Once you take the assessments, you will get some feedback on your interests, skills and values. After reviewing these results, you can start to think about what you want to do in your future. This site offers four different types of assessments that you can take to help you learn the facts about yourself. MyPlan.com is a fantastic resource that has been posted exclusive for Shenandoah University students! Be sure to check out the new jobs postings below.

2. Click on the Student icon.

3. Enter registration information.

4. Click on the Create Free Account icon.

**Student-Run Internship Program**

Many students at Shenandoah University are fortunate to have internship opportunities with local businesses. For these students, our Student-Run Internship Program is a foundational experience. In conjunction with VFIC member colleges and partner corporations, Shenandoah University and the VFIC have developed a way for students to gain experience and get a脚 in the door to professions that excite them. The 15 colleges of the VFIC have been providing these internship opportunities since 2007. The program has had over 2,500 participants from all 15 VFIC member colleges.

**College Fair**

The Washington Wizards Sports Career Day consists of an educational sports business seminar and College Fair designed to provide students with information on the professional world of sports. Each year, more than 50 schools from across the country send student and administration representatives, and employers, to our region to share information about their programs and opportunities. The College Fair is open to all interested students, teachers, administrators, and chaperones, but we especially encourage members of organizations, including those in sports medicine, administration, and coaching.

**Tentative Schedule:**

- 3:15 PM: Henkel Hall Room 107 – Core Quest Meeting of Pharmacy Career Services
