

Physician Assistant (PA)

A full-time, two-and-a-half-year Professional Degree Program (89 credit hours)

DIVISION OF PHYSICIAN ASSISTANT STUDIES PROGRAM

Shenandoah University's Master of Science in Physician Assistant Studies (SUPA) program relies on the extensive experiences of a future-focused faculty and hands-on experiences in clinical rotations. This is a graduate, entry-level professional course of study enabling individuals who hold baccalaureate degrees to become physician assistants. The program is designed to prepare graduates for practice in general medicine and to prepare them for a team approach to healthcare. Shenandoah partners with community practices and health systems including Valley Health System and Inova Health System. The program integrates graduate-level critical thinking and analysis, problem solving, scientific inquiry, self-directed learning, and the effective use of modern technology for professional practice.

APPLICATION & ADMISSION REQUIREMENTS

- A bachelor's degree from an accredited institution is required to be completed prior to matriculation to the program. Applicants from all academic disciplines are welcome to apply, provided they meet the prerequisite course requirements.
- Submit all application materials to the Central Application Service for Physician Assistants (CASPA) at <https://caspa.cas.myliaison.com/> including official transcripts for all institutions of higher education attended.

REQUIRED PREREQUISITES

The courses below are required to be successfully completed prior to matriculation. No more than TWO prerequisites can be outstanding at the time of application.

Course Name	Number of Courses	Minimum credit (Semester)	Minimum credit (Quarterly)
Human A&P I and II with Labs	2	8	10-12
General or Introduction to Chemistry	1	3	4
General Biology or Biochemistry	1	3	4
Microbiology with Lab	1	4	5
Psychology*	1	3	4
Statistics or Biostatistics	1	3	4
Total	7	24	31-33

* Accepted Psychology courses to fulfill this requirement include General Psychology, Introduction to Psychology, Developmental Psychology, and Abnormal Psychology

RECOMMENDED PREREQUISITES

PREREQUISITE REQUIREMENT DETAILS:

- A grade of "C" or above is required for all prerequisite courses, however, it is strongly recommended that prerequisites be completed with a grade of A or B. Grades of "C-" or below are not accepted for prerequisite courses.
- No more than TWO prerequisites can be outstanding at the time of application.
 - This includes current and pending coursework
- It is *recommended* that all prerequisite coursework be completed within 5 years of matriculation; the program will not accept any prerequisite coursework taken 10 years before the time of matriculation (June 2027).
- The program requires completion of Anatomy and Physiology coursework, including the corresponding laboratory components. Human Anatomy and Human Physiology may be completed as individual courses or by taking combined Anatomy and Physiology I and II sequence.
- Prerequisites **must** be completed at a regionally accredited college or university in the United States. Courses completed at Canadian institutions will be evaluated on an individual basis.
- It is recommended that prerequisite coursework be taken in-person, however online coursework is accepted.
- Neither Advanced Placement credit (AP), International Baccalaureate (IB), or College-Level Examination Program (CLEP) credits are accepted to fulfill the prerequisite course requirements.
- The program will accept "P" or related grades as satisfying any of the program's academic prerequisites for courses taken during the following COVID-impacted timeframe: Spring Semester 2020 - Spring Semester 2021. Grades reported as Failing (F) or as Incomplete (I) will not be considered as fulfilling prerequisites.
- A medical terminology proficiency exam will be administered during the first summer semester. Failure to meet the minimum benchmark will require a formal remediation plan to be completed during the first summer semester as a progression requirement.

Note: Healthcare experience, patient care experience, or PA shadowing is strongly recommended to develop a robust understanding of the PA profession and current healthcare landscape however they are not required for admission.

PHYSICIAN ASSISTANT PROGRAM LOCATIONS

Winchester

The Health Professions Building in Winchester, Virginia is located on the Winchester Medical Center Valley Health campus. The building is home to the School of Health Professions' Physician Assistant Studies, Occupational Therapy, Physical Therapy programs, the Division of Counselor Education, and the Bernard J. Dunn School of Pharmacy

Loudoun

The Loudoun campus is located in the historic growing community of Loudoun County, Virginia only 35 miles from Washington, D.C. The campus is home to graduate programs in Physician Assistant Studies, Accelerated Second Degree Nursing, Speech-Language Pathology, Occupational Therapy, and Physical Therapy.

ADDITIONAL PA EDUCATION OPPORTUNITIES

Articulation Agreement Pathway

Shenandoah University's undergraduate College of Arts and Science has an articulation agreement with its School of Health Professions as a partnership in providing a pathway to graduate admission. Only full-time, enrolled undergraduate Shenandoah University (SU) students who are currently earning a baccalaureate degree from SU are eligible to be considered for up to five seats each year.

Early Assurance Pathway

The Early Assurance Pathway is available to incoming undergraduate first-year applicants who meet rigorous high school GPA requirements, and is highly competitive. The PA Early Assurance Pathway offers consideration for five seats each year.

Community Impact Pathway

The Community Impact Pathway focuses on recruiting applicants who demonstrate strong alignment with the university mission and community. This pathway offers up to three seats each year to candidates who show meaningful engagement with the PA program

PA/Master of Public Health Dual Degree

The dual program focuses on primary care in medically underserved populations through coursework that emphasizes broad knowledge and basic skills in public health (MPH) and medical practice (MSPAS).

Performing Arts Medicine Certificate

Students in the Physician Assistant program also have the opportunity to earn a Performing Arts Medicine Certificate. This 15-credit certificate prepares health care professionals to assess and manage injuries and disorders specific to those in performing arts.
