Massachusetts; M.A., Ph.D., University of Mississippi
James Bryant, II (2002), Associate Professor, History and Director, History Tourism Center; B.S., Hampton University; M.A., University of Vermont; Ph.D., University of Rochester
Diep Vu Ca (2005), Assistant Professor, Chemistry; B.S., M.S., Vietnam National University (Vietnam); M.E., University of New England (Australia); Ph.D., Miami University
Wendy Carlson (2006), Assistant Professor, Psychology; B.S., Mary Washington College; M.A., Ph.D., University of Missouri

John Copenhaver (1987), Professor, Religion and Philosophy; B.A., Washington and Lee University; M. Div., Fuller Theological Seminary; Ph.D., The Catholic University of America
=Carolyn Coulson-Grigsby (2008), Assistant Professor, Theatre and Humanities; B.A., Santa Clara University; M.A., Ph.D., University of Connecticut

Gina Daddario (I998), Professor, Mass Communications and Lin Rong San Endowed Chair in Communications; B.A., University of North Carolina; M.A., University of Maryland; Ph.D., University of Massachusetts

Ann E. Denkler (2002), Associate Professor, History; B.A., M.A., George Mason University; Ph.D., University of Maryland-College Park
William Douglas Enders (2005), Associate Professor, English; A.B., University of Michigan; M.A., Ph.D., University of Toledo
Kim Fendley (I995), Associate Professor, Sociology; B.A., George Washington University; M.S., University of Arkansas; Ph.D., University of Kentucky

Sarah Canfield Fuller (2007), Instructor,Writing/English; Diploma, University of Kent at Canterbury (United Kingdom); M.A., Temple University; B.A., Ph.D., Indiana University
=Lawrence Gillick (2007), Visiting Assistant Professor, Performing Arts Communications; B.A., University of the State of New York, Excelsior College; Graduate Certificate, University of North Carolina at Chapel Hill; M.A., Syracuse University
Richard Haag (1998), Associate Professor, Psychology; B.A., University of Arizona; M.A., Ph.D., University of Hawaii
Sarah A. Hamilton (2009), Instructor, Kinesiology; B.A., Lenoir-Rhyne College; B.S., University of North Carolina at Charlotte; M.S., Clemson University; Ph.D. in progress, Indiana University
Laura Lillian Haubrick (2007), Assistant Professor, Biology; B.S., Indiana University of Pennsylvania; Ph.D., Pennsylvania State University
Julie A. Hofmann (2006), Associate Professor, History; B.A., University of California at Santa Barbara; M.A., Ph.D., Emory University
*Warren R. Hofstra (1977), Professor, History and Stewart Bell Endowed Chair in History; B.A., Washington University; M.A., Boston University; Ph.D., University of Virginia
Joanne Jacobs (I983), Associate Professor, English; B.A., Marymount Manhattan College; Ph.D., University of Notre Dame
John T. Jacobs (1974), Professor, English; A.B., Kings College; Ph.D., University of Notre Dame
Geraldine W. Kiefer (2003), Assistant Professor, Art History; B.A., Kent State; M.A., Oberlin College; Ph.D., Case Western University
Joshua A. Kincaid (208), Assistant Professor, Environmental Studies and Geography; B.S., Frostburg State University; M.A., West Virginia University; Ph.D., University of Georgia
Brett Kite (2007), Visiting Assistant Professor, Chemistry; B.S., Ph.D., Virginia Polytechnic Institute and State University
Minna K. Laurikkala (2009), Assistant Professor, Criminal Justice; B.S. University of Florida; M.A., Ph.D. in progress, University of Central Florida
*Thomas N. Layne (I967), Professor, Mathematics; B.S. Lynchburg College; M.S., Madison College; Ph.D., Vanderbilt University
Eric K. Leonard (2003), Associate Professor, Political Science and Henkel Family Endowed Chair in International Affairs; B.S., William Paterson College; M.A., Ph.D., University of Delaware
Ann St. Clair Lesman (I99I), Professor, Foreign Languages (Spanish); B.A., Rollins College; M.Ed., Duke University; M.A., Ph.D., University of Maryland
^Elaine Magee (2000), Assistant Professor, Mathematics; B.S., Longwood College; M.A., Duke University; Ed.D., University of Virginia
Kimberly S. Orrell (2007), Visiting Assistant Professor, Biology; B.S., Central Michigan University; M.S., Ph.D., Virginia Polytechnic Institute and State University
Nina Parker (I995), Associate Professor, Biology; B.A., M.S., University of Michigan; Ph.D., Ohio University Bryan R. Pearce-Gonzales (2005), Assistant Professor, Foreign Languages; B.A., Radford University; M.A., Ph.D., University of Kentucky
John. J. Rutter (2008), Assistant Professor, Biology; B.S. St. Joseph's University; M.S., Ph.D., Rutgers University Barry Penn Hollar (I989), Professor, Philosophy and Religion; M.Div., Duke Divinity School; M.A., Duke University; B.A., Ph.D., University of Virginia
Beverly Brown Schulke (2003), Associate Professor, Sociology/Administration of Justice; B.S., M.A., University of North Dakota; Ph.D., George Washington University
Petra Schweitzer (2006), Visiting Assistant Professor, Foreign Languages; B.A., Maximilian University Munich (Germany); M.A., University of Georgia; Ph.D., Emory University
Cynthia J. Schendel (2009), Assistant Professor, Kinesiology; B.A., Augsburg College; M.S., Arizona State University; M.A., San Diego State University; Ed.D., Northern Illinois University
*Karen Schultz (198I), Associate Professor and Director, Institute for Government and Public Service, Interdisciplinary; B.A., College of William and Mary; M.B.A., Shenandoah University; Ph.D., Virginia Polytechnic Institute and State University
*William Shendow (I984), Professor, Political Science; B.A., Wake Forest University; M.A., Georgetown University; Ph.D., Virginia Polytechnic Institute and State University
Tiffany J. Shoop (2006), Assistant Professor, Mass Communications; B.A., M.A., Virginia Polytechnic Institute and State University; Ph.D., University of Tennessee
Andrea Smith (2009), Assistant Professor, Foreign Language; B.A., M.T., M.A., A.B.T, University of Virginia
${ }^{\wedge}$ Cindia Stewart (I985), Assistant Professor, Mathematics; B.S., Shenandoah University; M.S., Shippensburg University; Ph.D., University of Virginia
Edvard Thorsett (1996), Associate Professor, Mass Communications; B.S., M.A.A., Ph.D., University of Maryland Margaret Mary Wharton (200I), Assistant Professor, Mathematics; B.A., Salve Regina University; M.A., Appalachian State University
Brian J.Wigley (2002), Associate Professor, Kinesiology; B.S., University of Texas at Austin; M.S., Ed.D., Texas A\&M University
Justin M. Wright (2009), Assistant Professor, Chemistry; B.S., Shenandoah University; Ph.D., Clemson University
^Laura K. Zimmermann (1998), Professor, Psychology; B.A., Emory University; M.S., Ph.D., University of New Mexico

## Part-time Faculty

Barbara Agregaard (199I), Adjunct Assistant Professor, Biology; A.S. Lord Fairfax Community College; B.S. Shenandoah University
+Kevin L. Anderson (2003), Adjunct Instructor, Kinesiology; B.S., M.S., George Mason University
+Paul H. Barnes, Jr. (2007), Adjunct Instructor, Kinesiology; B.S., M.Ed., James Madison University
+Lois G. Bowers (2003), Adjunct Instructor, Kinesiology; B.S., Temple University; M.Ed., Western Maryland University
Edward C. Burks, Jr. (2007), Adjunct Instructor, English; B.A., Washington and Lee University; M.A., University of Virginia; M.A., University of South Alabama
+Rhonda VanDyke Colby (2006) , Adjunct Professor of Religion; B.S., James Madison University; M.Div., Wesley Theological Seminary; D.Min., Baptist Theological Seminary
Clyde V. Croswell, Jr. (I999), Adjunct Associate Professor, Political Science; B.M., Saint Leo College; M.A., Ed.D., George Washington University
Michael J. Duncan (2007), Adjunct Instructor, Psychology; B.S., M.Ed., Lynchburg College
+Tracy Fitzsimmons (I999), Adjunct Professor, Political Science; B.A. Princeton University; M.A., Ph.D., Stanford University
Alida D. Gibson (2007), Adjunct Instructor, Psychology; B.A., M.A., Hood College
+Bryon Lee Grigsby (2008), Adjunct Professor, English; B.A., Moravian College; M.A., Wake Forest University; Ph.D., Loyola University
+Michelle Guyant-Holloway (2008), Adjunct Instructor, Kinesiology; B.S., M.P.A., Northern Michigan University +Robert Harris (1994), Adjunct Assistant Professor, Kinesiology; B.S., M.B.A., Shenandoah University +Karen Hattenback (2006), Adjunct Instructor, Kinesiology; Certified Franchised Jazzercise Instructor Martin Janowitz (2002), Adjunct Professor, Psychology; B.S., M.S., City College of New York; M.S., Ph.D., University of Maryland
Desmond James Lawless (2006), Adjunct Instructor, Kinesiology; B.S., West Sussex Institute of Higher Education (England); M.S., University of Wisconsin-Stout
Hyo Lee (2006), Adjunct Assistant Professor, Religion; B.A., Yonsei University; M.Div., McCormick Theological Seminary; Ph.D., Vanderbilt University
+Sarah J. Pelster (2004), Adjunct Instructor, Kinesiology; B.S., Missouri Western State College; M.S., Eastern Kentucky University
Joanna Petty (2004), Adjunct Professor, Chemistry; B.S., Marietta College; M.S., Ph.D., Kansas State University
Amy Sarch Schopick (2005), Adjunct Assistant Professor, Mass Communications and Director, general education; B.A., State University of New York at Binghamton; M.A., Ph.D., University of Pennsylvania Kimberly E. Scruton (2006), Adjunct Instructor, Kinesiology; B.S., West Liberty State College; M.S., Central Michigan University

William T. Shepherd (2005), Adjunct Assistant Professor, Mathematics; B.S., Indiana Institute of Technology; M.S., Ph.D., University of Connecticut
Meghan L. Smith-Daniels (2007), Adjunct Instructor, Psychology; B.S., M.S., Philadelphia Biblical University Jennifer Turman Bayliss (2004), Adjunct Instructor, Kinesiology; B.A., B.S., Shenandoah University Donna L. Wilson (2004), Adjunct Assistant Professor, Spanish; A.A., Casper College; B.A., M.A., University of Wyoming
Ken Wissman (200I), Adjunct Assistant Professor, Mathematics; B.A., Alfred University; Specialist Certificate, M.A., Ph.D. in progress, University of Pittsburgh
+Deborah E.Wyne (2006), Adjunct Instructor, Study Skills; B.A., M.Ed., D.A. in progress, George Mason University

## HARRY F. BYRD, JR. SCHOOL OF BUSINESS

*W. Randy Boxx (2004), Dean of the Harry F. Byrd, Jr. School of Business and George Edward Durell Chair of Management; B.S., M.B.A., University of Southern Mississippi; Ph.D., University of Arkansas
*L. Mark Tyree (1987), Associate Dean of the Harry F. Byrd, Jr. School of Business, Professor, Accounting and Yount, Hyde \& Barbour Endowed Chair in Accounting; B.S., M.B.A., Virginia Commonwealth University; C.A.G.S., Ed.D., The College of William and Mary

## Full-time Faculty

*Robert Bonometti (1999), Professor, Information Systems and Computer Technology and Byrd Chair in Information Systems and Computer Technology; B.S., U.S. Military Academy; M.B.A., Long Island University; M.S., Ph.D., Massachusetts Institute of Technology
*Yvonne Chen (2004), Associate Professor, Economics; B.A., M.A., Ph.D., University of Wisconsin
*Nabie Conteh (2005), Assistant Professor, Information Systems and Computer Technology; B.S., Institute for Information and Communication Technology (The Netherlands); M,B.A., Ferris State University; M.S., Ph.D., University of Maryland-Baltimore County
I. Bogdan Daraban (2007), Assistant Professor, Economics; B.S., Polytechnic University (Romania); M.S., Ph.D., Florida State University
*Miles K. Davis (200I), Associate Professor, Management; B.A., Duquesne University; M.A., Bowie State University; Ph.D., The George Washington University
*Bruce K. Gouldey (2002), Associate Professor, Economics and Finance; B.S., Brown University; Ph.D., University of Pittsburgh
*Giles A. Jackson (1992), Associate Professor, Marketing; B.A., Huddersfield Polytechnic (England); Ph.D., Virginia Polytechnic Institute and State University
*Young K. "Sally" Kim (2003); Associate Professor, Marketing; B.A., Ewha Womans University (Korea); M.B.A., Kyung Hee University (Korea); M.S., University of Nevada; Ph.D., George Washington University
*Bingguang Li (2006), Associate Professor, Supply Chain Management and Quantitative Methods; B.S., B.L., M.S., Tianjin University (China); Ph.D., University of Nebraska-Lincoln
*Charles J. Pineno (2004), Professor, Accounting and Lillian Cook Braun Chair in Accounting; M.B.A., University of Scranton; B.S., Ph.D., Pennsylvania State University
*Travis L. Sample (I990), Professor, Public Administration; B.S., University of Houston; M.S., Southern Illinois University; M.P.A, D.P.A., University of Southern California
*William D. Schulte, Jr. (2003), Associate Professor, Business Administration; B.S., M.S., Louisiana State University; Ph.D., The George Washington University
*Clifford F.Thies (I992), Eldon R. Lindsay Professor of Economics and Finance; B.A., M.B.A., St. John's University; Ph.D., Boston College

* Mesut Yavuz (2007), Assistant Professor, Quantitative Methods and Supply Chain Management; B.S., M.S., Istanbul Technical University (Turkey); Ph.D., University of Florida
*John I. Winn (2005), Associate Professor, Business Law; B.A., Guilford College; L.L.M., Judge Advocate General's School, United State Army; J.D., Campbell University
*James J.Wong (I999), Professor, Marketing and Management; B.S., Ohio University; M.B.A., Western Reserve University; Ph.D., The Ohio State University
*Lili Zhu (2008), Assistant Professor, Finance; B.E., M.A., Zhejiang (China); Ph.D., George Washington University

## Part-time Faculty

+Quaiser Absar (2003), Adjunct Assistant Professor, Business; B.S., M.S.--C.I.S., University of Evansville
Ernest J. Carnevale, Jr. (2000), Adjunct Associate Professor, Business; B.S. Rhode Island College; M.S., University of Nebraska; M.H.A., University of Minnesota
Daniel A. Pavsek (I992), Adjunct Professor, Economics and Information Systems Technology; A.B., Maryknoll College; M.A., Cleveland State University; M.S.I.S.T., The George Washington University; Ph.D., Case Western Reserve University
Michael L. Steadman (2007), Adjunct Associate Professor, Information Systems; A.S., Community College of the Air Force; B.S., James Madison University; M.S., Virginia Polytechnic Institute and State University
^Michael L.Thompson (1990), Adjunct Associate Professor, Business; B.S., West Virginia University; M.B.A., Case Western Reserve University

## SHENANDOAH CONSERVATORY

*Michael J. Stepniak (2009), Dean of Shenandoah Conservatory and Professor, Music; B.A., Atlantic Union College; M.M., New England Conservatory; M.M., Northwestern University; M.M.; Peabody Conservatory at Johns Hopkins University; Ed.D., Harvard University Graduate School of Education
*Aimé Sposato (I993), Associate Dean for Undergraduate Studies and Professor, Music,Voice; B.A., University of Pittsburgh; M.M., Duquesne University; D.M.A., West Virginia University
*Karen Walker (1982), Associate Dean for Graduate Studies and Associate Professor,Music (Piano) ; B.M., Eastern Washington University; M.M., Northwestern University; D.M.A.., The Catholic University of America

## Full-time Faculty

Jennifer F. Adams (1999), Associate Professor, Costume Design; B.F.A., Sarah Lawrence College; M.F.A., University of Illinois
*Charlotte Nelson Aiosa (1979), Professor, Music (Voice); B.S., M.M., University of Maryland; D.M.A., University of Michigan
*Thomas Albert (1974), Professor, Music (Composition) and Harold Herman Chair in Music Theatre; A.B., Barton College, M.M., D.M.A., University of Illinois
${ }^{\wedge}$ Gerald Alan Arnett (I997), Assistant Professor, Dance (Jazz) and Christina Halpin Endowed Chair of Dance; B.A., Radford University; M.F.A., Southern Methodist University
*Frances Lapp Averitt (1973), Professor, Flute; B.M., M.Ed., Auburn University; D.M., Florida State University *William E. Averitt (1973), Professor, Theory/Composition; B.M., Murray State University; M.M., D.M., Florida State University
^Donald B. Black (1968), Professor, Music Theory; B.S., Concord College; M.F.A., Ohio University William McConnell Bozman (1975), Professor, Theatre (Scenic and Lighting Design); B.A., Macalester College; M.F.A., Wayne State University
*Elizabeth Caluda (1978), Professor, Music (Piano); B.M., Aquinas College; M.M., Northwestern University; D.M.A., The Catholic University of America
*Glenn Caluda (I975), Professor, Music (Guitar); M.A., University of Maryland; B.M.E., Ph.D., Louisiana State University
*Ting-Yu Chen (I997), Associate Professor, Dance (Modern, Dance Competition); B.F.A., State University of New York-Purchase; M.F.A., The Ohio State University
*Charlotte A. Collins (I958) Professor, Music (Music Education); B.S., Bowling Green State University; M.B.A., Shenandoah University; M.M., Ed.D., University of Michigan

Sherry Rawls-Bryce (2003), Adjunct Assistant Professor, Nursing; B.S.N., East Carolina University; M.S.N., University of Arizona
Nancy Pellegrino Stam (2008), Adjunct Clinical Instructor, Nursing; A.S.N., DelMar College; B.S.N., Texas Women's University; M.S.N., PMHNP in progress, Shenandoah University
Jane G. Sutermeister (2004), Adjunct Clinical Instructor, Nursing; R.N., B.S.N., American University; M.Ed., George Mason University
Dorothy Trevor (199I), Adjunct Clinical Instructor, Nursing; B.S.N., University of New York at Plattsburgh; M.S.N., Marymount University

Selena H.Truban (2005), Adjunct Clinical Instructor, Nursing; B.S.N., James Madison University; M.S.N., University of Virginia
Heather Wilson (2005), Adjunct Clinical Instructor, Nursing; A.S.N., Shenandoah University; B.S., M.S.N., George Mason University
Helen Zebarth (I979), Adjunct Clinical Instructor, Nursing; B.S., South Dakota State University; M.Ed., Boston University
Lisa Zerull (2008), Adjunct Clinical Instructor, Nursing; B.S., Ohio State University; M.S., George Mason University; Ph.D. in Nursing in progress, University of Virginia

## DIVISION OF OCCUPATIONAL THERAPY

*Deborah A. Marr (2004) Director of the Division of Occupational Therapy and Associate Professor, Occupational Therapy; B.S., Colorado State University; M.S., Michigan State University; Sc.D., Boston University ^Leslie B. Davidson, (I999), Assistant Director of the Division of Occupational Therapy and Assistant Professor, Occupational Therapy; B.A., Indiana University; M.A., New York University; M.S.Ed., Johns Hopkins University; Ph.D. in progress, Virginia Polytechnic Institute and State University

## Full-time Faculty

*Mary Corcoran (2004), Professor, Occupational Therapy; B.S., Indiana University; M.A., Ph.D., University of Pennsylvania
${ }^{\wedge}$ Cynthia McGreevy (2004), Assistant Professor, Occupational Therapy; A.A., Allegheny College of Maryland; M.S. Shenandoah University

## Part-time Faculty

*Melissa W. Jones (2009), Adjunct Assistant Professor, Occupational Therapy; B.S., University of New Hampshire; M.S., San Jose State University; Ph.D., University of Maryland
Jennifer Kepler (2009), Adjunct Assistant Professor, Occupational Therapy; A.A., Rochester Community College; B.S., University of Wisconsin-Eau Claire; M.S.O.T., Shenandoah University

Terin M. Langley (2008), Adjunct Assistant Professor, Occupational Therapy; A.S., Allegany College of Maryland; M.S., Certificate in Health Care Management, Shenandoah University.
*Kathleen A. Subasic (2008), Adjunct Assistant Professor, Occupational Therapy; B.S., Saint Francis College; M.S., Towson State University; Ph.D. in progress, Nova Southeastern University

## DIVISION OF PHYSICAL THERAPY

*Karen Abraham-Justice (200I), Director of the Division of Physical Therapy and Associate Professor, Physical Therapy; B.S., University of Maryland at Baltimore; Ph.D., East Carolina University
*Todd Telemeco (200I), Associate Director of the Division of Physical Therapy and Associate Professor, Physical Therapy; B.S. (dual), M.P.T., Shenandoah University; Ph.D., Virginia Commonwealth University

## Full-time Faculty

*Andrea Fergus (2002), Associate Professor, Physical Therapy; B.S., University of Vermont; Ph.D., University of Virginia
*=Sheri A. Hale (2004), Assistant Professor, Physical Therapy and Athletic Training; B.S., Pennsylvania State University; M.P.T., University of Pittsburgh; Ph.D., Pennsylvania State University
Lisa McVey (2007), Assistant Professor, Physical Therapy, B.S., Radford University; M.P.T., D.P.T., Shenandoah University
^Edward C. Schrank (200I), Assistant Professor, Physical Therapy; B.S., Texas A \& M University; B.S., University of West Florida; M.P.T., Baylor University; D.Sc., Rocky Mountain University
Thomas T. Turner (2006), Assistant Professor, Physical Therapy; B.S., Old Dominion University; M.S., doctoral candidate, Virginia Commonwealth University
*Melissa Wolff-Burke (1998), Associate Professor, Physical Therapy; B.S., University of Vermont; M.S.,
Massachusetts General Hospital Institute of Health Professions; Ed.D., University of Tennessee-Knoxville

## Part-time Faculty

Christine A. Ceely (2006), Adjunct Assistant Professor, Physical Therapy; B.S., University of Maryland; M.P.T. D.P.T., Shenandoah University

Robert E. Duvall (2005), Adjunct Assistant Professor, Physical Therapy; B.A., Western Maryland College; M.M.Sc., Emory University; D.H.Sc., University of St. Augustine

Suzanne L.Tinsley (2005), Adjunct Assistant Professor, Physical Therapy; A.S., Panola Junior College; B.S., M.S., Texas Woman's University; Ph.D., Louisiana State University Medical Center

## DIVISION OF PHYSICIAN ASSISTANT STUDIES

^Anthony A. Miller (2000), Director of the Division of Physician Assistant Studies and Professor, Physician Assistant Studies; A.A.S., Cuyahoga Community College; B.S., University of Akron; M.Ed., Cleveland State University; Ph.D. candidate, University of Toledo
^Rachel Carlson (2002), Associate Director of the Division of Physician Assistant Studies and Associate Professor, Physician Assistant Studies; B.S., The Pennsylvania State University; M.S., Medical College of Ohio; Ed.D. in progress, Nova Southeastern University

## Full-time Faculty

^Brenda L. Quincy (2005), Assistant Professor, Physician Assistant Studies; B.S., University of WisconsinMadison; M.P.H., George Washington University
Anne E. Schempp (2009), Assistant Professor, Physician Assistant Studies; B.S., M.S., Saint Francis University
^=jessica M. Trompeter (2007), Assistant Professor, Physician Assistant Studies \& Pharmacy Practice; A.A., Rainy River Community College; B.S., University of Minnesota-Duluth; M.B.A., Pharm.D., Shenandoah University

[^6]
## Part-time Faculty

Thomas Murphy (1998), Adjunct Associate Professor, Respiratory Care; B.A., B.S., Virginia Polytechnic Institute and State University; M.D., Eastern Virginia Medical School

## BERNARD J. DUNN SCHOOL OF PHARMACY

*Alan B. McKay (I995), Dean of the Bernard J. Dunn School of Pharmacy and Professor, Pharmacy Practice; B.S., Mercer University; M.S., Ph.D., University of Mississippi
*Arthur F. Harralson (2002), Associate Dean for Research and Professor, Pharmacy Practice; B.A., California State University; Pharm.D., University of California
*Mary Ann Kirkpatrick (200I), Associate Dean for Student Affairs and Professor, Pharmacy Practice; B.S., University of North Carolina at Chapel Hill; Certificate in Aging Studies, M.S., Ph.D., Virginia Commonwealth University

## Full-time Faculty

^Erin Adams (2004), Assistant Professor, Pharmacy Practice; Pharm.D., Medical College of Virginia of Virginia Commonwealth University
*Marcia L. Brackbill (200 I ), Associate Professor, Pharmacy Practice; B.S., Pennsylvania State University; Pharm.D., Campbell University School of Pharmacy
*Wendell L. Combest (I998), Professor, Biopharmaceutical Sciences; B.S., Southern Methodist University; M.S., Ph.D., University of Arizona
${ }^{\wedge}$ Jennifer N. Clements (2007), Assistant Professor, Pharmacy Practice; Pharm.D., Campbell University
*Thomas M. Ellington (1997), Associate Professor, Pharmacy Practice; B.S., East Tennessee State University; Pharm.D., Mercer University
^Jeremy R. Fox (2009), Assistant Professor, Pharmacy Practice; Pharm.D., Shenadoah University
^James S. Green (2006), Assistant Professor, Pharmacy Practice; B.S., United States Naval Academy; M.S.Ed., Old Dominion University; M.B.A., Pharm. D., Shenandoah University
*Dawn E. Havrda (2003), Associate Professor, Pharmacy Practice; B.S., University of Pittsburgh; Pharm.D., University of Texas
^Nina Hengen (2009), Assistant Professor, Biopharmaceutical Sciences; M.D., School of Medicine, University of Belgrade, Serbia; Ph.D., University of Texas
^Michelle L. Horn (2009), Assistant Professor, Pharmacy Practice; B.A., Queens University of Charlotte; Pharm.D., University of Maryland School of Pharmacy
*Mark S. Johnson (1999), Associate Professor, Pharmacy Practice; B.S., Pharm.D., Medical College of Virginia of Virginia Commonwealth University
^Robert Kidd (I998), Professor, Biopharmaceutical Sciences; B.S., University of Tennessee; Pharm.D., University of Tennessee Center for Health Sciences; Ph.D. in progress, The Ohio State University
^Mitsi Lizer (2005), Associate Professor, Pharmacy Practice; Pharm.D., University of Michigan
^Alla Marks (2004), Associate Professor, Pharmacy Practice; B.S., University of Florida; M.B.A., University of South Florida; Pharm.D., Shenandoah University
*Wallace A. Marsh (2006), Associate Professor, Biopharmaceutical Sciences; M.B.A., M.S.Ed., Nova Southeastern University; B.S., M.S., Ph.D., University of Texas
^Kelly P. Masters (2004), Assistant Professor, Pharmacy Practice; Pharm.D., Medical College of Virginia of Virginia Commonwealth University
^Amanda Munson (2008), Assistant Professor, Pharmacogenomics; B.S., University of Michigan; Ph.D., Georgetown University
*David Newton (1996), Professor, Biopharmaceutical Sciences; A.A., St. Petersburg Junior College; B.S., M.S., Ph.D., University of Florida
^Sarah A. Parnapy (2005), Assistant Professor, Pharmacy Practice; Pharm.D., Albany College of Pharmacy *Regina R. Peacock (200I), Associate Professor, Biopharmaceutical Sciences; B.S., Ph.D., University of Georgia
^ Stephen D. Phipps (2000), Assistant Professor, Biopharmaceutical Sciences; B.S., University of Montana; Pharm.D., Ph.D., University of Kentucky
*Ateequr Rahman (2004), Associate Professor, Biopharmaceutical Sciences; B.Pharm., Kakatiya University (India); M.B.A., Northeast Louisiana University; Ph.D., University of Louisiana at Monroe
${ }^{\wedge}$ Craig Richard (2003), Associate Professor, Biopharmaceutical Sciences; B.S., University of MassachusettsAmherst; M.S., Ph.D., Albany Medical College
^Elizabeth Sheaffer (1998), Assistant Professor, Pharmacy Practice; B.A., Virginia Polytechnic Institute and State University; M.B.A., Shenandoah University; Ph.D., George Mason University
*Douglas Smith (2000), Associate Professor, Pharmacy Practice; B.S., University of Pittsburgh; Pharm.D., University of Maryland
*Scott Stolte (1998) Associate Professor, Pharmacy Practice; Pharm.D., Purdue University
^=Jessica M. Trompeter (2007), Assistant Professor, Pharmacy Practice \& Physician Assistant Studies; A.A., Rainy River Community College; B.S., University of Minnesota-Duluth; M.B.A., Pharm.D., Shenandoah University
^Emily M. Vescovi (2009), Assistant Professor, Pharmacy Practice; B.A., Pharm.D., Wilkes University, Nesbitt School of Pharmacy

## Part-time Faculty

Mark Baumgart (2007), Adjunct Assistant Professor, Pharmacy Practice; B.S., Butler University; Pharm., D., Shenandoah University
^Robert W. Bennett (2000), Adjunct Associate Professor, Pharmacy Practice; B.S., M.S., Purdue University Stephen P. Boykin (2007), Adjunct Clinical Assistant Professor, Pharmacy Practice; B.S., M.S., University of Maryland; M.B.A., New Hampshire College
Mary Jo Carden (2006), Adjunct Assistant Professor, Biopharmaceutical Sciences; B.S., University of Pittsburgh; J.D., The Catholic University of America

Fred Davis Chatelain (2005), Adjunct Clinical Assistant Professor, Pharmacy Practice; B.S., University of Texas; M.S., National-Louis University
^Cheryl D. Cropp (I997), Adjunct Assistant Professor, Pharmacy Practice; B.S., University of Iowa College of Pharmacy; Pharm.D., University of Kentucky
^Amber Y. Darr (2004), Adjunct Assistant Professor, Biopharmaceutical Sciences; Pharm.D., Shenandoah University
^Denise L. Glasser (I999), Adjunct Assistant Professor, Pharmacy Practice; B.A., William Jewell College; Pharm.D., University of Missouri
^ Adam B. Gold (2007), Adjunct Assistant Professor, Pharmacy Practice; B.S., Duquesne University; Pharm.D., Shenandoah University
^Rhonda Koch (2005), Adjunct Associate Professor, Pharmacy Practice; B.A., Simpson College; B.S., M.P.A. candidate, Drake University
^Sarah Long (2000), Adjunct Assistant Professor, Pharmacy Practice; B.A., University of Virginia; Pharm.D., Medical College of Virginia/Virginia Commonwealth University
Michael T. Madsen (2007), Adjunct Assistant Professor, Pharmacy Practice; Pharm. D., Shenandoah University John R. Metz (2005), Adjunct Clinical Assistant Professor, Pharmacy Practice; B.S., Medical College of Virginia; M.B.A., James Madison University

Amanda M. Munson (2007), Adjunct Assistant Professor, Biopharmaceutical Sciences; B.S., University of Michigan; Ph.D., Georgetown University
^Tracey J. Nickola (2006), Adjunct Assistant Professor, Pharmacogenomics; A.A.S., State University of New York-Alfred; B.S., M.S., State University of New York-Fredonia; Ph.D., State University of New York-Buffalo Robert C. Stout, Adjunct Clinical Assistant Professor, Pharmacy Practice; B.S. Ohio State University ${ }^{\wedge}$ Cynthia C. Winter (200I), Adjunct Instructor, Biopharmaceutical Sciences; B.S., M.A., Marshall University

## UNIVERSITY LIBRARIES

## Full-time Faculty

Stacy B. Baggett (2008), Librarian III and Electronic Resources Librarian; B.S., M.B.A., East Carolina University; M.L.S., North Carolina Central University

Christopher A. Bean (1989), Senior Librarian and Director of Library Services; B.A., University of New Hampshire; M.L.S., University of Rhode Island; M.A., Virginia Polytechnic Institute and State University Denise A. Blake (2002), Librarian I and Health Sciences Librarian; B.S., Auburn University; M.L.S., The Catholic University of America
Rosemary A. Green (1982), Librarian III and Graduate Programs Librarian; B.A., Virginia Polytechnic Institute and State University; M.S.L.S., University of North Carolina; Ph.D., Deakin University (Australia)
David L. McKinney (I999), Librarian II and Assistant Librarian for Public Services; B.A., Concord College; M.S.I.S., University of Tennessee

Megan Williams (I996), Librarian II and Assistant Librarian for Technical Services; B.S.N., University of Maryland; M.S.L.S., The Catholic University of America

## Part-time Faculty

Lucinda Thomas (2000), Librarian I Reference Librarian; B.S., Shippensburg State College; M.S.L.S., Drexel University

## FACULTY EMERITI

Brandon H. Beck (1983), Professor Emeritus, History; B.A., Gettysburg College; M.A., University of Virginia; Ph.D., University of Rochester
Sue Marston Boyd (I970), Professor Emeritus, Music (Piano); B.M.E., Shenandoah University; M.M., University of Cincinnati, College \& Conservatory of Music; D.M.A., The Catholic University of America
Edward E. Brandt (198I), Professor Emeritus, Biology; B.A., M.A., Southern Illinois University; Florida State University; Ph.D., University of Sarasota
Verne E. Collins (I958), Professor Emeritus, Arts Management and Business; B.S., Bowling Green University; M.M., Northwestern University; M.B.A., Shenandoah University; Ed.D., University of Michigan

Richard G. Creasey (1993), Professor Emeritus, Education; B.S., Shippensburg University; M.Ed., Ed.D.,
Pennsylvania State University
Warren E. DeArment (I972), Professor Emeritus, English; A.B., Dickinson College; M.A., Ph.D., University of Pittsburgh
Eugenia Evans (I963), Professor Emeritus, Music; B.M., M.M. Conservatory of Prague, Czechoslovakia and State Conservatory (Ukraine)
John W. Happ (I972), Professor Emeritus, Chemistry; B.S., University of Maryland; Ph.D., University of Georgia
Ashley Hastings (1995), Professor Emeritus, Teaching English to Speakers of Other Languages; B.A., M.A., Ph.D., Indiana University
Harold Herman (1973), Distinguished Professor Emeritus, Theatre; B.A., Wayne State University
Stephen K. Johnston (1972), Professor Emeritus, Conducting/Music (Clarinet); B.M.E., University of Evansville; M.M., D.M.A., University of Maryland

James H. Laster (1973), Professor Emeritus, Music; B.A., Maryville College; M.S.L.S., The Catholic University of America; M.A., Ph.D., George Peabody College for Teachers
Daniel A. Pavsek (1992), Professor Emeritus, Economics and Information Systems Technology; A.B., Maryknoll College; M.A., Cleveland State University; M.S.I.S.T., The George Washington University; Ph.D., Case Western Reserve University
John D. Proe (1990), Professor, Management and Health Care Administration; B.A., The Citadel; M.H.A., Baylor University; Ph.D., University of lowa
Jackson Sheats (I972), Professor Emeritus, Music; B.A., Columbia College

[^0]:    *Honor Code convictions that result in failure in or dismissal from a course will be noted on the student's transcript. If a student is dismissed from a course an "XI" will be noted on his/her transcript. If a grade of " $F$ " is given to a student due to an Honor Code violation an "XF" will be noted on the transcript. These notations will remain on the student's transcript until departure from the university, at which time the student may appeal to the Registrar's Office for the " $X$ " designation to be expunged.

    Students must officially withdraw from a class or from school to receive a grade of "W."
    The grade of " $P$ " is available only in approved internship and practicum classes.
    Incomplete: If, because of illness, emergency or reasonable cause, a student cannot complete the required work for a course, he/she may request the assignment of an "I" (incomplete) for the course. If the request is approved by the instructor in the course and the student's school dean, then the student and the instructor shall enter into a written contract for the completion of the course work. This contract is available in the Office of the Registrar. The contract shall stipulate what work is required for completion of the course, the date that the work must be completed (in no case later than one full academic semester after the incomplete is assigned), and the grade to be given if the course work is not completed. If no grade has been submitted by the contracted date or the end of the

[^1]:    *Course rotation should ensure all courses are offered at least once every two years.

[^2]:    *Minimum grade of " $C$ " required.
    +Upon completion of MUTC 101, students must remain continuously registered for fall and spring semester until the sequence of MUTC 101 and MUTC 102 is completed.

[^3]:    *Minimum grade of "C" required.
    +Upon completion of MUTC IO1, students must remain continuously registered each fall and spring semester until the sequence of MUTC IOI, MUTC 102, MUTC 201 and MUTC 202 are completed.

[^4]:    *Minimum grade of " $C$ " required.
