DIVISION OF OCCUPATIONAL THERAPY

Shenandoah University's Division of Occupational Therapy (SUDOT) offers an innovative hybrid graduate program leading to a Master of Science in Occupational Therapy. At SU, hybrid education means learning occurs in three environments: online, the classroom, and the community. The majority of didactic content is delivered online through podcasts, interactive learning activities, and cutting-edge e-learning platforms. Classroom-based face-to-face experiences emphasize skill development, small group learning forums, and faculty-student/clinician-student mentoring.

MASTER OF SCIENCE IN OCCUPATIONAL THERAPY CURRICULUM

Shenandoah's Master of Science in Occupational Therapy program is delivered in a hybrid format, with much of the content delivered online. Students attend classes on campus one weekend per month for the face-to-face portion of their courses. Level I Fieldwork experiences are incorporated into the on-site weekend learning and Level II fieldwork is scheduled during non-campus days. Students take courses over both summers to complete the program in two years.

The learning model requires students to think critically and act professionally in independent, interpersonal and community-based problem-solving experiences. Graduates of this program enter the field as passionate, self-reflective learners, critically thinking practitioners, and professionals who understand the importance of ethics, leadership and service.

WINCHESTER CAMPUS

The Winchester Campus is housed in the Health Professions Building located on the grounds of the Winchester Medical Center. The OT facility features multimedia classrooms, plus numerous smaller classrooms and laboratories for demonstrations, problem-solving exercises, and simulations. Low student-to-faculty number enhance the personalized education. Wireless technology provides instant web access throughout the entire building, including the laboratories, conference rooms, library, and fitness area.

ACCREDITATION

Shenandoah's MSOT program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE®) of the American Occupational Therapy Association (AOTA).
