

TSL 695 Advanced Topics

One to three credits

Course offers a changing menu of current or specific advanced topics concerning various fields of study associated with the teaching of languages. The specific topic will appear following the colon in the title (e.g., Topics: Test Development).

Prerequisites: Graduate admission and permission of instructor.

Unlike other classes in the SU TESOL program, this elective course will be taught by a variety of instructors to be announced each term and in line with program needs.

Required for MS ED TESOL students.

For more information on TESOL electives, please contact Program Director
