SCHOOL OF HEALTH PROFESSIONS: DIVISION OF PHYSICAL THERAPY

The School of Health Professions relies on the deep experiences of a future-focused faculty and hands-on learning in clinical education experiences. The school partners with collaborative and close allies, the Valley Health Systems and Inova.

Shenandoah University also offers the option to pursue a dual degree with a Doctor of Physical Therapy and a Master of Science in Athletic Training.

The Physical Therapy Program at Shenandoah University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE).

WINCHESTER CAMPUS

The Winchester Campus is housed in the Health Professions Building located on the grounds of the Winchester Medical Center. The PT facility features 190- and 85-seat multimedia classrooms plus numerous smaller classrooms and laboratories for demonstrations, problem-solving exercises and simulations. Wireless technology provides instant web access throughout the entire building, including the laboratories, conference rooms, library and fitness area.

LOUDOUN

At this Shenandoah University location, adjacent to the Inova Loudoun Hospital, you will experience small class sizes with personalized attention from instructors committed to your success. You will also gain practical hands-on experience with state-of-the-art technology and modern facilities through Shenandoah's innovative partnerships with Inova and other local healthcare and educational organizations. Learn in a seven-table cadaver lab. Loudoun is situated in Loudoun County Virginia, a historic growing community only 35 miles from Washington D.C.

DOCTOR OF PHYSICAL THERAPY CURRICULUM

The mission of Shenandoah University's Division of Physical Therapy is to prepare students as doctorally educated physical therapists who are reflective, collaborative practitioners that provide evidence-based, compassionate and ethical care for the prevention, diagnosis and treatment of movement dysfunction across the global community.

We accomplish this through an integrated, patient-centered curriculum with a low student/faculty ratio. Frequent patient care experience, community service by students and faculty, and the integration of current technologies are key components of the PT education at Shenandoah University.
