

Students who are currently enrolled or have previously been enrolled in a PharmD program at another institution are welcome to apply to the Bernard J. Dunn School of Pharmacy (BJDSOP). However, due to differences in curricula between institutions, students admitted to BJDSOP will be evaluated on an individual basis by the Office of Academic Affairs for transferability of credits. This may mean students admitted to BJDSOP will begin in year one and no credits from the previous institution will be accepted. Transfer students must apply through PharmCAS but may be asked for supplemental materials which may include the following:

- Letter of recommendation from a pharmacy school faculty member or advisor from their previous institution
- Letter from previous institution with regards to professional standing and/or academic performance
- Personal statement indicating intentions to continue at BJDSOP and reason(s) for transferring
- Syllabi from coursework successfully completed within the pharmacy curriculum
